The Timber Trades Journal: The pine market keeps up its strong position, and is likely to do so in the face that higher prices are again demanded by Canadian lumbermen. There is very little spruce on offer, and such few cargoes as are available for the West Coast are held for higher prices than were current a week or two ago. The output for the remainder of the season seems from all information we can gather from the other side, likely to be small, owing to the quantity of logs which are still hung up for want of rain. We have been favored in the frankest manner with the inspection of telegrams upon some spruce business, from which we gather that the shippers hold the whip hand, and our conclusion is that, so far from any retrograde movement being looked for in this market, everything points to an upward movement.

A Dublin correspondent: Quite a number of parcels of spruce, principally 7x3, are being dumped on this market by Quebec. Three such parcels are shortly due per "Malin Head," and as importers are already overstocked with this size, bought under contract, they are not disposed to look on favorably at this influx of oddments, which is causing marked depression in prices. In order to warn shippers against a repetition of this policy, the Irish Timber Importers' Association, at a meeting held at Dublin on the 21st. ultimo, passed a resolution to the effect that importers would not encourage the shipments of such parcels except contracted for in the usual way before shipment is made.

We are in the Market for:—

Rock Maple logs and planks
Rock Elm Logs
Waney birch logs
White Oak Logs
Cedar planks, best quality in long lengths
White Ash planks, best quality, in long lengths
Black Walnut logs and boards
Pine deals and siddings

Send full particulars of what you have to offer with prices to

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, NOVEMBER 11, 1903 No. 41

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED

500 2 in. x 6 in. Red Pine to be manufactured next season; also few Cars for spring delivery.

HURDMAN & ELMITT,
Ottawa, Ont.

WANTED—MAPLE STRIPS, 2½"x2¼", 30" long. Ship green during coming winter. Apply Box 9, CANADA LUMBERMAN.

For Sale

PINE AND CEDAR SHINGLES, XXX 6" C. B. and X; 2 to 3 cars 12"x12"-16, 18 and 20 feet hemlock, 2 million 1" and 2" hemlock. A. MCPHERSON CO., Longford Mills, Ont.

Circular Saw Hammering

taught right in your mill by mail. No previous experience necessary. Sent prepaid on trial. Send for Canada references, who are cutting frozen timber with my gauge and instructions, J. H. MINER, Lumberton, Miss.

MAPLE LUMBER WANTED

I AM OPEN TO PURCHASE LARGE OR small quantities of Hard Maple Lumber, sawn 1, 1¼, 1½, 2, 3 and 4 inch. Grade to be common and better. Terms cash when shipped. Mixed carloads taken. Millmen will please state the quantity they have of each thickness, with their lowest price. Also say how long sawn. Address care BOX 22 CANADA LUMBERMAN.

WANTED—1" SPRUCE, LOG RUN, DEAD culls out. Tamarac sawn to order. Hard wood lumber. R. E. KINSMAN, Hamilton, Ont.

FOR SALE

CEDAR AND TAMARACK; 200,000 ties and 20,000 telephone poles on the Vermillion River or drove to Spanish boom. JAMES MCCREARY, Larchwood, Ont.

WANTED—POSITION IN LUMBER BUSINESS by young man 27 years old; ten years' experience in operating, manufacturing buying and selling lumber; can survey all kinds of spruce cargoes for foreign trade. Address P. O. Box No. 9, North End, St. John, N. B.

FOR SALE

Large Tract of Timber

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited)

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads. The Company are prepared to sell this timber in blocks ranging from 2,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

AUCTION SALE OF TIMBER BERTHS

PUBLIC NOTICE IS HEREBY GIVEN THAT pursuant to authority of Orders in Council, the Red and White PINE TIMBER in the following townships, berths and areas, namely:—

IN THE DISTRICT OF NIPISSING — the Townships of HUTTON, CREELMAN, PARKIN, AYLMER, MACKELCAN, MCCARTHY, MERRICK, MULOCK (part of) FRENCH (part of), STEWART, LOCKHART (part of), GARROW (part of), OSBORNE (part of), HAMMELL and PHELPS (part of).

IN THE DISTRICT OF ALGOMA — Berths Nos. 159 and 201, the Townships of KITCHENER and ROBERTS, and Block "W" near Onaping Lake.

IN THE RAINY RIVER DISTRICT—Berths G19, G21, C23, G29 and G38, and the following Berths with the right to cut and remove the pine, spruce, tamarack, cedar and poplar:—G4, G6, G17, G18, G24, G25, G26, G27, G28, G33, G35, G36, G37, G39, G40, G41, G42, G43, Berths Nos. S1, S2, S3, and S4, will be offered for sale by Public Auction at the Parliament Buildings, in the City of Toronto, on WEDNESDAY, the NINTH day of DECEMBER, 1903, at the hour of ONE o'clock in the afternoon.

Sheets containing terms and conditions of Sale and information as to Areas and Lots and Concessions comprised in each Berth will be furnished on application, either personal or by letter, to the Department of Crown Lands, Toronto, or the Crown Timber Agencies at OTTAWA, SAULT STE. MARIE, PORT ARTHUR, RAT PORTAGE and FORT FRANCES.

E. J. DAVIS,
Commissioner Crown Lands.

Department of Crown Lands,
Toronto, July 29, 1903.

N. B.—No unauthorized publication of this advertisement will be paid for.

FOR SALE

WHOLESALE AND RETAIL LUMBER Yard; small band saw and planing mill; steam dry kiln; unlimited supply of both Pine and Hardwood timber; water and rail transportation; healthy locality; prosperous town in the South; 12,000 population; cheap labor; established paying business. Write for particulars GEO. T. HOUSTON & CO., Chicago, Ill.

WANTED—MAN WITH GOOD PORTABLE Saw Mill to log and saw birch lumber. Apply Box 80, Sault Ste. Marie, Ont.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

WANTED—ONE PAIR TWIN ENGINES 10" x 12" or about that size, for medium weight rotary carriage. Advise by whom made, how long used, and price f.o.b. cars. J. & C. HICKMAN, Dorchester, New Brunswick.

WANTED

GOOD CEDAR LUMBER SUITABLE FOR boat building. PETERBORO CANOE CO., Ltd., Peterboro.

ADVERTISERS ARE PREPARED TO CUT to order during the coming winter a quantity of prime hard Maple and Birch any special thickness. Box 36, CANADA LUMBERMAN.

FOR SALE

FACTORY FLOORING

KILN DRIED BIRCH, ABOUT 60 M. Box 442 CANADA LUMBERMAN.

TIMBER LIMIT FOR SALE

ONE HUNDRED AND FIFTY MILLION feet of good sound healthy timber. About 10 million white pine, 80 million cedar; balance hemlock. For particulars apply to P. J. GALLAGHER, Rossbery, B. C.

FOR SALE

SEVERAL LARGE TIMBER LIMITS ON the Kootenay Lakes and along Crows' Nest line of C. P. R. Most available timber for Northwest trade. For particulars, apply to D. I. DEWAR Nelson, B. C.

SOFT ELM LOGS WANTED

10 OR 15 FEET LONG, SUITABLE FOR Cheese Box Veneers. We are open to buy any quantity on cars, on line of Canada Atlantic Railway. MACPHERSON & SCHELL, Alexandria, Ont.

Logs For Sale

5,000 GOOD LOGS, MOSTLY WHITE PINE 16 feet long, now running into the mouth of Spanish River at Georgian Bay. Also Limit for sale with or without saw mill. Limit and saw mill located on C. P. R. main line. PINE LUMBER COMPANY, Cartier Ont.

WANTED

1 INCH SPRUCE LUMBER, EITHER IN long sections or cut up to the following sizes:
1"x2"—2 ft. long.
1"x3"—1 ft. 1 in. long.
1"x1½"—1 ft. long.
½"x6"—1 ft. 1 in. long.
½"x4", 5", 6" and 7"—1 ft. long.
1"x12"—1 ft long.

Parties quoting prices for these dimensions will understand that the spruce must be clear; also mention what quantity can be supplied in each case. Address

UNITED FACTORIES LIMITED,
Newmarket, Ont.

FOR SALE—TEN SETS OF HEAVY LOG and one set of Tank Sleighs, almost new. Lumber would be taken in payment. A. H. EBERT, Wiarton Ont.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

FOR SALE — SAW MILL AND ONE hundred acres of land; about 80 acres of well mixed timbered bush, including 20 acres of cedar swamp; situated on country road, four miles from Angus station. Address J. D. GREENLEES, Alliston, Ont.

FOR SALE.

1 car White Pine, common and better, 1" x 4" and up x 7 to 16 feet; 1 car Black Ash, common and better, 1" x 4" and up by 6 feet and up; 3 cars Spruce, log run, dead culls out, 1" x 4" and up x 9 feet and up; 2 cars Birch, common and better, 1" x 4" and up x 6 feet and up; 2 cars Hard and Soft Maple, mixed, 1" x 4" and up x 6 feet and up. Apply R.S.T., CANADA LUMBERMAN.

WANTED—A FIRST CLASS MILL SUPERINTENDENT

A GOOD CONCERN IN THE PROVINCE OF Quebec wishes to find a thoroughly competent mill superintendent for saw and shingle mill. Must speak both French and English. Ability to handle French labor to the best possible advantage a most important requisite. The right man will be given a fair salary and an opportunity to obtain an interest. Address "Saw and Shingles," care CANADA LUMBERMAN.

MACHINERY FOR SALE

1 Large 4 Sided Sticker; 1 10" Buzz Planer; 2 Improved Mortisers; 1 24" Surface Planer; 1 Cowan Matcher; 1 Band Saw; 1 Shaper; 1 Turning Lathe; 1 Jig Saw Machine; 1 Tenon Machine for doors and windows; 1 Tenon Machine for blinds; 1 Mortiser for blinds; 1 Staple Driver for blinds; 2 Saw Tables. A. H. CUMMINGS & SON, Coaticook, Que.

CURRENT TRADE CONDITIONS.

ONTARIO.

Late advices do not confirm the reported sale of two Ottawa Valley mill cuts to Montreal exporters, as mentioned in last issue, but it is understood that negotiations are under way and that buyers are not insisting upon any reduction in prices from one year ago. Whether they will meet the higher prices asked by the manufacturers is a question which will probably be decided within a month, when contracts will likely be closed. Conflicting opinions are expressed regarding the stability of the lumber market. The manufacturers are doing their utmost to uphold prices, while dealers and consumers pretend to see lower values in the near future. This is the season when a campaign for lower prices is usually commenced, as buyers wish to stock up early in the spring at advantageous figures. Conditions so far have favored the manufacturers. With few exceptions prices have remained firm throughout the fall months. No. 1 pine cuts have been reduced about $2 per thousand, and some mills are now quoting lath and shingles at a reduction of ten cents, but there has been no general weakness. Trade is seasonably active,

with a more urgent demand for hemlock than for any other class of lumber. Large quantities have recently been sold in Toronto at good prices.

In view of the industrial depression in the United States lumbermen are proceeding cautiously in woods operations this winter, and there is every reason to believe that the production of pine logs in Ontario will be curtailed about one-fourth as compared with last season. Still lighter operations will prevail in hardwoods, as the expense of logging is considered too great in comparison with the prices ruling for lumber.

QUEBEC AND NEW BRUNSWICK.

Considering the somewhat unfavorable conditions, the market for spruce lumber keeps up remarkably well. Building operations in New York have been further tied up by labor troubles, and the consumption of lumber in that city is likely to be greatly curtailed, yet buyers there seem willing to purchase spruce whenever it is offered at reasonable prices. Quotations generally are unchanged, although clapboards are less firm than a fortnight ago. Canadian shippers who were then getting $45 for No. 1, Boston delivery, report that the best offer now is $44, while clears which sold at $43 now comand only $41. Other grades are correspondingly weak, but at the lower prices the market has held quite steady. Spruce laths are in steady demand at $3.10 to $3.20 for 1½ inch and $3.25 to $3.35 for 1⅝ inch. New Brunswick cedar shingles are steady at $3.40 for extras on Boston rate of freight.

MANITOBA AND BRITISH COLUMBIA.

There is now a more plentiful supply of pine and spruce lumber, also British Columbia cedar and fir, the demand of late having fallen off. Many of the new buildings in Winnipeg are nearing completion and dealers are disposed to reduce their stock of lumber before placing further orders. A steady trade throughout the winter months is looked for. Lath has declined to $3.25 in car lots f. o. b. Winnipeg.

There has recently been considerable activity in timber circles in British Columbia. Several valuable limits have been acquired by Americans who purpose erecting mills, and who evidently believe that that province offers good opportunities for lumbering.

UNITED STATES.

Unsettled conditions dominate the iron and steel industry of the United States. Steel billets and steel products generally have been reduced in price, in keeping with a falling off in demand therefor. Such adjustment is regarded by many as strong evidence of the near approach of less prosperous times, and in many quarters there is a disposition to pursue a policy of retrenchment. Dealers are not buying lumber in large quantities, apparently believing that they will be able to purchase at lower prices next spring. Nevertheless, there is a very satisfactory movement of lumber, the large crop of corn and average yield of wheat having placed the farmers in a position to carry out necessary improvements. Such a thing as pessimism does not exist, the opinion being that there will be a steady demand for lumber throughout the winter months. The shipments from Minneapolis during the month of October were upwards of 43,000,000 feet, as compared with 37,000,000 feet for the corresponding month of last year. From Duluth 38,000,000 feet were shipped last month, which figures indicate a very satisfactory volume of trade. There has been no abatement in the demand for box lumber, the supply of which is more nearly exhausted than for a long time. Buffalo and Tonawanda dealers state that there is a steady call for barn and box boards and a continued shrinkage of low grade stocks. While there is not the snap to the demand for hardwood lumber which was in evidence one month ago, there is constant buying of small lots by consumers, such as implement and furniture factories, and an exceedingly good trade in quartered oak. Hemlock lumber is quite active, with prospects favorable for a continuation of prevailing conditions.

GREAT BRITAIN.

The best that can be said of the British lumber market is that prices continue steady. Consumption has not increased and consumers are disposed to purchase very cautiously. On the other hand, values of lumber in stock show a hardening tendency, which would appear to be the result of the firm prices that are asked by shippers for next season's stock. There is a movement on foot to base the asking prices on the average of actual values obtained this year, which would probably be satisfactory to shippers. In London importers are apparently in favor of slightly lower prices, but it is a question whether they will be successful in bringing about any reduction. Broad first quality pine deals are selling at from £32 to £34 per standard, 11 inch at £29 to £31, and ends at £22 to £24. Some transactions in spruce have recently taken place at slightly advanced prices. At Preston and one or two other ports there is a scarcity of 3x7 inch spruce. Square and waney timber is not selling as readily as might be expected. The long continued depression in the furniture trade has resticted the consumption of birch, and the stock on hand is considered to be sufficient to meet requirements. Canadian oak has sold quite freely at a slight advance.

The attention of mill superintendents who may be looking for a good position is directed to the offer of a Quebec lumber and shingle manufacturing company appearing among the want advertisements of this paper.

STOCKS AND PRICES.

The steamer Gulf of Venice is loading deals at St. John, N. B., for the United Kingdom.

James Vaughn, of Bridgewater, N. S., expects to take out about 5,000,000 feet of logs this winter.

The schooner Clarence H. Schafner is loading lumber at Annapolis, N. S., for the West Indies.

The steamer Forest Holme is loading a cargo of deals at West Bay, N. S., for the United Kingdom.

The Canadian Northern Railway Company are advertising for 500,000 ties to be delivered at Battleford, N. W. T.

Lath are somewhat dull. In Chicago $3 to $3.10 is asked for white pine, while there is a wide range in the prices asked mixed.

It is estimated that on the Menominee river the cut of logs this winter will be from 50,000,000 to 75,000,000 feet less than last season.

Logging operations in Michigan will be on a smaller scale this season, the disposition being to curtail operations owing to the coming presidential election.

The San Juan Lumber Company, which is operating on the west coast of Vancouver Island, B. C., shipped during the past season about 8,000,000 feet of lumber.

A deal is said to have been closed by which the Murray & Stewart mill at Duluth will cut 200,000,000 feet of lumber for the Edward Hines Lumber Company, of Chicago.

The schooneer J. E. du Bignon has just loaded 600,000 cedar shingles at Quaco and is about to complete a cargo of 3,000,000 shingles at St. John, N. B., for Philadelphia.

Wilson & Company, who have been buying standing timber in the vicinity of Nanaimo, B. C., have commenced operations at French Creek and expect to take out a large quantity of logs this winter.

Cornelius Aylwat and N. Tupper, of Baker Settlement, N. S., have just completed a contract to furnish the Halifax and South-Western Railway with 10,000 sleepers and have been given a second contract for a similar quantity.

The Bangor Commercial says that 113,000,000 feet of logs have this season been rafted down the river from the Penobscot boom, as compared with 144,000,000 feet in 1902. The lumbermen this year have had many difficulties to contend with, chief among which was the unusually low pitch of water in the rivers.

J. P. Mosher, who has been operating a rotary mill at Musquash, N. B., for the Knight Bros. Company, has already manufactured this fall about 2,500,000 feet of lumber. A cargo was shipped to the United Kingdom and the remainder of the lumber has been piled up. Knight Bros. have sixty men working in the woods this winter.

Under date of October 24th Messrs. S. P. Musson, Son & Company review the Barbados market as follows; "There have been no arrivals during the fortnight of either white pine or spruce. A mixed cargo of white pine, spruce and hemlock, sold by us, should be due in about two weeks. Two hundred thousand feet second quality white pine and a similar quantity of first and second hemlock was offered on 19th to arrive, but nothing definite has as yet been done on the latter; the former was placed at $23. In shingles the steamer "Orinoco" brought 300,000 cedar laying, which have been stored, also a small lot of laying, which we placed at $2.30, a lot of 4, 5, 6, 7 and 8-inch dimension, which we sold at $4.75 to $9.75, and a few long cedar, which brought $6. On the 17th inst. the "James W" arrived with 1,559,000 laying cedar, which (with the exception of 290,000) we had sold to arrive at $2.30. There is another cargo of one and one-half to two million laying cedar shortly due, which was contracted for some weeks ago."

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

There is really very little of interest in the Ottawa district market at present. Shipments from Montreal for export are better than they were a few weeks ago. The last boat sails for Lord Alverstone's country on the 21st, and it will carry a goodly supply of lumber from the Ottawa river and Cache Bay points. A shortage of cars is complained of and this has something to do with the movement of lumber. The local shipment to New York points is not very large.

Of course, the oft repeated trouble of scarcity of men in the woods is heard day in and day out, yet while some maintain that there will be a shortage of fully twenty-five per cent. in the log output, others claim that, as the season started earlier, the log output will run closer to that of last season.

One thing is certain, there will be a falling of in the production of square timber. The Kippewa district was well trimmed last season and it and the others will make poor measurements this season.

The report that the cut of McLachlan Bros.' mill at Arnprior has been sold to E. H. Lemay, of Montreal, is refuted in Ottawa lumber circles. The item as a matter of fact referred to last year's cut, whereas, as is well known, this was negotiated long ago, and no mill has 40,000,000 or 20,000,000 feet still on hand. The big sales will hardly be made before December or January.

TELEGRAPH POLES WANTED

We buy all lengths. Write us for prices and you will see that by cutting your Cedar into Poles it will net you more than you can get out of it in any other way.

Ex-Ald. R. Davidson, who recently returned from England and Scotland, says business in the lumber line will be good between Great Britain and Canada. As soon as he came home Mr. Davidson took to the woods. Structural work on Davidson & Thackray's big new mill, planing, sash and door, opposite the Union station, is completed and the machinery is beginning to be put in position. This mill, it is expected, will be the fastest in the world.

In a recent speech that caused some comment in Ottawa, Hon. Adelard Turgeon, Minister of Agriculture for the province of Quebec, defended the timber policy, showing that the present Crown lands policy is the best that could be adopted for the good of the province. Figures, according to the press reports, were quoted to show that it was nonsensical to say that the public domain was being handed over to the United States. He said that of the 1,986,300 cords of wood used by the 762 mills of the United States, Canada contributed only 300,000 cords and Quebec two-thirds of this. Of the 200,000 cords of wood exported from Quebec only 50,000 were taken from public domain. An export duty, the minister claimed, would not bring the mills to Canada but would be a benefit to New Brunswick and Ontario. Last year the value of wood exported was $1,300,000, and of this Quebec provided not less than $700,000.

The recent land slide in the Lievere river above Buckingham that put several farms out of business, also interfered with the operations of the McLaren Lumber Company. The rush of water threw the logs several feet above the natural surface of the streams, and teams had to be brought into service to roll them back. The water was so dense that the McLaren pulp mill and the Riordon pulp mill had to be closed down.

OTTAWA, ONT., Nov. 6th, 1903.

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar care to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

THE GLASGOW MARKET.

The following particulars of the Glasgow market are furnished by Messrs. Edmiston & Mitchells :

During the past month business on the whole has been fairly active, and though there has been no appreciation in prices, still it can be said that they have not in any sense lost ground.

As indicated in our circular last month there seemed to be a tendency towards somewhat easier prices in first quality pine, but this has not made much headway, as recent imports of such have not only been on a moderate scale, but they have been firmly held, and in most cases have been stored where the prices required were not forthcoming. There has been a considerable import from Quebec, Montreal, and the lower ports during the month, spruce predominating.

A fair amount of business has been passing in teak, pitch, pine, and spruce, and numerous transactions are also reported to have been made in waney and square pine, etc., all tending to indicate a healthy, general trade. For American hardwoods the demand has been active, except perhaps in the case of oak planks and boards, which have been imported in excess of the market's requirements.

WHITE OR YELLOW PINE. -The import during the month consists of about 1000 loads waney and 2000 loads square timber. There have been a few good lines placed during the month at prices ranging from 4s. 6d. to 4s. 7d. for first quality 19-inch waney, and 3s. to 3s. 1d. for 800 feet first quality square. Stocks are moderate and prices firm.

RED PINE.—There has been no import during the month, and the deliveries have been small Stock is light, but sufficient.

OAK.—The import has been 800 loads from Quebec. Business has been quiet, though deliveries from the ponds are fair. Stocks are now heavy and enquiries are few.

ELM.—There has been no import during the month. There have been a few enquiries for 800 to 900 feet first-class rock, but small wood and second-class wood are difficult to move. Stocks are heavy

BIRCH.—The import for October has been moderate, but has been quite ample for all the demand that exists. With the long-continued depression in the furniture trade the consumption of birch in this market has dwindled away very considerably compared with a few years ago. Values are nominally round about 1s. 7d. for 16-inch, up to 2s. for 18-inch average.

In the case of lower port birch there are occasional small sales reported from time to time at about 17d. for 15-inch average logs. The stock on hand is ample for all anticipated requirements for some time to come.

Planks are plentiful and dull of sale.

ASH.—The import for October is trifling, but there is plenty of stock in the market for the little demand which exists nowadays. There is very little good Canadian ash in stock, but old second-class wood, which is plentiful, has been sold at from 1s. 4d. to 1s. 6d. Several shipments of round American ash logs have been disposed of recently at from 1s. 6d. to 1s. 8d., and of these there is still a large stock on hand.

DEALS, ETC. — Business during the month has been of a quiet nature, though deliveries from public yards are being well maintained. The import is keeping moderate, and, while first pine sidings are rather overdone at the moment, prices are practically unchanged. Current values are as under : Broad first pine deals, £32 to £34; 11-inch, £29 to £31; ends and non-dimensions, £22 to £24. Second pine deals, 11-inch and up, £19 to £21 10s; ends and non-dimensions, £13 to £14 10s. Third pine deals, 11-inch and up, £13 to £14 10s.; ends and non-dimensions, £10 to £11. Red pine deals, 9 and 11-inch, £11 10s. to £12 10s.; narrows, £8 10s. to £9 10s. First pine sidings, 9 and 10-inch, £24 to £25; 11 to 12-inch, £26 to £28; 13 to 14-inch, £29 to £31. Spruce deals, 9-inch and up, £8 15s. to £9 10s.; 7 and 8-inch, £7 5s. to £8 5s. Lower port pine and spruce, 7 and 8-inch, £7 to £7 15s.; 9-inch and up, £8 5s. to £8 15s.

PINE, BIRCH AND HEMLOCK
Mills at Bear Lake, Ontario, and British Columbia. Bills cut to order. Specialty of British Columbia Douglas Fir.

TIMBER LIMIT TRANSACTIONS.

The Pacific Coast Lumber Company, of Vancouver, B. C., has just purchased from the Sayward Estate 15,00 acres of the finest fir timber in the Province of British Columbia. It is situated in six different blocks along the Campbell river, Vancouver Island, and is very accessible.

The entire property of the Dominion Lumber Company at St. Margaret's Bay, N. S., is said to have finally passed into the hands of Louis Miller, of Glasgow, Scotland, for a consideration of $350,000. It is also understood that Mr. Miller has options on several other large properties in Nova Scotia.

THE BOSTON MARKET.

The market at Boston for spruce lumber continues to manifest notable strength, the consumption, although limited, being more than equal to the ready absorption of the unusually limited supply. The situation is such that large wholesale houses there, with a well established connection, are turning down orders for quick frames from all but old and valued customers. The bulk of the spruce moving from eastern mills is going to New York, where prices are a trifle higher than they are at Boston. Laths are firm. For 1 5-8 in. sellers at less than $3.35 are hard to find and buyers are fairly plentiful. There is no change in shingles, it being still possible to procure good extra cedars for $3.40. For special brands $3.50 is asked. Quotations are as follows : Rail shipments, spruce lumber, 10 and 12 in. dimensions, $21 ; 9 in. and under dimension, $19; 10 and 12 in. random lengths, 10 ft. and up, $20.50 ; 2x3, 2x4, 2x7, and 3x4, 10 ft. and up, $17 to $17.50 ; all other randoms, 9 in. and under, 10 ft. and up, $18 to $18.50 ; merchantable boards, 5 in. and up, $17 ; matched boards, $18.50@20.

Spruce clapboards rule about as follows : Extra, $43 to $44 ; clear, $41 to $42 ; second clear, $37 to $39 ; extra No. 1, $27 to $29.

The assets of Damase Pariseau, lumber dealer, Montreal, are to be sold.

A meeting of the creditors of James Harrison, lumber dealer, Burlington, Ont., has been called for November 12th.

ADVANCE IN STUMPAGE DUES.

It is announced that the New Brunswick Government have definitely decided to increase the stumpage dues on pine and spruce timber to $1.50 a thousand feet, as compared with $1 at the present time, and make proportionate advance on other timber. This decision will be communicated to the Lumbermen's Association, which body recently submitted to the Government a memorial in which $1.25 was suggested as the highest figure to which the stumpage ought to be raised.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, NOVEMBER 18, 1903 No. 42

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman — A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED

500 2 in. x 6 in. Red Pine to be manufactured next season; also few Cars for spring delivery.

HURDMAN & ELMITT,
Ottawa, Ont.

FOR SALE

Large Tract of Timber

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (imited)

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam Basswood, Cherry Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads. The Company are prepared to sell this timber in blocks ranging from 2,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

AUCTION SALE OF TIMBER BERTHS

A. H. CUMMINGS & SON, Coaticook, Que.

ONTARIO GOVERNMENT TIMBER SALE.

It is understood that the Ontario Government has decided to change in one respect the conditions governing the sale of timber berths in the districts of Nipissing, Algoma and Rainy River to be held on December 9th. Purchasers of limits will be allowed fifteen years in which to remove the timber, instead of ten years as stated in the original conditions.

CURRENT TRADE CONDITIONS.

ONTARIO.

Lumber is not moving as actively as one week ago. The high freight rates have restricted shipments, many manufacturers having decided to carry over until next spring stock which earlier in the season they intended to ship. The increased rates have also resulted in some cases in the dropping of negotiations which were under way for the purchase of stock. These circumstances are not such as to give strength to the market. Nevertheless, a number of inquiries have been received for small lots of pine lumber for shipment to Buffalo and Tonawanda and other eastern centres. The Bay City and Saginaw dealers have moved most of the stock bought in Ontario and are in good shape for the winter business. Box lumber and good culls continue to have the call and prices of these grades are exceptionally strong. Hemlock is also moving somewhat freely and the supply of dry stock at the mills

is limited. Manufacturers still insist on full prices for hardwoods. The expected smaller inport of logs this winter is already exerting an influence upon values, and dealers and consumers who have delayed in purchasing stock for their winter requirements cannot yet feel assured that they will be given any concessions. While the supply of basswood is greater than during the summer months, it is held in strong hands and can only be obtained by paying the prices asked by manufacturers.

QUEBEC AND NEW BRUNSWICK.

Prices of spruce lumber generally are unchanged, although special sizes are a little firmer. There continues to be an active demand for stock for shipment to the Eastern States, while some manufacturers are making considerable shipments to Ontario points. Offerings of clapboards, and particularly of the narrow widths, are larger than one month ago. Extras are quoted at $43 to $44; clears, $40 to $42; second clears, $38; and extra No. 1, $28. Few sales of New Brunswick shingles are being made above $3.40 for extras on Boston freight rate, while there is a large supply of low grade shingles and prices thereof are inclined towards weakness. There is a scarcity of spruce shingles, which are firmer.

UNITED STATES.

Dealers in the United States hesitate to put in large stocks of lumber. Current requirements represent a fair trade, but as a general rule there is little buying for the future. That prices remain steady in the face of industrial depression is one of the most encouraging signs. Buffalo and Tonawanda dealers, in contradistinction to dealers at most other points, report a very satisfactory volume of business. All low grade pine, including norway, is very strong and an advance is predicted before spring. In the Lake Superior district there is a surplus of low grade shop lumber and No. 2 boards, but box grades are about sold out and norway dimension is in light supply. In Chicago it is reported that trade is about what it should be at this season of the year, and it is believed that prices are not likely to yield to any extent during the winter months. Eastern spruce is scarce and strong. The mills are running full time, but are unable to supply the demand for random and certain other grades. There is not a heavy movement of shingles nor lath, and prices of both these commodities are inclined towards weakness. Cedar shingles are quoted at $2 to $2.40 in the Saginaw valley.

GREAT BRITAIN.

The feeling in British timber circles is somewhat better than at last writing. The stock of unsold lumber is less than one year ago, which clearly indicates that the consumption has been larger than was generally supposed, as there has been no great falling off in imports. The quantity of deals, battens and boards in the Surrey Commercial Docks at London is nearly 3,000,000 pieces less than at the corresponding time last year. The effect of this shortage is partially offset by the present inactive demand, but if there should be even an average consumption during the winter months, there should be little difficulty in keeping prices near their present basis. In both London and Liverpool pine and spruce remain firm in price, with a prospect of higher values obtaining for next year's import. There is a better demand for first and second quality pine deals than for thirds and fourths. In spruce deals the most urgent demand is for eleven inch. Holders of Canadian lumber are being urged not to sacrifice their stock, as there promises to be a shortage before next year's shipments shall reach British ports. Very few transactions for next year's supply are as yet reported, but it is stated that a few have taken place at figures quite as high as those which ruled last spring. In square timber the consumption is quite in excess of that of the fall of 1902. Stocks are light and shippers are asking exceptionally high prices for 1904 delivery. A large quantity of Quebec oak was sold at a recent auction sale in London at from 70s. to 110s. per load of 50 cubic feet.

STOCKS AND PRICES.

The Dickson Company, of Peterborough, Ont., are again operating this winter on the old Scott limits.

The ship Lancing is expected to reach St. John this week to load deals for Melbourne, Australia.

The steamer Manchester City has taken on a quantity of deals and pulp wood at Quebec for the United Kingdom.

The Bonny River Lumber Company have three portable mills operating on their timber limits near Bonny River, N.B.

The Scott Lumber Co., of Fredericton, N.B., expect to take out about 18,000,000 feet of spruce and hemlock timber this winter.

Fownes & White, of St. Martins, N,B., have set up a portable mill on the property of the O'Neill Lumber Company, which they will operate during the winter months.

The Crown Lands Department at Fredericton, N.B., will offer for sale on Wednesday, 25th inst., 3½ square miles of timber limits on the north fork of Coal Branch, Kent county, for which C. C. Stiles is the applicant.

A. Leitch, a large lumber manufacturer of Cranbrook, B.C., states that he is now employing in the neighborhood of 500 men in his operations in the East Kootenay district. The demand for British Columbia lumber in the North-West, he says, is steadily growing.

Great interest centres in the slack cooperage situation, and the prediction of jobbers that the demoralization in prices would last the year through promises to be more correct. It is almost impossible to quote prices on slack stock.

Wilson & Dorfman have opened two logging camps at French Creek and Courtney, B.C., and about 70 men are now engaged in getting out timber. It is proposed to establish a portable mill near Departure Bay.

Murchie & Sons and Frank Todd, of St. Stephen, N. B., and George McKean and N. H. Murchie, of St. John, N. B., have entered into a partnership to operate during the coming winter on the Hale & Murchie timber limits on the head waters of the Tobique river. They will cut about 6,000,000 feet of logs.

The Department of Indian Affairs at Ottawa are asking for tenders up to Friday, 20th inst., for 500,000 feet of standing spruce timber over 9 inches in diameter at the stump on the Crane River Indian Reserve, on the north-west side of Lake Manitoba. The timber must be cut subject to Crown dues at the rate of 80 cents per thousand feet b. m. Further information may be obtained from S. R. Marlatt, Inspector of Indian Agencies, Portage la Prairie, Man.

It is estimated that 20,000,000 feet of lumber were cut by the mills at Owen Sound, Ont., during the past season, made up as follows: John Harrison & Sons Co., 6,500,000 feet; Maitland, Rixon & Co., 5,000.000 feet; Keenan Bros., 3,000,000 feet; J. S. Findlay, 1,500,000 feet; William Pedwell, 1,000,000 feet, and the balance by the North American Bent Chair Co. Besides the lumber cut at their mills, Keenan Bros. handled over their dock 2,500,000 feet, and John Harrison & Sons about 750,000 feet.

TIMBER LIMIT TRANSACTIONS.

The Rat Portage Lumber Company have purchased 1,000 acres of fir timber on the Schelt Peninsula in British Columbia and have established logging camps there.

D. A. Huntley has sold a one-half interest in his timber property at Parrsboro, N. S., to H. W. McKenna and operations will be carried on jointly by them.

The Amherst Lumbering Company, of Amherst, N. S., has been organized and has acquired the valuable timber property of Amos Lawrence & Sons at Southampton, containing about 3,000 acres adjacent to the Springhill and Parrsboro Railway. The company purpose operating two mills for the winter and expect to cut about 3,000,000 feet of lumber.

BUSINESS NOTES.

The Meaford Manufacturing Company, of Meaford, Ont., have their new factory in partial operation. It is a three-storey building 200 x 75 feet. They are turning out a large quantity of furniture, including tables, sideboards, bedroom suites and desks.

The Cedar Valley Lumber Company, operating in the Kootenay lumber district of British Columbia, are said to have placed their assets in the hands of an assignee. The Carbon Creek Lumber Company, of East Kootenay, B.C., is also reported to be in the hands of liquidators.

The Seaman-Kent Manufacturing Company expect to have their new plant at Meaford, Ont., fully completed at an early date. Their factory is 180 x 255 feet and is equipped with one of the largest single dry kilns in Canada. The company are at present manufacturing hardwood flooring, store fittings, interior finish, door and window sashes, screen frames, tripods and photo finishing frames.

A meeting of the creditors of James Harrison, lumber merchant, Burlington, Ont., was held last week. Mr. Harrison asked for an extension of from six to nine months. He figured that his liabilities totalled up to $13,028, and his assets $16,275, and thought that if given time he could pay 100 cents on the dollar. The assignee estimated the assets at $1,000 less than did Mr. Harrison. The creditors appointed James Chisholm, Cameron Bartleit and C. A. Birge as inspectors, and empowered them to grant the extension asked for if they considered it advisable to do so; if not, they may wind up the estate at once.

TO HOLDERS OF BIRCH LIMITS

Can you cut birch into Squares,&c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

COOPERAGE STOCK.

The cooperage stock situation at the present time, says the Sutherland-Innes Company, of Chatham, Ont., is in a very unsatisfactory condition, both from the view of the manufacturer and the cooper. The demand for stock far exceeds the supply, and manufacturers are at their wit's end to know how they can keep their regular customers going. What stock has been manufactured this summer has been turned out at very great expense. In the first place, raw material is costing more than it ever did before. The labor question has been a very serious one, and wages have advanced from 50 to 75 per cent., and even at the advanced rates very of the mills who had logs to work on or few staves to joint could get their goods turned out. It has possibly been one of the most trying years for the manufacturers, on this account, that they have ever experienced, as they have had to turn down orders from old and valued customers, irrespective of prices. The situation is almost universal, and is not confined to any one locality.

Mills nearly all over the country are absolutely bare of stock. The supply of logs put in last winter was very small—not 25 per cent. of what is usually put in—and in a great many instances the logs which were cut in the winter, and were not able to be hauled during the short winter, are still lying in the woods, as it has been impossible to do any summer lumbering in most localities. There is no doubt but that some of the coopers will suffer during the winter for lack of stock. Apple barrel buyers have already had a hard time to get their supplies, and, where possible, have obtained boxes to pack their apples in when they could not get barrels. In instances where contracts were made for apple barrels at 35 cents by the coopers, and the coopers could not get their stock, the apple packers have generously come to the help of the coopers and raised their prices up to 40 and 50 cents per barrel, to enable them to bring stock in from a long distance and at very high prices.

It is too early yet to figure on the supply of material for this winter. Timber, of course, is getting scarcer all the time, and it will require an abnormally good winter to enable the mills to stock up as they would like. There will be practically no stock of any kind carried over next year. Everything in the way of staves or heading will certainly be cleaned out, and few, if any, hoops will be carried over. We look for very high prices of stock for the next six months. In fact, it will be difficult for coopers to get the stock they require.

Cooke & Tait

MANUFACTURERS OF **B. C. RED CEDAR SHINGLES**

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, NOVEMBER 25, 1903 No. 43

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

FOR SALE

Large Tract of Timber

THE PROPERTY OF

The Canadian Land and Immigration Company of Haliburton, (Limited)

This company has a larger tract of well timbered land about 125 miles north-east of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads. The Company are prepared to sell this timber in blocks ranging from 2,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

A. H. CUMMINGS & SON, Coaticook, Que.

Important Auction Sale

OF

Mills and Timber Limits of the Scotstown Mills Company in Liquidation,

At the COURT HOUSE, SHERBROOKE, Que., DECEMBER 1st, 1903, at ONE o'clock p.m.

The Mills are located at Scotstown, P.Q.; the Limits, about 87½ square miles, in the Townships of Chesham, Emberton, Ditton and Hampden.

SAW MILL.

One short side and one long side circular, one Wicks 44-in h sectional gang with separate engine for running same, one double edger, live rolls, lath machinery, filing room, electric light plant, and all that goes to make up a modern, economical saw mill; steam power plant exceptionally good

CLAPBOARD, PULPWOOD, AND PLANING MILL.

Full set of clapboard machinery, also pulpwood with crossing machines and conveyors direct from machines into cars, two Woods planing and matching machines; ample steam power plant.

LIMITS.

Estimated to contain an area of about 87½ sq. miles. According to the report of Augustus M. Carter, of Bethel, Me., a well and favorably known estimator, there was on the Limits 123 million feet Spruce saw-logs and 50,000 cords of pulpwood, and tributary thereto, belonging to settlers, rising 33 million feet of spruce saw-logs and 25,000 cords of pulpwood, in addition to what would come by purchase from private lands in Ditton and Hampden townships. (Since report was made, there has been taken off from the Limits about 23 million feet saw-logs and 9,000 cords of pulpwood). Mr. Carter's responsibility is well known to the Berlin Mills Co., of Portland, Me. His estimate was verified by C. L. Crawford, of Boston, which is attached to the Carter report.

REAL ESTATE.

Mill site, yards and sidings at Scotstown.

Rights under lease from the Glasgow-Canadian Land & Trust Co.

Manager's house, with all modern improvements, situated on Lot 133, Scotstown.

Lot 177, Scotstown.
Barns, Office building, etc.
Lot 39 First Range, Hampden (Mill site).
North Half Lot 25 in 3rd Range, Hampden.
North Half Lot 26 " "
Lot 14 in 2nd Range, Chesham.
East Half Lot 21, in 2nd Range, Chesham.
Lot 9 in the 7th Range, Ditton (Cadastral Lot 50.)

Also Dams, Booms and other Valuable River Improvements.

The present sale does not include the Lumber and Logs either manufactured or unmanufactured, nor does it include the logging and driving outfits horses, harnesses, carts, trucks, etc., unused provisions and supplies, contents of office and machinery not used in the mills.

TERMS made known at sale.

☞For further information apply to the Liquidator.

H. R. FRASER, Liquidator.
JOHN. J. GRIFFITH, Auctioneer.

Sherbrooke, November 10th, 1903.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto

FOR SALE.

30 H. P. STATIONARY BOILER AND Engine, in first-class running order. Apply Box 93, CANADA LUMBERMAN.

AT ONCE, IN CAR LOTS, THE FOLLOWING Dry Lumber:
Soft Elm, 1", 1½", 2", 3".
Maple, Birch or Beech, 1½", 3", 4".
Basswood, 1", 3".
This lumber will do in any lengths, from 3 ft. up; state grade and price. Address TAYLOR & LOUNT, Markham, Ont.

WANTED—A FIRST CLASS MILL SUPERINTENDENT

A GOOD CONCERN IN THE PROVINCE OF Quebec wishes to find a thoroughly competent mill superintendent for saw and shingle mill. Must speak both French and English. Ability to handle French labor to the best possible advantage a most important requisite. The right man will be given a fair salary and an opportunity to obtain an interest. Address "Saw and Shingles," care CANADA LUMBERMAN.

To Timber Manufac'urers and Exporters

THE ADVERTISER, A CANADIAN, HAVING had 18 years' experience as salesman and broker in the timber trade in Great Britain, with previous experience in Boston and Burlington, Vermont, is desirous of returning to Canada and would be pleased to hear of an opening where his experience and services would command reasonable remuneration. Age 40, married. Can offer undeniable recommendations. Address in first instance, "Experience," care of CANADA LUMBERMAN, Toronto or Montreal.

CURRENT TRADE CONDITIONS.

ONTARIO.

The expected light input of logs this this winter is doing much to keep lumber prices firm. A csnservative policy is being pursued by operators for fear that the Presidential election may limit the demand in the United States next year. A falling off in the number of inquiries for lumber for shipment to the Eastern States has probably magnified the fear. Shipments to Buffalo are slower than they have been for some time, although there is still a good demand for 12 inch boards. Local trade keeps up remarkably well and the mills will go into winter quarters with comparatively light stocks.

The hardwoods are still characterized by firmness and efforts of buyers to obtain stock below manufacturers' quotations have met with little success. Quartered oak is exceptionally firm. Maple is also firm and scarce. It is almost impossible to buy firsts and seconds and therefore difficult to give current quotations. There is no likelihood of a large cut of hardwood this winter, and as there will be very little dry lumber to be had when the mills resume work in the spring, an abnormal accumulation of stock seems out of the question.

MANITOBA AND BRITISH COLUMBIA.

Lumber prices are not as uniform as earlier in the season, nor is the demand particularly active. Dealers have been expecting a drop in prices and have allowed their stock to run down. The mills, however, are not carrying heavy stocks, as the consumption this year has been close to the production. There is a fair movement of flooring, ceiling, siding, and finishing lumber. Some of the saw mills in British Columbia have shut down owing to lack of local orders, but the foreign trade continues brisk and the few mills catering to that branch are running night and day.

UNITED STATES.

The volume of the lumber business of the past week has been smaller, perhaps, than for any other week this fall. On all sides there is a disposition to reduce stocks and allow the manufacturer to carry the lumber over the winter. It has been more difficult to secure orders and occasionally a slight reduction in price has been made to effect a sale. It is expected that during the winter months there will be considerable buying for immediate needs, as consuming industries have permitted their stocks to become unreasonably low. Passing from a consideration of the demand to a study of the conditions in respect to stocks, we find that everything is in favor of a steady market and firm prices. The quantity of unsold stock at the mills is much lighter than one year ago. At Minneapolis the stock of pine lumber is 250,000,000 feet, as compared with 312,000,000 feet at same time last year. Duluth will have a stock of unsold lumber at the close of the season of about 60,000,000 feet, while in the Saginaw valley stocks are exceptionally small. The white pine firms of the Tonawandas held a meeting ast week to ascertain the amount of stock on hand, at which the fact was disclosed that there is an actual shortage of 25 per cent. from the amount usually on hand at the close of navigation. There is approximately 158,000,000 feet, exclusive of box lumber, while in former years it has usually exceeded 200,000,000 feet. Dealers asserted that under such conditions cutting of prices was entirely unwarranted. Turning to spruce lumber the position is equally as strong as that of pine. Maine spruce has been absorbed all season as fast as it has been manufactured, and there is still no stock accumulating at the mills. While the hardwood trade is quieter orders are still plentiful and many dealers report difficulty in obtaining the necessary stock. Manufacturers do not anticipate a break in prices. Maple flooring has not advanced in spite of a goodly number of orders.

GREAT BRITAIN.

There is no animation in the British lumber market. Dealers who are carrying heavy stocks are predicting a gradually improving tendency of prices, while those who are lightly supplied pretend to see lower values this winter. The feeling is unsettled, with very few contracts being closed for next season's import. There are, however, encouraging predictions being made concerning Canadian pine and spruce deals, which are very firm. For a few cargoes yet to arrive importers are asking much advanced prices. The Timber Trades Journal states that in pine deals the business is still of a minor charracter, but that it is worth reiteration that those who buy now will buy best, as 1904 importations are certain to be more costly on account of the higher cost of production. The only change in square timber is an increased number of inquiries for elm.

STOCKS AND PRICES.

The schooner Leonard Parker arrived at St. John last week from Savannah, with a cargo of timber.

The barque Primo sailed last week from St. John, N. B., lumber laden, for Buenos Ayres.

The Harbor Commissioners of Montreal desire tenders by Monday, December 7th, for supply of timber and planks for the year 1904.

B. J. Gilligan, of Mattawa, Ont., has just got his new mill in operation. He has one camp of 50 men in the woods taking out logs, mostly white pine.

The New Brunswick Government will offer for sale on December 2nd next a license to cut timber on two square miles on the east branch of the St. Nicholas river, the applicant for which is Adam Stothart.

W. S. Dwinnell, of Minneapolis, who is building a large saw mill at Edmonton, N. W. T., has arranged with Colin Campbell of that place for a supply of logs. About 5,000,000 feet will be cut on Mr. Dwinnell's limit above Edmonton.

The Department of Interior at Ottawa desires tenders by December 2nd for a license to cut timber on Berth No. 364, comprising the south-west corner of Section 30, Township 16, and containing 160 acres, also for a license for Berth No 367, comprising a section of the west half of Section 3 and containing an area of 530 acres, in the Province of British Columbia.

THE BARBADOS MARKET.

Messrs. S. P. Musson, Son & Company, under date of November 7th, say of the Barbados market:

"There have been no arrivals of either white pine or spruce during the fortnight and stocks on hand have been considerably reduced, leaving dealers' yards comparatively bare, so that the market is in a healthy condition. Some of the dealers have, however, contracted for supplies to arrive, of which we have a vessel on the way with 300,000 feet of white pine, spruce and hemlock. We learn of a cargo of Gaspe cedar shingles on the way by the "Bravo," principally Laying. Dimension and Long are both saleable. In Cedar Laying the market is depressed. We closed out the balance of the cargo of the "James W," but had to accept a reduction on previous rates. The market is amply stocked for some time to come."

TIMBER LIMIT TRANSACTIONS.

D. Wheelihan, of Acton, Ont., has disposed of his timber holdings in Nassagaweya to Murray Crawford for $16,000.

Edwards Zwicker & Sons, of New Germany, N. S., have purchased the timber on the Miller lands at West Ferry. They will put in a rotary mill and expect to cut 2,500,000 feet of lumber.

E. T. C. Knowles, 62 Princess Street, St. John, N. B., is taking tenders up to December 1st for all the standing timber on the land of the estate of William Livingstone. The timber is situated on the Neripas river, in New Brunswick.

An important sale has just been consummated by which townships 124, 125 and 132, in the Spanish River district, constituting a block of 108 square miles, have become the property of Carney Bros., of Marinette, Wis., Ferguson & McFadden, of Renfrew, being the sellers. The limits were formerly owned by General Alger.

The Shelvin-Carpenter Company, of Minneapolis, is reported to have purchased a large timber limit in British Columbia from John Hanbury, of Brandon, Man. W. S. Dwinnell, of Minneapolis, has purchased a large tract of timber land in the Saskatchewan valley, Alberta district, and has been given leases by the Dominion Government of other limits in the locality.

H. L. Gibbs, of Traverse City, Mich., onn of the shareholders of the Western Pulp & Lumber Company, has made a two-months' inspection of the timber limits along the north Thompson River in the neighborhood of Mud Lake and the Upper Blue River, about 165 miles north of Kamloops, B. C. During his trip he located 10,000 acres of timber lands, but it is his intention to return next spring and make a further examination of the limits.

French and Belgium capitalists are announced to have purchased the immense timber limits, mills, etc., of Alexander Baptist, of Three Rivers, Que. The limits consist of 150 square miles of well timbered territory, and in addition the syndicate has purchased 150,000 logs from the same party. The deal was negotiated by P. E. Panneton, banker, of Quebec, on the one side, and Mr. Duret, representing the capitalists on the other side. The price paid for the property is said to be a high one.

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar care to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

TELEGRAPH POLES WANTED

We buy all lengths. Write us for prices and you will see that by cutting your Cedar into Poles it will net you more than you can get out of it in any other way.

LOG PRODUCTION ON THE T. JOHN RIVER.

W. H. Murray, the well-known St. John lumberman, in a recent interview expressed the opinion that the cut of logs on the upper St. John river and tributaries in New Brunswick during the coming winter would fall short of that of last season by about ten million feet. The cut last year totalled about 130,000,000 feet, and about 80,000,000 came through the booms, the remainder having been hung up above Grand Falls. Many of the large operators are curtailing their operations this season, and the cut is not likely to exceed more than 120,000,000 feet. John Kilburn will get out about 5,000,000 feet for Murray & Gregory on the Northwest branch; Cunliffe will cut about 12,000,000 for them on the Allegash, and Choinard 3,000,000 on Black River, making the firm's total about 20,000,000 feet. The Scott Lumber Company, of Fredericton, who are operating upon the upper St. John this season for the first time, will cut about 5,000,000 feet on the Wild Cat stream, a tributary of the St. Francis.

No effort will be made this season to get out the 34,000,000 feet or so of logs stranded in the main river above Grand Falls. There was some talk a while ago of booming them at Van Buren, but as the scheme was not approved of by all the owners, it had to be abandoned. The logs will remain just as they are, unless a big rise of water comes from the head of the river. The logs have been out of the water since early last summer, and are very dry, therefore it will take less water to float them than would be the case with the green lumber. Should a big rise of water occur in the near future they are certain to run down the river and be caught in the ice at some point where it would be difficult to save them in the spring. If there is no big rise of water this fall, it is thought that there will be little difficulty in saving the logs in the spring, as the ice above the falls is usually a week or so later in starting than the ice below that point. This gives a chance to get the booms ready.

As already stated, there is about 34,000,000 feet of the past season's cut stranded above the falls. It is owned by the following parties in the proportion named :

	Feet.
Kilburn for Murray	4,500,000
Choinard for Murray	4,000,000
Cunliffe for Murray	1,000,000
Cushing	8,000,000
Charles Miller	4,500,000
J. R. McConnell	5,000,000
Randolph & Baker	4,000,000
Stetson, Cutler & Co.	1,000,000
Other parties	2,000,000
Total	34,000,000

About three and one-half million feet of logs have come over the falls during the past few months, and Contractor Morrison is up river with a crew of men endeavoring to get it into the booms.

CANADIAN LUMBER SHIPMENTS.

From Halifax, N. S. : Str. Gulf of Venice, for London, 31,238 ft. spruce deals, value $417. Str. Damara, for Liverpool, 97,327 ft. hemlock deals, value $1,120, 11,650 birch squares, value $215. Barque Ragna, for Troon, Scotland, 435,235 ft. spruce deals, value $5,104.

From St John, N. B. : Str. Normand, for Bristol, 1,336,265 ft. deals, 153,080 ft. scantlings, 59,197 ft. ends, 1,230 ft. boards, 7,146 ft. birch plank, 6,510 ft. birch ends. Schr. CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, DECEMBER 2, 1903 No. 44

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:
IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Month'ly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

Offered cheap.

WATEROUS, BRANTFORD

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

To Timber Manufac'urers and Exporters

THE ADVERTISER, A CANADIAN, HAVING had 18 years' experience as salesman and broker in the timber trade in Great Britain, with previous experience in Boston and Burlington, Vermont, is desirous of returning to Canada and would be pleased to hear of an opening where his experience and services would command reasonable remuneration. Age 40, married. Can offer undeniable recommendations. Address in first instance, "Experience," care of CANADA LUMBERMAN, Toronto or Montreal.

CURRENT TRADE CONDITIONS.

ONTARIO.

The volume of the lumber business of the month of November was, all things considered, better than could reasonably have been expected. The buying power was, perhaps, not as good as that of the previous month, but still of a very satisfactory character. The past week has shown signs of a slackening up, and it is likely that a smaller trade will be handled from this time forward until after the turn of the year. Little change either in demand or prices need be expected in the near future.

The deadlock between the Ottawa Valley manufacturers and the British exporters has been broken. The 1904 deal cut of the Hull Lumber Company has been placed with Watson & Todd, while half of the J. R. Booth cut has been taken by Robert Cox & Company. In both instances an advance of ten per cent. on last season's figures is reported to have been obtained.

We do not think that prices of hemlock are quite as firm as they were, but there is no positive weakness to be observed. Hardwoods are strong notwithstanding a less urgent demand. Birch and elm are among the best sellers.

QUEBEC AND NEW BRUNSWICK.

Several shippers of spruce deals have been endeavoring to close contracts for next season's stock at prices corresponding to those which ruled this year, but it is understood that they have been unsuccessful and that manufacturers are asking an advance. Now that contracting for the Ottawa Valley pine production has commenced, it is expected to facilitate the closing of contracts for spruce stocks. Manufacturers are asking an advance on the ground of increased cost of production. In Nova Scotia the quantity of spruce deals manufactured next year will in all probability show a considerable dscrease owing to forest fires, which swept through lands that had been logged before. The small logs remaining on these lands will be cut, and very few of them will be large enough to produce deals for the British market. The mills in Nova Scotia have marketed practically all the lumber cut this year. Enquiries are being received for stock for shipment to New York, where spruce is selling at the highest average prices ever obtained.

MANITOBA AND BRITISH COLUMBIA.

The active building season in the North-West is about over, and the demand for lumber has fallen off considerably. There is still some call for finishing lumber, which is likely to be in more or less demand all winter. Prices are somewhat weaker on account of the sharp competition experienced from American manufacturers. There has been some buying for spring delivery at current prices. The British Columbia mills supplying the foreign trade are busy, but the stock of unsold lumber for local and eastern consumption is large and the demand quiet. This applies also to the shingle industry. Manufacturers have received some encouragement from the recent visit of two or three large United States buyers of shingles. It is said that they placed some orders with Vancouver mills, being induced to do so by the superior quality of the British Columbia product.

UNITED STATES.

The lumber trade of the United States is seasonably quiet. Wholesale orders are scarce, but there is a good movement of small lots, and in Buffalo a large demand for doors and house finish. Dealers are not stocking up to any extent, but their policy of conservatism is causing holders of lumber no anxiety, as they believe there will be no break in prices. Inventories of stocks on hand at wholesale centres show much less than at same time last year. At Buffalo it is stated that there is not box lumber enough in sight to keep the box factories running through the winter and early spring, and there is very little of this class of lumber held at the mills. It is quite probable that box lumber will advance before spring regardless of the general trend of prices. The manufacturers in Wisconsin and Minnesota are restricting their log input, so that they may be in a position to cope with any falling off in the demand for lumber next year. Spruce prices are very strong. Both frames and random are selling in Boston at from fifty cents to one dollar above the list for prompt delivery. The hardwood trade maintains a healthy tone. Birch, elm and basswood are receiving a large call and the advance in price has been well maintained. Some dealers have been compelled to refuse orders for elm on account of being unable to make delivery within the specified time. White pine and white cedar shingles are moving rather slowly, but there is more inquiry for red cedars.

GREAT BRITAIN.

We can learn of no important change in the British lumber market. Business is rather lifeless and little improvement is expected until the new year. The stocks at the leading importing centres are not excessive, but it must be remembered that the consumption this fall and winter has been smaller than last year and promises to continue so for a few months. The auction sales have been about the only guide to prices. These have developed no weakness; in fact, at the Manchester sale of the Lightbound, Rigby & Company stock high prices were realized. Third quality pine deals, 3x11 inch, brought £12 10s per standard; 3x9 inch £11 5s, and 3x7 inch £11. A small quantity of 4x7 inch spruce realized £8 5s. A good line of 3-inch birch sold at £5 17s 6d per standard, and some Quebec ash timber at 1s 1d per cubic foot.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares,&c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

STOCKS AND PRICES.

F. F. Neale, of Chatham, N. B., has shipped over 60,000,000 feet of deals this season.

Seaman, Kent & Company, of Meaford, Ont., have just received a cargo of 250,000 feet of maple lumber from Bay City, Mich.

A three and a half mile timber berth on the North Forks Coal Branch, Kent County, New Brunswick, was sold by the Government last week to C. C. Stiles at $50 per mile.

The John Harrison & Sons Company, of Owen Sound, Ont., have just shipped a carload of numbered mile posts over the Canadian Pacific Railway for use on that line. There were 560 posts in the shipment.

The New Brunswick Government will offer for sale on December 9th a timber berth of two square miles on the Square Lake, Parish of Botsford, Westmorland County, for which James Friel has made application.

The Hanburg Manufacturing Company, of Brandon, Man., have 75 teams and 250 men at work on their limits in Duck Mountains getting out logs. The season in that district has opened earlier than last year and there are prospects of a large input.

The Carney Lumber Company, which recently closed a deal for the purchase of 200,000,000 feet of white pine on the Spanish River, will establish their headquarters at Massey, Ont. They will put in 10,000,000 feet of logs to be sawed under contract next year.

The Canadian Timber & Saw Mill Company, of Trout Lake City, B. C., has just let a contract for 100,000,000 feet of logs, involving an expenditure of half a million dollars, to E. L. Kinnon. English capital is backing the enterprise, and the contract is the largest let for some time. The company owns from four to six hundred million feet of timber along Trout Lake.

The Harbor Commissioners of Montreal invite tenders in this issue for a supply of timber and planks for 1904, including hemlock, white pine, red pine, elm, maple, and spruce. There are 194,000 feet of spruce planks and 175,000 ft. of pine planks called for. The piles required consist of 500 pieces white pine, 300 pieces red pine and 100 pieces elm, averaging 47 feet long.

R.F. Dorfman, who represents the lumber syndicate which has been buying up small parcels of timber in the vicinity of Nanaimo, B.C., states that the first boom of 600,000 feet of logs will be ready early this month. It is probable that another camp will be started early in the spring near Courtney, where the syndicate has about 110,000,000 feet of timber. Some of this goes 250,000 feet to the acre.

The Victoria Lumber & Manufacturing Company, of Chemainus, B.C., have purchased 4,000,000 feet of fir logs at Everett, Wash., which are being towed from Puget Sound to their mills. It is stated that the logs were purchased under contract that they should be delivered at the mills at approximately $4.10 per thousand feet. This is one of the largest purchases of logs made outside of British Columbia in several years. It is reported that the company were forced to buy on account of interruptions to their own logging operations by inclement weather.

Preparations are well advanced for logging operations on the St. Croix river, in New Brunswick. The cut will probably reach 30,000,000 feet, about the same as last year. James Murchie will cut about 7,000,000 feet, H. F. Eaton & Sons 10,000,000 feet, F. H. Todd & Sons 8,000,000 feet, and the Eastern Pulp Wood Company about 8,000,000 feet. Granville Chase will not operate this winter, having made arrangements with the Eastern Pulp Wood Company for a supply of logs. Mercier & Company have also arranged for some logs and will cut but little this winter.

THE OTTAWA VALLEY.

[Correspondence of the CANADA LUMBERMAN.]

To-day another big sale of 1904 deals was recorded. Watson & Todd, the well-known Liverpool firm, has closed with the Hull Lumber Company for the entire cut of red and white pine deals to be sawn under contract next year. While the actual figures are not obtainable, it is understood the price shows an advance of ten per cent. over last year's figures. The transaction covers between fifteen and twenty million feet.

November, always looked on as the season for such sales, has only seen two this year. For the past three weeks a deadlock has existed between the English buyers and the Ottawa district manufacturers of deals. The latter have been holding out for an advance of twenty per cent. on last season's rates, offering, of course, as ground for such advance the stiff price of labor and supplies. The English buyers, however, according to one of the number, could not pay the price asked and expect to realize on the investment. In turn they pointed out that British trade was dull and the market well stocked. The question of supply and demand, not cost of production, should, they claimed, govern the case.

It is now believed, however, that the deadlock has been broken, and that the other sellers and buyers will get together and agree on terms.

All the mills in the Ottawa district have practically closed. To the surprise of many it is stated that the season's cut as compared with that of former years shows a falling off of fully ten per cent. For instance, the big Booth mill is said to be between thirteen and fifteen million feet behind its cut for the corresponding period last year. As the supply of logs was a constant one and the weather steady, the blame for the shortage is laid on labor.

The Shepard & Morse Company, which took over and fitted up the Mason mill in the west end of the city, had a good season's business. It has been decided to install another double cutting band saw for next season's work. The one installed last year was the first of its kind seen in the Ottawa district. Next season the mill will be better equipped than ever with two such saws.

that the work of log cutting is well advanced. The present cold snap ought to freeze up the streams and thus facilitate the movement of supplies, which has been a difficult business for the past few days. Labor is easier to obtain, the close of work on the farms releasing many competent axe handlers.

No square timber will be manufactured in the Kippewa district this year, for the reason that there is little or none left to manufacture. The following firms that manufactured last season will leave square timber alone this year: Sheppard & Morse, Hull Lumber Company and Rideau Lumber Company. On the other hand Edward Moore, Klock Bros. and Robert Hurdman will continue in the square timber line.

Reports differ as to market conditions, but prices show no change. Dealers report local business and trade with the States slow, while the manufacturers state they have no trouble placing any standing stock they have on hand. With the close of navigation shipments are always slow from Ottawa, so that the present slackness is causing no uneasiness.

It is expected the log cut in the Ottawa river district will be nearer an average than will be that of the Georgian Bay district, where a shortage running all the way from twenty to thirty per cent. is predicted.

Ottawa manufacturers have not so much to fear from the threatening hard times in the States as have their fellows in the Georgian Bay district, for the reason that while the latter are almost wholly dependent on the American market, the Ottawa district mills cut largely for the English trade as well.

With the predicted shortage of logs in the Georgian Bay district, the chances of overstocking the American market will be greatly reduced and the prospects of a continuance of high prices brightened.

Ottawa, November 25th, 1903.

BRITISH COLUMBIA LUMBERMEN IN SESSION

A meeting of the Mountain Lumber Manufacturers' Association was held at the Board of Trade rooms at Nelson, B. C., on the 26th and 27th of October last. There was present a strong delegation from the British Columbia Lumber & Shingle Manufacturers' Association, and also from the Western Retail Lumbermen's Association. The meeting was a particularly interesting one, and the attendance was large, on account of the importance of the matters to be brought up for discussion.

A committee to prepare statistics as to the condition of the lumber trade and estimates as to the quantity of available lumber and the probable output and consumption next year, was appointed, and at a later session the committee reported that there were eighty million feet of lumber ready for shipment in the yards in British Columbia; that the demand was not strong, as the yards in the North-West Territories were pretty well stocked; that the probable output for next year would be seven hundred million feet or at least one hundred million feet above the estimated consumption, even taking into consideration the present very large increase in immigration in the North-West Territories.

The lumber manufacturing trade has certainly been booming; a large number of mills have been built and are under construction, and if there was a shortage last winter and spring, the reverse is now the case, and the members of the Lumber Associations were themselves surprised to find that they were face to face with a condition of things which will probably mean a shutting down of the mills for a time to prevent over-production.

During the period last winter in which there was an apparent shortage (we say "apparent" because it was largely attributable to insufficient transportation facilities at the time when the demand was greatest), American lumber was introduced to a very considerable extent into the North-West, the excuse being that Canadian lumber was not to be had, and this market having been once opened up to American mills, they are succeeding in holding the market, to the exclusion of Canadian lumber. A considerable advantage in freight rates over the Canadian mills helps them to do this.

This and many other subjects were dealt with by the members of both Associations in a joint meeting, and strong resolutions were prepared, both to the Canadian Pacific Railway Company pointing out the injustice that the members suffer in certain quarters on account of the comparatively heavy freight rates, and to the Dominion Government pointing out the necessity of a duty to protect this very important Canadian industry.

It was pointed out that on account of the somewhat demoralized condition of American trade at present, partly through over-production, the Canadian North-West was being used as a dumping ground for the surplus stock of common lumber of the American mills, and that such competition under the circumstances was not fair and should be prevented. The enormously increased capacity of the B. C. mills is a sufficient guarantee of a supply large enough to ensure that there will be no increase in price.

Steps were taken with a view to ascertaining if and in what way the uniform grading of lumber could satisfactorily be done. This is a matter which has hitherto been considered impracticable on account of the very great differences in the timber used by the different mills througout the country. It was decided, except in 2-inch dimension, to adopt Coast Standards of boards and matched lumber. This rule takes effect on January 1st, 1904.

A satisfactory arrangement was arrived at between the shingles members and the branch of the B. C. Lumber and Shingle Manufacturers at the coast.

The foregoing covers only a small part of the work done in the session, which lasted two full days. The meeting was productive of a great deal of good, and many questions of importance affecting the interests of the members, as between each other, were discussed and satisfactorily dealt with.

The Mountain Association, which is now two years in existence, was felt to be in a much healthier condition and the enthusiasm of the members very much greater than heretofore.

Regret was expressed that the commission which had been appointed by the Dominion Government to investigate the alleged combine had not had the opportunity of going into the question, as the members felt satisfied that a thorough investigation would have resulted in showing that these Associations were not in any sense responsible for the alleged unsatisfactory condition of things in the North-West.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, DECEMBER 9, 1903 No. 45

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED

To Correspond with Manufacturers of Hardwood Lumber, with a view of purchasing 1904 Cut.

We also want few cars of Ash and Basswood for immediate shipment.

HURDMAN & ELMITT,
Ottawa, Ont.

WANTED

500 M FT. B.M. ROUND SPRUCE TIMBER, 500 M ft. B.M. Round Hemlock Timber, more or less, to be delivered on Ottawa River for next June. For further particulars address Box 630, Sorel.

Birch Lumber

Manufactured specially for the Furniture Trade in all sizes and grades. Write to THE HUNTSVILLE SYNDICATE for prices, Huntsville, Ont.

POSITION WANTED

AS LUMBER INSPECTOR AND BUYER. Long experience, and can give satisfactory testimonials and security if required. Address Box 184, Seaforth, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber business of the province shows the effect of the approaching winter. Retail dealers as a rule are buying only in small lots, which policy is likely to continue until after the first of the year. The consumption in Toronto is of considerable volume and in the country districts the demad is quite as good as could be expected at this season. There does not seem to be much call for bill stuff. In an otherwise featureless market, box lumber continues to command special attention. The supply is now so small that some manufacturers are advancing their box and common about $1 per thousand. In the Georgian Bay district log run white pine is held at $10, box at $15 and mill culls at $11. There are still plenty of buyers for hardwood lumber whenever suitable stocks can be found. It is almost impossible to obtain certain sizes of elm, basswood and maple. The manufacturers are showing no disposition to reduce their asking figures, but on the other hand are asking higher prices for desirable stocks. The shingle market is in a healthier condition and dealers who were carrying heavy stocks of British Columbia cedar shingles are gradually getting them worked off.

The weather has been favorable for operations in the woods. In some districts there are about 18 inches of snow, but hauling will not be commenced until after Christmas. It is reported that on account of money stringency and the expense of logging one or two concerns have taken their camps out of the woods.

MANITOBA AND BRITISH COLUMBIA.

There is very little activity in the lumber business throughout the North-West, more attention being given to logging conditions than to the marketing of lumber. In the districts from which the log supply

for the North-West mills is obtained the conditions for logging have been unusually favorable and good progress has been made. In British Columbia, however, several camps have been closed down on account of rainy weather, and it is predicted that this will have the result of advancing the price of logs. Much interest is centred in the proposed Government legislation regulating the cutting of timber. The lumbermen have decided to protest against the proposal to raise the fee on special timber licenses from $100 to $160 per annum.

UNITED STATES.

The present is no doubt a very dull time in the white pine trade. What business there is from mill yards may be said to be confined to box material and the lower grades. There has been a considerable call for lumber suitable for making corn cribs. It is expected that this inactivity will continue at least until well into January, by which time it is believed that dealers will find their stocks so diminished as to necessitate replenishment to a limited degree. There is a better feeling regarding the business outlook than prevailed a few weeks ago, and one or two factors which are very favorable to the lumber business in particular. The wholesale dealers at Buffalo and Tonawanda have held conferences with a view to learning the real conditions, and it is believed that as a result there will be no difficulty in maintaining present prices for white pine. From Duluth comes the statement that practically all the No. 4 and 5 boards to be cut next year at the head of the lakes have been sold or are under option. Coupled with the fact that the unsold stocks at the head of the lakes are not more than 50,000,000 feet, it will be seen that the statement has an important bearing upon the market. The reduced logging operations must also be reckoned with. The hardwood demand is limited to the immediate needs of consumers, but is still of a fair volume. Dry basswood is especially scarce and is likely to be wiped out before the new cut is ready. Elm stocks are also very much reduced. A slightly better demand for lath and shingles is reported. At Buffalo No. 1 white pine lath is selling at $4 and No. 2 at $3.25.

GREAT BRITAIN.

The consumption of lumber in the British market continues small, but there is a firm undertone to prices, which induces the hope that the new year may bring an improvement. Some reports speak very hopefully of Canadian lumber. A West Hartlepool correspondent says: "During the past ten days a number of orders for white pine deals have come to hand, and we understand several large lines have been booked for delivery later on. Stocks of third quality are fairly large, but first and second qualities are not so plentiful. Prices are very firm, and in all probability the present brisk buying can be accounted for by the news that next year's shipments will command higher values than at present prevail." Spruce deals also are in a strong position. It is reported that a cargo of spruce from Dalhousie, N.B., containing 50 per cent. of 7 and 8 inch, has just been sold to Liverpool at £8 2s 6d per standard. This price shows the strength of the market.

STOCKS AND PRICES.

The barque Albertina is loading lumber at Bridgewater, N.S., for Rosaria.

It is estimated that 3,000,000 feet of lumber will be manufactured this winter in the vicinity of Coldstream, N.S.

The Canada Wood Specialty Company, of Orillia, Ont., are advertising for 1,000,000 feet of hardwood logs.

W. C. McKay, of Prince Albert, N.W. T., has been given a large contract to supply telephone poles for the Bell Telephone Company.

The steamer Thrift is loading deals at Pugwash, N.S., for the United Kingdom. The steamer Mantinea is loading a deal cargo at West Bay, N.S., for the same destination.

Graham, Horne & Company, of Fort William, Ont., have a logging camp at work at Barring, on the Canadian Northern Railway, getting out logs for the Rat Portage Lumber Company's mill at Winnipeg.

The receipts of lumber at the Tonawandas this season were 438,765,271 feet, as compared with 389,890,410 feet for the corresponding period of 1902, an increase of 48,874,861 feet in favor of the current year.

A two mile timber berth, situated on the east branch of the St. Nicholas river, Kent county, N.B., was sold at auction by the Government last week to T. C. Burns at $30 per mile. The applicant was Adam Stothart.

The cooperage stock market is very strong and a further advance in the price of staves is predicted. Jobbers at Buffalo are now asking $13.50 to $14 for first-class elm staves, 10½ to 11 cents for heading, and $10.50 to $11 for 6-foot coiled hoops.

Peter Clair, who lumbered on the west branch of the Black river, in New Brunswick, has disposed of his season's cut of logs, amounting to about 3,000,000 feet, to the Scott Lumber Company, of Fredericton. He is to deliver the logs at the Fredericton booms in the spring.

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar care to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

ST. LAWRENCE RIVER LUMBER SHIPMENTS.

The trans-Atlantic shipments of lumber from Montreal, Quebec and other St. Lawrence ports for the current season represent an increase of 5,698,345 feet. The following summary shows the quantity shipped by the different exporters:

Shippers.	Feet.
Dobell, Beckett & Co.	102,074,800
W. & J. Sharples	79,669,795
Price Bros. & Co.	56,658,178
Watson & Todd	51,801,668
McArthur Export Co.	28,365,923
J. Burstall & Co.	24,419,350
Robert Cox & Co.	24,162,470
H. R. Goodday & Co.	16,054,343
King Bros.	15,833,139
Charlemagne Lumber Co.	10,289,247
Cox, Long & Co.	8,941,100
McLaurin Bros	7,478,000
Harold Kennedy	6,336,000
E. H. Lemay	1,815,000
Railway, small shippers, etc.	11,782,947
Total	445,681,960
Shipments season 1902.	439,983,615
Net increase, season 1903	5,698,345

THE BARBADOS MARKET.

Under date of November 21st Messrs. S.P. Musson, Son & Company say of the Barbados market: "The arrivals have been the "Jessie Lena" with 113,000 feet shippers and 34,000 feet second quality white pine; the "James Daly" from Bear River, N. S., with 140,000 feet spruce, 20,000 feet white pine and 15,000 feet hemlock; and the "H. B. Moman" with 46,000 feet shippers and 100,000 feet second quality spruce, 45,000 feet shippers and 58,000 feet second quality white pine, and 38,000 feet shippers and 9,000 feet second quality hemlock. Of the first two named the Daly's cargo was sold to some dealers who were entirely bare at $24.27 for shippers, $21.27 for second quality spruce; $28.53 for shippers, and $24.29 for second quality white pine; and $21.17 and $18.17 for second quality hemlock. The cargo, however, turned out very inferior and a large reduction was made on the inferior lumber. The same parties also bought the white pine brought by the "Jessie Lena" at $27.21 and $22.59 respectively. These arrivals have given everyone some supplies, and the market has weakened somewhat, but we have since placed 100,000 feet shippers and 25,000 feet second quality white pine, for prompt shipment, on a basis of $21.75 and $18.25 c.i.f. We value spruce at about $22 to $23 for first receipts. The "Bravo" arrived with 460,000 Long Gaspe shingles, which have been placed at $5.76; 54,600 Dimension, which brought $3.25 for 3 inch and $9.25 for 8 inch; and about 250,000 Laying Cedar, which have been sold at $2.16. Long and Dimension Cedar shingles are saleable, but Cedar Laying are in heavy supply.

INCREASED STUMPAGE DUES.

The New Brunswick Government announced on December 4th its decision to increase the stumpage charge on timber cut within the province from the present rate of $1.00 a thousand feet board measure to $1.25, and to make a charge for renewal of leases of $8.00 a square mile instead of $4.00. The request to allow tops of trees to be removed without payment of stumpage is refused, but the request to make the stumpage uniform all over the province is granted. The lumbermen asked for a reduced rate for lumber cut on burnt districts and the Government replies that such cases will be dealt with individually on their merits. The new rate of $1.25 will be on spruce, pine, fir, and cedar, and proportionate on other timber. It will apply to the cut of the present season and the increased mileage charge will be enforced on all future renewal licenses. The Government declines to extend all present leases to twenty-five years in consideration of raising the stumpage dues.

MARKET FOR PIT PROPS.

Mr. P. D. Ball, of Birmingham, England, writes to the Toronto Globe as follows: I have been going through the colliery districts in England and Wales, and I find that the collieries have been buying their pit props from Norway, France, Spain and Portugal. I would like you to give this want as much publicity as possible, and ask the various people who are prepared to go into this matter to write me direct. I think that our spruce or small pine should fill this want. Of course, they would have to be tried to find out exactly the strength. The quantity used annually in the different districts would be about 2,000,000 tons, and this ought to be well worth looking into. The sizes would range from 4 feet to 9 feet long and diameter at top from 4½" to 9".

We understand that the creditors of James Harrison, lumber merchant, Burlington, Ont., have now been settled with, by a cash payment of 50 cents on the dollar to all unsecured and payment in full to secured claims, besides paying in addition all legal costs. He has opened up business again at Burlington, where his well equipped planing mill and yards should secure a good trade.

TELEGRAPH POLES WANTED

We buy all lengths. Write us for prices and you will see that by cutting your Cedar into Poles it will net you more than you can get out of it in any other way.

BRITISH COLUMBIA TIMBER LAWS.

(Correspondence of the CANADA LUMBERMAN)

The McBride Government is introducing some measures into the local legislature amongst which are several which will affect local lumber industries. Timber leases, for instance, will be obtained by public competition for a period of twenty-one years and subject to fifty cents a thousand feet royalty and twenty-five cents an acre rental. Where, however, a mill runs in connection therewith for six months in the year, and cuts 1000 feet per day for each and every 400 acres, this is reduced to fifteen cents rental per acre. For purposes of logging, special timber licenses will not be granted for more than 640 acres and for not more than five years at the following rates: One year, $160; two years, $320; three years, $480; four years, $640; and five years, $800. Provision is also made for a royalty of fifty cents a thousand board measurement and twenty-five cents a cord for wood.

Another clause makes provision for a tax on all timber cut in the province except that upon which a royalty is paid. The tax on grade one varies, according to length and diameter up to 24 inches, from $2 to $4. On grade two it varies from $1.50 to $3 a thousand, and on grade 3 from $1 to $2.50. For timber more than 24 inches in diameter and up to 48 inches there is an additional tax varying in the first grade from 20 cents to $1.50, on No. 2 from 15 cents to $1, and on No. 3 from 10 cents to 75 cents.

One clause provides for a rebate of everything over 50 cents a thousand on timber manufactured in the Province. This aims at the States lumbermen who have exploited British Columbia timber.

On poles, piles and curb timbers there is a tax of from 1 cent a foot to 2½ cents, and on piles of over 12 inches in diameter, from $2 to $4 a thousand. If manufactured in the Province this tax is also remitted except a quarter of a cent a foot. On shingle bolts there is likewise to be a tax of $1 a cord, with a rebate of 50 cents if manufactured in the province.

Timber licenses are made transferable and it is further suggested that the Crown shall have a lien on plant such as tow boats, engines, concentrators, etc., used in connection with the taking out of the timber on which a royalty or tax is reserved.

Lumbermen of British Columbia make objection to the proposal to raise the fee on special licenses, because they believe the alteration will seriously affect what is really a source of great returns to the Government, and in fact one of the largest sources of provincial revenues, yielding altogether some $288,000 per annum.

VANCOUVER, November 30th, 1903.

CANADIAN LUMBER SHIPMENTS.

From Halifax, N.S.: Str. Peruvian, for Liverpool, 407,238 ft. spruce deals, value $4,832, 17,289 ft. birch deals, value $1,-810. 65,598 ft. hemlock battens, value $376, 1,184 pcs. sleepers, value $343.

TIMBER LIMIT TRANSACTIONS.

John Kealy, of Venosta, Ont., has purchased a small timber limit on Rice's Lake.

H. C. and Gilbert Lawrence, of Southampton, N. S., have sold their timber lands, together with mill and lumbering equipment, to Frank Black.

It is reported that Alex. Lumsden, of Ottawa, has just sold to McLachin Bros., of Arnprior, a timber limit on the Kippewa River on which there is a large quantity of standing pine.

Another large deal in Canadian timber is announced. The Danaher & Melendy Company, of Detroit, is said to have acquired 200 square miles of cedar and spruce timber lands in the province of Quebec. The full particulars are not to hand at time of going to press.

The timber limits and mills of the Scottown Mills Company, in liquidation, was sold by auction at the court house, Sherbrooke, Que., on December 1st, to Peter Lyall, of Montreal, for the sum of $81,000. The limits comprise 87 sq uare miles in the townships of Chesham, Emberton, Ditton, and Hampden, and the mills are situated at Scotstown, N. B. It is thought that Mr. Lyall represented the Great Northern Lumber Company.

The Edmund Hall interests in Canada, comprising extensive timber limits, the mill and salt block at Sarnia, the camp headquarters at Nairn Centre, and the fleet of tugs and dredge plant, have been sold to J. J. McFadden, of Sault Ste. Marie, W. D. Lummis, of Toronto, and W. S. Bell, of Sudbury. The purchase price is said to be in the neighborhood of $840,000. It is the intention of the new proprietors to improve the saw mill and conduct the business on a more extensive scale than has been done in the past.

The Engel Lumber Company, of Grand Rapids, Mich., advise us that they have purchased the interest of J. H. Speer, of North Adams, Mich., and of the late D. M. Estey of Owosso, of the Engel-Speer Lumber Company, Grand Rapids, and the business of the same will be continued under the name of the Engel Lumber Company. They have also organized a new partnership concern at Hardgrove consisting of Frank Hardgrove and Date Forbes, of Hardgrove, and George Engel, of Grand Rapids, Mich., for the purpose of buying timber and logs and manufacturing the same. The main office of the new concern will be in Grand Rapids and will be known as the Hardgrove Lumber Company, which company is now erecting a new band mill at Hardgrove, Mich.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

Vol. IX. TORONTO, CANADA, DECEMBER 16, 1903 No. 46

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

POSITION WANTED

AS LUMBER INSPECTOR AND BUYER. Long experience, and can give satisfactory testimonials and security if required. Address Box 184, Seaforth, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Wintry weather has put a further check on the consumption of lumber. It has also caused the early closing of inland navigation and the shutting down of mills. Many mills in the Georgian Bay district have logs in the booms which under different cenditions would have been sawn this year. Altogether the lumber trade is quiet, but on all sides are heard expressions of satisfaction with the business of the year now drawing to a close. The Government timber sale last week proved conclusively that healthy conditions prevail in the lumber industry, and that the hewers of the forest do not anticipate a disastrous reaction in the industrial prosperity of this country. For a month or six weeks lumber is expected to move slowly, but as light stocks are carried by retail dealers and consumers, buying for the spring trade will probably commence early. Although yet too early to estimate the volume of building which will be done next year, it may be said that in Toronto present indications point to a very active season.

QUEBEC AND NEW BRUNSWICK.

Most of the mills in the Province of Quebec are now closed down and inventories of stocks of lumber in the yards show a reduction as compared with last year. Some contracting for British deals has been done and the prices obtained were in some cases higher than for similar stock one year ago. There continues to be a good demand for spruce lumber for shipment to the Eastern States. Clapboards are slightly higher, extras being held at $44 and clears at $42, Boston delivery. There is no particular change in New Brunswick cedar shingles, which range from $3.35 to $3.45 for extras.

UNITED STATES.

There is a natural decline in the call for lumber. The East has been buying with some liberality, but in the Northern and Western States the movement is light. The pine market is strong, however, with prospects of a continuation of firmness throughout the winter months. The re-adjustment of prices has apparently been completed. Box and other low grade lumber is about one dollar higher than at the same time last year, while common lumber is selling one dollar less and the price of the best grades is off about two dollars per thousand. In the Lake Superior district a very hopeful feeling prevails. The feature of the situation is the large amount of No. 4 and No. 5 boards that have been sold to be cut next season. No. 4 boards are bringing $12.00 a thousand, as compared with $10.50 last year. Advance sales of No. 5 boards have also been considered at $6.50 to $7.00 per thousand, as compared with $5.00 and $5.50 last year. The stock of low grade pine is almost cleaned up. The supply of shop lumber has been reduced on account of a more active demand recently for that lumber than for other grades. Buffalo reports a very fair trade, most of the orders now placed being for January shipment. There is less activity among the hardwoods and a consequent softening of prices at some points. Quartered oak has suffered to the extent of about $2.00 per thousand, but is still in good demand. Stocks are low and inquiries are sufficient to create the hope of an active trade in the near future. There is no increase in the demand for lath and shingles. Good white pine lath are steady in price but mixed are offered at concessions.

GREAT BRITAIN.

Messrs. Foy, Morgan & Company's Abstract of Stock, Consumption, etc., shows that at the end of November the stock of deals and battens in the public docks at London, England, was 8,898,970 pieces, as compared with 9,339,754 pieces one year ago. The duration of supply at the present rate of consumption is given as 6.53 months, as against 5.96 months a year ago. It will thus be seen that although there is a lighter stock the supply will be sufficient for a longer period, this being due to lessened consumption. In 1902 the monthly consumption was 1,276,959 pieces, while this year it is placed at 1,074,092 pieces. Deliveries from the public yards have fallen off considerably of late and some reports state that the price of pine deals and sidings is weaker. There is no doubt that the high prices have curtailed the consumption. Spruce is ever firmer than pine. There is a healthy market for square and waney pine timber, the bulk of late receipts having been sold before arrival. First-class elm timber sells quickly.

STOCKS AND PRICES.

McLaughlin Bros. are engaged in logging operations at Chipman, N.B.

The steamer Thrift is loading a cargo of deals at Pugwash, N.S., for the west coast of England.

E. Marceau, Superintending Engineer Quebec Canals, wants tenders by December 18th for supply of timber and lumber.

The schooner Baden Powell is loading a cargo of lumber at Halifax, N.S., for the West Indies, shipped by C.F. Longley & Company.

E.F. Farquier is advertising for 100,000 ties to be delivered along the route of the Lindsay, Bobcaygeon and Pontypool Railway during the present winter.

It is reported that Bradley, Miller & Company, of Bay City, Mich., have bought a large block of lumber cut at Sarnia the past season by the Edmund Hall mill.

The Department of Interior at Ottawa are asking for tenders up to January 6th for a permit to cut timber on Berth No. 1116, in Township 3, Range 9, Province of Manitoba, containing an area of 4 square miles.

D. S. Pratt, of Midland, Ont,, is taking out a good stock of logs this winter. He expects to have 2,000,000 feet of mixed hardwoods, mostly maple and basswood. He is also cutting a stock of 5,000,000 cedar shingles. His mill is now running, so the stock will be ready for the spring trade.

The Harbor Commissioners of Montreal have accepted the following tenders for supply of timber and planks: Hemlock face, Shearer & Brown; round pine and flat pine, J.L.B. Leclair; pine face, Mason, Gordon & Co.; pine coping, Shearer & Brown; pine piles and elm piles, J. L. B. Leclair; elm planks, Shearer & Brown; maple planks, J.L.B. Leclair; pine, hemlock and spruce planks, E. Chausse.

Contracts for the supply of lumber for the city of Toronto have been placed with the following firms: Planks, Reid & Company, $18.79 per M; boards, $17.97; pine scantling, 4x4, $18.79; cedar, 4x4, Arthur Bryce, $18.50; pine or cedar curb, 4 x 10, $19.50; pine lumber, Arthur Bryce, $21 per M; hemlock lumber, Reid & Company, $15.97; pine timber, 12 x 12, Arthur Bryce, twelve feet long, $20; 16 feet long, $20; 20 feet long, $21; 24 feet long, $23; hemlock timber, 12x12, Arthur Bryce, 12 feet long, $16; 16 feet long, $16; 20 feet long, $17; 24 feet long, $18.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares,&c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance, "c/o CANADA LUMBERMAN.

GREATEST TIMBER SALE ON RECORD.

The sale of timber limits held by the Ontario Government on December 9th was the most successful on record. The receipts were far in excess of any previous sale and much greater than were expected. The attendance of lumbermen was also the largest ever known and the bidding was quite spirited. Altogether 826½ square miles were disposed of, the receipts being $3,687,337.50, or an average price of $4,461.38 per square mile. This compares with the highest previous average of $3,657.18 reached at the sale of 1892. The record for the highest price per mile was also made, when Mr. T. Mackie, M.P., paid at the rate of $31,500 per mile for 3¼ square miles comprising Berth No.5 in the Township of Hammell, Nipissing District. The previous high price was $17,500, which was paid by the Gilmour Company in 1892.

The purchasers of berths in the Nipissing and Algoma districts are allowed to cut the red and white pine only, while in the Rainy River district the purchasers are entitled to cut the pine, spruce, cedar, tamarac, and poplar, except as to Berths G19, G21, G23, G29 and G38, on which red and white pine only can be cut. The stumpage dues on all the pine timber is fixed at $2 per thousand feet.

Several transfers of claims have been made since the sale. These are recognized in the details of the result which follow :

TOWNSHIP OF HUTTON.

Berth 1—8½ sq. miles, $4,500 per mile, A. T. Mackie, Pembroke, total $38,-250. Berth 2 — 8¼ sq. miles, Duncan Graham, Renfrew, $2,000 per mile, $16,-500. Berth 3 —8½ sq. miles, J. C. Spry, Chicago, 5,400 per mile, total $45,900. Berth 4 —8¾ sq. miles, Dr. Spohn, Penetanguishene, $1,500 per mile, total $13,-125.

TIMBER LIMIT TRANSACTIONS.

H. A. Crowe, of Halifax, N. S., who is associated with H. M. Whitney, of Boston, in his Newfoundland lumbering enterprise, is reported to have sold to Alfred Dickie, of Lower Stewiacke, N. S., 80,000 acres of timber land owned by the United Lumber Company, the price being $150,000. The property is situated in Guysboro, Pictou, Halifax and Antigonish counties, and is tributary to the St. Mary's river, in which logs are driven down to Sherbrooke, where a large saw mill is located. The United Lumber Company, which is controlled by New York capitalists, still hold 150,000 acres of timber areas in Nova Scotia.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

TORONTO, CANADA, DECEMBER 23, 1903 — No. 47

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Month'ly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

WANTED—HARDWOOD LUMBER: HARD and Soft Maple, Birch, Soft Elm, Basswood and Brown Ash, for next spring delivery: log run or graded. AUGER & SON, Quebec.

Birch Lumber

Manufactured specially for the Furniture Trade in all sizes and grades. Write to THE HUNTSVILLE SYNDICATE for prices, Huntsville, Ont.

YARD MANAGER WANTED

ONE WHO CAN MEASURE AND INSPECT Hardwood and Pine Lumber. Apply in own writing, stating experience, to "Yardman," this office.

WANTED

Large number of Round Piles, for dock work, in Spruce, Pine, Tamarac or Hemlock, 45 feet long, not less than 16 inches at butt end, and 10 inches at top. Address, RANDOLPH MACDONALD, Contractor, Three Rivers, Que.

WE DESIRE

TO INCREASE OUR BIRCH SUPPLY, FOLlowing manner: Either contract output of mill, agreed prices, or advance money to increase your capacity, or will install mill on your timber land. Write us. STANDARD LUMBER CO., Buffalo, N. Y.

AGENCY WANTED

We want exclusive sale of Hardwood Flooring and Spruce Sheathing (in car lots) and Doors for some Quebec or Ontario firm who are not now represented in the Maritime Provinces. Write prices and commissions. Box 113, care CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber business could not be otherwise than quiet at this holiday season. Salesmen are off the road and no person is putting forth much effort to book orders. Inventories will receive the greatest share of attention during the next two weeks. From the conflicting reports which are heard regarding prices it is difficult to make a logical deduction. In some quarters it is claimed that certain grades of pine are being offered at a reduction, while manufacturers contend that the market is as firm as ever. If any concessions are being made they are probably confined to isolated cases where the supply of a certain grade is comparatively heavy and the holder is anxious to even up his stock before the severe winter weather sets in. The lower and upper qualities of pine continue to be in the greater favor, the intermediate grades being quite inactive. Hemlock is somewhat neglected on account of the partial cessation of building operations, but some enquiries concerning

stocks for spring delivery are reported. There is no question as to the firmness of hardwoods. The knowledge of a light input of logs this winter has encouraged manufacturers to adhere closely to the prices which they have been asking, and unless the buyer is prepared to pay them a sale seldom results.

QUEBEC AND NEW BRUNSWICK.

The spruce situation is as strong as at last writing, although the demand is quieter. Frames for prompt delivery are selling above the list price, and as yards are carrying small stocks, it is probable that the dull season will be passed without any fall in prices. New York reports a scarcity of spruce and local mill men are receiving many inquiries for stock for shipment to that market. Contracting for the British market has not yet commenced to any extent, as shippers are not disposed to pay the higher prices asked in many instances. The season has been favorable for logging operations and good progress has been made, especially on the north shore of New Brunswick.

GREAT BRITAIN.

The Board of Trade returns show that during the first eleven months of this year the import of sawn lumber into the United Kingdom was about 4,000,000 feet less than the corresponding period in 1902. This is a very slight decrease, and in view of the curtailed consumption the stock will likely be found to be more than ample to supply the winter and early spring demand. House building is quiet even for this season of the year. Representatives of Quebec shippers have, it is understood, closed a few small contracts, but business is by no means active. The increased price paid for the Ottawa deal production is the subject of general comment and the opinion seems to be that the better grades of pine deals in the hands of dealers must be advanced to a corresponding extent. On this subject the Liverpool correspondent of the Timber Trades Journal says: "The pine season is over, and it finds us with light stocks, upon which we must congratulate the happy holders. Buyers up the country who have not yet realized what we have already pointed out in these columns will find themselves left. They have not realized the fact that the Canadian pine production does not depend upon this country alone, as many of them seem to believe. They have never realized the enormous wants, not of the Dominion alone, which are ever growing, but the demand from the United States, who are huge buyers of pine deals, etc. The prices of the present day may appear unduly high to the old-fashioned buyer, but he has not awakened to the changed condition, and the sooner he is aroused the better it will be for him."

UNITED STATES.

According to the Construction News permits were taken out in November in twenty-one of the leading cities of the United States for 6,282 buildings, aggregating $24,619,447 in value, against 5,486 buildings costing $19,689,788 for the corresponding months of 1902. This represents a gain of 25 per cent. and is a very satisfactory showing. Based on this report and on an improvement in general business, the lumbermen are taking a more roseate view of the coming year than they were one month ago. The Wisconsin Valley Lumbermen's Association met on December 10th and decided to reaffirm the white pine list of September 14 except in so far as it affects lath. There was a strong sentiment in favor of advancing certain items on the list and it was shown that stocks in the hands of manufacturers are short as compared with 1902. There has been such a demand for box lumber that the sawing of dimension has been neglected and consequently the supply is very light. A Chicago house is reported to have lately sold several lots of box lumber at prices 15 to 20 cents a thousand higher than those which had previously prevailed. The supply of norway pine is also limited, but the demand of late has fallen off. At Tonawanda and Buffalo shaky clear is said to be short and quoted from $35.00 to $50.00, according to quality and width. Hardwood prices are being well maintained. Basswood is more plentiful and the Chicago price ranges from $33.00 to $34.00 for first and second, $23.00 to $24.00 for common, and $15.00 to $15.50 for culls. Log run inch soft elm brings $21.00 to $22.00 and common and better about $26.00 in carload lots.

Lath prices are weak. The Wisconsin manufacturers by a unanimous vote decided to list lath as follows: No. 1 white pine, $3.00; No. 1 mixed, $2.50; No. 2, $2.00. No. 1 is relatively firmer than the other grades and a few orders are reported at $3.10 on a Chicago basis.

STOCKS AND PRICES.

The Goderich Organ Company, of Goderich, Ont., are in the market for 1,000,000 feet of hardwood lumber.

It is stated that the logs cut this winter in the vicinity of Bonny River, N.B., will be about 8,000,000 feet.

The barque Enterprise has sailed from Bear River, N.S., for Buenos Ayres, with lumber, shipped by Clarke Bros.

The St. Martins Railway, of St. Martins, N.B., has given out a contract for 15,000 ties to be taken out this winter.

The oak, elm and basswood timber on Kettle Point, Ont., amounting to about 500,000 feet, was sold by public auction last week to the Sutherland-Innes Company, of Chatham, for $1,500.

It is reported that the Canadian Pacific Railway have placed a contract with a Washington mill for 2,500,000 feet of lumber.

The Dyment, Butterfield Company, of Barrie, Ont., have purchased a small timber limit and intend operating this winter between Powassan and Trout Creek.

J. Carew, of Lindsay, Ont., who has acquired the Gilmour Company's old limits in Harvey and Cavendish townships, is taking a large stock of logs this winter.

In Michigan millmen are paying farmers the following prices for small lots of logs: Soft elm, $18 a thousand; basswood, $18; rock elm and ash, $12; maple and beech, $10; oak, $10 to $25.

Merrill & Ring, of Duluth, Minn., sold last week several lots of No. 3 and better pine, in all about 8,000,000 feet. Prices are said to have been about the same as have ruled during the fall months.

A. D. Crosbie & Company, of Halifax, N.S., were the purchasers of the cargo of spruce lumber discharged from the barque Albertina which put into Halifax dismasted on a voyage from Anapolis to a South American port.

It is learned that the importations of lumber into Manitoba during the year ended July 1, 1903, were 44,000,000 feet. There were received from British Columbia 92,000,000 feet and from Eastern Ontario 100,000,000 feet.

Navigation statistics for the season just closed show that the lumber passing through the Lachine canal reached an aggregate of 172,485,018 feet, as compared with 144,896,237 feet in 1902, an increase of 27,588,781 feet.

The cooperage trade has settled down to a more steady basis. First-class stack staves are scarce. Flour barrels are still at top prices, 40 and 42½ cents for 6 and 8 hooped. Heading is very strong but hoops are easy. In tight work stock is so scarce that tierces are quoted at $1.75, with pork barrels $1.50.

Current prices of Canadian lumber are quoted by Farnworth & Jardine, London, Eng., as follows:

THE NEW BRITISH COLUMBIA LAWS.

The radical changes in the British Columbia timber laws are still the topic of much discussion. The new act meets with favor in some quarters, while in others it is characterized as unfair. A deputation of men interested in logging limits claim that the act does not suit them. They called upon the government with a view of having the license fee reduced, but this opinion is said to be held only by those who are not operating, but who desire to speculate in the limits. The act is aimed at the American mill men pure and simple. The government official who formulated the act for the government stated to the press that his object was to make the American pay for the privilege of cutting logs in Canada and taking them out of the country. A deputation from the Shingle and Lumber Manufacturers' Association called on the Government and after going over the act with the members of the cabinet, it is said, expressed themselves as satisfied with the objects of the bill, which was to prevent speculation and compel those who leased or secured timber under license to operate.

MIRAMICHI LUMBER SHIPMENTS.

The shipments of spruce deals, etc., from Miramichi, N.B., for the season of 1903 were as follows:—F. E. Neale, per Frank Harrison & Co., 36 million ft.; J.B. Snowball Co., Limited, 23 million ft.; D. & J. Ritchie & Co., 10 million ft.; E. Hutchison, 9 million ft.; A. F. Bentley, 8 million ft.; W. Malcolm McKay, 6 million ft.; Geo. Burchill & Sons, 4½ million ft.; Damery & McDonald, 3½ million ft.

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar care to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

The steamer Astracaoa is loading lumber at St. John, N. B., for Melbourne, Australia.

Felix Lorander, saw mill, St. Boniface de Shawinigan, Que., is reported to have assigned.

THE OTTAWA VALLEY.

[Correspondence of the CANADA LUMBERMAN.]

The recent big sale of Ontario Government limits was naturally enough discussed at length in Ottawa district timber circles. Opinions on the results differ. One well informed operator said the buyers should be able to realize all they had invested. The high water mark, in his opinion, was placed on lumber values by the prices paid at the sale, a fact which should have a tendency to maintain the prices asked for the manufactured article. A Michigan lumberman who was in the city last week informed the local man that the supply of white pine in Wisconsin and Michigan is for all practical purposes exhausted. The moral drawn from this is that Ottawa district prices should continue high, for the reason that the manufactured stuff will no longer have to bear the competition of the product of the Western States in the English, American and South American markets. Despite the higher freight rates, the stuff from the Western States was wont to cut a big swath when brought into competition with the Ottawa district article in the markets mentioned.

Reverting to the prices going at the Toronto sale, however, it may be stated that some of the local operators are of the opinion that the figures paid were not justified by the quantity and quality of the timber purchased. "Of course it's nothing out of my pocket," said one local lumber baron, "but I really believe some of the purchasers were carried away by the excitement of the moment and would not pay the same money if they had another chance. A lot of us who knew the country thoroughly just sat and looked on."

Reports received in Ottawa from the limits go to show that the work of log-making is progressing fairly well, but the cut will not be as large as in former years. The work of log hauling is behind, however, for the reason that it has been impossible to get the teams in, many of the larger lakes not having frozen over. December's exceptionally cold weather is worrying the lumbermen considerably, as they believe it presages an early break-up in the spring, thus shortening the time for hauling.

The MacLaren Company's shingle mill at Buckingham, which closed down a couple of months ago, has started up again and will probably run all winter. There is an active demand for shingles.

Careful inquiry seems to establish the fact that all the deals at the Ottawa district mills have not yet been sold. It is likely, however, that they will all be disposed of at the ten per cent. advance at which the earlier sales were made.

The movement of manufactured lumber from Ottawa is slack at present and prices show no change. With the new year, however, business is expected to pick up.

OTTAWA, December 19th, 1903.

THE GLASGOW MARKET.

Messrs. Edmiston & Mitchells' last monthly timber circular contains the following reference to Canadian lumber :

While business during the month has not shown special activity, still there have been quite a number of important lines of goods disposed of at prices which on the whole may be said to be well maintained. If there is weakness anywhere it is perhaps more evident in first quality pine deals and sidings, recent transactions indicating some such tendency, and it has come as a surprise to the trade, the news that 10 per cent. over last year's prices has already been paid for next season's delivery. Nowadays, Canadian pine has more opposition to face in the shape of kauri, Californian redwood, poplar, &c., and whether prices can be forced up much higher than they are at present is a moot point; certainly another advance will still further restrict the consumption in this market. The import of spruce during the past month or two has been considerable, and stocks in hand are now heavy, but prices are wonderfully well maintained notwithstanding.

WHITE OR YELLOW PINE.—The imports during the month totalled 2150 loads, comprising 1700 loads waney and 450 loads square white pine, the bulk of which was on contract and sold before arrival to the shipbuilders. The demand has been quiet, and there have been no sales of any importance. Stocks of first quality are low, but second class is more plentiful, and slow to move.

RED PINE—There has been an import of 74 loads, and the deliveries have been on the usual small scale. The stock is moderate and sufficient for all requirements.

OAK—The import consists of 300 loads from Quebec and about 200 loads from the Southern States. The demand continues quiet, and the deliveries from the ponds are of a retail character.

ELM—The import amounts to about 200 loads. There have been a number of enquiries during the month, and a few good lines have been placed at fair prices. While the stock in the aggregate is heavy the stock of really good 900-feet wood is low.

QUEBEC BIRCH—The import for November has been about 250 loads, most of which went into store owing to the very slack demand ruling at present. The stock on hand is quite ample for prospective requirements for some time to come. the furniture trade unfortunately showing no signs of revival.

In Lower Port birch there is very little doing and quotations are merely nominal around about 17d. for 15-inch average. The stock on hand is considerable.

ASH—The import continues on a small scale, and it is well that this is so, as the demand is of the most languid description imaginable. There are logs in store which have been there for not less than three years, and they must entail a heavy loss to the importer when finally disposed of. In American round ash, the stock is large and more than sufficient for the small demand existing.

DEALS, &C.—A dull feeling has characterized business during the month, and the deliveries from the public yards have fallen off considerably. Prices of pine deals, though nominally unaltered, have a downward tendency, and sidings, owing to the heavy imports, are easier. Current values are as under : Broad first pine deals, £32 to £34; 11-inch, £29 to £31; ends and non-dimensions, £22 to £24; second pine deals, 11-inch and up, £19 to £21 10s.; ends and non-dimensions, £13 to £14 10s. Third pine deals, 11-inch and up, £13 to £14 10s; ends and non-dimensions, £10 to £11. Red pine deals, 9 and 11 inch, £11 10s. to £12 10s.; narrows, £8 10s. to £9 10. First pine sidings, 9 and 10 inch, £24 to £25; 11 to 12 inch, £25 to £26; 13 to 14 inch, £28 to £29. Spruce deals, 9-inch and up, £8 15s. to £9 10s.; 7 and 8-inch, £7 5s. to £8 5s. Lower Port pine spruce, 7 and 8 inch, £7 to £7 15s.; 9-inch and up, £8 5s. to £8 15s.

Lake Michigan, for London, 1,641,420 ft. deals, 1,487 doors.

SHIPPING MATTERS.

A dispatch from Spokane, Wash., says: Lumber rates from Ymir, B.C., Republic, Wash., and intermediate points on the line of the S. F. & N. to points on the line of the Alberta Railway & Coal Company are to be reduced. To Lethbridge, N.W.T., the reduction is from 57½ cents to 28 cents on lumber from Republic. Relatively large reductions are made all along the line. The tariffs have been prepared by the S. F. & N. in connection with the Great Northern and the Alberta Railway & Coal Company and the date they become effective will be announced in a few days. At present there are no through tariffs and the lumber has to pay local rates on the three roads. The Alberta road is a Canadian line owned and operated by the Great Northern from Sweetgrass, Mont., to Milk River, N.W.T. It reaches the section being rapidly settled up by Mormons, and there is said to be a large and increasing demand for lumber. The new rates from Ymir range from 23 cents to Lethbridge to 32½ cents to Milk River, and from Republic 28 cents to Lethbridge and 37½ cents to Milk River.

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. IX. TORONTO, CANADA, DECEMBER 30, 1903 No. 48

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman — A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

Large number of Round Piles, for dock work, in Spruce, Pine, Tamarac or Hemlock, 45 feet long, not less than 16 inches at butt end, and 10 inches at top. Address, RANDOLPH MACDONALD, Contractor, Three Rivers, Que.

AGENCY WANTED

We want exclusive sale of Hardwood Flooring and Spruce Sheathing (in car lots) and Doors for some Quebec or Ontario firm who are not now represented in the Maritime Provinces. Write prices and commissions. Box 113, care CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

The close of the year finds Ontario lumber in a strong position. Notwithstanding the activity in manufacturing, millmen have been able to dispose of a very large percentage of their cut and are carrying light stocks in their yards. Box lumber, mill culls and dead culls in pine have passed out of manufacturers' hands almost entirely, and it would be difficult to find a large block of any of these grades. The supply of dressing and better, which has sold more slowly during the fall months, is somewhat larger but not above an average stock. An Ottawa valley manufacturer reports that he has sold all his lumber and anticipates higher prices during the coming year. Conditions in the hardwood trade are equally favorable. Earlier in the season it was feared that there might be a large stock of hardwood logs taken out, but later reports show that a conservative policy is being pursued. We look for hardwood prices to continue firm and perhaps advance during the coming spring unless unusually favorable weather should encourage increased logging operations.

The present demand is confined largely to the lower grades of pine lumber and to such hardwoods as are required by implement, furniture, and other consuming factories. There is very little doing in shingles and lath, and prices, if anything, are inclined to be a little easier.

QUEBEC AND NEW BRUNSWICK.

Prices of spruce lumber keep firm, not because of the demand, which is only moderate, but owing to the light supply. It is said that some manufacturers are

curtailing their operations in the woods this winter owing to the expense of logging, and it is predicted that the quantity of logs for next season's sawing will fall short of that of the past season. The weather so far has been favorable for logging, and, especially in New Brunswick, good progress has been made. Forecasts of wintering stocks of spruce deals indicate a reduction as compared with one year ago. There is very little life to the shingle market, extra cedars still ranging from $3.35 to $3.45 on Boston rate of freight.

MANITOBA AND BRITISH COLUMBIA.

From the standpoint of the manufacturer the lumber business of Manitoba and the Territories is not in a very satisfactory condition. Large quantities of low grade stock continue to be shipped in from the mills across the border and sold at cut-rate prices. As the present consumption is not large, this leaves but a small trade for the Canadian mill men. With the turn of the year more activity is expected and prices are likely to become steadier. Winnipeg is looking forward to another good building season next year. In British Columbia the local and export demand is keeping up remarkably well, but eastern shipments are dull. The new timber regulations are commanding a great deal of attention and some modification seems likely.

UNITED STATES.

The lumber trade of the past week has corresponded very closely with what was expected. There has been some buying of small lots, but in no respect has the demand been active. Winter building in the Eastern States is calling for considerable stock, and it is stated that a very light supply is being carried by retail dealers. Attention is now centred upon the balancing up of the year's business and upon the volume of lumber carried by manufacturers and dealers. There is a comparatively heavy stock of shop lumber in the Lake Superior district, but manufacturers are disposed to hold until the prices asked can be realized. No. 1 shop is held at the mills at $40, No. 2 at $31, and No. 3 at $18. The scarcity of box lumber is general, no district reporting a large supply. In the Upper Wisconsin and Minneapolis districts the amount of piece stuff on hand is considered short of the probable spring demand. Norway pine is in light stock and held at firm prices. The general feeling in pine circles is that a steady volume of business at good prices will characterize the coming year. A large consumption of low grade boards is expected, in anticipation of which a number of orders have already been placed. Birch, soft elm and basswood lead among the hardwoods. Thick maple is wanted at Buffalo. In some markets ash is also scarce. The call for hemlock dimension and boards is naturally quiet, but the market is firm and the outlook for the coming year considered bright.

GREAT BRITAIN.

In the British market orders for lumber have dropped to the lowest point of the year. This is due chiefly to the advent of the holidays, and until after the turn of the year business will continue very quiet. Some buying of Canadian pine and spruce is reported, as dealers and consumers are beginning to realize that prices of lumber in stock are low when compared with the prices asked by shippers for next season's supply. Prospects for next year are brighter than they were three months ago. While stocks generally are of an average volume, there is a scarcity of the better grades. A cargo of spruce from Dalhousie, N.B., recently reached Liverpool and was immediately purchased by James Halsall & Son. The price realized has not transpired. The supply of pine deals is concentrated in the hands of a few firms, who are said to have already made their engagements for next season at high prices. This would seem to guarantee the maintenance of present values for some time to come.

White Sea shippers are said to be asking £11 for third quality Archangel redwood deals. Agents have endeavored to close contracts on this basis, but it is reported that few transactions have taken place. Considerable sales to France and Belgium are announced.

STOCKS AND PRICES.

Fully 6,000 men are at work this season in the woods in the Rainy River district.

James Hoey is getting out about 800,000 feet of logs at Prince of Wales, in St. John county, N. B.

Rhodes, Curry & Company, of Amherst, N. S., intend to take out 5,000,000 feet of lumber on their Sheet Harbor property.

The Albion Lumber Company, of Moser River, N, S., expect to take out in the vicinity of 4,000,000 feet of logs this winter.

The United Lumber Company, Halifax, N.S., are taking out about 8,000,000 feet of logs for their Jordan River mills. About 10,000,000 feet will be cut on the St. Mary's property, lately purchased by Alfred Dickie, Lower Stewiacke, N. S.

The John Arbuthnot Company, of Winnipeg, has concluded negotiations for the purchase of the balance of last season's cut of lumber now in A. R. McLennan's yard at Wabigoon, Ont., and the whole of next year's cut of the same firm. The present stock is about 1,250,000 feet, and the 1904 cut will be 4,000,000 feet. Two million feet of logs are already in the water, left over from last season, and two camps are in operation on Long Lake.

There is not as much lumber in stock at Buffalo to begin winter with as there was a year ago, but the trade all round is getting used to shortages, and there is much less difficulty from that direction than there used to be. Common grades of white pine are scarcer than they should be, on account of the great run made by the box factories. The middle grades are somewhat uncertain in price but the holder of them is gaining confidence and will no longer sell them at buyers' prices, as some have done during the fall. High-grade pine is quiet, but firm.

Eastern shingles are about steady at Boston on a basis of $3.35 to $3.45 for extras. The stock of shingles offering is very light at all points, but the feeling is so strong that the market in the spring will open at a higher level that the leading handlers are not inclined to accept any business for February or March delivery at a lower basis than $3.50. Most of the small mills have cleaned up their entire holdings, and will have nothing to offer from now on except winter sawed stock.

During the season of navigation to December 1, there was entered at the custom house at Bay City, Mich., 104,354,596 feet of lumber, and at Saginaw 29,463,183 feet, making a total of 133,817,779 feet, and the 4,000,000 which came in since the first of the month makes the receipts about 138,000,000 feet, compared with 160,000,000 feet last year. There was shipped out during the season by lake only about 3,000,000 feet, compared with 858,000,000 feet during the season of navigation of 1882, showing the wonderful transformation in the lumber business of the Saginaw Valley in a score of years.

Under date of December 5th Messrs. S. P. Musson, Son & Company say of the Barbados market: "The only arrival has been the steamer "Viking," from Tusket Wedge, N.S., with about 40,000 feet of white pine and 156,000 feet of second quality spruce. Nothing has yet been done with the former, but the latter had been contracted for at $20. Most of it, however, consists of 3 and 4 inch boards, which have been rejected and re-sold at $15, any usual second quality being taken at the original price. We have 125,000 feet of white pine coming, and with the 200,000 feet second quality which is also expected, the wants of dealers are fairly provided for, and we rather expect that next arrivals will meet lower prices. No arrival of shingles has taken place since last report. Stocks of Laying Cedar are ample, but Long and Dimension Gaspe are saleable."

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar care to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

TRADE OPENINGS.

The following was among the inquiries relating to Canadian trade received at the Canadian Government Office in London during the week ending 18th December, 1903.

An Irish dairy society desires to get into touch with parties in Canada who can supply them with small cut-up boards, suitable for nailing into butter boxes.

The name of the firm may be obtained from the publishers of the CANADA LUMBERMAN.

NEW BRUNSWICK STUMPAGE DUES.

The New Brunswick Government has given notice that pursuant to the new regulations made regarding crown timber lands, the following amounts are hereafter to be collected for stumpage:

On spruce, pine, fir, hacmatac, and cedar logs, per thousand superficial feet	$1 25
Hardwood timber, up to an average of 14 inches square, per ton	1 10
Hardwood timber, above 14 inches, aditional inch, per ton	0 10
Hardwood logs, per M superficial feet	0 80
Pine timber, up to 14 inches, square, per ton	1 25
Pine timber, additional per inch, per ton	0 25
Hacmatac timber, per ton	0 65
Spruce timber, per ton	0 65
Cedar logs, per M superficial feet	1 25
Or per M on the shingles sawed from same, the first three grades each	0 16
Shaved shingles, per M	0 25
Railway ties, ordinary length, each	0 02½
Boom poles, each	0 02
Brackets, each	0 01
Spruce or pine spars, for ships' masts, etc., per lineal foot	0 01
Spruce or pine piling, per lineal foot	0 00¼
Hemlock per M superficial feet, full scale	0 40
Hemlock bark, per cord	0 80
White birch logs, for spool wood, per M superficial feet	0 80

And for all other description of lumber, such as knees, foot hooks, cordwood, etc., etc., fifteen per cent. of the market value thereof at the mill, place of shipment or place of consumption in the province.

The upset price for mileage on timber licenses will be twenty dollars per square mile, and the renewal mileage on timber licenses will be eight dollars per square mile.

TELEGRAPH POLES WANTED

We buy all lengths. Write us for prices and you will see that by cutting your Cedar into Poles it will net you more than you can get out of it in any other way.

THE HARDWOOD SITUATION.

Some of the wholesale and retail yard men in Chicago say that they are having a brisk inquiry for stock, largely in small lots, as the average consumer does not care to purchase more than sufficient to keep him running from day to day. Large consumers are not buying much, excepting some of those outside of the city who are contracting quite a quantity of stock for delivery in January and February. As a rule, however, buying on any large scale has been postponed until after the first of the year and the wholesale trade is not handling more than can be comfortably supplied from the moderate stocks at hand.

One of the most encouraging features of the situation, says the American Lumberman, is that inquiries are increasing in number for delivery early next year. Several firms in this market have recently remarked on this feature of the situation, which they say promises a contiuously active market after the middle of January. One dealer states that his inquiry for deliveries early in the coming year are about as plentiful as he ever had.

Prices have not shown much of a tendency to sag despite the falling off in demand. Quarter sawed white oak has shown a slight weakness and yet few holders are sacrificing it, as they realize that this is not the season of the year for consumption and are content to hold until the demand naturally rises, which will no doubt take place shortly after the first of the year. Quarter sawed red oak is holding firm. Plain white oak and red oak are both steady and inquiries for future delivery on the increase.

Basswood displays some weakness, but this is no doubt merely owing to the temporary lack of demand. Former consumers of basswood have had their attention largely called to other woods of late and this has caused an apparent plentiful supply of basswood, which really is not the case, as there is scarcely any variety of lumber that is in less supply. Rock elm has lately come to the front and the demand continues unabated, with light supply to draw from. White ash continues a much wanted article in all markets and both mills and assembling points are said to be out of stock.

WANTED

Pine Cutting common and better, 6½ inches long and up, 4 in. and wider, 1½ in. thick and thicker. State quantity and price for yearly supply from saw mills or factories.

FIRES.

The planing mill of D. Atchison & Company, at Hamilton, Ont., was almost totally destroyed by fire last week. The loss is about $20,000, largely covered by insurance.

The dry kiln of the Canada Cabinet Company at Gananoque, Ont., was destroyed by fire on December 26th, at a loss of $8,000. Considerable lumber was also burned.

The Dyment, Butterfield Company, of Barrie, Ont., advise us that the statement in last issue that they had purchased and intended operating a small timber limit near Powassan is not true, as no such purchase has taken place.

THE DULUTH LUMBER CUT.

This year the mills in the Duluth district of Minnesota have cut 885,000,000 feet of pine lumber. This is as great an amount as was ever cut in the district. Of the cut of this year about 500,000,000 feet was shipped to the east by water via Duluth. The rest was distributed by rail to Chicago, the west and the south. Practically the entire cut of mills in the city of Duluth goes east by water, and with it about 100,000,000 feet cut by interior mills. The value of the white pine cut of the district this year is about $17,500,000.

The probabilities are that the cut of the coming year will decrease about twenty-five per cent. Mills go into the winter with small stocks on hand, and with less unsold lumber than they have had in years. On docks in Duluth there are only 110,000,000 feet of all classes of lumber and of this more than half is sold. Interior mills of the district have, perhaps, 250,000,000 feet on sticks in their yards, a great share of which will go forward during the winter.

CANADIAN LUMBER SHIPMENTS.

From Halifax, N.S.: Str. Ionian, for Liverpool, 275,495 ft. spruce deals, value $3,045. Schr. Baden Powell, for Demerara, 23,163 ft. pine boards, value $325. Schr. George R. Alston, for Demerara, 115,000 ft. pine boards, value $2,500. Str. Manchester Commerce, for Manchester, 310,715 ft. spruce deals, value $3,215.

From St. John, N.B.: Str. Bangor Head, for Belfast, 314 pcs. oak timber, 22,592 ft. box shooks, 232,257 ft. deals, 1,403 ft. ends. Schr. William Marshall, for Washington, 1,425,600 laths. Schr. C. B. Flint, for New Bedford, 49,026 ft. spruce boards, 65,663 ft. spruce plank, 125,693 ft. deals, 500,000 cedar shingles. Schr. Romeo, for Boston, 1,387,000 shingles, 20,425 ft. boards. Schr. Luta Price, for Boston, 139,759 ft. boards, deals and planks.

TIMBER LIMIT TRANSACTIONS.

William Armstrong, of Fork River, N. W. T., has purchased a timber limit from Shaw Bros. at Crooked River, 60 miles west of Erwood, on the Canadian Northern Railway.

John C. Kain, of Quebec, has just purchased a small timber limit from Ives Bouillion of Tadousac. The limit consists of 15 square miles and is situated at Bergeron, 15 miles east of Tadousac, on the north shore. The timber is chiefly cedar and spruce. Mr. Kaine intends manufacturing pulp wood.

Current freight rates on lumber from British Columbia points are as follows: Sydney, 27s 6d to 30s; Melbourne or Adelaide, 27s. 6d to 30s; Port Pirie, 26s 3d to 27s 6d; Fremantle, 35s; Shanghai, 33s. 9d to 35s; Kiao-Chau, 35s; Taku, 35s to 37s 6d; Vladivostock, 40s; West Coast S. A., 28s 9d to 32s 6d; South Africa, 45s to 47s 6d; U. K. or Continent, 45s to 47s 6d.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 32 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. X. TORONTO, CANADA, JANUARY 6, 1904 No. 49

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Month'y Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED

To Correspond with Manufacturers of Hardwood Lumber. with a view of purchasing 1904 Cut.

We also want few cars of Ash and Basswood for immediate shipment.

HURDMAN & ELMITT,
Ottawa, Ont.

FOR SALE

About 1144 acres of land in the Township of Melbourne, Richmond County, P Q, Range No. 1, Lots No. 25 and 26; Range No. 2, Lots No. 25, 24 23 and ½ lot No. 22.

The property is all under wood of various kinds. There is a well defined band of slate about one hundred feet in width throughout its entire length, and believed to be of the same character and high quality as on the adjoining property operated for many years by the New Rockland Slate Company.

It has also adjoining it an unfailing water supply, which could be made available for power.

This property therefore possesses the threefold combination of an available supply of wood, slate and water, which might be used so as to produce good investment. It is also convenient to railroad station.

The lowest cash price to a prompt buyer for the whole property has been placed at five dollars per acre, which is the price now asked by the Quebec Government for bush lots in remote districts.

Further particulars or plans of the property may be obtained on application to

MR. WILLIAM SMAILL,
Care The Canada Horse Nail Co.,
Montreal, Que.

WANTED—TWO CAR LOADS OF 1" OR 1½" Beech, log run. UNITED FACTORIES, LIMITED, Newmarket, Ont.

OUR ANNUAL REVIEW.

The publishers of this journal have sent out a large number of circulars to lumber manufacturers throughout the Dominion soliciting certain information regarding the lumber trade of 1903. This information is desired for the purpose of assisting us in compiling our annual review, and it is not the intention to associate the name of the manufacturer with the information given, but rather to use it as a basis for a general article, as in former years. Some manufacturers have not as yet returned the circular sent them, and as it is necessary that we should have their assistance in order to arrive at a thorough understanding of the conditions which prevailed in all localities, we respectfully request all who have not done so to send in the desired information promptly.

CURRENT TRADE CONDITIONS.

ONTARIO.

The advent of the new year brought no increased activity to the lumber trade. The movement of stock during the past week has been very light and confined to urgent orders. Buyers are making inquiries concerning the prices asked by manufacturers for next season's cut, and some contracts are likely to be closed very shortly. The more conservative persons are disposed to wait until they are better able to judge of the prospects for spring business, but others seem to be of the opinion that a fair season will be experienced and that lumber bought at present prices is good value. The universal report from manufacturers is that lumber stocks are not heavy. The logging season opened favorably, but the deep snow which now prevails in the northern woods is interfering with operations and is likely to result in curtailing the output. It is probable that the cut of hemlock in particular will be short this winter owing to the great depth of snow and the difficulty that was experienced in the early fall in getting men at a reasonable wage.

QUEBEC AND NEW BRUNSWICK.

The statement of wintering stocks at Quebec shows the strong position of spruce deals. The total quantity carried over this winter is approximately 4,300,000 feet, as compared with 8,000,000 feet one year ago. The export from the St. Lawrence slightly exceeded last year's shipments. The stock of pine deals is practically nil, but this is due in part to the fact that Quebec is now an unimportant shipping point for pine lumber. The wintering stock of square pine is 413,469 cubic feet, as compared with 395,962 cubic feet one year ago. The corresponding figures for waney are 406,038 and 261,393 cubic feet. The explanation of this increase is that the stocks carried over one year ago were exceptionally light. With the exception of last season, the stock wintering this year is under that of any previous year. Prices asked for rafts now making show a considerable advance over earlier figures. Red pine, elm, ash and birch are in lighter stock than one year ago, while the wintering stock of oak shows a decided increase, the figures being 491,851 and 192,161 cubic feet. It is evident, therefore, that the advanced prices have stimulated production. A reduction in the quantity manufactured this winter seems probable. In New Brunswick and Nova Scotia prices of spruce lumber are reported to be a little easier. There has been a drop in the price of spruce logs from $13, the high point reached a few months ago, to $11, the current quotation. It is believed, however, that values will gradually increase, which is much to be desired, as about 30,000,000 feet of last season's cut of logs, which were bought at high prices, are hung up above Grand Falls, on the St. John river.

UNITED STATES.

The close of the year finds the lumber trade of the United States in a satisfactory condition. Lumbermen are much encouraged by the fact that although towards the end of the year the demand fell off considerably, the stock of unsold lumber is light, perhaps below the average. In the Saginaw valley stocks of white pine are about 15 per cent. less than one year ago. A few contracts have been made with manufacturers for stock for next season's delivery and some large transactions are said to be pending. The price list committee of the Mississippi Valley Lumbermen's Association will meet this week, when it is probable that an advance will be made in the price of dimension.

The lists of the new white pine association formed at Buffalo show only 13 per cent. of box lumber. This is a very low stock and before the new cut is ready it will be necessary to substitute other kinds of lumber for boxes to a very large extent. This will have a strengthening effect upon the general market. Mill culls and scoots are also in very light supply in Buffalo. A dealer recently sold a quantity of scoots at $12.00. The most liberal supply is of No. 2 and No. 3 barn. There is a better demand for No. 3 cuts, and norway is moving with some freedom. The consumption of hardwood lumber has been checked by the holiday period and less complaint is made of the scarcity than was the case one month ago. There is more birch in sight than there was a year ago, notwithstanding that the demand has been quite strong. Hemlock is quiet, but there is no disposition to cut prices. The trade is of the opinion that the production this winter will be light. In Pennsylvania, for instance, the production this year is estimated at 500,000,000 feet, as compared with 800,000,000 feet in 1903.

GREAT BRITAIN.

Advices from Great Britain reflect the uncertainty which prevails in business circles. The different views expressed regarding a fiscal policy are not conducive to confidence, and the best that is hoped for is that trade conditions may become no worse. Agents of lumber exporters are making their usual rounds and are suceeding in placing some stock, but it is small in quantity as compared with one year ago. There is some satisfaction in knowing that pine and spruce deals are looked upon as likely to continue firm in price on account of the prospective light export from this country. A moderate quantity of waney pine timber is going into consumption, but the demand for square pine is light. Dealers anticipate a fair demand for ash, birch and elm, as the quantity carried by dealers is not large.

STOCKS AND PRICES.

Charles O. Black, of Oxford, N. S., will take out 4,000,000 feet of logs this winter.

During the past year Buffalo shipped 178,000,000 feet of lumber by lake, or 30,000,000 feet less than 1902.

Mason & Gordon, of Montreal, have 50 men at work taking out square timber on their limits near North Bay, Ont.

The ship Wilhelmine has just loaded 1,400,000 feet of lumber at Chemainus, B. C., for Cape Town, South Africa.

It is estimated that a little over 300,000,000 feet of lumber has been shipped from Saginaw Valley points by rail during the past year.

E.I. White & Son, of Sand River, N.S., expect to cut during the coming season 3,000,000 feet of lumber, 3,000,000 lath, and 10,000 pcs. spruce piles.

The Turner Lumber Company, of Midland, Ont., have fourteen camps in operation this season. Their log input will probably be as great as last year.

In the North Tonawanda market pine uppers are selling at from $84 to $95, according to width and quality, while 4-inch selects are quoted at $92 by some dealers.

The Canadian Section of the Imperial Institute, London, England, has received an inquiry from a manufacturing company of Cardiff, who wish to be placed in communication with Canadian manufacturers of box shooks.

A lumberman who recently visited the Georgian Bay district states that there is no lumber for sale in that district, the cut of the year having been sold out. He says that he never knew lumber to be sold up so closely.

It is reported that a steamer has been chartered to load part cargo of lumber at Chemainus, B. C., for Calcutta, during February. The steamer Khyder is loading at same port for Australia and the steamer Hydra will load for Chili.

The Hanbury Manufacturing Company, of Brandon, Man., expect to cut 7,000,000 feet of lumber during the coming season. They have a mill at Cranbrook, B. C., operated under the name of the North Star Lumber Company, where they will cut 8,000,000 feet the coming year.

Messrs. J. H. Moore and C. P. Roe, who were in Toronto recently on their return from the lumber camps of the Georgian Bay district and Algoma, say that the shortage in the output is very marked in some instances. The cut of the Georgian Bay Lumber Company alone will be reduced from 80,000,000 feet, the output of last season, to 60,000,000 feet.

Notice is given in the British Columbia Gazette that tenders will be received by the Lands and Works Department, Victoria, up to noon, Wednesday, January 20th, from any person desirous of obtaining a lease under section 42 of the Land Act of a timber limit situated on Vancouver Island, known as lots 119, 120, 121, 122, 123, 124 and 125, Rupert district, containing in the aggregate 21,956 acres.

Messrs. Claremonte, Man & Company in their last report say regarding the Barbados market: "There have been four arrivals of white pine and spruce during the fortnight. The last sale of white pine for a cargo on the spot was at $25.75 per thousand for merchantable and $20.75 for second quality; spruce, $22 for merchantable and $18 for second quality. Last sales of Gaspe long cedar shingles were at $5.57; Cedar Laying, $2.05 to $2.07½."

E. T. Carrington, of Bay City, and Mr. Arnold, of Albany, have purchased the interest of their partners in the Spanish River Lumber Company, comprising some stock in the Spanish River Boom Company, some 50,000,000 feet of pine, and a large quantity of hardwood and cedar in the Spanish River country. The firm stocks a saw mill formerly owned by the company, but which was sold to Bay City parties two years ago.

BRITISH COLUMBIA LETTER.

VANCOUVER, B. C., Dec. 24—This is a very dull time of the year in the lumber trade. The British Columbia Gazette shows but a half dozen applications for licenses to cut timber, and the loggers who have returned from the coast are spending their Christmas holidays in town.

Now that the full text of the new timber regulations have been thoroughly understood, there is a general dissatisfaction on both sides. Those who expressed satisfaction a week ago have been entirely converted, and nine out of every ten timbermen believe that the government has made a mistake in trying to please the few rather than the many. They have increased the revenue of small holders who could not afford it, and allowed the monied men who hold timber under no restrictions, having acquired it in the early days, to come into unfair competition with those who have to finance their deal from first to last with the banks.

The news from up country is to the effect that there is great activity in the lumber business. These sections are near the ever-growing Northwest Canada.

Theodore Ludgate, a well known mill man, has completed a magnificent mill, as large as any mill on the cost, near Chamainus on Vancouver Island. In that vicinity alone there is an army of 1,000 men at work logging. This applies to different sections in the Kootenay, so that in spite of the statement that there is no money in the logging business, there seems to be no let up to the establishment of new mills throughout the province.

SAVANNE MILLS SOLD.

The entire holdings of the Savanne Lumber Company at Savanne, Northwestern Ontario, including mills, bush outfit and limits, were sold by public auction at Savanne a few days ago, and the property knocked down to Patrick Hogan, the sum paid being $14,000. The mills are situated on the C.P.R., about two miles west of Savanne station, where they have been operated for seven or eight years. This site is to be abandoned and the mill removed to a point near Kashebowie, on the Canadian Northern Railway, in which neighborhood the company's limits are located. Mr. Hogan was resident manager for the company.

TO HOLDERS OF BIRCH LIMITS

Can you cut birch into Squares, &c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

TELEGRAPH POLES WANTED

We buy all lengths. Write us for prices and you will see that by cutting your Cedar into Poles it will net you more than you can get out of it in any other way.

THE LUMBER SITUATION.

Mr. Jesse D. Crary contributes to the New York Lumber Trade Journal a very able review of the lumber situation, from which we extract the following :

Another important item in the lumber world is spruce timber. It is higher to-day than ever before, and we look for no lower prices. The stock is in the hands of a very few operators. A dozen firms perhaps own three-quarters of all the standing spruce in Maine, an equal number control the bulk of the timber in New Brunswick, while the spruce timber of West Virginia is in the hands of a few operators, and these owners are able to maintain a conservative policy. The demand for spruce for pulp makes them absolutely independent, and the financial standing of those concerned makes a conservative policy possible and probable. For instance, we know of one firm in Maine that owns 250,000 acres that could easily cut 25,000,000 feet a year, that will be satisfied to cut 10,000,000 feet. I anticipate no material decline in the price of spruce timber during the year 1904.

Several weeks ago there was manifested a slight weakness in the upper grades of white pine, but that weakness to-day has disappeared and there is no evidence of any other weakness. The price of the season's cut of deal has been materially advanced, but even at the advanced price it probably nets the operator no more than it did before, and perhaps even less, because of the increased expense of operating. There is no reason to anticipate any lower prices in white pine.

Half a dozen operators control practically all the hemlock that comes to the New York market, and from all the information I can gain the present price is being maintained, with no prospect of a break. The present basis of $17 will not be lower this season, in the opinion of those most interested. In fact, holders of hemlock state with confidence that they have the situation fully in hand.

There is not a weak spot in the hardwood situation, and no reason to believe that present prices will not be maintained. In fact, in some respects advances would not be at all improbable. There is absolutely no surplus stock of anything in hardwoods. In some lines there is an actual shortage. There will probably be some scattering lots of hardwoods which will be offered at prices which might be called "off," but not so with the bulk of the stock. The probabilities are that poplar will range from $50 a thousand feet. Quartered oak will probably advance, as there is a great scarcity of this particular wood. Plain oak will hold its own. Ash will probably hold its own. In fact, it may be safely said as a general proposition that the hardwood market is all right and will stay all right.

THE NEW BRUNSWICK LOG PRODUCTION.

The cut of logs on the Miramichi in the province of New Brunswick this season is estimated at 100,000,000 feet, but the winter so far has been favorable and this estimate may be exceeded. Last year the cut on the same river was 125,000,000 feet. The cause of the reduction in this winter's cut is, first, the sluggishness of the British market ; second, the present high rate of wages ; third, the difficulty of securing woodsmen ; fourth, the advanced cost of provisions and other camp requisites ; fifth, the long distance to haul logs, which is annually increasing, and sixth, the smaller sized logs which operators are taking out. It is pointed out that much of the territory in New Brunswick has been cut over once and that the present growth is younger trees, and correspondingly smaller.

The stock wintering on the Miramichi in logs is about 5,000,000 feet more than last year, and the sawn stock 10,000,000 feet greater, and even at the reduced winter cut, next season's shipments will probaby be as large as this season's.

The increased cost of logs last year, even with so much lower wages and expenses than prevails this year, made holders of saw and pulp logs very conservative as regards selling prices. If this continues next season, the price of lumber will be maintained, and many manufacturers are looking for an advance.

THE DEMAND FOR BOX LUMBER.

There never was a time in the history of the lumber and box trade when the box business was in more satisfactory condition than it is at the present time, so far as demand and price go. There is not a box shook producer in the country who is not buried out of sight with orders, many of them being sold ahead for months. White pine box lumber is short and relatively high.

This condition of the box business ought to be highly satisfactory to the lumber trade in general. By following the trend of the box industry a very accurate estimate can be made on lumber conditions in general. When the box business is good lumber business is good. So long as manufacturers produce enormous quantities of goods and put them in cases so long will the country in general be in a condition of prosperity that will induce building of houses, additional factory facilities and exert a demand for lumber for other purposes that will be large in volume and strong in price.

So long as the box business is good white pine shop lumber may go $5 or $10 off or to the demnition bow-wows, and still the lumber business as a whole will be alright. The box demand is the keynote to the entire situation.—American Lumberman.

CANADIAN NORTHERN RAILWAY

The New Canadian Highway from Port Arthur, the head of Lake Superior, to :—

FORT FRANCES MORRIS GLADSTONE
WINNIPEG EMERSON NEEPAWA
PORTAGE LA PRAIRIE CARMAN DAUPHIN
BRANDON HARTNEY SWAN RIVER

HEMLOCK.

The prospects are for higher prices in the hemlock market, and it is generally believed that with the opening of trade in the spring an actual conservative advance will be made. As the new year approaches it is possible to detect a gradual feeling for the better. From the trend of the commercial and financial reports favorable developments in general trade are at hand. The feeling of uncertainty has reached its height, says the Mississippi Valley Lumberman, and confidence in a healthy business condition throughout the country is prevalent. A large consumption of lumber is looked for and in the middle west the building movement is expected to be quite extensive. Dealers in hemlock have bought sparingly of stock for more than six months ; have substituted their stocks rather than buy additional material ; owners of two or more yards have been shipping from one to the other ; meanwhile consumption has been going on, manufacturers have prepared to curtail production, and all these causes have resulted in a very small visible supply of hemlock. On this basis the market is in a decidedly promising condition to grow strong.

Spring trade is not expected to come with a rush, as dealers will continue their policy of retrenchment, but this will necessarily pass by with the advance of spring. Dealers will be cautious and conservative but not timid. There is an expanding population pressing for new homes to be reckoned with and trade must necessarily be of good volume.

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. X. TORONTO, CANADA, JANUARY 13, 1904 No. 50

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman — A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED

To Correspond with Manufacturers of Hardwood Lumber. with a view of purchasing 1904 Cut.

We also want few cars of Ash and Basswood for immediate shipment.

HURDMAN & ELMITT,
Ottawa, Ont.

FOR SALE

About 1144 acres of land in the Township of Melbourne, Richmond County, P Q, Range No. 1, Lots No. 25 and 26; Range No. 2, Lots No. 25, 24, 23 and ¼ lot No. 22.

The property is all under wood of various kinds. There is a well defined band of slate about one hundred feet in width throughout its entire length, and believed to be of the same character and high quality as on the adjoining property operated for many years by the New Rockland Slate Company.

It has also adjoining it an unfailing water supply, which could be made available for power.

This property therefore possesses the threefold combination of an available supply of wood, slate and water, which might be used so as to produce good investment. It is also convenient to railroad station.

The lowest cash price to a prompt buyer for the whole property has been placed at five dollars per acre, which is the price now asked by the Quebec Government for bush lots in remote districts.

Further particulars or plans of the property may be obtained on application to

MR. WILLIAM SMAILL,
Care The Canada Horse Nail Co.,
Montreal, Que.

WANTED—ONE OR TWO CARS 1¼" DRY Maple, Beech or Birch for factory flooring. LAKING, PATTERSON & Co., Hamilton, Ont.

Mortgage Sale

Of Valuable Mill, Mill Site, Timber Limits, Farm and Dwellings.

Under the powers contained in certain Mortgages, made by John J. Wilson and Josiah Kean (Wilson & Kean), which will be produced at time of sale, there will be offered by Public Auction at their mill premises, Fesserton, County Simcoe, Ont., on WEDNESDAY, FEBRUARY 17TH, 1904, at 2 o'clock p.m., the lands more fully described in said mortgages, but briefly known as follows:

Parcel No. 1.—The J. J. Wilson farm of 65 acres more orfless, part of lot 5, Con. 11, Township of Tay, with comfortable dwelling house and outbuildings thereon.

No. 2.—The mill, mill machinory and mill site of "Wilson & Kean," being part W. ½ lot No. 5, Con. 12, Township of Tay, 5 acres more or less, lying between the Midland Railway and Georgian Bay. This mill site is most conveniently situated as to railway and water-ways for shipping and getting in stock, and is well fitted up and in good running order, with a capacity of 20 M per day. Also complete shingle, lath and hoop outfits in connection (engine 60 h.p. and boiler 80 H. Tube, with Cook furnace). On this parcel there are also two comfortable frame dwelling houses, blacksmith shop, store house, stables, offices, etc., all in good order.

No. 3.—A small strip of land 105 feet x 82 feet adjoining the mill site aforesaid, being part S. ½ of west part lot 5, Con. 12, Tay, with sheds used for piling hoops, shingles, etc.

No. 4.—Timber and trees on lots 23 and 24, Con. 6, Township of North Orillia, held under timber contract expiring 1st April, 1910.

No. 5.—W. ½ lot 22, Con. 5, North Orillia (land and timber), 100 acres more or less.

No. 6.—Lot No. 2, Con. 6, Matchedash, 200 acres more or less (land and timber).

The timber lands are said to be well wooded with mixed timbers and are conveniently situated near North River for driving to the mill and other Georgian Bay points.

The properties will be offered subject to reserve bid, and sold en bloc, or in parcels to suit purchasers.

Terms—10 per cent. of price on day of sale, balance within one month thereafter Further particulars and descriptions will be made known on day of sale, or in the meantime on application to

J. L. ROSS & CO., Mortgagee,
or to
J. C. BROKOVSKI, Solicitor for Mortgagee.

Dated Coldwater, Ont., Jan. 12th, 1904.

WANTED—A QUANTITY OF INCH BASSwood. Apply "W. & S.", care CANADA LUMBERMAN.

Mill Machinery For Sale

CIRCULAR SAW FRAME, CARRIAGE WITH Track. 3 Saw Edger, Slab Slasher with 5 Saws, Trimmers, Double Lath Mill, Shingle Mill, Endless Chain and Bullwheel, 4 Water Wheels, Shafting, Pulleys, Gears, Belting, Conveyor Chain, Giant Planer, Hashing Mill, Iron Turning Lathe. JOHN KNIGHT, Douglas, Ont.

The Arthur Hill Company, Limited, of Saginaw, Mich., has disposed of all its property at private sale and is no longer in business. This company purchased about 200,000,000 feet of timber in the Georgian Bay district several years ago, which was cut and manufactured at Midland, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Orders for lumber have been a little more plentiful during the past week, but shipments have been retarded by scarcity of cars. Several manufacturers have a large number of orders waiting to be shipped out, which will reduce the stock of unsold lumber materially. Of a comparatively light stock in mill yards, there is less box and mill culls than other grades. The outlook for spring trade is considered satisfactory. The pine manufacturers are in some doubt as to the extent to which the demand will be curtailed through the presidential election in the United States, but apart from this factor there are no present nor prospective unfavorable conditions. It is expected that the home consumption will absorb almost the entire production of hardwood lumber, which as a result will be little affected by the conditions which may exist across the border. There seems to be a determination to endeavor to obtain an advance of one dollar per thousand feet for hemlock as compared with the prices which ruled in 1903. Logging has been very expensive and excessive depth of snow is resulting in a very light input of logs. In some sections of the Georgian Bay district there are four feet of snow on the level.

Information comes from Ottawa that Messrs. Sharples & Company have purchased the deal output of the mills of W. C. Edwards & Company and the Hawkesbury Lumber Company. The prices, as in previous sales, are said to represent an advance of 10 per cent. over those realized for the production of last year. In the Wiarton district as high as $12 per thousand is being paid for maple logs. These circumstances point to a firm lumber market.

QUEBEC AND NEW BRUNSWICK.

The customary dullness which generally marks this season in the lumber trade is quite pronounced in respect to spruce. No sales of deals for the British market are as yet reported, buyers being very cautious about entering into contracts until the course of events in Great Britain becomes more certain. Stocks carried by the mills, however, are lighter than one year ago; in some parts of Nova Scotia the yards are completely sold out. The log cut this winter is likely to be smaller than last season. On the Restigouche and Miramichi rivers the decrease is estimated at 20 per cent. Cedar will be very short in supply owing to the uncertainty of the United States market. Cedar shingles are barely steady, prices ranging from $3.35 to $3.45 for extras and $2.85 to $2.95 for clears, Boston delivery.

UNITED STATES.

Interest in white pine circles has centred upon the action of the price list committee of the Mississippi Valley Lumbermen's Association, which met last week to revise the list. In some quarters it was predicted that an advance would be made on several lines, including dimension timbers. However, a conservative policy was pursued and such advances as were decided upon were offset by reductions on other grades. The list as it now stands represents current selling prices. The advances were on No. 1 boards and products, 13 inch and wider, $2 per thousand feet; 12 inch and wider, $1; No. 1, 8-inch, 18 and 20 feet long, $1 50; No. 2, 8-inch, 18 and 20 feet, $1.50; small timbers, 12, 14 and 16 feet, 50 cents. Reductions were made on inch selects, C norway and thick selects, also flooring and siding. Mixed and No. 2 lath were reduced 25 cents. A canvass of the situation showed that stocks of lumber on hand are practically the same in amount as at this time last year, but there is a scarcity of low grade boards. The curtailment in the log crop this winter will be about 20 per cent. and the majority of the large plants which operated night and day expect to run days only during the coming season. The present outlook is that there will be a large amount of building during the year, and many manufactures and dealers believe that prices of lumber are likely to advance. Several important sales of white pine to be cut as soon as the mills resume operations are reported. A decline of about $2 per thousand in the price of oak lumber is about the only change in the hardwood situation. There is a fair demand for elm, basswood and birch. Dealers are now accumulating stocks as fast as possible in anticipation of a brisk demand from consumers early in the spring. In the Saginaw valley a large supply of maple is reported.

GREAT BRITAIN.

In Great Britain the new year has not opened auspiciously for the lumber trade. The uncertainty regarding the fiscal policy and the fear of war in the East are two factors not calculated to inspire confidence. On the other hand the stocks of lumber at the leading ports are not excessively large and in many cases are represented largely by the lower grades. These are frequently sold under the hammer and consequently the prices realized are apt to convey a wrong impression as to the current market prices for regular shipments. Spruce and pine deals are in the hands of firms who are financially able to hold for an indefinite period, which fact has had much to do with the exceptional strength of these classes of lumber during the past few months. Ireland is taking considerable quantities of 9 inch spruce deals. White pine deals of best quality sold lost year as high as £40 per standard. There has been a slight falling off from this figure, but prices are still high. As soon as the political situation becomes more settled there will no doubt be a revival in trade, in which lumber is likely to share to the full extent.

STOCKS AND PRICES.

Extensive logging operations are being carried on in the vicinity of Musquash, N. B.

The Standard Lumber Company, of Buffulo, reports a good trade in maple and plain red oak.

Log run maple is quoted in the Saginaw valley at $17.50; ash, $22; birch, $19 to $22; elm, $21 to $24; basswood, $25 to $27.

Sixty acres of timber lands in the parish of St. Mary, Kent county, N.B., were last week purchased from the Government by the M. McLachlin Company at $129 per square mile.

The logs comprising part of the Higgins estate, Vancouver, B.C., were recently sold by auction to the Pacific Coast Lumber Company, who had already advanced money on them.

Men for the woods are becoming more plentiful and in consequence wages are coming down. Bushmen who a few months ago could command $32 per month can now be engaged for $28.

The Department of Railways and Canals at Ottawa will receive tenders up to February 20th for the supply of British Columbia Douglas fir timber required for the Rideau canal this year.

Duncan Graham and G. B. Ferguson, of Renfrew, Ont., who purchased 25 square miles of timber limits at the recent timber sale in Toronto, have started a camp near North Bay and are taking out square timber.

C. K. Eddy & Sons, of Bay City, Mich., who own approximately 500,000,000 feet of pine timber in the Georgian Bay district, are not cutting any logs this winter, believing that the timber is a good asset to hold.

Slack cooperage stock prices are said to be slightly easier, although there is still a scarcity of No. 1 staves. Flour barrels are quoted at Buffalo at 50 cents for 6-hooped and 52½ cents for 8-hooped. Jobbers quote No. 1 dry elm, flour barrel staves at $13 and No. 2 at $9.50; No. 1 basswood heading, 10¼ cents; No. 2, 6 cents; coiled hoops, $9.25 for 5½ foot and $9.75 for 6 foot.

Calls for all kinds of hardwoods are increasing and the business shows a small gain over previous weeks, says the Mississippi Valley Lumberman. There has not been much disposition to take hold, and now that the holidays are over and the factories have a moderate number of orders on hand, they are inclined to take a little stock and start up factories. There is no pressure of any kind of stock on the market and the reverse condition prevails in most varieties.

WHITE PINE PRICE LIST.

The new price list on white pine adopted by the Mississippi Valley Lumbermen's Association took effect January 6th, 1904. The prices are f.o.b. Minneapolis, based on the new standard grades. For joists, scantling, common boards, etc., the prices are :

JOISTS, SCANTLING AND TIMBER, ROUGH.—2x4, 6 ft., $11; 8 ft., $14; 10 ft., $15; 12, 14 and 16 ft., $15; 18 and 20 ft., $17; 2x6, 6 ft. $13.50; 8 ft., $14; 10, 12, 14 and 16 ft., $15; 18 and 20 ft., $17; 2x8, 6 ft., $13-50; 8 ft., $14; 10 to 16 ft., $15; 18 and 20 ft. $17; 2x10, 6 ft., $13.50; 8 ft., $14; 10 to 16 ft., $15.50; 18 and 20 ft., $17.50; 2x12, 6 ft., $14.50; 8 ft., $15; 10 ft., $18; 12 and 14 ft., $17.50; 16 ft., $17; 18 and 20 ft., $18.50; 2x14, 10 ft., $19; 12 to 16 ft., $17.50; 18 and 20 ft., $20; 3x8 and 3x10, 10 ft. $18; 12 to 16 ft., $16; 18 and 20 ft., $18.50; 3x12, 10 ft., $18.50; 12 to 16 ft., $17.50; 18 and 20 ft., $19; 4x4 to 8x8, 10 ft., $18; 12 to 16 ft., $16.50; 18 and 20 ft., $18.50. For No. 2 dimension deduct $1.50 and for No. 3 dimension deduct $3.

COMMON BOARDS, ROUGH.—No. 1, 13 inch and wider, 12 to 16 ft., $25; 18 and 20 ft., $26; 12 inch, 10 ft., $25.50; 12 to 16 ft., $24; 18 and 20 ft., $26.50; 10 inch, 10 ft., $21.50; 12 ft., $20.50; 14 to 16 ft., $19.50; 18 and 20 ft., $22.50; 8 inch, 10 ft., $17.50; 12 and 14 ft., $19.50; 16 ft., $20; 18 and 20 ft., $21. No. 2, 13 inch and wider, 12 to 16 ft., $19; 12 inch, 10 ft., $20.50; 12 and 14 ft., $20; 16 ft., $19; 18 and 20 ft., $22.50; 10 inch, 10 and 12 ft., $18; 14 and 16 ft., $17; 18 and and 20 ft., $9.50; 8 inch, 10 ft., $17.50; 14 and 16 ft., $16.50; 18 and 20 ft., $18. No. 3, 12 inch, 10 and 12 ft., $17.50; 14 and 16 ft. $16.50; 18 and 20 ft., $18; 10 inch, 10 to 16 ft., $15; 18 and 20 ft. $15.50; 8 inch, 10 ft., $14; 12 to 20 ft., $15; 4 inch and wider, 10 ft., $13.50; 12 to 20 ft., $14.50. No. 4, 4 inch and wider, 6 to 20 ft., $11.50. No. 3 and 4 mixed width boards may contain not to exceed 10 per cent. of 4 inch and 20 per cent. of 6 inch. No 4 inch boards may contain not to exceed 25 per cent. of 6, 8 and 10 feet. For all white pine No. 1 and 2 boards, all widths and lengths, add $1 to above prices.

ONE INCH FINISHING, 8 1S or 2S.—First, second and third clear, 12 inch, 10 ft. and longer, $58.50; 10 inch, $51.50; 8 inch, $50.50; A select, 12 inch, $55.50; 10 and 8 inch, $50.50; B select, 12 inch, $50.50; 10 and 8 inch, $45.50; C select, 12 inch, $45.50; 10 and 8 inch, $39.50; D select, 12 inch and wider, $34.50; 10 and 8 inch, $29; D box, 13 inch and wider, $38.50; D stock, 12 inch, $31.50; 10 and 8 inch, $27.50; C and better Norway, 8 inch and wider, $25; Shop common, $21.

LATH.—No. 1 white pine, $3.50; mixed, $2.75; No. 2, $2.25; ⅝ fence lath, 4 ft., $6.

BROOM HANDLES

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar care to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

The special attention of any of our readers who may be on the lookout for timber properties is directed to the advertisement in this issue of mortgage sale of valuable mill, site, timber limits, etc., at Fesserton, Simcoe County, Ont. We understand that there is on this small limit a considerable quantity of valuable timber. The property is situated convenient to the North River so that supplies of timber might be brought down from points on the Georgian Bay.

Standard *A* white cedar shingles	2.10

BRITISH COLUMBIA LETTER.

VANCOUVER, January 6th, 1904.—The owners of timber lands Crown-granted prior to 1887 are about the only men engaged in the logging industry who are altogether satisfied with existing conditions. This is due to the fact that the Government, in its recent amendment to the Land Act, neglected to bring the timber on their holdings within the application of its graduated tax and rebate scale. As a consequence the owners of such lands are still free to export their logs, cedar or fir, to the United States upon the payment of the royalty of 50 cents per thousand feet, as provided for by section 54 of the Act. It is generally believed that the Government intended, when it drafted its bill of the amendment to the Land Act, to embrace within its application timber lands Crown-granted prior to 1887, but by some mistake such was not done. The export of timber cut from such lands can now only be prevented by an amendment to the present Act.

For the first time since the amendment to the Land Act became law, a boom of logs cut on the E. & N. Railway lands on Vancouver Island paid royalty to-day prior to transportation to Puget Sound. The royalty was paid according to Schedule No. 1 of the amendment and ranged from $1 per thousand feet to $1.50 per thousand feet, according to the diameter of the logs in the boom. Payment was made by a logger named Cook, who is operating on a section of the E. & N. grant. The boom measured approximately 600,000 feet. The seller and exporter of the boom explained that he was merely trying the exportation as an experiment to demonstrate to his own satisfaction whether or not any profit, under the terms of the amended act, could be made through selling logs on the Sound.

The British Columbia Logging & Lumber Compay, operating at the northern end of Vancouver Island, has determined to cease operations. The manager, Mr. E. W. Wilson, says that the action the company proposes to take is forced upon them by the new schedule of taxation of timber. They have invested about $75,000 in timber on Vancouver Island, which cost an average of $1 a thousand feet board measure standing. Logging the timber cost them from $3.50 to $4.50 more, and towing the logs 75 cents. The total cost thus came to about $5.75 per thousand. "We might, of course," said Mr. Wilson, "build a mill here, but what guarantee have we that we shall not be taxed out of existence if we do. It would not have been so bad if they had given us time to turn round, but they did not even do that. The law went into operation immediately, and I have just paid taxes on logs we had already cut before the measure was fairly before the House. Logs in Vancouver and in the Sound are at present worth from $4 to $6 per M. Now, as we understand the bill just passed, we will be taxed from $1 to $5 per M., according to grade and size of timber. Any person can readily see that it is an utter impossibility to carry on a logging busineess at those rates. We have now two logging camps in operation employing from 70 to 80 men, and we pay these men from $3 to $4.75 per day, and many of them are ranchers from whom we bought timber, thus giving them in addition steady employment at better wages than they ever had before. We employ only white labor. We intended opening two more camps in the spring, and then erecting a saw mill, but with this unjust tax bill before us we have only one alternative left, that is, to cease operations, close our camps and leave our standing timber untill such time as a new law is enacted."

The Victoria Lumber and Manufacturing Company, on the other hand, state that there is a scarcity of logs in British Columbia. Mr. J. J. Palmer, manager of the mills at Chemainus, in a recent interview said: "I am in the market for 10,000,000 feet of merchantable fir, and I will pay $6.50 per thousand feet, cash, for fir logs delivered at the Chemainus mills." This company announce that they have been unable to procure a sufficient supply of logs in British Columbia, and as a result are importing logs from Puget Sound. A boom of 700,000 feet is now on its way to Chemainus from Port Ludlow, and another tug will follow with a boom of about 600,000 feet.

The firm of H. H. Poole & Company has been incorporated at Buffalo, to deal in lumber. The capital stock is $50,000.

WANTED

Pine Cutting common and better, 6½ inches long and up, 4 in. and wider, 1½ in. thick and thicker. State quantity and price for yearly supply from saw mills or factories.

TIMBER LIMIT TRANSACTIONS.

A Quebec firm is reported to have purchased part of the limits of F. L. & A. Herdritter, situated onthe Jacques Cartier river and extending through the townships of Stoneham and Tewkesbury. The limits are well wooded with spruce and the price paid is said to have been in the vicinity of $500 per mile.

T. G. Proctor, of Nelson, B. C., acting for the Kootenay Valleys Company, of which he is the manager, has sold the timber on a 10,000 acre block of land situated between the junction of the Kootenay and Elk rivers in British Columbia. The purchasers are V. Hyde Baker and Ryan & McNab, of Cranbrook. The price paid was $50,000. The same parties purchased from Mr. Proctor's company 800 acres of land for a mill site located on the banks of the Kootenay river. It is said to be the best mill-site on the river, for the reason that logs can be held in it during all stages of water.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. X. TORONTO AND MONTREAL, JANUARY 20, 1904 No. 51

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED

By the Car load, White and Rim Ash Logs cut into lengths of 4 ft. 6 in. or multiples, 6 in. and up in diameter. To be sound clean timber free from knots. State price per cord.

Montreal.

FOR SALE—300 TAMARAC PILES 30 FEET long, 9 in. and over at top end; immediate or spring delivery. Box 212, Burk's Falls, Ont.

FOR SALE—FOUR MILLION FEET OF Standing Timber and good Mill, a bargain. Also quarter million Hardwood Logs. DOBIE & CO., Thessalon.

WANTED — 1" CULL SOFT ELM AND Black Ash, also all kinds of Dry Hardwood Lumber, common and better. R. F. KINSMAN, Hamilton, Ont.

WANTED—BIRCH, 1" TO 4" THICK; 5/8" quarter-sawn Spruce for Sounding Boards; 1" and 2" Brown Ash; 1", 1¼" and 1½" Basswood 12 ft. long. All Hardwoods to be square edge Send full particulars and price to HOLT & STANLEY, 147 Milk Street, Boston, Mass.

WANTED

A GOOD SECOND-HAND ALLIGATOR. Apply, stating length, age, etc., to RIORDON PAPER MILLS, Limited, Wood Supply Department, Hawkesbury, Ont.

FOR SALE

One 20 H. P. Fire Box Boiler.
One 30 H. P. Horizontal Returned Tubular Boiler.
One 15 H. P. Horizontal Returned Tubular Boiler.

All complete with fittings and tested. Low price for immediate sale. Address ALFRED RUBBRA, Machinery Exchange, 22-24 Victoria Square, Montreal, Quebec.

Mortgage Sale

Of Valuable Mill, Mill Site, Timber Limits, Farm and Dwellings.

Under the powers contained in certain Mortgages, made by John J. Wilson and Josiah Kean (Wilson & Kean), which will be produced at time of sale, there will be offered by Public Auction at their mill premises, Fesserton, County Simcoe, Ont., on WEDNESDAY, FEBRUARY 17TH, 1904, at 2 o'clock p.m., the lands more fully described in said mortgages, but briefly known as follows:

Parcel No. 1.—The J. J. Wilson farm of 65 acres more or less, part of lot 5, Con. 11, Township of Tay, with comfortable dwelling house and outbuildings thereon.

No. 2.—The mill, mill machinory and mill site of "Wilson & Kean," being part W. ½ lot No. 5, Con. 12, Township of Tay, 5 acres more or less, lving between the Midland Railway and Georgian Bay. This mill site is most conveniently situated as to railway and water-ways for shipping and getting in stock, and is well fitted up and in good running order, with a capacity of 20 M per day. Also complete shingle, lath and hoop outfits in connection (engine 60 h.p. and boiler 80 H. Tube, with Cook furnace). On this parcel there are also two comfortable frame dwelling houses, blacksmith shop, store house, stables, offices, etc., all in good order.

No. 3 —A small strip of land 105 feet x 82 feet adjoining the mill site aforesaid, being part S. ½ of west part lot 5, Con. 12, Tay, with sheds used for piling hoops, shingles, etc.

No. 4.—Timber and trees on lots 23 and 24, Con 6, Township of North Orillia, held under timber contract expiring 1st April, 1910.

No. 5.—W. ½ lot 22, Con. 5, North Orillia (land and timber), 100 acres more or less.

No. 6.—Lot No. 2, Con. 6, Matchedash, 200 acres more or less (land and timber).

The timber lands are said to be well wooded with mixed timbers and are conveniently situated near North River for driving to the mill and other Georgian Bay points.

The properties will be offered subject to reserve bid, and sold en bloc, or in parcels to suit purchasers.

Terms—10 per cent. of price on day of sale, balance within one month thereafter. Further particulars and descriptions will be made known on day of sale, or in the meantime on application to

J. L. ROSS & CO., Mortgagee,
or to
J. C. BROKOVSKI, Solicitor for Mortgagee.

Dated Coldwater, Ont., Jan. 12th, 1904.

FOR SALE—20 H.P. PORTABLE BOILER and Engine, price $700; also Saw Frame and Carriage, price $100. Address Box 95, CANADA LUMBERMAN.

FOR SALE—TEN SETS OF HEAVY LOG and one set of Tank Sleighs, almost new Lumber would be taken in payment. A. H. EBERT, Wiarton, Ont.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

WANTED—CEDAR POSTS AND 2" AND 3" Tamarac for next winter's delivery. Dry hardwood lumber for immediate shipment. R. E. KINSMAN, Hamilton, Ont.

A1 MILLWRIGHT AND ENGINEER wants situation to build or take charge of modern box or saw mill; highest reference. Address Box 99, care CANADA LUMBERMAN.

CURRENT TRADE CONDITIONS.

ONTARIO.

The present lumber demand is on a winter basis, and the deep snow is interfering with the execution of such orders as are placed. Judging by the number of inquiries received by manufacturers there is reason to believe that an active trade will develop at an early date. No doubt some of these inquiries are made with a view to ascertaining the disposition of mill men towards prices. There is unanimity on one point, namely, that pine stocks will not be offered at prices lower than prevailed during the past year. A few mill cuts are already under option, and Saginaw and Bay City dealers have closed contracts for a quantity of stock. It is expected that within the next month a large proportion of the Georgian Bay cut will be contracted for. The Ottawa valley production of British deals has, with the exception of the output of one mill, been disposed of, the buyers being Messrs. Watson & Todd, J. Burstall & Company, Robert Cox & Company and W. & J. Sharples. Considerable waney timber to be taken out this winter has also been placed with the Montreal and Quebec shippers at an advauce of from 10 to 15 per cent. over last year's prices.

The hardwood market is gathering strength and is in good shape. Business is expected to pick up sharply during the next month or six weeks. The output of logs is being curtailed by the great depth of snow and there is every reason to expect that it will be possible to market all the stock to be cut this year at prices equal to or above those now ruling.

QUEBEC AND NEW BRUNSWICK.

The cold weather has retarded the movement of lumber to the Eastern States. The large spruce mills shipping by water are closed for the season and this has given some activity to rail shipments. Although the demand is generally quiet

prices are firm and there is some inquiry in anticipation of the spring trade and some disposition to supply probable needs. New Brunswick cedar shingles are reported to be sligh ly weaker, with considerable quantities of extras offered at $3.40 for Boston delivery. Spruce laths are firmly held at $3.40 for 1⅝ inch and $3.20 for 1½ inch.

MANITOBA AND BRITISH COLUMBIA.

Retail dealers are placing a few orders for lumber in anticipation of spring demand but trade is by no means active. It is not expected that business will improve very much before the middle of February. In British Columbia both lumber and shingles are quiet, but a good season is anticipated. In spite of the wet weather building operations in Vancouver and Victoria are active and a number of large buildings are being arranged for. Very few logs are being put in the water, and labor in the camps is freely offering. Wages are now on about a par with those paid on the American side of the line, as there has been a further reduction this month of from 25 to 50 cents per day.

UNITED STATES.

The lumber market of the United States has assumed a more promising aspect. There is some inquiry on the part of both retail and wholesale dealers, and as a considerable amount of building is in progress, and the amount promises to increase in volume as the spring approaches, a moderate demand for lumber seems assured. Dealers in the Eastern States are looking for an active trade and almost unanimously agree that prices are likely to be maintained. There has already been a slight improvement in the upper grades, as will be seen by reference to our Buffalo list. There should be no difficulty in maintaining the price of box lumber, as grades suitable for box making are almost entirely out of the market and the demand for boxes is as great as ever. In Albany 10-inch box is selling at $20 and 12-inch at $21. The statistics regarding the northern pine cut and stocks show that the stock of white pine on hand at the close of 1903 was 148,167,000 feet less than at the close of 1902 and 423,704,000 feet less than at the close of 1901. The production was less than in the previous year, but it appears that stocks on hand have diminished to a greater extent than has the production. In the face of these statistics there seems to be little ground on which to base the hope of lower prices.

An increase in the movement of hardwoods is reported from several points. Before the new cut is ready for the market present stocks promise to be wiped out, making lower prices almost an impossibility. Nearly all consuming factories are operating to their full capacity, and a good demand for furniture and other goods for which hardwood furnishes the raw material is expected. Soft elm is strong and scarce and birch and basswood find ready sale. Ash is reported to be a little irregu'ar, but it will no doubt improve upon the approach of spring.

GREAT BRITAIN.

All classes of lumber have been moving slowly in Great Britain of late. A few sales for next season's import have taken place at prices said to represent a compromise between buyers and sellers. It is generally considered, however, that there is not much possibility of a material decline in prices. During the past year the import of lumber was greater than in the previous year, yet notwithstanding the frequent complaints of limited consumption, stocks on hand at the close of the year were not above the average. The better qualities of pine deals are in light stock and commanding full prices. The lower grades, on the other hand, are not inquired for to any extent, and in some districts prices are said to be a shade easier. New Brunswick and Nova Scotia spruce deals have arrived by the liners in larger quantities than is usual, but lumber has been readily taken. It is reported that a cargo of St. John spruce had been sold to Belfast parties at £8 13s 6d per standard c.i.f. Belfast. It is also stated that on account of the high prices asked for spruce deals some buyers have been looking elsewhere, and as a result 10,000 standards of Galatz deals have been sold to British firms for 1904 delivery. By some it is claimed that this move on the part of importers will have an effect on spruce prices. Only a moderate business is doing in waney pine, the present high prices tending to restrict consumption. Oak is going into consumption at an average rate and the stock of rock elm has been reduced to a low point.

STOCKS AND PRICES.

Logs from the Madawaska timber limits are arriving at J. R. Booth's mill at Ottawa at the rate of 100 carloads per day.

The saw mill at Sidney, B.C., which resumed operations recently, has just made a shipment of 100,000 feet of lumber to Hong Kong.

The French Creek Lumber Company, of Vancouver, B.C., recently shipped logs to the United States on which they paid a dollar a thousand royalty.

It is reported that Dobell, Becket & Company have purchased from J. R. Booth, of Ottawa, the waney timber taken off his Madawaska limits this winter.

The W. H. Sawyer Lumber Company, of North Tonawanda, N. Y., recently shipped 750,000 feet of high grade pine, surfaced on four sides, to South Africa.

The Ladysmith Lumber Company, of Ladysmith, B.C., cut during the season of 1903, 6,100,000 feet of lumber, 5,000,000 laths and 5,000,000 shingles, all of which were sold.

Two Duluth firms are said to have sold not less than 75,000,000 feet of white pine lumber for the coming season's delivery, while others have sold lesser amounts and the total business already done at Duluth probably exceeds 150,000,000 feet. This is on a cut that is now estimated at not over 300,000,000 feet.

All cooperage stock is still scarce unless it be hoops, which are comparatively low and weak in price, Buffalo quotations running from $9.25 to $9.75 for 5½ and 6-foot, which is lower than the price has been for years. Elm flour barrel staves are up to $13.50 and basswood heading 10½ cents for first-class.

W. S. Cook, of Vancouver, B. C., is a loser to the extent of some $3,000 by the breaking of a boom of logs he had stored along the shore of Hardwick Island, on Johnstone Straits. The boom contained 300,000 feet of logs and was stored awaiting the arrival of a tug to tow it down to the mill at Vancouver. Herbert Gilley, of New Westminster, B. C., recently suffered a similar loss. A boom of logs sold to the Monarch Lumber Company, of Blaine, Wash., met with a strong wind and when the boom reached Blaine it contained only 70 out of the 350 logs which it originally comprised.

The output of the several saw mills on the Saginaw river in Michigan in 1903 was approximately 97,000,000 feet. During the season there was brought into the river from other manufacturing districts by boat 138,000,000 feet as compared with 160,000,000 feet the previous year. How the lumber industry in Michigan has declined may be judged from the fact that in 1851 the saw mills on the river manufactured 24,000,000,000 feet of lumber.

The Department of Interior at Ottawa is asking for tenders for licenses to cut timber on Dominion lands, as follows: Up to Wednesday, January 27th, for Berth No. 1122 and comprising 110 square miles to be selected within seven different tracts in the district of Alberta; up to February 3rd, for Berth No. 1130, comprising sections 1, 2 and 3 in Township 4, Range 12, east of the first Meridian, containing 3 square miles; Berth No. 1129, comprising sections 4 and 9, Township 3, Range 11, 2 square miles; Berth No. 1128, comprising sections 22, 23 and 27, Township 4, Range 10, 3 square miles, all east of the first Meridian, Province of Manitoba; up to February 10th for Berth No. 1126 on east side of Lake Winnipeg, and comprising 2 square miles, to be selected in not more than two blocks.

Alfred Dobell & Company, Liverpool, Eng,, quote the following prices for Canadian lumber:

Clairmonte, Man & Company report as follows regarding the Barbados lumber market: "There have been six arrivals with white pine and spruce during the fortnight and our market is fully stocked, but prices have been fairly maintained. Last sale of white pine for a cargo on the spot was at $25 per thousand for merchantable and $20 for second quality; spruce $21.17 for merchantable and $17.17 for second quality. Last sales of Gaspe Long Cedar shingles were at $5.57 and Cedar Laying at $2.05 to $2.07½. There have been no late sales of Spruce Laying. Arrivals have been "Dixon Rice," from Weymouth, N.S., with 188,000 feet spruce, sold at $21.10; 15,000 feet second quality, sold at $17.10; 6,000 feet white pine, $25.10; 4,000 ft. second quality, $20.10; 16,000 feet hemlock, $18.10; "Lolita," from Liverpool, N. S., 90,000 feet white pine, $25; 40,000 feet second quality, $20; 38,000 feet spruce, $20.50; 20,000 feet second quality, $16.50. "Helen Shaffner," from Mahone Bay, N. S., 187,000 feet hemlock, sold at $18 for first and $14 for second quality; 53,000 feet white pine, $25. Schooner "W. R. Alston" from Halifax, N. S., 110,000 feet white pine, sold to arrive at $27 for first and $22 for second quality. "Edouard," from Halifax, 161,000 feet white pine and spruce for Antigua."

NEW BRUNSWICK CEDAR SHINGLES.

At the present time, owing to the protracted cold weather and heavy snow storms, the consumption of shingles is very light. It is well known that at this season of the year there is never much business and this particular season is if anything more quiet than usual. We understand that a good many of the manufacturers still have on hand a proportion of their 1903 cut. The winter mills are now in operation and will be in a position to make some shipments before long. These facts will make it possible for the retail trade to replenish their stocks at fairly advantageous prices.

We understand that the stocks in retailers' hands are about normal. Prospects for building operations in New England the coming spring are fairly good and we are inclined to believe that the market this winter will follow the usual course, that is to say, that prices will be somewhat easier for some little period to come. This will be followed by a hardening in values towards spring. The present quotations are as follows, f.o.b. cars, Boston rate of freight: Extras, $3.35 to $3.45; clears, $2.85 to $2.95; 2nd clears, $2.25 to $2.40; clear whites, $2.15 to $2.25.

TO HOLDERS OF BIRCH LIMITS.

LONDON TIMBER REPORT.

The following particulars of the London timber market are extracted from Foy, Morgan & Company's annual circular :

PINE.—The prices asked in January for the spring shipments seemed at first recklessly extravagant to the London dealers, and it is not surprising therefore that for two months or more forward business was at a standstill. In March, however, some 1st and 2nd quality were sold, buyers having by that time decided that they must again accept in good faith shippers' statments of the reduction in the supply of good quality pine. The import has been larger than last year, but the surplus consists almost entirely of 3rd and 4th quality of pine, on which there has consequently been a serious drop in values, although the higher qualities still hold their own. Business has been of a retail character, and the consumption smaller than during any of the previous five years. Canadian shippers are now paying for 1904 production some 10 per cent. advance on last season's prices, the equivalent of which will certainly be stoutly resisted by the importers on this side.

SPRUCE.—Selling for the new season commenced in February, when some considerable contracts of Quebec spruce were closed on the basis of £10 and £9 15s. for 2nds, and £9 5s. for 3rds 3x9 c.i.f. With regard to battens, 3x7 3rds were placed at £7 15s. and £7 12s. 6d. c.i.f., but most shippers asked 10s. more for 8-in. The best stocks of unsorted lower port spruce next found a fairly ready sale at £8 5s. and £8 7s. 6d., for average 9 in., while 3x7 and 8 alone, of which there was evidence of a considerable surplus in shippers' stock notes, were pressed on the large markets as low as £7 c.i.f. In March several new stocks of Galatz white being pressed for sale at £8 10s. to £8 15s. for 3 x 9 and 3 x 11, all spruce business experienced a very decided set-back —the more especially as spot prices had meanwhile not shown an adequate response to the higher cost of the new supplies. The second quarter of the year, which witnessed the collapse of Riga White prices, was a critical period also for the spruce market, but shippers, having only small stocks to deal with, and knowing the high cost to replace in consequence of the competition from the States, refused to drop prices. Meanwhile the long-continued drought in Canada helped the situation materially by still further diminishing the expected supplies. The import has consequently been unusually small, and the season ends with small stocks on this side and prices re-established after the nominal decline in the summer. At the shipping ports the wintering stocks are reported to be smaller than they have been for many years.

RED PINE.—A large part of the previous autumn's importation of deal sizes was carried over and sold at auction during the early months of the year. The prices realized for parcels of really good quality showed at first considerable improvement, but as soon as the inferior shipments began to be catalogued, the market dropped heavily. Buyers are naturally suspicious about this wood as regards sap, so that parcels showing any discoloration are often very difficult to sell. The shipments made this summer, however, came forward in good bright condition, and were to a large extent disposed of privately. Red pine has only a limited vogue except as a substitute for Baltic redwood, so that while sizes which are scarce will often fetch as much as Baltic fir, one may see those which are plentiful selling at the same time at a heavy discount. The experiment made in 1902 in shipping this wood to the Cape proved a success, so that considerable new orders were placed this spring, starting in February, at £10 5s. for 3x9, and £8 for 3x7 and 8 f.o.b. Montreal. This trade was greatly facilitated by the inauguration of a line of Inter-colonial steamers, which catered for the parcel trade at a freight of 75s. These sales checked business in the regular Swedish deals with the Cape for several months, and largely caused the drop in prices referred to above.

LUMBER PRODUCTION AND STOCKS.

Interesting statistics concerning the lumber production and stocks on hand are contained in the last issue of the American Lumberman. The statistics refer to the States of Michigan, Wisconsin and Minnesota. The total cut of pine lumber in these states during 1903 was 4,791,852,000 feet, as compared with 5,294,395,000 feet in 1902, 5,336,448,000 feet in 1901, and 5,485,261,000 feet in 1900. The maximum figure was reached in 1890, when the cut was 8,597,623,000 feet, and since that time the cut has gradually declined. The stocks of northern pine on hand at the close of 1903 were 1,964,552,000 feet, compared to 2,112,719,000 feet in 1902, 2,388,266,000 feet in 1901, and 2,839,705,000 feet in 1900. Stocks on hand at the close of last year were 857,153,000 feet less than at the close of 1900, while during the same period the production declined 693,709,000 feet.

The shingle production has been irregular and the totals do not show that degree of decline that pertains to the output of lumber. The production in 1903 was 2,342,202,000, in 1902 2,685,757,000, in 1901 2,471,627,000, and in 1900 2,400,679,000. The stocks on hand at the close of last year make a heavy showing as compared with 1902, the figures for the two years being 627,072,000 and 397,815,000. This surplus is accounted for by the dull market that prevailed late last season, together with increased competition from red cedars.

The hemlock output of Michigan, Wisconsin and Minnesota in 1903 was 11,334,444,000 feet, against 1,277,814,000 feet in 1902, 1,264,943,000 feet in 1901, and 1,166,288,000 feet in 1900. There has been a steady gain in the total production of hemlock since 1899. The stocks on hand at close of last year were 515,935,000 feet, which compares with 441,634,000 feet in 1902, 574,406,000 feet in 1901, and 622,312,000 feet in 1900.

Reports from 122 wholesale dealers show that at the end of last year they were carrying 938,034,000 feet, while one year earlier 90 dealers were carrying in their yards 936,483,000 feet. For this year the average amount of northern pine held by each yard would be 7,688,803 feet, against 10,405,374 feet last year.

DEMAND FOR SQUARE AND WANEY TIMBER.

The great feature in the London market, say Denny, Mott & Dickson, has been the increase in the price of waney pine and rock elm. The scant supplies of these woods in Quebec were cleared to Europe without effort at unprecedentedly high prices; and, although such high cost has checked the use of these woods on this side and increasingly caused Oregon pine to be used as a substitute for white pine decks, &c., a fairly satisfactory substitute for rock elm has not yet been found. The fact of an abnormally small wintered stock at Quebec of these woods is causing the Quebec shippers to still further increase prices; and, in face of this information, it is for consumers here to learn to do without these woods or to pay during next year the extravagant prices demanded. Oak is in good supply, and prices have been, and seem likely to remain, comparatively cheap.

CANADIAN NORTHERN RAILWAY

The New Canadian Highway from Port Arthur, the head of Lake Superior, to :—

FORT FRANCES MORRIS GLADSTONE
WINNIPEG EMERSON NEEPAWA
PORTAGE LA PRAIRIE CARMAN DAUPHIN
BRANDON HARTNEY SWAN RIVER

Line surveyed and now under construction to :

PRINCE ALBERT BATTLEFORD EDMONTON

FREIGHT :—Shipments are handled from points in Eastern Canada either Grand Trunk or Canadian Pacific Railways via North Bay to Port Arthur, thence Canadian Northern Railway, or via Chicago.

PASSENGER :—Passengers destined to points on the Canadian Northern Railway north, south and west of Winnipeg, can purchase through tickets via Chicago and St. Paul, where connection is made with the Canadian Northern Flyer for Winnipeg via Great Northern Railway, also with Northern Pacific Railway.

Freight rates, Folders and other information furnished on application to :—

HARDWOOD, HEMLOCK AND PINE LUMBER

We carry a full supply of native Hardwoods always on hand and solicit your inquiries. At the present time we have piled at outside points about 2,000,000 feet of Hardwoods, and about the same quantity of Hardwood, Hemlock and Pine piled here in Owen Sound, and we should be able to interest you if in the market.

WILL MAKE SPECIAL PRICES ON BROKEN LOTS AT OUTSIDE POINTS

For Sale

Extensive timber limits, perhaps the finest in Canada, embracing several hundred miles of limits, Sawmill and Water Power. Magnificent possibilities for Pulp and Sulphide mills.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages} $1.00 PER YEAR {The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. X. TORONTO AND MONTREAL, JANUARY 27, 1904 No. 52

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED

By the Car load, White and Rim Ash Logs cut into lengths of 4 ft. 6 in. or multiples, 6 in. and up in diameter. To be sound clean timber free from knots. State price per cord.

HURDMAN & ELMITT,
Ottawa, Ont.

WANTED—CONTRACT TO CUT 10 TO 12 million feet logs during season 1904, by up-to-date mill on Georgian Bay; lake and rail shipments. Apply Box 97, care CANADA LUMBERMAN.

$3,000 WILL BUY A MUSKOKA SAW and Shingle Mill, Tramways, 6 Dwellings Barns, Blacksmith Shop, etc. Saw mill 100 horse power, capacity 25 to 20 M per 10 hours. Good locality for cutting hardwood and hemlock. We could supply a stock of logs for next season; also have some standing timber for sale cheap. Plenty of timber in the vicinity. Address Box 86, CANADA LUMBERMAN.

FOR SALE

FACTORY FLOORING

FOR SALE

One 20 H. P. Fire Box Boiler.
One 30 H. P. Horizontal Returned Tubular Boiler.
One 15 H. P. Horizontal Returned Tubular Boiler.
All complete with fittings and tested. Low price for immediate sale. Address ALFRED RUBBRA, Machinery Exchange, 22-24 Victoria Square, Montreal, Quebec.

Mortgage Sale

Of Valuable Mill, Mill Site, Timber Limits, Farm and Dwellings.

Under the powers contained in certain Mortgages, made by John J. Wilson and Josiah Kean (Wilson & Kean), which will be produced at time of sale, there will be offered by Public Auction at their mill premises, Fesserton, County Simcoe, Ont., on WEDNESDAY, FEBRUARY 17TH, 1904, at 2 o'clock p.m., the lands more fully described in said mortgages, but briefly known as follows:

Parcel No. 1.—The J. J. Wilson farm of 65 acres more or less, part of lot 5, Con. 11, Township of Tay, with comfortable dwelling house and outbuildings thereon.

No. 2.—The mill, mill machinery and mill site of "Wilson & Kean," being part W. ½ lot No. 5, Con. 12, Township of Tay, 5 acres more or less, lying between the Midland Railway and Georgian Bay. This mill site is most conveniently situated as to railway and water-ways for shipping and getting in stock, and is well fitted up and in good running order, with a capacity of 20 M per day. Also complete shingle, lath and hoop outfits in connection (engine 60 h.p. and boiler 80 H. Tube, with Cook furnace). On this parcel there are also two comfortable frame dwelling houses, blacksmith shop, store house, stables, offices, etc., all in good order.

No. 3 —A small strip of land 105 feet x 82 feet adjoining the mill site aforesaid, being part S. ½ of west part lot 5, Con. 12, Tay, with sheds used for piling hoops, shingles, etc.

No. 4.—Timber and trees on lots 23 and 24, Con 6, Township of North Orillia, held under timber contract expiring 1st April, 1910.

No. 5.—W. ½ lot 22, Con. 5, North Orillia (land and timber), 100 acres more or less.

No. 6.—Lot No. 2, Con. 6, Matchedash, 200 acres more or less (land and timber).

The timber lands are said to be well wooded with mixed timbers and are conveniently situated near North River for driving to the mill and other Georgian Bay points.

The properties will be offered subject to reserve bid, and sold en bloc, or in parcels to suit purchasers.

Terms—10 per cent. of price on day of sale, balance within one month thereafter. Further particulars and descriptions will be made known on day of sale, or in the meantime on application to

J. L. ROSS & CO., Mortgagee,
or to
J. C. BROKOVSKI, Solicitor for Mortgagee.

Dated Coldwater, Ont., Jan. 12th, 1904.

FOR SALE—TEN SETS OF HEAVY LOG and one set of Tank Sleighs, almost new Lumber would be taken in payment. A. P. EBERT, Wiarton, Ont.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

A1 MILLWRIGHT AND ENGINEER wants situation to build or take charge of modern box or saw mill; highest reference. Address Box 99, care CANADA LUMBERMAN.

WANTED — EXPERIENCED MAN WITH some capital to take charge of the saw mill and lumbering of a hardwood manufacturing concern. Box 57, care CANADA LUMBERMAN.

WANTED—FIRST-CLASS MAN TO TAKE charge Sash and Door and Box Factory. Must be sober and competent; good inducement for right man. Address P. O. Box 244, Three Rivers, Quebec.

CURRENT TRADE CONDITIONS.

ONTARIO.

The lumber trade is to a certain extent marking time. This refers especially to large orders, there being some hesitancy about entering into contracts until the season is further advanced and the trend of trade in the United States is more definitely determined. Considering the unfavorable weather conditions, considerable lumber is changing hands. The retail dealers have for some time been carrying light stocks in anticipation of lower prices, but as there is still no evidence that manufacturers will weaken in their asking prices, they are now disposed to replenish their stocks to some extent so as to take care of early spring orders. This buying is assisting to keep the market firm. While United States trade is quiet and shipments have been retarded by the heavy snow storms, there is sufficient buying for home consumption to give a firm tone to the market. Hemlock perhaps leads in point of strength. Some sales of stock to be manufactured during the coming season have been made at $11.50 per thousand, as compared with $11 for the same class of lumber last year. The hardwood demand has not yet commenced to expand, but greater activity is confidently expected very shortly and a good season seems assured. Interior hardwood finish will no doubt be a ready seller, as building operations throughout the province promise to be on a large scale. Shingles are showing a little more strength, although there has been no improvement in prices.

QUEBEC AND NEW BRUNSWICK.

The spruce lumber market has undergone no important change since last writing. There is as yet no pronounced activity, although buying by retail dealers is on a slightly increased scale. It is reported at Quebec that some square timber has been contracted for at an advanced price,

but definite information is not obtainable. There is no doubt but that the tendency of square and waney timber prices is upwards. So far as immediate business is concerned, white cedar shingles are quiet. There is a considerable stock offering at from $3.35 to $3.40 for extras on Boston rate of freight, but it is significant to note that manufacturers and wholesalers are unwilling to accept orders for future delivery at any figure below $3.50. The shingle market is feeling the benefit of the arrangement for the control of the British Columbia output, as during the past year competition from that source was quite severe.

UNITED STATES.

The lumber trade of the United States during the past week has been of moderate volume, though no very important sales are reported. Manufacturers are not urging sales and are unwilling to make any concessions in prices. Buying has not yet begun in earnest, but reports from the Lake Superior district state that dealers are feeling the market and that there is evidence of more activity in the near future. A number of lumber associations have recently held their annual meetings, and where the question of prices was discussed the feeling was strongly in favour of the maintenance of present prices. The Wisconsin Valley Lumbermen's Association advanced ten inch No. 3 and No. 4 pine, all widths, 50 cents, and 4 inch No. 3 $1. No. 1 and 2, 6 inch, all lengths, were reduced 50 cents. The Southern Lumber Manufacturers' Association made a number of slight advances over the October list. Third clear finish was advanced $1 a thousand, shiplap and common lumber 50 cents, and grooved roofing, surfaced one side, $3. No. 1 mixed 4-foot lath were placed at $3 to points where a freight rate of 23 cents is in effect. No changes were made by the North-Western Hemlock Association, the price list of August 28, 1903, being reaffirmed.

Hardwood prices are being well maintained, and while business is a little quiet at the present time the outlook is positively bright. There are no surplus stocks on hand, and as most of the consuming factories are now in operation, with prospects of continued activity for some months to come, there is reason to expect a heavy consumption of hardwood lumber. There may be a lack of demand from the car shops and railroads as compared to that of last year, but this will not be a serious matter. The demand for black ash exceeds the supply, and elm and basswood are as scarce as ever.

GREAT BRITAIN.

Buyers of lumber in Great Britain have for some time been predicting lower prices, but comparison shows that no important decline has as yet taken place. Certain it is that consumption is not all that could be desired, and that consumers are pursuing a very conservative policy with respect to purchases, but it is not unusual to find an apparently gloomy view taken at this season of the year, when many persons are anxious to contract for their lumber requirements on the most advantageous terms possible. We hear very favorable reports regarding waney and square pine, of which the stock on hand is very light. It is pointed out that during the past seven years the Clyde stocks of white pine timber have fallen from 19,400 loads to 7,300 loads. Best quality pine deals are held very firmly, prices ranging between $30 and $34 per St. Petersburg standard of 1,980 feet. The same may he said of spruce deals, of which the consumption, comparatively speaking, is quite large. The lower cost makes spruce lumber much favored for many purposes, and this will be more pronounced as the price of pine advances.

STOCKS AND PRICES.

The St. Croix Lumber Co., of Hartville, N.S., expect to cut about 5,000,000 feet of lumber this year.

The St. Anthony Lumber Company, of Whitney, Ont., are putting in about 40,000,000 feet of logs this winter.

Gilman Bros. & Burden, of Pokiok, N.B., are conducting lumbering operations on the Oromocto River this winter, and expect to cut upwards of one million feet.

Shepard, Farmer & Company, of Boston, are reported to have contracted for the entire output of nine leading shingle mills of the Pacific Coast, including some British Columbia mills.

About a million feet of norway and white pine logs and several hundred cedar poles, which had been cut by trespassers, were offered for sale by auction at Crookston, Minnesota, on January 16th. The successful purchasers were Sprague & Hyland, of Winnepeg, Man.

J. P. Mosher, who is operating the rotary mill on the Knight property at Musquash, N.B., expects to manufacture about 1,500,000 feet of lumber this winter. In the spring two rotaries will be put in operation at the water mill, where about 7,000,000 feet of logs will be sawn.

The Department of Indian Affairs at Ottawa is asking for tenders up to February 19th, for the dead and fallen tamarac, jack pine, and birch timber on the Indian Reserve, No. 15 M, known as the Wild Land Reserve, which must be cut and removed within five years from date of acceptance of tender.

The lumber cut of the H. Witbeck Company, of Marinette, Wis., for the coming year, was last week sold to the Edward Hines Lumber Company, of Chicago. The price paid for the cut is said to have been about the same as last year. The transaction represents about 20,000,000 feet, of which 11,000,000 feet is white pine, 2,000,000 feet norway and 7,000,000 feet hemlock.

From Edmiston & Mitchell's Glasgow timber circular: The import of birch from Montreal and Quebec amounts to 2,350 loads of logs and 1,260 loads of planks, compared with 1,230 loads of logs and 1,940 loads of planks last year, while from the lower ports there arrived about 2,000 loads of logs and 3,000 loads of planks, against 2,200 loads last year. As has been the case for the past few years, the demand has been of the most languid kind, and except in the case of large prime logs, suitable for boarding purposes (which were never too plentiful and consequently brought full values), prices proved far from satisfactory to importers. These ranged in the case of Quebec timber from 1s. for small inferior logs, up to 2s. 2d. for first-class 19-inch average, while for lower port logs current values have been from 14d. to 17d. per foot. Planks also proved dull of sale, and prices were for the most part round 1s. per foot. The stock on hand of both logs and planks consists chiefly of low port.

BUFFALO NOTES.

BUFFALO, Jan. 23, 1904.—The trade continues slow as is usual in winter.

The Buffalo hardwood merchants continue to find increasing difficulty in the securing of Canadian hardwoods, this being due, they say, to the large increase in the home demand and the consequent raising of prices. That they recognize the hopelessness of the situation is seen in the fact that to-day it is not possible to find more than one or two firms with representative buyers in Ontario, whereas three years ago that province was simply overrun with them.

The box manufactures here are gradually turning their eyes towards Canada, the growing scarcity of box lumber at the head of the lakes, their formerly source of supply, being most marked.

A new concern, H. M. Poole & Company, has been formed here for conducting a lumber business, with capital of $50,000. The directors, Henry M. Poole, Guy J. Buell, Gilbert L. Hume, Whitney G. Case and Moses Shires, are all experienced lumbermen and propose doing a large trade in hemlock.

THE BOSTON MARKET.

Spruce lumber is quiet at Boston, the co'd and stormy weather of late having discouraged inquiry for the spring trade. The supply, however, is small, and prices are firm: Ten and 12 in. dimensions, $21; 9 in. and under, $19; 10 and 12 in. random lengths, 10 ft. and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 ft. and up, $17.50; all other random, 9 in. and under, 10 ft. and up, $18.50; 5½ in. and up, merchantable boards, $17; matched boards, $18.50 to $20; out spruce boards, $13 to $14; bundle furring, $17.

Hemlock lumber is easy at quotations: Boards, 12, 14 and 16 ft. stock, $14.50 for good eastern; Pennsylvania No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

Western pine lumber is steady and unchanged: Uppers, 1 to 2 in., $84 to $87; 2½ to 3 in., $92 to $97; 4-in. $96 to $100; selects, 1-in., $76; 1¼ to 1¾ in., $76 to $78; 2-in., $78; 2½ to 3 in., $84; 4-in., $86; fine common, 1-in., $67; 1¼ to 1½ in., $69; 2-in., $72; 2½ to 3 in. $80; 4-in., $82; barn boards, $23 to $33; coffin boards, $28 to $32.

Hardwoods are generally easier, though sales are still being made within the range of quotations: Quartered oak, $85 to $92; plain oak, $42 to $45; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $53 to $55; sap, $43 to $48; common, $39 to $45; brown ash, $41 to $44; white ash, $42 to $46; maple, $33 to $37; end dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; northern elm, $29 to $31.

Clapboards are quiet: Extra, $42 to $44; clear, $41; second clear, $39; extra No. 1, $28 to $30.

Laths are firm: One and five-eighths in., $3.40; 1½-in., $3.25.

Shingles are steady and unchanged: Extra cedar, $3.35 to $3.45; clear, $2.90 to $3; second clear, $2.25 to $2.40; extra, No. 1 $1.50 to $1.70; British Columbia red cedar, 16-in. five butts to 2 in., $3.40 to $3.50; 18-in. five butts to 2 in., $3.70 to $3.90; five butts to 2¼ in., $4.10 to $4.30.

BIRD'S EYE MAPLE.

Concerning maple lumber Messrs. Churchill and Sim, of London, England, say: "This wood seems now to be quite out of fashion for picture frames, and its use for cabinet work is so small that a few logs each year suffice for all purposes. The consumption of plain hardwood for flooring purposes is steadily increasing, and this promises to be a large trade; logs were not wanted and only a few were sent; of planks the stock is still too heavy."

BROOM HANDLES

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar care to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

WANTED

Pine Cutting common and better, 6½ inches long and up, 4 in. and wider, 1¾ in. thick and thicker. State quantity and price for yearly supply from saw mills or factories.

BRITISH COLUMBIA LUMBER CONDITIONS.

After two years of successful association work the export mills of the Pacific Coast have been obliged to abandon the cargo combination, and thus for the present the Pacific Coast Lumber Exporters' Association terminates its existence. The reason for this is found in the fact that one member of the association, Pope & Talbot, of San Francisco, refused to enter an agreement for another year, and their refusal released all other mills and put the foreign cargo market in the category of an open market. Mr. R. H. Alexander, manager of the Hastings saw mill branch, was one of a deputation who interviewed Pope & Talbot to endeavour to induce them to continue in the association, but efforts in that direction were unsuccessful. One of the reasons advanced for their action is that they considered that, as pioneers in the foreign trade, they were enly encouraging and assisting other and more recent exporters to secure a share of the trade. It is claimed that in the two years during which the foreign trade has been handled by agreement, the business has been more profitable than in previous years.

The domestic lumber business of British Columbia is looking up a little. Mills which for some time past have been running on short time are now working full time, and some good-sized orders have been booked by some of the mills for both lumber and shingles. It is reported that Woods & Spicer and the Hastings Shingle Manufacturing Company have contracted to supply a large quantity of shingles to a Boston firm.

The demand for logs is still quiet, but as the supply is light, prices are a shade stiffer. Fir logs are quoted at from $5 to $7.50 per thousand delivered at the mill, and cedar at from $5.50 to $8.50, according to quality.

Mr. R. H. Alexander, secretary of the British Columbia Mills, Timber & Trading Company, of Vancouver, B.C., has sent a communication to the Pacific Coast Lumber Trade Journal giving his opinion on the lumber outlook. Mr. Alexander characterizes the past year as a season of unprofitable business, the fault of the producers themselves, and argues as follows :

"The causes for this unfortunate state of affairs, in my opinion, are almost entirely confined to two ; in fact almost to one, as the first produces the second, and these are, firstly, overproduction, and secondly, fierce (one might term it almost insane) competition between the different producers for business to market their over-production.

"As far as I can ascertain from the information at hand, the different branches of the trade have not fallen off in volume during the last year, and the price of our product has not been forced down by competition with cheaper lumber from other sources.

"In two branches, the foreign and the coastwise, owing to the decline in freights, lumber could be furnished at the end of the year at a lower delivered cost to the customer than at the beginning of 1903, and still net the producer a better price. The price while remunerative to the producer, did not check consumption, as the volume of trade in 1903 was greater than in 1902. Consumers were able to use our product at these prices, and would have continued to do so had not we poor fools of producers killed the goose which laid the golden eggs for us, with a surfeit of food, with the result that instead of making a legitimate profit for ourselves, and at the same time benefiting business conditions generally in a host of ways, we are now making a present of all this to the consumer. The fact is that though many in the trade could remember the conditions which existed for upwards of ten years prior to 1902, a great many more did not have that experience, and a saw mill on the Pacific Coast appeared a veritable bonanza ; hence mills have been built by the score, and many of those already in the business, finding they were doing well, could not rest satisfied without a larger share, and either enlarged their mills or started grinding out lumber by night as well as by day, or even did both. The production became far in excess of any possible demand, and not being able to find a legtimate outlet for their product, the absurd old game began of stealing business from one another by cutting prices. This no doubt would answer for oneself, if left to play the game alone, but anyone who flatters himself that his doings in this respect remain unnoticed, reminds me of the story of the ostrich that fancies because its head is hidden in the sand, the rest of it is also invisible. At the most but a temporary advantage can be gained. "A" steals an order or a customer which naturally would be "B's". "B" to make up for this loss of business retaliates by a greater cut in price to regain it or steal some of "C's" and so it works in a circle until all find themselves with really less business than they had before, and at a price which yields them no profit, for a weakening of prices, instead of stimulating trade, has generally the opposite effect, as buyers become nervous; each is afraid his neighbor may be able to purchase more cheaply than himself, and all therefore are inclined to wait until prices touch the bottom ; that is, until the producer can go no lower.

The sooner we recognize that the trouble lies with the producing end of the trade, and apply measures of self-cure, the sooner will conditions improve. It appears to me that common sense should teach us that the only real cure for overproduction is to lessen it ; so, as a first step, abolish by agreement the practise of night work and be satisfied with the amount of business you can supply by working days only. It is not human-nature for "B" to sit idle all day and see "A" running both night and day, without trying to obtain some share of the business "A" is enjoying. It is quite possible "A" may be an old-established firm and could reply, "my position in the trade and the clientage I hold give me trade that requires my running night and day ; let "B" go and establish his own trade instead of demanding some of mine." All very well, but can you, friend "A", hold that clientage except you meet the prices made by "B," "C," and "D"? The whole experience of the trade is that you cannot. Four apples will not furnish a whole apple each to five parties, each hungry for apple, and there is certain to be trouble till number five, who may have just appeared on the scene, gets a share that satisfies him ; therefore "live and let live" should be the motto; better to let one-fifth go and make a profit on four-fifths than to make no profit at all. At the same time the last comer should recognize that he has had nothing to do with growing the apples, and that it is not policy for him to demand too big a bite in case the other four make up their minds to throw away their apples rather than share them."

BUSINESS NOTES.

A. C. Quade, saw miller, Strathtay, Ont., is announced to have assigned to Samuel McDougal.

The white pine firm of W. W. Tyler & Son, Tonawanda, N.Y., has been incorporated under the name of the Tyler Lumber Company, with a capital stock of $125,000.

Mr. John Knight, of Douglas, Ont., has recently leased his new mill for the coming season to Mr. John D. McRea, of Eganville, Ont., who will operate the mill until November next, at which time Mr. Knight proposes to dispose of the machinery.

McClure, Zimber & Company, hardwood lumber, Detroit, Mich., announce a change in the style of their firm, due to the death of Mr. Zimber. The stock owned by Mr. Zimber was purchased from his estate by Charles F. McClure, and in future the firm will be known as the McClure Lumber Company.

Messrs. Keenan Bros., of Owen Sound, Ont., in announcing that their business will hereafter be conducted as a joint stock company under the name of Keenan Bros., Limited, extend thanks to their many customers, both consumers in and dealers of lumber. Their record of the past two seasons, with total sales of over 25,000,000 feet of hardwood, pine and cedar lumber, of which 21,000,000 feet were hardwood, proves that they have earned a place in the lumber business of Canada. Most of this was disposed of by correspondence. Recognizing that success is only achieved by keeping everlastingly at it, they intend to put forth their best efforts to please their customers, as in the past.

Mr. Frederick N. Ritchie, formerly of Three Rivers, has opened an office at 131 Peter street, Quebec, where he will carry on business as timber and pulp wood broker. There are few men in Canada that have had more practical experience in the lumber and pulp wood business than has Mr. Ritchie. He has filled important positions as export explorer, besides being a licensed culler, and is well qualified to make reports on timber limits, water powers, etc. He started in the lumber camps at the age of fifteen, and for thirty years has been closely associated with the lumber trade. It will be Mr. Ritchie's aim not to handle any properties or limits that are not practical, as he recognizes that the lumber and pulp wood industry of Canada has been injured to some extent in the past by unreliable reports. He already has some good properties in hand and expects to close some important deals in the near future.

Cedar Cove Mill,
Vancouver, B.C.

E. H HEAPS & CO.,

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO AND MONTREAL, FEBRUARY 3, 1904 No. 1

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED AND FOR SALE

WANTED

By the Car load, White and Rim Ash Logs cut into lengths of 4 ft. 6 in. or multiples, 6 in. and up in diameter. To be scund clean timber free from knots. State price per cord.

HURDMAN & ELMITT,
Ottawa, Ont.

WANTED—CONTRACT TO CUT 10 TO 12 million feet logs during season 1904, by up-to-date mill on Georgian Bay; lake and rail shipments. Apply Box 97, care CANADA LUMBERMAN.

FOR SALE

FACTORY FLOORING

KILN DRIED BIRCH, ABOUT 60 M. Box 442 CANADA LUMBERMAN.

CAPITAL WANTED FOR LUMBER BUSINESS

The advertiser having under negotiation the purchase of a profitable (going) lumbering property requiring $300,000 capital, of which he can supply one-third, invites correspondence from parties who can furnish part or all the balance. Address BOX 111, CANADA LUMBERMAN.

WANTED—TO CONTRACT WITH PORTABLE Saw Mill Man to cut and deliver on the shore of Georgian Bay from one to two million feet of lumber a year for next three years. Also wanted to buy a small Steam Barge suitable to carry lumber and to tow saw logs. Apply to GODERICH LUMBER CO., Goderich, Ont.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

LOGS WANTED.

FIVE TO TEN MILLION FEET WHITE Pine Logs on Georgian Bay. Box No. 143 care CANADA LUMBERMAN.

WANTED — EXPERIENCED SAWMILL forman to take charge of steam mill; must be thoroughly reliable and understand management of men, inspection and manufacture of dimension timber and shingles. Box 114 care CANADA LUMBERMAN.

WANTED—10 CAR LOADS OF COMMON and Better White Winter Cut Basswood, cut 1½" from the saw or good plump 1" when dry; will take it 3" wide and up, 3 ft. long and up; can ship in car lots from any part of Ontario or Quebec. Address Box 84, CANADA LUMBERMAN

WANTED—LUMBER OR SHINGLE SAWING

FOR ONE OR MORE SEASON'S CUT; CAPACITY 20 to 30 M per day; situated on the south-east of the Georgian Bay. Shipments by rail or water; good harbor for logs. For further particulars address BOX 16 CANADA LUMERMAN.

BUSINESS CHANCES

Interest for sale in running British Columbia Saw Mill and valuable timber limits. Ten thousand dollars and upwards required. None but principals. Practical man preferred. Apply Box 112, CANADA LUMBERMAN.

TIMBER LIMIT FOR SALE

BERTH NO. 3 SITUATED ON THE SOUTH-WEST corner of the township of Creelman, comprising lots number 7, 8, 9, 10, 11 and 12 in the first, second and third concessions; good location, Vermillion river running through centre. For terms and particulars apply to W. RYAN, North Bay.

MACHINERY FOR SALE

1 Large 4 Sided Sticker; 1 10" Buzz Planer; 2 Improved Mortisers; 1 24" Surface Planer; 1 Cowan Matcher; 1 Band Saw; 1 Shaper; 1 Turning Lathe; 1 Jig Saw Machine; 1 Tenon Machine for doors and windows; 1 Tenon Machine for blinds; 1 Mortiser for blinds; 1 Staple Driver for blinds; 2 Saw Tables. A. H. CUMMINGS & SON, Coaticook, Que.

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

THE CANADIAN LAND AND IMMIGRATION CO., OF HALIBURTON, (LIMITED).

This company has a large tract of well timbered land about 125 miles northeast of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads. The company are prepared to sell this timber in blocks ranging from 2,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto

FOR SALE—300 TAMARAC PILES 30 FEET long, 9 in. and over at top end; immediate or spring delivery. Box 212, Burk's Falls, Ont.

WANTED — 1" CULL SOFT ELM AND Black Ash, also all kinds of Dry Hardwood Lumber, common and better. R. E. KINSMAN, Hamilton, Ont.

WANTED

A GOOD SECOND-HAND ALLIGATOR. Apply, stating length, age, etc., to RIORDON PAPER MILLS, Limited, Wood Supply Department, Hawkesbury, Ont.

WANTED BY YOUNG MAN, CANADIAN, thoroughly conversant with the lumber busiuess, having had large experience both in office work and grading of lumber for export trade, position with large lumber company as manager, or buyer and seller. Cou'd place the cut of large manufacturer to advantage with European buyers. References from present employers. Address Box 55, CANADA LUMBERMAN.

FOR SALE

One 20 H. P. Fire Box Boiler.
One 30 H. P. Horizontal Returned Tubular Boiler.
One 15 H. P. Horizontal Returned Tubular Boiler.
All complete with fittings and tested. Low price for immediate sale. Address ALFRED RUBBRA, Machinery Exchange, 22-24 Victoria Square, Montreal, Quebec.

Mortgage Sale

Of Valuable Mill, Mill Site, Timber Limits, Farm and Dwellings.

Under the powers contained in certain Mortgages, made by John J. Wilson and Josiah Kean (Wilson & Kean), which will be produced at time of sale, there will be offered by Public Auction at their mill premises, Fesserton, County Simcoe, Ont., on WEDNESDAY, FEBRUARY 17TH, 1904, at 2 o'clock p.m., the lands more fully described in said mortgages, but briefly known as follows:

Parcel No. 1.—The J. J. Wilson farm of 65 acres more or less, part of lot 5, Con. 11, Township of Tay, with comfortable dwelling house and outbuildings thereon.

No. 2.—The mill, mill machinory and mill site of "Wilson & Kean," being part W. ½ lot No. 5, Con. 12, Township of Tay, 5 acres more or less, lying between the Midland Railway and Georgian Bay. This mill site is most conveniently situated as to railway and water-ways for shipping and getting in stock, and is well fitted up and in good running order, with a capacity of 20 M per day. Also complete shingle, lath and hoop outfits in connection (engine 60 h.p. and boiler 80 H. Tube, with Cook furnace). On this parcel there are also two comfortable frame dwelling houses, blacksmith shop, store house, stables, offices, etc., all in good order.

No. 3.—A small strip of land 105 feet x 82 feet adjoining the mill site aforesaid, being part S. ½ of west part lot 5, Con. 12, Tay, with sheds used for piling hoops, shingles, etc.

No. 4.—Timber and trees on lots 23 and 24, Con 6, Township of North Orillia, held under timber contract expiring 1st April, 1910.

No. 5.—W. ½ lot 22, Con. 5, North Orillia (land and timber), 100 acres more or less.

No. 6.—Lot No. 2, Con. 6, Matchedash, 200 acres more or less (land and timber).

The timber lands are said to be well wooded with mixed timbers and are conveniently situated near North River for driving to the mill and other Georgian Bay points.

The properties will be offered subject to reserve bid, and sold en bloc, or in parcels to suit purchasers.

Terms—10 per cent. of price on day of sale, balance within one month thereafter. Further particulars and descriptions will be made known on day of sale, or in the meantime on application to

J. L. ROSS & CO., Mortgagee,
or to
J. C. BROKOVSKI, Solicitor for Mortgagee.

Dated Coldwater, Ont., Jan. 12th, 1904.

FOR SALE—PINE AND CEDAR SHINGLES 16 and 18 inch. T. J. HARWOOD, Mattawa, Ont.

WANTED—A COMPETENT HARDWOOD Culler and Shipper, references required. Box 105 care CANADA LUMBERMAN.

FOR SALE—TEN SETS OF HEAVY LOG and one set of Tank Sleighs, almost new. Lumber would be taken in payment. A. P. EBERT, Wiarton, Ont.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

WANTED—ABOUT ONE MILLION FEET of Hemlock logs, assorted lengths, on shore or in booms Georgian Bay. Quote price and particulars to Box 163, Midland, Ont.

A1 MILLWRIGHT AND ENGINEER wants situation to build or take charge of modern box or saw mill; highest reference. Address Box 99, care CANADA LUMBERMAN.

FOR SALE—100,000 FEET HEMLOCK, 30,000 feet sawn, half one inch, other half two inch. Balance in logs to be sawn as per instructions. Address, "LUMBER" P.O. Box 6, Victoriaville, P. Q.

Veneers Wanted

Birch Veneers 1/30" thick 8" wide, 2'-0", 2'-6", 3'-0", 3'-6" long, to be packed in crates. Hardwood strips ¼," 2¾" wide, 2'-6", rising every 6 inches to 7'-0", 36 pieces of one size to be tied together in a bundle. Box 115 care CANADA LUMBERMAN.

FOR SALE

THREE TUBULAR BOILERS COMPLETE, with all connections and fittings; one 50 horse power, and two 40 horse power. These boilers are in practically good working condition, and can be seen on application at the CONSUMERS' GAS COMPANY'S WORKS, 269 Front St. East, Toronto.

FOR SALE

One Cowan Improved Door Sash and Blind Clamp
One second hand Power Mortising Machine
One second hand 8" 4-side Moulding Machine.

ALFRED RUBBRA,
Machinery Exchange, 22-24 Victoria Square,
Montreal.

CURRENT TRADE CONDITION.

ONTARIO.

The lumber business, is practically at a stand-still. Outdoor work has been rendered difficult by the severe weather and heavy snow storms, and the latter have made it almost impossible to make shipments. The trade generally are now more concerned about prices that are to be asked for new stock than anything else. It is admitted that the outlook is favorable for a heavy local consumption of lumber as soon as spring opens, the demand for buildings of all kinds being still great. In Toronto the increased building operations have not yet provided an adequate supply of houses, and similar conditions exist in many other places. Granting, therefore, that there will be an average consumption of lumber, it becomes a moot question what course prices will take. A

few persons predict a decline in values; others, and perhaps the majority, contend that present prices will oe maintained, and by the more optimistic it is predicted that there will be a sharp advance when the season gets in full swing. A strong argument in favor of higher prices is found in the fact that the winter has been unfavorable for work in the woods. Operators have been forced to stop skidding logs on account of the deep snow, and the estimated cut, which was somewhat lighter than the preceding year, promises to be further curtailed from 15 to 25 per cent. by the cause referred to. All kinds of lumber will be affected, but particularly hemlock and hardwoods, which are confined almost entirely to the snow belt. The fact that dealers and consumers are anxious to contract for stock at current prices is an evidence that the probability of a serious log shortage is appreciated.

QUEBEC AND NEW BRUNSWICK.

The only feature to the eastern lumber market is an advance in the price of square and waney timber. Contracts recently closed show an advance of 5 cents per cubic foot over the prices obtained last year. The maximum figures for square pine, 40 to 45 feet, delivered at Quebec, is 55 cents, and for Ottawa waney 65 cents per 18-inch average and 69 cents for 21-inch. Birch timber is also about 2 cents per cubic foot higher and there has been a slight appreciation in red pine. New Brunswick spruce deals wintering at St. John are reported to be slightly weaker. The larger manufacturers, however, are holding their asking prices steady, as they claim that they cannot sell at a lower figure without incurring loss. New Brunswick cedar shingles still range from $3.30 to $3.40 for extras on Boston freight rates.

MANITOBA AND BRITISH COLUMBIA.

The lumber trade is more quiet than usual at this season of the year. Dealers are not carrying large stocks, but are disposed to delay placing orders until later in the season. Indications point to another very active building season in Winnipeg, as already plans are under way for a number of important structures. At provincial points also there is likely to be considerable activity and a large consumption of lumber. Some apprehension has been created by the breaking up of the Pacific Coast Lumber Exporters' Association by which the cargo trade of the Pacific coast was controlled. It is said that already one of the British Columbia companies engaged in that trade has reduced the wages of its employees on account of a decline in lumber prices. Many of the logging camps are closed down as a result of deep snow.

UNITED STATES.

At this time there is very little lumber moving in the United States. Any disposition to buy has been thwarted by the severe weather, and until there is a decided change little activity is looked for. In the face of these conditions, prices rule very firm. The middle grades of pine are less firm than the rest of the list, but there is no marked weakness in anything. It is said that in the Lake Superior district the lower grades are bought up so closely that the market is almost bare of stock. Recent quotations on No. 5 boards from manufacturers are $7.50 and $8. There continues to be a steady demand for box lumber, and some concerns who have been short and have been unable to obtain stock owing to the heavy snow storms are in an awkward position. Some contracting for the new cut has been done and there seems to be a disposition on the part of consumers to place orders whenever they are offeredthe sl ightest inducement, as they recognize the probability of a lumber shortage on account of unfavorable logging weather. Hardwoods are not moving very actively, but the position is strong. At many points the supply of dry stock is practically exhausted and sales that are now made are of lumber yet to be cut or that is being manufactured. There is some demand from dealers for maple, soft elm, birch and basswood. The Hardwood Manufacturers' Association last week adopted a new list which makes an advance in the prices of cherry, walnut, hickory, thick ash, and one or two other kinds of lumber. The hardwood lumber business of the United States is now thoroughly organized and this should do much towards maintaining prices.

GREAT BRITAIN.

Lumber buyers in Great Britain are pursuing a waiting attitude. The question of war or peace between two powerful nations is still in the balance, and if the negotitiations now pending should be followed by hostilities, the effect upon the timber trade would not be beneficial. There is also the uncertainty regarding the fiscal policy. The most that can be expected under these conditions is that lumber prices will remain steady. The most important development during the past fortnight is a decline of ten shillings a standard in the price of Swedish redwood. This has caused buyers to be still more cautious and it is difficult to close contracts. Pine deals have been received at Liverpool and London in considerable quantities from Portland and Boston, evidently the low rate of ocean freight being an inducement to ship by rail to these points. As a rule the shipments have been upon arrival and consequently values remain firm, with perhaps a slight upward tendency. Spruce deals are going into consumption at a moderate rate, and notwithstanding the low prices realized at late auction sales values generally are firm.

STOCKS AND PRICES.

O. J. O'Brien, who is lumbering at Noel, N. S., expects to cut 500,000 feet of deals during the coming season.

The trans-Atlantic shipments from the port of Tusket, N. S., in 1903 were 4,000-000 feet, the shippers being Dickie & McGrath.

S. O. Church & Bro., of Sand Point, Ont., have seven camps in operation taking out cooperage stock timber, six in Ontario and one in Quebec.

Hugh Rutherford, of St. Helens, Ont., recently sold to Mr. Mitchell, of Lucknow, 180 trees for $1,800—another evidence of the value of standing timber.

J. McTeigue, of Port Arthur, Ont., is asking for tenders for the supply of 1,500 standard railway ties, including green cedar, tamarac and jack pine.

Fifteen million feet of lumber owned by White, Ryder & Frost were destroyed by fire at Tonawanda, N. Y., last week. It is said that the loss is upwards of $300,000, but that the lumber was fully insured.

A Toronto firm is reported to have purchased 15,000,000 feet of lumber from the Edward Hines Lumber Company to be cut this season by the Hayward mill at Duluth, Minn. The stock is intended for export.

About 8,000,000 feet of No. 3 and No. 4 boards was last week sold to Buffalo parties, partly at Duluth and partly at Cloquet, Minn. It is said that $12 was paid for No. 3 and $6.50 for the No. 4.

Lumbering operations are being carried on quite extensively in the vicinity of Midgic, N. B., this winter. The operators are Arthur George, of Upper Sackville, Isaac Kay, of Centre Village, and Charles Hicks and J. & C. Hickman, of Midgic.

It is estimated that the log cut on the Penobscot waters this winter will exceed that of last season, amounting probably to 225,000,000 feet. On the St. John river waters in Maine, which include the Aroostook river, the aggregate cut will be 64,000,000 feet.

Lumbering operations around New Liskeard, in the Temiskaming district, were very active this winter. The Rideau Lumber Company, J. R. Booth and E. B. Eddy, of Ottawa, are all operating there, while J. B. Klock, of Klock's Mills, and Gillies Bros., of Braeside, are taking out square timber. It is estimated that these lumbermen will purchase from the settlers fully $200,000 worth of saw logs and pulp wood this winter.

The Department of Interior, Ottawa, is asking for tenders up to February 24th for a license to cut timber on Berth No. 1133, township 7, and on Berth No. 1134 situate on Bloodvein river, both in the Province of Manitoba. The former contains 24 square miles and the latter two square miles. The Department will also receive tenders up to March 22nd for a license to cut timber on Berth No. 1138 in the vicinity of Fox Plain, District of Sasketchewan, containing thirty square miles to be selected in not more than six blocks within a prescribed area.

Newman Silverthorne, Somerville, Ont., last week sold to A. S. Lamb and William Harris, of Meadowvale, the standing timber on about 150 acres of land situated at Somerville, in the township of Etobicoke, ten miles west of Toronto. It is probably the largest body of standing timber near Toronto and consists of maple, basswood, beech, elm, hickory, oak, birch, ash and a small quantity of hemlock. The purchasers are to remove the timber within a period of four years and are to be allowed to cut all trees over 15 inches in diameter 3 feet from the ground. It is stipulated that the timber must be manufactured on the ground While the details of the transaction are not announced, it is understood that the purchasers agreed to pay about $8 per thousand feet for the timber as it stands. If this price is correct it indicates the enhanced value of a hardwood forest.

Under date of January 16th, Messrs. S. P. Musson, Son & Company comment on the Bardados lumber market as follows: "There have been no arrivals of either white pine or spruce since our last report, but dealers' yards are fully stocked, and if further receipts take place in the immediate future we anticipate lower prices. Of the lots mentioned in our last the spruce by the "Lolita A" was rejected and resold at $18.05 round. The white pine by The "H. Shafner" was also rejected and sold at $17 round. The only arrival of shingles is a small lot of 54,000 Long Gaspe by the "Dahome," which were sold at $6.01. This description and Dimension Cedar are both wanted, but Laying Cedar are in fair supply.

ST. JOHN AND AROOSTOOK LOG PRODUCTION.

Following is the estimate of the log cut on the St. John and Aroostook river waters for the present season:

THE ST. JOHN WATERS.

	Feet.
W. H. Cunliffe's Son, Allagash waters	12,000,000
St. John Lumber Co., St. Francis waters	6,000,000
St. John Lumber Co., Allagash waters	5,000,000
Stadig & Quincy Lumber Co., St. Francis waters	5,000,000
Neil McLean, Little Black waters	1,000,000
Chas. E. Jones, Little Black waters	2,000,000
John Sweeney, St. John main river	2,000,000
John A. Morrison, St. John main river	3,000,000
Andre Cushing & Co., St. John main river	7,000,000
	43,000,000

THE AROOSTOOK WATERS.

Stetson, Cutler & Co.	7,000,000
C. A. Trafton	5,000,000
Portage Lake Mill Co., Fish river	3,000,000
Weeks Bros.	3,000,000
Fort Kent Mill Co., Fish river	3,000,000
	43,000,000
	21,500,000
Total	64,500,000

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares,&c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

The barque Plymouth is loading lumber at St. John, N.B., for Buenos Ayres.

Planing, Matching, Resawing, etc.
In Car Lots.

WANTED: Basswood, Birch, Hard Maple, Rock and Soft Elm Lumber

Office and Yard—571 Dorchester Street, MONTREAL, P Q.
Telephone Main 368. Correspondence Solicited.

THE OTTAWA VALLEY.

[Correspondence of the CANADA LUMBERMAN]

It is now an assured fact that the log cut in the Ottawa district will show a marked reduction on that of the season of 1902-1903. On account of the deep snow, log cutting has had to be suspended from three weeks to a month earlier than was expected at the beginning of the season as judged by the records of previous years. Even the work of log hauling has been attended with great difficulty and hundreds of extra horses have had to be engaged. On most of the limits the snow lies from four to five feet in depth.

Business continues slack in and about the lumber yards. As a consequence prices show few changes and hold to the figures that ruled for several months past. Pine shorts have declined a dollar a thousand. Lath is also easier by twenty-five cents, but shingles are firmer, showing a corresponding advance. In hardwoods there is considerable uncertainty and it is difficult to catch a figure. A larger output in the Ottawa district is looked for, but as the demand is constantly increasing, this will make little or no difference on prices.

The latest deal in square timber secured for the McArthur Export Company the cut of the Mason & Gordon Company, of North Bay. The prices mentioned on the street is 58 cents.

Government returns show that the square and waney timber output will be slightly greater this season than last. While there is a marked falling off in the Kippewa district there is an increase in the Georgian Bay and Thunder Bay districts.

Hurdman & Elmitt, of Ottawa, have contracted for the entire cut of 1904 shingles at the mill of the James Maclaren Estate at Buckingham. The same enterprising firm handled this shingle cut last season.

On account of low water caused by the accumulation of anchor ice and snow, it has been found necessary to shut down the big Booth mill. Dynamite is being used to blast out the ice.

The Booth mill is receiving daily large shipments of logs by rail from the Madawaska limits.

OTTAWA, February 1, 1904.

C.P.R. SHIPMENTS.

The shipments via the Canadian Pacific Railway from the state of Washington for the years 1903 and 1902 were as follows:

	Lumber, Cars. 1903	1902	Shingle, Cars 1903	1902.
January	41	60	143	41
February	25	63	63	31
March	57	77	54	56
April	63	72	55	19
May	67	105	102	71
June	93	106	145	90
July	47	142	41	93
August	49	7	53	99
September	57	4	20	79
October	65	74	57	43
November	39	57	63	23
December	29	56	38	51
Total	632	823	834	696

J. A. Lamarche, planing mill, etc., Montreal, has assigned and a meeting of creditors is being held to-day.

John E. Hoffman, planing mill and wagon maker, Dashwood, Ont., is reported to have assigned to Joseph Snell.

BRITISH COLUMBIA LUMBER SHIPMENTS.

The following export shipments of lumber from British Columbia were made during the year 1903:

REORGANIZATION OF A LUMBER BUSINESS.

The business of Robert Stewart, Guelph, Ont., has grown so rapidly that it has been found necessary to re-organize, and a limited liability company has been formed to continue the business. Mr. Singer, who has represented the Waldstein Lumber Company, of St. Louis, Mo., has resigned that position and is taking an active interest in the management of the new company, which is known as the Robert Stewart Company, Limited. Mr. Robert Stewart is president, Mr. R. D. Stewart vice-president, and Mr. Singer secretary and treasurer. The capitalization is $100,000. They have already greatly increased their stocks of pine and hardwood lumber, for which they report an active demand at good prices. Mr. Robert Stewart is one of the oldest lumbermen actively engaged in the trade, his business having been established in 1856.

CANADIAN LUMBER SHIPMENTS.

From St. John, N.B.: Str. Lake Erie, for Liverpool, 2,096 bundles flooring, 1,607 pcs. hardwood lumber, 163 elm and hickory logs, 87,120 ft. pine deals, 679,616 ft. spruce deals, 297 tons birch timber. Str. THE BOSTON MARKET.

Millions of feet of spruce logs were left in the Maine rivers last year, which will come down early this spring. The high prices of lumber have stimulated logging, so if the weather is favorable a large amount of logs will be put into the rivers this winter. The large supply of this year added to the surplus of last year may depress the price of spruce lumber. Reports from most of the large lumber yards of New England say they have on hand only from one-half to two-thirds the amount carried in previous seasons.

The lumber business in New England is improving slowly and will in all probability continue to do so from now on. Prices are unchanged and wholesalers look for a drop in prices in the spring. Boston prices are as follows : Rail shipments : Spruce—10 and 12 in. dimensions, $21; 9 in. and under, $19; 10 and 12 in. random lengths, 10 ft. and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 ft. and up, $17 ; all other random, 9 in. and under, 10 ft. and up, $18 to $18.50; merchantable boards, 5 in. and up, $17; matched boards, $18.50 to $19 ; bundle furring, random lengths, p. 1 s., $17.

Shingles—Cedar extras, $3.35 to $3.40; do., clear, $2.85; do., 2nds, $2.25 ; do., clear white, $2.10; do., No. 1, $1.55. Laths, spruce, 1½ in., $3.20 to $3.25 ; 1 5-8 in., $3.40.

Clapboards, spruce, 4 ft. ex., $44 to $45 ; do., clears, $42 to $43 ; do. 2nd clears, $40 to $41 ; pine, extras, $59 to $60; clears, $54 to $55; 2nd clears, $49 to $50.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO AND MONTREAL, FEBRUARY 10, 1904 No. 3

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED

By the Car load, White and Rim Ash Logs cut into lengths of 4 ft. 6 in. or multiples, 6 in. and up in diameter. To be sound clean timber free from knots. State price per cord.

HURDMAN & ELMITT,
Ottawa, Ont.

WANTED—CONTRACT TO CUT 10 TO 12 million feet logs during season 1904, by up-to-date mill on Georgian Bay; lake and rail shipments. Apply Box 97, care CANADA LUMBERMAN.

FOR SALE

FACTORY FLOORING

KILN DRIED BIRCH, ABOUT 60 M. Box 442 CANADA LUMBERMAN.

CAPITAL WANTED FOR LUMBER BUSINESS

The advertiser having under negotiation the purchase of a profitable (going) lumbering property requiring $300,000 capital, of which he can supply one-third, invites correspondence from parties who can furnish part or all the balance. Address BOX 111, CANADA LUMBERMAN.

WANTED—TO CONTRACT WITH PORTABLE Saw Mill Man to cut and deliver on the shore of Georgian Bay from one to two million feet of lumber a year for next three years. Also wanted to buy a small Steam Barge suitable to carry lumber and to tow saw logs. Apply to GODERICH LUMBER CO., Goderich, Ont.

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

WANTED — EXPERIENCED SAWMILL forman to take charge of steam mill; must be thoroughly reliable and understand management of men, inspection and manufacture of dimension timber and shingles. Box 114 care CANADA LUMBERMAN.

WANTED—10 CAR LOADS OF COMMON and Better White Winter Cut Basswood, cut 1½" from the saw or good plump 1" when dry; will take it 3" wide and up, 3 ft. long and up; can ship in car lots from any part of Ontario or Quebec. Address Box 84, CANADA LUMBERMAN.

Veneers Wanted

Birch Veneers 1/30" thick 8" wide, 2'-0", 2'-6", 3'-0", 3'-6" long, to be packed in crates. Hardwood strips ¾," 2¾" wide, 2'-6", rising every 6 inches to 7'-0", 36 pieces of one size to be tied together in a bundle. BOX 115 care CANADA LUMBERMAN.

FOR SALE

One 20 H. P. Fire Box Boiler.
One 30 H. P. Horizontal Returned Tubular Boiler.
One 15 H. P. Horizontal Returned Tubular Boiler.

All complete with fittings and tested. Low price for immediate sale. Address ALFRED RUBBRA, Machinery Exchange, 22-24 Victoria Square, Montreal, Quebec.

TIMBER LIMIT FOR SALE

BERTH NO. 3 SITUATED ON THE SOUTH-WEST corner of the township of Creelman, comprising lots number 7, 8, 9, 10, 11 and 12 in the first, second and third concessions; good location, Vermillion river running through centre. For terms and particulars apply to W. RYAN, North Bay.

MACHINERY FOR SALE

One Improved Mortiser, 1 Mortiser and Borer, 1 Cowan Matcher, with Shimer Heads, 1 twenty-four-inch Surface Planer, 1 Band Saw, 1 Turning Lathe 1 Shaper, 1 Jig Saw Machine, 1 Tenon Machine for Blinds, 1 Blind Staple Driver, 2 Splitting Saw Tables. A. H. CUMMINGS & SON, Coaticook, Que.

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

THE CANADIAN LAND AND IMMIGRATION CO., OF HALIBURTON, (LIMITED).

This company has a large tract of well timbered land about 125 miles northeast of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads. The company are prepared to sell this timber in blocks ranging from 2,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director.
157 Bay Street, Toronto

FOR SALE—PINE AND CEDAR SHINGLES 16 and 18 inch. T. J. HARWOOD, Mattawa, Ont.

WANTED—A COMPETENT HARDWOOD Culler and Shipper, references required. Box 105 care CANADA LUMBERMAN.

FOR SALE—TEN SETS OF HEAVY LOG and one set of Tank Sleighs, almost new lumber would be taken in payment. A. P. EBERT, Wiarton, Ont.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

WANTED—ABOUT ONE MILLION FEET of Hemlock logs, assorted lengths, on shore or in booms Georgian Bay. Quote price and particulars to Box 163, Midland, Ont.

WANTED — 1" CULL SOFT ELM AND Black Ash. also all kinds of Dry Hardwood Lumber, common and better. R. E. KINSMAN, Hamilton, Ont.

WANTED—60 TO 80 M. FT. 1" CLEAR Spruce, any width over four inches. Shipment during 1904. Quote prices delivered Montreal and St. John. Address "Spruce," care CANADA LUMBERMAN.

WANTED

A GOOD SECOND-HAND ALLIGATOR. Apply, stating length, age, etc., to RIORDON PAPER MILLS, Limited, Wood Supply Department, Hawkesbury, Ont.

A1 MILLWRIGHT AND ENGINEER wants situation to build or take charge of modern box or saw mill; highest reference. Address Box 99, care CANADA LUMBERMAN.

FOR SALE—100,000 FEET HEMLOCK, 30,000 feet sawn, half one inch, other half two inch. Balance in logs to be sawn as per instructions. Address, "LUMBER" P.O. Box 6, Victoriaville, P. Q.

WANTED—POSITION AS MANAGER IN Lumber Mill. Advertiser presently holds similar position in a leading Scottish saw mill employing 150 men; has intimate knowledge of Canadian spruce and pine, is young, conscientious and energetic. For further particulars apply Box 117, CANADA LUMBERMAN.

FOR SALE

One Cowan Improved Door Sash and Blind Clamp
One second hand Power Mortising Machine
One second hand 8" 4-side Moulding Machine.

ALFRED RUBBRA,
Machinery Exchange, 22-24 Victoria Square, Montreal.

FOR SALE

A few pieces (about 200) of square and waney timber near Deux Rivieres, C.P.R. main line; well made and of a good quality, trimmed ready for shipment, can be loaded in spring. Also a large quantity of cedar for telegraph or telephone poles from 20 ft. up to 60 ft. in length, and about 2000 logs and dimension of red and white pine, spruce and balsam put on the Ottawa River.

CURRY & THRASHER,
Deux Rivieres, Ont.

For Sale

Fifty thousand Cedar Ties, 6" face and up
One million feet Square Cedar
One million feet Square Hemlock
Half million feet Square Pine
Five hundred Tamarac Piles 36 ft. long, 10" top
Five million XXX Cedar Shingles
One million No. 2 " "
To be shipped during the season of 1904 by rail or water. Apply to

MAITLAND, RIXON & CO.,
Owen Sound, Ont.

WANTED—FIRST-CLASS MAN TO TAKE charge of door and sash factory. Apply Box 227, Campbellton, N B.

WANTED — FOREMAN, MODERN BAND saw mill in live town on Georgian Bay. State age, experience and salary. Address Box 118, care CANADA LUMBERMAN.

WANTED — EXPERIENCED MAN WITH some capital to take charge of the saw mill and lumbering of a hardwood manufacturing concern. Box 57, care CANADA LUMBERMAN.

WANTED—A FIRST-CLASS SAW FILER, for circular saws, one who can hammer saws preferred. Apply, with references and salary expected, to JAMES H. SANDERSON, Lumber Manufacturer, Prince Albert, Sask., N.W.T.

FOR SALE

We want offers for 20 to 30 M. feet of Cherry cut to order. Box 116, CANADA LUMBERMAN.

FOR SALE

About 2 cars White Oak Plank 2", 3" and 4" thick, from 6" to 12" wide and 6' up to 16' and over long, mill run; also some Red Oak. BENJANIN SHERLE & SON, Sherkston, Ont.

CIRCULAR SAW HAMMERING

taught right in your mill by mail. No previous experience necessary. Sent prepaid on trial. Send for Canada references, who are cutting frozen timber with my gauge and instructions. J. H. MILNER, Lumberton, Miss.

CURRENT TRADE CONDITIONS.

ONTARIO.

Considering the unusually cold and stormy weather, the movement of lumber has been entirely satisfactory. The number of orders which salesmen have been able to book has been a surprise and is taken as strong evidence that consumers do not anticipate lower prices. Stocks in the yards are low, and it will be necessary to replenish them in order to handle the spring trade. There is an emphasized demand for box lumber and slightly more inquiry for mill culls and the lower end of pine than for the middle and upper grades. The number of inquiries for hardwoods is increasing. The consuming factories are meeting manufacturers, prices and the tone of the market is very strong. A brisk demand is expected from this time on. Interference to logging operations through the deep snow has placed the control of prices largely in the hands of the producers. The latter are a unit in holding out for prices which will give a fair margin over the cost of production. Shingle prices in the Ottawa Valley are firmer.

QUEBEC AND NEW BRUNSWICK.

The course of the spruce market is still somewhat uncertain. Manufacturers are asking high prices but shippers are reluctant about buying, as their agents in Great Britain have not so far been very successful in closing contracts at remunerative prices. It is certain that lower prices will not be accepted without very

strong opposition, as logging this winter has been expensive. It is estimated that the log cut on the Upper St. John river will be about 115,000,000 feet, which is slightly less than the cut of last year. Late sales of square and waney timber have confirmed the advanced prices referred to in a previous issue. One authority quotes the following prices for waney timber for the Quebec market, average 24/25 feet lineal: 16-inch girth, 64 cents per cubic foot; 16½-inch, 65 cents; 17-inch, 66 cents; 17½-inch, 67 cents; 18-inch, 68 cents; 18½-inch, 69 cents; 19-inch, 70 cents. Of course, in order to realize such prices the timber must grade 80 to 85 per cent. first-class.

MANITOBA AND BRITISH COLUMBIA.

The demand for lumber in the west is still light, but there is plenty of business in sight. The permits issued since the first of the year for new buildings in Winnipeg presage another very active building season, with a consequent heavy demand for lumber. The British Columbia saw mills have sufficient orders to keep stocks from accumulating in large quantity and the outlook for the spring trade is considered bright. Negotiations are under way with the object of preventing, if possible, some of the ruinous competition for which the United States manufacturers have been responsible. The plan is to obtain a concession on freight rates from the Canadian Pacific Railway, this to be followed by a readjustment and slight lowering of lumber prices. Conferences are being held in Winnipeg this week with the object of perfecting the scheme.

Washington manufacturers have made an advance of 10 cents per thousand on shingles, which have been exceptionally low in price for some time past, and it is reported that similar action will be taken by the manufacturers of British Columbia in respect to that portion of the product marketed in the Eastern States.

UNITED STATES.

Severe weather has occasioned inactivity in the lumber market and the prospect of a continuation of existing conditions is not regarded with favor by those who have large stocks ready for the spring trade. However, the outlook has brightened during the past week. A few buyers have visited the Lake Superior district and closed contracts for stocks on hand and to be manufactured. That dry docks are well nigh exhausted is proven by the fact that at Duluth there is only one stock of pine lumber still unsold. Every box board has been picked up, and material which two or three years ago would be classed as refuse and burned now finds a ready market for box-making purposes. Buffalo and Tonawanda dealers are looking forward to an active demand as soon as spring open, as yard stocks in the Eastern States are known to be very low. The disastrous fire in Baltimore will also create a very heavy demand for building material for the reconstruction of the burned district. Pine prices are steadier than they have been, consumers apparently appreciating the shortage of stock to a greater extent than they did earlier in the winter.

Hardwood prices in Michigan this winter are higher than ever before. Log run basswood is bringing $25 per thousand, soft elm $22, birch $21, and maple $15. While some buyers are pursuing a conservative policy, others are satisfied that prices are at rock bottom and that nothing is likely to be gained by waiting. The winter in the north has not been favorable for getting out hardwood logs, but in the south good progress has been made, and there is likely to be a large production of southern hardwoods this year. Orders for shingles are more numerous and the market is firmer. A heavy spring movement is anticipated.

GREAT BRITAIN.

The British market still displays much hesitancy. Importers do not look with favor upon the high prices that are asked for new stock. They are not disposed to close contracts at shippers' figures, and consequently the contracting season has been very backward. It is predicted that it will be the end of February before there is any buying to speak of. The commencement of hostilities between Russia and Japan has increased the prevailing uncertainty. The effect of the war, even if confined to the two nations now involved will be to create a heavy demand for money and increase the difficulty of securing accommodation for building and business purposes generally.

Holders of pine and spruce deals will probably profit by the increased prices being asked for 1904 stocks. There is a light supply of regular sizes, any accumulation being confined to oddments, which are at no time in very good demand. Consumers are still refusing to buy square and waney timber excepting where it must be used. Rock elm and oak are now so high in price that substitutes are being sought after, and this may curtail the consumption during the coming season.

THE WHITE PINE PRODUCTION.

The statistics covering the year 1903 show very clearly that the white pine production is gradually diminishing. Michigan, Wisconsin and Minnesota comprise the white pine centre of the United States. The total cut of these three States reached the high water mark in 1890, when the cut was 8,597,623,000 feet. The following year witnessed a slight decline, and in 1892 there was again an increase to 8,594,000,000 feet. In 1895 the cut was 7,000,000,000 feet, but this amount has not since been reached, and there has been a steady decline to 4,791,000,000 feet last year, the lowest point reached since 1878. Nothing could more conclusively show that the northern pine supply of the United States has declined beyond the possibility of any approach to the output of even six or seven years ago.

With the decadence of the Michigan timber supply operators turned their attention to Ontario, where all energies have been concentrated towards a large production. Notwithstanding this fact, as well as the prosperous condition of the lumber trade, the total production of the Ottawa Valley and Georgian Bay districts last year was little greater than in the previous year. The Georgian Bay district shows an increase of 60,000,000 feet, but this is offset to a large extent by a reduction of 46,000,000 feet in the Ottawa Valley cut.

Equally interesting are the statistics in respect to stocks on hand at the mills. Of the Minnesota, Wisconsin and Michigan production the stock on hand at the close of last year was 1,964,000,000 feet, the lightest in the hands of manufacturers since 1887. It is 148,000,000 feet less than 1902, 420,000,000 feet less than in 1901, 875,000,000 feet less than 1900, 764,000,000 feet less than in 1899, 1,550,000,000 feet less than in 1898, 2,051,000,000 feet less than in 1897, 2,089,000,000 feet less than in 1896, and 2,216,000,000 feet less than in 1895.

No complete statistics are obtainable in reference to the quantity of stock in the hands of manufacturers in Ontario, but after careful inquiry it may be said that almost the entire production of 1903 has passed out of first hands. There is absolutely no box lumber unsold at the mills, and very little of other grades.

It is not only at the mills that there is a shortage in the pine supply. Statistics compiled by the new White Pine Association of Buffalo and Tonawanda show there are 144,000,000 feet of white pine in the Tonawanda market and 53,000,000 feet in the Buffalo market, with one or two yards unreported. This quantity is a great deal less than the stocks of former years. There is, it is said, an absolute shortage in many individual items some of which are currently in large demand.

The question to be considered is the production of logs this winter. In the Northern States every indication points to a material reduction. Many of the big concerns who have being putting in from one to two hundred million feet for years have not contracted for more than half that amount. In Ontario there was at the commencement of the logging season a determination on the part of operators to curtail their output from 15 to 25 per cent. as compared with last season. Early work in the woods was hampered by the difficulty of procuring sufficient labor, and a little later on, when labor became more plentiful, there was a very heavy fall of snow, which has since rendered work in the woods most difficult and expensive. In nearly all the white pine territory the snow is from three to five feet deep, making it almost impossible to haul the hogs. The result is that the output of logs will fall considerably short of the estimated quantity. Some estimates place the shortage as compared with last season at from 30 to 40 per cent.

A market shortage of logs would, therefore, seem to be a certainty, and the effect upon lumber prices cannot be otherwise than strengthening. Such logs as reach the mills will represent a high cost to the manufacturer, rendering it absolutely necessary that he should obtain a high price for his lumber in order to prevent loss. Should the demand for lumber this season be as great in 1903 prices of white pine are certain to continue firm, with a strong probability of an advance.

S. Peters, planing mill, etc., Quebec, is announced to have assigned.

TIMBER LIMIT TRANSACTIONS.

The Bearinger Syndicate, of Saginaw, Mich, have just completed the purchase of the timber property of W.S. Montgomery, of Dalhousie, N. B. The property consists of timber limits, saw mill and logging equipment and the price is said to be in the vicinity of $100,000.

BROOM HANDLES

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar care to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

WANTED

Hemlock Lumber, small or large lots, Pine and Hardwood, all dimensions from dead culls up. We will contract for the whole season's cut and give instructions for cutting; also cordwood and slabs, soft or hard.

STOCKS AND PRICES.

Shingles are a little stronger in the Saginaw River district, and 18-inch white cedar are quoted 10 cents higher.

C. E. & W. E. Kelsey, of North Tonawanda, N. Y., have recently received large stocks of white pine from Ontario.

Seven tenders have been submitted for building the proposed dry dock at St. John, N. B., for the Imperial Dry Dock Company.

Kastner & Porter, of Wiarton., Ont., are about to build a wharf at Honora Bay, Manitoulin Islands, which will require considerable timber.

L. K. Jones, Secretary of the Department of Railways and Canals, Ottawa, desires tenders by the 16th inst. for the supply of timber required for the Sault Ste Marie canal during the current year.

F. H. Dickenson, of Hamilton, has secured the contract for fencing the right of way for the Toronto & Niagara Power Company's transmission line from Niagara Falls to Lambton Mills, a distance of seventy-five miles. The work will require about 60,000 cedar posts.

There is still considerable shortage of No. 2 elm staves at Buffalo, and the cut in the woods will be light on account of the deep snow. Slack stave prices range from $9.50 to $13.50 according to grade, heading 6 to 10½ cents, and coiled hoops $9.25 to $9.75.

The Tower Lumber Company, of Duluth, Minn., last week sold to the Soper Lumber Company, of Chicago, about 15,000,000 feet of white and norway pine. The Merrill-Ring Lumber Company, of the same city, have closed out the last of their dry stock, 6,500,000 feet of log run, to White, Gratwick & Company, of Tonawanda.

E. H. Lemay, of Montreal, has purchased the 1904 cut of white pine of the well-known firm of McLachlin Bros., Arnprior, Ont., which will amount to about 40,000,000 feet. Much of this stock will be distributed through W. M. Crombie & Company, of New York, selling agents for E. H. Lemay.

The Barbados lumber market is thus reviewed by Clairmonte, Man & Company in their last report: "There have been no arrivals with white pine and spruce during the fortnight. Our market is fully stocked, but prices have been fairly maintained. The last sale of white pine for a cargo on the spot was at $25 per thousand for merchantable and $20 for second quality; spruce, $21.17 for second quality. Last sales of Gaspe Long Cedar shingles were at $6.01; Cedar Laying, $2.05½. There have been no late sales of Spruce Laying."

The twelve lumber firms on the Saginaw river engaged in lumber manufacturing cut 97,000,000 feet last year. Two firms manufactured white pine exclusively, and the other firms with a single exception manufactured mixed lumber. W. D. Young & Company manufactured hardwoods exclusively, cutting 18,000,000 feet, and having 12,000,000 feet on hand at the close of the year.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)

VANCOUVER, February 1, 1904.—Lumber for export is lower in price as a result of the dissolution of the Pacific Coast Lumber Exporters' Association. The manufacturers in Washington have reduced the price about $3.00 per thousand feet, and in consequence wages of mill hands have been lowered. The Victoria Lumber and Manufacturing Company, of Chemainus, have reduced the wages of their employees ten per cent. It is not improbable that the manufacturers doing a local trade will follow the example of the export mills and reduce operating expenses.

A representative of A. B. Holloway, a lumber manufacturer of Lacrosse, Wis., has been in Vancouver this week looking over the ground. He was greatly impressed with the possibilities of the lumber industry and will report favorably to the eastern capitalists whom he represented.

It is reported that a local contractor is bringing in a shipment of window and door sashes from Tacoma, Wash. It is said the sashes will be laid down here at an average of 40 cents each cheaper, duty and freight paid, than the same can be bought in Vancouver.

During the month of January the applications for timber lands entered at the office of R. J. Skinner, Provincial Timber Inspector, have been greatly in excess of those made during the corresponding period of last year. Thirty-one applications were made during the week ending January 21. Taking into consideration that each applicant for timber lands pays over $10 for advertising the same in the Provincial Gazette, and at the expiration of thirty days pays a fee of $140 for a license, (an increase of $40 over the fee payable last year), it is not believed by the Government officials that the applications of the amendments of the Land Act is working harm to the logging industry.

Two saw mills for the cutting of cedar are in course of erection by Americans on the mainland coast. One is being built by Garfield & Schaffer on Sechelt Inlet, and the other by the Gower Point Timber & Logging Company on Keats Island, Howe Sound. The latter will have a capacity of about 15,000 feet per day. It is reported that several other small saw mills will be built in the Howe Sound cedar belts this spring. The American millmen have evidently found that they can cut their cedar in British Columbia, export it to Puget Sound points, paying duty and transportation charges, and still have a larger margin of profit than if they bought Washington cedar and manufactured it at home. The duty on rough cedar entering the United States is $2 per thousand feet.

Mr. Merrill, a wealthy lumberman of Wisconsin, is said to have decided to build a large saw mill in British Columbia. Mr. Merrill owns 40,000 acres of choice timber limits in this province which he bought in 1881 at $1 an acre. They are located on Valdez Island, Thurlow Island, Desolation Sound, Humphrey's Channel and Johnston's Straits. These lands have increased enormously in value, as is shown by the fact that two months ago Mr. Merrill was offered $50 an acre for a certain portion of his holdings.

A deal involving the transfer of the timber lands and the saw-milling interests of J. C. Keith to a syndicate of Scottish and English capitalists, in return for an amount stated to be $300,000, is reported to be in process of negotiation. Mr. Ceith is reputed one of the largest individual holders of British Columbia timber lands resident in Vancouver. He is also a large stockholder in the Urquhart Mills, Limited, a corporation owning a mill on False Creek, the cut of which averages 50,000 feet of lumber per day. His land holdings in North Vancouver are also extensive. It is understood that negotiations for the purchase of Mr. Keith's holdings have been in progress for some time, and that there is every prospect of them being carried to a successful conclusion.

One of the most important deals that has taken place in the last few months was consummated a few days ago, when the Provincial Government accepted the tender of McLean Brothers, of Vancouver, for 27,000 acres of timber lands on Klaanch river, Vancouver Island. The limits are composed of fir and cedar and are situated in what is known as the Rupert District. The lease is for twenty years. It is probably the largest block of timber in one place that could have been secured from the Government. Under the terms of the lease a large mill will be erected, and it is the intention of McLean Brothers to manufacture lumber for sale in the local markets, and probably for foreign shipment.

CANADIAN LUMBER SHIPMENTS.

From Bear River, N.S.: Schooner Neva, for West Indies, cargo lumber, by Clarke Bros.

From Weymouth, N.S.: Barque J. W. Bowers, for Buenos Ayres, cargo lumber, by G. D. Campbell & Co.

From Halifax, N.S.: Str. Pro Patria, for St. Pierre, 21 530 ft. spruce deals, value $323. Str. Ulunda, for Liverpool, 304,906 ft. spruce deals, value $3,618, 915 pcs. sleepers, value $280.

From St. John, N.B.: Str. Sicilian, for Liverpool, 861,235 ft. deals, 14,907 ft. scantling, 95,983 ft. ends, 7,564 bundles box shooks. Str. Gulf of Venice, for Cape Town, South Africa, 231 bundles rough lumber. Str. Manchester Trader, for Manchester, 305,039 ft. deals and battens, 26,988 ft. scantling, 7,277 ft. ends. Str. Monford, for Liverpool, 416,807 ft. deals.

SHIPPING MATTERS.

The barque J. H. Bowers, loaded with lumber from Weymouth, N.S., for Buenos Ayres, went ashore on Weymouth river on February 1st.

The following charters are reported: Str. Angar, Halifax, N.S., to w.c. England, deals, 34s, March loading; strs. Pontiac and Micmac, Bay of Fundy ports to w.c. England; deals, 35s, April and May loading.

BRITISH TIMBER SALE.

Messrs. Churchill & Sim, London, England, held an auction sale of lumber on January 27th, when the following prices were paid for Canadian pine and spruce :

Pine.—Ex. Brantingham, from Quebec—12-13 ft. 3x10 in. third quality, £10 10s. per standard of 1980 feet; 12-13 ft. 3x8 in. £10; 12-13 ft. 3x7 in. £10. Ex. Hampstead, from Montreal—12-ft. 3x11 in. first quality, dry, £27 10s.; 9-16 ft. 3x11 in., £19 10s.; 12-13 ft. 3x12-22 in., £25 10s.; 9-11 ft. 3x12-20 in., £20 15s. Ex. Montezuma, from Montreal—13 ft. 3x7-10 in., second quality, £12.

Spruce.—Ex. Aboukir, from Quebec—12-16 ft. 3x11 in., first quality, £12; 10-15 ft. 3x8 in., £12. Ex. Hirundo, from Quebec—11-16 ft. 3x10 in., second quality, £8 5s.; 9-11 ft. 3x9 in., £9 15s.; 12-14 ft. 3x7 in., £8 5s.; 9-11 ft. 3x7-8 in., £8; 7-8 ft. 3x6-11 in., £8. Ex. Drot, from Quebec—11-17 ft. 3x9 in., £8. Ex. Hengford, from Bathurst, N.B., 11-24 ft. 3x9 in. first, second and third quality, £8 10s. Ex. Evangeline, from St. John, N.B.—10-26 ft. 3x11 in., unassorted, £8 5s. Ex. St. John city, from Halifax—14 ft. 2½x7 in., unassorted hemlock, £7 15s. Ex. Capella, from Pentecost—13-19 ft. 3x9 in. unassorted, £8 15s; 9-11 ft. 3x9 in. second quality, £10 5s; 12-14 ft. 3x9-13 in., £10 5s.; 10-14 ft. 3x7-11 in., £9 10s. Ex. Orcadian, from Montreal—6-8 ft. 3x8-9 in., second quality, £8; 6-8 ft. 3x6-7 in., £7 10s. Ex. Monmouth, from Quebec—4-9 ft. 3x7-11 in., fourth and fifth quality, £7.

THE BOSTON MARKET.

Spruce lumber at Boston remains in a very quiet position and dealers do not look for any improvement until warmer weather comes. Both demand and supply are light and prices are steady : 10 and 12 in. dimensions, $21; 9 in. and under, $19; 10 and 12 in. random lengths, 10 ft. and up, $20.50; 2x3, 2x4, 2x5, 2x6, 2x7 and 3x4, 10 ft. and up, $17.50; all other random, 9 in. and under, 10 ft. and up, $18.50; 5 in. and up, merchantable boards, $17; matched boards, $18.50 to $20; out spruce boards $13 to $14; bundle furring, $17.

There is a quiet but steady market for hemlock lumber : Boards, 12, 14 and 16 ft. stock, $14.50 for good eastern; Vermont $14 to $14.50; random eastern, $13.50 to $14; Pennsylvania No. 1, $18.50 to $19.50; No. 2, $15 to $16.50.

Western pine lumber is steady and unchanged : Uppers, 1 to 2 in., $84 to $87; 2½ to 3 in., $92 to $97; 4-in. $96 to $100; selects, 1-in., $76; 1¼ to 1¾ in., $76 to $78; 2-in., $78; 2½ to 3 in., $84; 4-in., $86; fine common, 1-in., $67; 1¼ to 1½ in., $69; 2-in., $72; 2½ to 3 in. $80; 4-in., $82; barn boards, $23 to $33; coffin boards, $28 to $32.

There is a quiet demand for hardwood lumber at steady prices : Quartered oak, $85 to $92; plain oak, $42 to $45; common and rejects, $20 to $25; red oak, plain, $43; whitewood, $51 to $55; sap, $43 to $48; common, $39 to $45; brown ash, $41 to $44; white ash, $43 to $46; maple, $33 to $37; end dried white maple, $46; birch, $27 to $30; birch, 75 per cent. red, $45 to $50; northern elm, $29 to $31; Michigan elm, $24 to $37.

Clapboards are quiet: Extras, $43 to $44; clear, $42 to $42; second clear, $38 to $40; extra No. 1, $29 to $30.

Shingles are steady : Extra cedar, $3.35 to $3.45; clear, $2.85 to $3; second clear $2.25 to $2.40; extra No. 1, $1.50 to $1.75; British Columbia red cedar, 16-in. five butts to 2 in., $3.45 to $3.50; 18-in. five butts to 2 in. $3.75 to $4; five butts to 2¼ in. $4.15 to $4.30.

Laths are firm : One and five-eighths in., $3.40; 1½-in., $3.25.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO AND MONTREAL, FEBRUARY 17, 1904 No. 3

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Month'y Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED

By the Car load, White and Rim Ash Logs cut into lengths of 4 ft. 6 in. or multiples, 6 in. and up in diameter. To be sound clean timber free from knots. State price per cord.

HURDMAN & ELMITT,
Ottawa, Ont.

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

THE CANADIAN LAND AND IMMIGRATION CO., OF HALIBURTON, (LIMITED).

This company has a large tract of well timbered land about 125 miles northeast of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads. The company are prepared to sell this timber in blocks ranging from 2,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto

ONTARIO TIMBER BERTHS

The undersigned has received instructions to offer

For Sale By Public Auction

(In Separate Parcels) on

WEDNESDAY, APRIL 20, 1904

at the hour of 2 o'clock p.m., at the

BOARD OF TRADE ROOMS, TORONTO,

Timber Berths

1. Township of Kitchener, 36 square miles.
2. Township of Roberts, 36 square miles.
3. Township No. 107, 36 square miles.
4. Township No. 167, 36 square miles.
5. Birch Island (Indian), 11 square miles.

(All in the Province of Ontario, Lake Huron District.)

Terms of Sale.—Ten per cent. of the purchase price at the time of sale and ten per cent. every six months thereafter, with interest at 6 per cent. per annum, with usual cutting terms and conditions.

For further particulars apply to

PETER RYAN, Toronto.

The assets of J. A. Lamarche, planing mill, etc., Montreal, are to be sold on the 24th inst.

It is estimated that the liabilities of Simon Peters, contractor and lumber dealer, Quebec, who recently became involved, will be nearly $70,000.

CURRENT TRADE CONDITIONS.

ONTARIO.

Little effort is being made in the direction of shipping lumber, as the weather and deep snow has rendered it impossible to accomplish satisfactory results. There is considerable lumber awaiting shipment, and an active spring trade seems to be assured. The longer the severe weather continues the greater will be the rush for stock when the spring opens. Manufacturers report many enquiries for the lower grades and shop lumber in pine, and prices of these grades are very firm. A Western Ontario manufacturer recently sold a million feet of four inch sound common plank at $19, which is regarded as a very fair figure. No. 2 common is reported to be a shade easier, although list quotations are unchanged. Hemlock prices are holding up, sales of two-inch, 10 to 16 feet in length, being reported at $12 and $12.50 at the mill.

The now accepted shortage in the production of hardwood logs is strengthening lumber prices. It is not unusual to meet a manufacturer who is asking from $1 to $2 per thousand more for his lumber than he received last season. Birch is meeting with favor, and as the supply of dry stock is not large, prices are largely in the hands of the producer. For XXXX pine shingles $2.60 at the mill is being asked. Cedar shingles are held at the same figure.

UNITED STATES.

Conditions are not favorable to a heavy movement of lumber, the severity of the weather having stopped nearly all building work in the Eastern States. The outlook is good, however, as the yards are lightly stocked and dealers have been holding back orders for some time past. In the lower grades there is, comparatively speaking, considerable activity, and a report from Tonawanda states that barn and box boards are being bought up so closely that there is a possibility of a substantial advance in prices before the new cut is ready for the market. Box lumber sells as quickly as it is offered. The upper grades of pine are not expected to advance, as they are now relatively high. It will be observed, however, that our Buffalo list this week shows an advance on uppers. The Southwestern States are enjoying exceptional prosperity, and it is expected that this will bring about a hardening in prices of southern pine, which in turn will influence the northern product. Altogether, the conditions are by no means unfavorable for the pine trade, and if present anticipations are realized a good season will be experienced.

Good progress has been made in getting out hardwood logs and a full production of lumber this year is likely. The market is in a position to take an average production without causing a break in prices during the next four months at least, after which time it is impossible to predict the course of events with any degree of certainty. Values at the present time are holding well. Maple is held at $9, $15 and $22 for culls, common and firsts and seconds, respectively, at the mills. White ash is in good request, the price for inch at Buffalo being $40.

GREAT BRITAIN.

In Great Britain buying of lumber is still being conducted with extreme caution. There seems to be considerable uncertainty in the minds of many dealers as to the future course of prices, some contending that if there should be unfavorable developments prices would decline sharply. The ruling high prices are no doubt restricting the consumption, but the Canadian stock is being gradually reduced and will be on a reasonable basis when navigation opens in the spring. First quality pine deals continue to be regarded as good property, but only a quiet demand exists at present for the lower grades. Spruce prices are less firm than they were one month ago, probably due to the quantity of stock sold by auction and for which unsatisfactory figures have been obtained. Waney and square pine are in moderate demand at unchanged quotations.

STOCKS AND PRICES.

In the Riding Mountain district of Manitoba spruce lumber is selling at $12 per thousand at the mills.

Tenders are invited up to February 25th for lumber required by the Road Department of Montreal during the present year.

The Scott Lumber Company, of Fredericton, N.B., expect to cut 5,000,000 feet of logs in the vicinity of Black River, Que., this year.

The barque Stranger is about to load lumber at Weymouth, N. S., for Buenos Ayres, the shippers being G. D. Campbell & Company.

The St. George Wagon Company, of St. George, Ont., recently purchased 150,000 feet of white oak lumber from S. B. Lawrason and 50,000 feet from S. G. Kitchen.

Wright & Davis, of Duluth, Minn., have bought about 50,000,000 feet of standing timber along the south side of Pigeon river for about $4 a thousand feet. It is understood to be a purchase for investment.

The Minnesota Log and Timber Company, of Duluth, Minn., last week sold to the R. T. Jones Lumber Company, of North Tonawanda, N. Y., 5,000,000 feet of No. 3 and better stock, which is now being cut.

About 15,000,000 feet of hemlock piece stuff has been sold by Menominee river firms for spring delivery to Chicago and the east. The hardwood cut of the Menominee river mills this season will amount to 15,000,000 feet, practically all of which has been sold.

Messrs. Ross & Taylor, of Exeter, Ont., have recently placed their order with a Toronto firm for fifteen carloads of hemlock lumber and several carloads of pine lumber, shingles and lath. They have also ordered eight carloads from the Pacific Coast. Building operations in the Exeter district, they state, promise to be quite brisk during the coming season.

Under date of January 30th Messrs. Clairmonte, Man & Company say of the Barbadoes market: "There has been one arrival with white piue during the fortnight, viz., schooner Agatha with 62,000 feet, which were sold on private terms for St. Vincent. Our market is well stocked with white pine and spruce but prices have been fairly maintained. Last sale of white pine for a cargo on the spot was at $25 per thousand for merchantable, and $20 for second quality; spruce, $21.17 for merchantable and $17.17 for second quality. Last sale of Gaspe Long Cedar shingles were at $6.01; Cedar Laying, $2.05 to $2.07½."

Millers, fruit exporters, and others continue to be hampered in their business by a scarcity of barrels. Since the stormy weather set in the backwoods stave factories have been compelled to close by reason of the difficulty in having timber brought to them through the deep snow. Thus scarcely any shipments of staves have been brought forward this year, and as a result several barrel factories in Toronto and elsewhere have not been running at their full capacity. Manufacturers say that those makers who usually were able to keep a surplus stock of 2,000 to 3,000 barrels on hand are now cleaned out. The prices of barrels are unchanged since the advance made last fall.

TIMBER BERTHS FOR SALE.

An opportunity to obtain some valuable timber limits will be afforded on Wednesday, April 20th, when Mr. Peter Ryan will offer for sale by public auction at the Board of Trade Rooms, Toronto, the Townships of Kitchener, Roberts, No. 107 and No. 167, each township containing 36 square miles, also Birch Island (Indian) containing 11 square miles, all in the Lake Huron district. The sale will no doubt attract a large attendance of lumbermen, as the result of the last Government sale proved that the demand for timber limits was never more pronounced than at the present time.

STOCKS OF WHITE PINE.

The Bureau of Grades of the Mississippi Valley and the Wisconsin Valley Lumbermen's Association has compiled a stock sheet of the pine lumber in the hands of the manufacturers in the two districts, January 1, 1904, and a comparison with the stock on hand on similar dates of 1903 and 1902. As is well known, trade during the latter part of last year showed a considerable falling off, both in the Mississippi valley and the Wisconsin valley, and hence it is not surprising, says the Mississippi Valley Lumberman, that on the first of the current year stocks were somewhat larger than they were a year ago. The total increase, however, is comparatively small for the two districts combined, while the Wisconsin valley district shows a decrease from both the previous years.

In the Mississippi valley the greatest increase over last year is in the stock of dimensions on hand. This shows an increase over the figures of 1903 of about 55,000,000 feet. Thick finish and shop lumber show a slight increase over the figures of the last year and a considerable increase over the stock on hand January 1, 1902. In inch lumber there is a considerable increase in the upper grades, especially in inch shop D and better boards and strips. The increase over last year is more than 50,000,000 feet and the total on hand January 1 is three times as great as it was the first of January, 1902. The stock of other upper grades, including No. 1, 2 and 3 boards, was larger than for either of the previous years. In the lower grades, there is a falling off as compared with both 1903 and 1902. The totals for inch lumber show more than 100,000,000 feet excess over 1902 and more than 200,000,000 feet over the previous year. The total of all stock in the Mississippi valley is about 75,000,000 feet greater than on the first of January last year, and about sixty-five million feet greater than on the first of January, 1902. The stock of shingles on hand was very much greater than on the first of either of the previous years, while the stock of lath shows a decrease over last year and an increase over 1902.

In the Wisconsin valley the stock of dimension on hand the first of the year was about 32,000,000 feet greater than on the first of January last year and more than twice the stock on hand the previous January. Thick finish and shop lumber show a decrease from last year and an in-

crease over the previous year. The stock of inch lumber in the Wisconsin valley, including everything down to mill run, shows a decrease from the corresponding period of last year with the single exception of C and better norway boards and strips and a slight increase in inch shop. The total of all lumber on hand in the Wisconsin valley on the first of January was about 33,000,000 feet less than for the corresponding period of the year 1903 and about 46,000,000 feet less than for the same date of 1902. The stock of shingles and lath in the Wisconsin valley was considerably larger than on the first of either of the preceding years. The summary of the two districts shows an increase of 41,000,000 fet ov er January 1, 1903, or a little less than 3 per cent. The stock of lath shows a net decrease of 94,000,000, while the stock of shingles was 82,000,000 greater than for the same period of the previous year.

LIVERPOOL TIMBER SUPPLY.

The stock of timber, deals, etc., in Liverpool, Birkenhead, Garston, Saltport and Runcorn on the 31st January, 1903 and 1904, with the consumption during the month of January, is given by Messrs. Alr Dobell & Company as follows :

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)

VANCOUVER, February 9th, 1904.—British Columbia lumbermen are much interested in the recent meeting held in Winnipeg with the object of deciding upon some definite plans for the conduct of the lumber business of the west. The deputation from the province included Mr. M. Proctor, of the Fernie Lumber Co. ; Mr. P. Lund, of the Crow's Nest Pass Lumber Co., Wardner ; Mr. M. B. King, of the King Mercantile Co., Cranbrook ; Mr. J. A. Dewar, of the Porto Rico Lumber Co., Nelson ; Mr. A. Leith, of the East Kootenay Lumber Co., Cranbrook ; Mr. W. F. Gurd, secretary of the Mountain Association, Cranbrook ; Mr. D. C. Cameron, M. P. P., and F. W. Jones, of Golden. It is hoped to make an agreement with the Canadian Pacific Railway by which it will be possible to get lumber into Manitoba and the Territories at a lower cost without reducing to any extent the margin of profit to the manufacturer. The lumbermen claim that they have made very little money during the past few years, notwithstanding heavy investments in limits and mills, and they now propose to stand shoulder to shoulder against unfair competition and other conditions which have injured the business. One manufacturer said : "We have decided one thing, and that is that we will get the present price, or one which may be slightly reduced, or else we will go out of business so faras that market is concerned. If we cannot manufacture and sell at a profit, we will close the mills for a time and leave the timber standing in the woods. The American millmen of the State of Washington now have practical control of the market of the Northwest and Manitoba. Next to the Dominion Government, perhaps the Canadian Pacific holds the power of giving us the greatest assistance. The company may be asked to increase the freight on American lumber coming into the country. This could be done by the railway making a charge of the full local rate from the boundary line to the different points in Manitoba at which the lumber is sold, and that would result in a freight rate practically prohibitive to the American exporters who have ruined the market."

By some persons the threat of the C.P.R. to enter the lumber business is regarded as more than a bluff. Next to the Government the C.P.R. has the largest holdings of timber in British Columbia. The limits owned by the company in the interior are very extensive, and were obtained under the land grants of the Columbia & Western Crow's Nest line and its own. These being got for practically nothing, it can be seen what a strong factor the company would be in the lumber trade were it to erect mills. These would no doubt be built in the interior where the choicest limits lie. The policy of the C.P.R. was recently announced in regard to these lands, namely, that no sale of timber would be made until 1912, and any agricultural settler could only have as much of the timber on his leased farm as was necessary for building and fence purposes. Neither could any land having on it over 5,000 feet of timber be secured by intending settlers. Lumbermen in the interior are already confronted with the question of timber supply, and have for some time been discussing the holdings of the C.P.R.

It would seem unlikely that the Government would allow such a strong corporation as the C.P.R., controlling the only means of transportation to the North-West market, to come into direct competition with such vested interests as exist in the lumber business. Certainly a big objection will be raised if any such move is made.

Several of the prominent lumber dealers of Manitoba have been in Vancouver for some days looking into the situation. They also visited the Sound. Among them were Mr. James McDiarmid, Mr. E. Cass and Mr. Creighton, all well known lumbermen of Winnipeg. Some large orders were placed with local mills, among which were the British Columbia Mills, Timber & Trading Company and the Hastings Shingle Manufacturing Company.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares,&c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance, "c/o CANADA LUMBERMAN.

The barque Trio has been chartered to load deals at a New Brunswick port for the United Kingdom in May or June.

The movement of shingles at Buffalo is somewhat better than might be expected under the existing adverse weather conditions and things seem to be shaping themselves for an active trade early in the season. While red cedars have advanced 12 cents lately, no weakening in the demand is noticeable, the eastern customers having concluded that the manufacturers are determined not to let their prices fall off any.

BRITISH DEMAND AND PRICES.

The following information is given in the February report of Messrs. Farnworth & Jardine, London, Eng. :

The arrivals from British North America during the past month have been 9,411 tons register, against 5,204 tons register during the corresponding month last year, and the aggregate tonnage to this date from all places during the years 1902, 1903 and 1904 has been 23,969, 21,006 and 23,401 tons respectively. In the business of the past month we have little change to report, and the quiet tone prevailing during past months still continues. The arrivals, with the exception of spruce deals, have not been too large, the deliveries have fairly kept pace, and values are generally well maintained ; stocks as a rule are ample.

PINE TIMBER.—The import consists of a shipment by steamer via Portland, Me.; the deliveries have been small, but values are steady ; stocks are sufficient. Square.-The demand has been very quiet ; stocks are heavy. Red Pine.-There has been no movement and stocks are unchanged. Oak has been inactive, the deliveries light, and stocks large, but there is no change in value to report. Elm.—There has been more enquiry ; the stock of prime wood is low, and prices are further advanced. Ash.—There is little demand. Pine Deals.—The arrivals have been more than usual for the time of year, there has been a little more enquiry, and values are steady, but stocks are sufficient. Red Pine Deals.—There is no change to report, and the demand is quiet.

NEW BRUNSWICK AND NOVA SCOTIA SPRUCE AND PINE DEALS.—The arrivals during the past month, chiefly by the Liners, have been large, also much in excess of corresponding period last year, viz., 6,030 standards, against 3,230 standards in 1903 ; the deliveries have been disappointing, and stocks, both in Liverpool and Manchester, although lighter than same month last season, are adequate. Freights have ruled exceptionally low, and buyers of consignment parcels to some extent have reaped the benefit. Pine Deals.—The demand continues quiet.

BIRCH.—Logs from St. John N.B., have arrived more freely, but a fair proportion has found its way into consumption, and stocks are not too large ; values are steady. Planks have arrived moderately; there has been more enquiry, and although stocks are moderate there is little improvement in value to report.

The sales during the past month have been as follows :—Birch Timber.—St. John, N. B., several parcels 14½ to 16½ inches avg. at from 18¾d. to 21d. per cubic foot. Planks at from £6 10/ to £6. 15/ per standard, ex quay. Spruce Deals.—St. John and Halifax consignments by the Liners at from £7 2/6 to £7 12/6 per standard according to quality, specification, etc.

Current quotations at London rule about as follows :

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO AND MONTREAL, FEBRUARY 24, 1904 No. 4

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

PETER RYAN, Toronto.

Capt. J. J. Christopher is taking out a quantity of logs in the vicinity of Hopewell Cape, N. B., this winter.

W. S. Gore, Deputy Commissioner of Lands and Works, Victoria, B. C., will receive tenders up to March 2nd for a license to cut timber on a timber limit situated on Vancouver Island, known as lots 403, 611, 613, 614, 615, 616 and 618, Clayoquot district, containing 1,648 acres.

CURRENT TRADE CONDITIONS.

ONTARIO.

Shipping conditions have not improved materially during the past week. Manufacturers and dealers have been unable to get shipments through to their customers, and as a consequence business in lumber s uiet. Consumers are withholding orders until there is a prospect of obtaining their requirements within a reasonable time. Many of the white pine yards are carrying considerable lumber which has passed out of the manufacturer's hands, and unless this stock is moved before spring, which now seems improbable, it will interfere with the piling of the new cut. There is a very fair consumption of lumber by factories, whose stocks are running low, and there is bound to be an active demand in the spring. Much will depend upon the building trade, but present indications are that the volume of building throughout the province during the coming season will be fully as great as last year. The heavy demand for box and the common grades of pine will probably continue, with prices very firm.

It is definitely stated that several Georgian Bay manufacturers have placed a considerable proportion of their output for the coming season, prices in most cases being almost as good as those realized one year ago. There is now a disposition in some quarters to ask an advance, as it is claimed that the cost of getting out logs has been from $1 to $2 per thousand feet greater than in the winter of 1902-3.

QUEBEC AND NEW BRUNSWICK.

The outlook for spruce lumber is not as roseate as it might be. Shippers have received word from their representatives in Great Britain that business there is backward and that the disposition of buyers is to oppose the high prices that are being asked for spruce deals. There is little likelihood, however, of shippers making more than very slight concessions, as in most instances they are paying the mill men an advance over last year's figures. The United States shipments are very quiet owing to the difficulty of making delivery by rail. Under the present conditions dealers are not trying to push business. Cedar shingles have shown a little strength. Most sales are being made on the basis of $3.40 for extras, Boston delivery. Laths have sold recently at $3.30 for 1 5/8 inch spruce, which is ten cents less than the price last month.

UNITED STATES.

Lumbermen are patiently waiting for milder weather and the improvement in trade which is sure to come with it. The movement at the present time is light, but stocks are in such shape that prices have not been adversely affected. The knowledge that stocks of white pine at the head of the lakes have been well sold out and that this season's cut will be less than last year has a tendency to hold the market firm. Some of the larger dealers have contracted for a considerable supply to be cut during the coming season, the price being slightly less than one year ago. The smaller dealers are holding off and will place orders only when their customers begin to call for stock. From Michigan eastward the supply of the box grades of white pine is nearly exhausted and box manufacturers find it necessary to adopt substitutes for white pine. Chicago dealers report an increase in the number of inquiries, which is regarded as indicative of a brisk spring trade. There is a plentiful supply of Norway dimension, which is not much called for at the present time.

Hardwood consuming industries are willing to increase their supply of lumber and are placing orders whenever any concessions are offered. A slight falling off in the price of basswood is predicted by some persons, based on the expected large production this year. Soft elm and rock elm are both scarce and prices unusually firm. The supply of dry maple at manufacturing points is exhausted, and it is said that a large proportion of the coming season's cut is already disposed of at fair prices.

GREAT BRITAIN.

So far as we can gather the timber trade of Great Britain is still marking time. If importers are willing to close contracts on the basis of existing prices, there has been no evidence of such willingness in the business of the past fortnight. Agents of Quebec shippers are now canvassing the trade, and it is reported that it has been most difficult to book orders at satisfactory prices. The present indications are that the volume of business this year will show a decrease as compared with last year, as there does not appear to be much probability of an increase in the consuption of lumber. The high prices are lessening the demand for pine and the business in Lancashire is still suffering from the partial paralysis of the cotton industry. At the present time the buyers seem to be in the stronger position and unless something very favorable to the market should develop a slight decline in the price of lumber for spring delivery is not unlikely. A considerable quantity of spruce deals has arrived at London and Liverpool from St. John and Halifax, which has more than supplied the immediate wants of the market. The stocks in the yards at these ports, as well as at Manchester, are larger than might be desired for the good of the trade. Notwithstanding that higher prices have been paid in some instances for pine and spruce, it is said that offerings are being made to supply spruce at five shillings per standard below the figures paid last year. The colleries are buying some timber, and a Tyne ship-building firm is in the market for square pine, rock elm and Quebec oak.

STOCKS AND PRICES.

James Campbell, of Sharbot Lake, Ont., will supply a quantity of lumber required by the city of Kingston, Ont.

W. Doherty & Co., of Clinton, Ont., have sold their timber limits in Algoma to the St Joe Lumber Co., of Sault Ste. Marie.

The British Columbia Government is offering for sale a timber limit situated on Vancouver Island, known as lot 617 and containing 3,080 acres.

The Dyment, Baker Company have secured the contract for the supply of lumber required for waterworks purposes at London, Ont.

A Buffalo report states that the new hemlock circular puts up the price of 2x4, 18 to 20 feet, half a dollar, but leaves the base price at $16.50. It is agreed that the hemlock outlook is good, but sales are very light on account of the weather.

The Dominion Government is about to construct a large pier at Douglastown, Gaspe County, Quebec, for which a considerable quantity of timber will be required.

The total log crop of Maine this winter is estimated at 750,000,000 feet. Of this about 500,000,00 › feet will be spruce, one half of which will be required by the pulp mills.

The Scott Lumber Company, of Fredericton, N. B., expect to get out 24,000,000 feet of logs during the present winter. They are operating on the Magaguadavic, Benton and Black rivers.

About 500,000 feet of lumber will be required for the wharf for the New England Fish Co., at Vancouver, B. C., the contract for which has just been awarded to Ironsides, Rannie & Campbell.

Prospects for cedar products are considered good. Posts are generally being held for a little higher price. The cedar shingle market has strengthened and further improvement is expected.

A correspondent at Menominee, Mich., states that good lumber is off at present from $2 to $10 per thousand feet as compared with prices last spring. Some which sold last year at $60 brings no more than $50 this year. Common lumber, which sold for about $19 last year, is off $2 this season. Hemlock sells for about $11, as last season, but hardwoods are bringing from $3 to $5 more than last year.

The American Lumberman says that there is a bad shortage of elm staves, which promises to continue for a considerable time, as all elm lumber is very firm in price. Predictions are made that the price of hoops will advance before long, especially as they are considerably lower than anything else. It is noted that Minneapolis is quoting slack staves as high as Buffalo, viz., $13.50 for first-class elm. All odd lengths are especially scarce. Heading is not so strong, but prices are well maintained, 10½ cents for first-class basswood. Hoops are still quoted at $9.-75 for 6 foot coiled.

The Barbadoes lumber market is reviewed by Messrs. Musson, Son & Co., under date of February 13th as follows: "There have been no arrivals to report during the fortnight under review and the position of the market remains virtually the same. Until the crop is further advanced, thus reducing the stocks in dealers' hands, we cannot look for any material improvement. Owing to the approach of our dry season the demand for shingles has slackened, but Long Gaspe and Dimension would bring fair prices. We value a small lot of Cedar Laying at $2.10 to $2.15, but any large quantity would hardly bring these rates."

A Canadian cooperage firm gives out the following report on barrel material intended for shipment acoss the line: The cooperage stock market is in a very unsettled condition. There are no staves on the market, hoops are comparatively plentiful, while heading is a little easier. The output of flour barrels has been limited very greatly for want of material, and manufacturers find it almost impossible to get out stock. The demand for flour barrel staves will be greatly in excess of the supply until the new stock comes in next April or May. The following are the present prices for cooperage stock f.o.b. cars at Suspension Bridge, N.Y.: No. 1 28½ in. elm staves, $14 to $15 per net M.; No. 17½ in. heading, 9c per set; No. 1 5½ feet patent coiled elm hoops, $10.50 net M.; No. 1 6 feet patent coiled elm hoops $10,50 net M.; No. 1 24 in. elm staves $10 net M.; No. 1 5 feet hoops, $8.50 net M.; No. 1 14 in. basswood heading, 7c per set; No. 1 13 in. head liners, 40c net M.

Messrs. A. F. & D. Mackay, of Liverpool, Eng., recently sold a quantity of birch by auction. The prices obtained were as follows: Lot 1—about 10 logs, more or less, 19 in. deep and upwards, 2s. Lot 2—about 15 logs, more or less, 18 in.

Lot 9—about 24 logs, 15in. deep, 18½d. Lot 10—about 23 logs, more or less, 15in. deep, 18¼d. Lot 11—about 17 logs, 14½in. deep, 18¾d. Lot 12—about 16 logs, more or less, 14½in. deep, 18¾d. Lot 13—about 21 logs, more or less, 14in. deep, 18¾d. Lot 14—about 15 logs, more or less, 13½in. deep and under, 16¼d. Lot 15—balance of birch, 19½d. Lot 16—about 18 logs maple, more or less, 16½in. deep and under, 16d. Lot 17—ash 16d. L t 18—elm, 17d. Lot 19—beech, 16d. The foreign average depth is 14½ in., and the average price realized was 19⅜d. per foot. The principal buyers were: Lumley, Llody & Co., Williamson & Davies, Finchett, Leàn & Co., W. Kay Bolton and a Mr. Crompton.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN)

One question is being asked in Ottawa lumber circles these days and it is "what will the log cut be?" It is a generally accepted fact that there will be a reduction as compared with last year, but the extent of that reduction will depend on the weather with which the closing weeks of winter will be filled. Careful inquiry amongst the firms and their agents go to show that the deep snow was not the general impediment it was thought to be early in the winter. In the Temiscamingue, Kippewa, Coulonge, Deep River and Black River districts there was no very excessive snow fall, but trouble was experienced from the fact that the ground was not frozen and the snow was light, making road building a difficult task. In the Madawaska, Dumoine, Gatineau and Lievere countries the snow was deeper than in the others named, and gave more trouble. Log cutting was suspended earlier than in past seasons, but there is a probability that it may be resumed again.

From all accounts the scarcity of labor early in the season and the tendency of the men to "jump" their jobs later on will have more to do with the shortage in the log cut than the adverse natural conditions.

In Hull last week interesting sessions of the Quebec Colonization Committee were held. This committee was appointed by order of the Quebec Government to enquire into the relations between the lumber operators and the settlers. Evidence was given by J. R. Booth, E. B. Eddy, George H. Perley, H. K. Egan and others; the gist of the evidence was that settlers in timbered districts are a source of danger and that land is frequently taken up simply for the illegal cutting of the timber that rightfully belongs to the lumber firms. It is probable that the commission will recommend to the Quebec government that the lands fit for colonization and cultivation be set apart and the remanider held as a forest reserve. Upon the latter it will be possible to so regulate the annual cut of timber that the forest wealth of the country may be preserved perpetually. This would be done by cutting only the large matured trees.

On account of the continued severity of the weather and the steady accumulation of ice at the Chaudiere, it has been found impossible to run J. R. Booth's mill during the past month by reason of lack of power. A scheme is now under way to merge all interests at the Chaudiere and take concerted action towards the improvement of conditions.

"Nothing doing" is the word in manufactured lumber circles these days. Dealers are busy with office work and are looking forward to a busy spring.

OTTAWA, February 19, 1904.

THE LONDON MARKET.

The London timber market is thus reported by Messrs. Churchill & Sim:

Selling in the London market has been on a large scale during January, but in spite of this the deliveries from the docks are some 2,600 standards less than they were in January, 1903, and this is in no way compensated for by an overside delivery of 400 standards more than in the corresponding month last year. Prices have fallen steadily but very gradually, for in the absence of buying ahead there is nothing to undermine the position of the market or to prevent the gradual liquidation of the heavy stocks held here at approximately the present range of values. The free buying of certain classes of stock for shipment from abroad at next open water, which was a feature of the closing months of 1903, was not resumed after the Christmas holidays, and January has been the quietest month for free on board buying that has been known for many years past. Neither for this country nor for the Continent, nor for the Cape market has much selling been possible, although shippers are willing to take much more moderate prices than they have recently been holding for. The stocks held in the chief importing centres are sufficient for a reducing demand, so that buyers can wait, and apparently will wait, to get a clear view of future prospects, especially perhaps with regard to the effect on the money market of the war between Russia and Japan. The business usually effected in January and February will this year be more easily effected in April and May, and the more shippers realise and acquiesce in this the better.

There is again no change to report in the pine deal market in London. It is held steady by the small supplies, and by the prospect of still another augmentation of the cost of the new season's shipments. The demand continues small, and special, and deals have to be of very full quantity to command the current quotations. Spruce deals have fallen again in London during January in common with all whitewood. If left to themselves they should rally quickly, as the prices for further shipments seem likely to be higher rather than lower, supported by the American demand. In this country, however, spruce comes into competition with so much other whitewood and inferior redwood that it is not entirely ruled by shipping prices. For birch, elm, ash and white pine timber there has been but a poor demand in January. Oak has perhaps held its own in a small way.

WANTED

British Columbia Cedar Shingles, Lumber and Doors. All sorts of British Columbia manufactured material, bridge and building timber. Quote delivered prices during 1904.

PINE SIDINGS AND BOARDS.

With Canadian pine deals up to their present value, it is surprising, says a write in the Timber News, that London importers and those using the port of London as the most convenient and central for receiving and handling bills of lading of Canadian goods, have not taken the cue from West Coast and Midland buyers, and turned their attention to white pine sidings and boards. Cut from the sides of the pine logs from which the regular 3 in. deal is produced, and further therefore away from the heart, they should commend themselves for several reasons to pine buyers.

It is true that away from the heart the nearer the sap, but as pine is distinctly a cabinet or "Interior" wood, this disadvantage is not so serious, providing the goods are shipped under good conditions and come to hand bright and light.

On the first point of cost, many pounds per standard divide the best pine deal from the best pine siding and best stock board in favor of the last named. In lengths they all run the same, so that the question of thickness alone seems to explain the very small sales to this market.

Habit is a bad master to overcome, but it is not conceivable that any or very few pine deals are ever worked up in an unreduced form. A great deal can be got out of a good pine plank with judgment, and there is opportunity for making the best of the best side, and the best of the worst side; still, when we consider the very important percentage of deals reduced to siding and board thicknesses, it is surprising that those thicknesses are not acceptable when imported.

In looking through a catalogue of stock lying in Liverpool we find among Quebec pine sidings lines of "clears" 2 by 16 up to very wide, and 1½ by 19 and up. In best sidings, which are more in evidence, we find 2in., 1¾in., 1½in., and 1in. by 8 and up to wide, called O quality. Under this come in order A quality, B quality, and C quality, A quality holding 65 per cent. firsts against 35 per cent. seconds, and B quality 60 to 65 per cent. seconds to 35-40 per cent. thirds, C quality averaging good thirds.

In pine boards we notice fine lines of first, seconds, and thirds, 2 by 12 and 11, 1½ by 12 and 11, 1 by 12 and 11, also 10 in , 9in., and 8in. widths.

In all these we find lines of useful shorts 9 to 11 ft., and ends 6 to 8 ft. at, of course, corresponding prices.

Perhaps these goods may not appeal to the yard keeper, with his pits and racks for 12 to 16 ft. deals, selling by the foot or plank, in the old-fashioned manner, but surely now is the time for the contractor and the cabinetmaker in a large way to inquire into the question of sidings versus deals.

CANADIAN LUMBER SHIPMENTS.

From Halifax, N.S.: Schooner James W., 125,437 feet pine lumber, value $2,258; 19,483 feet spruce lumber, value $258. Steamer Manchester Commerce, for Manchester, England, 320,419 feet spruce deals, value $3,204; 114,137 feet birch plank, value $1,206. Steamer Pretorian, for Liverpool, 12,505 feet hemlock deals, value $125; 168,907 feet spruce deals, value $2,017.

From St. John, N.B.: Str. Astracana, for Melbourne, Australia, 1,400,695 feet daals, 6,741 feet ends. Steamer Laurentian, for Liverpool, 145,813 feet box shooks, 163,895 feet deals, 6,455 feet ends, 74,199 feet scantling. Steamer Lake Manitoba, for Liverpool, 1,752 maple blocks, 2,458 pieces white pine lumber strips, 240 cases chair stock, 539,080 feet deals, 140,410 feet scantling, 76,371 feet ends, 100 tons birch timber, 1225 bundles maple flooring, 1,848 doors. Steamer Tritonia, for Glasgow, 438,376 feet deals, 22,965 feet scantling, 10,855 feet ends.

SPECIALTIES

Red Cedar Bevel Siding, Plain and Fancy Butts in 16 in. and 18 in. Dimension Shingles, also the famous XXX and XXXX Brands, all Choice Stock.

We own and operate several mills in Washington and British Columbia, being on both sides of the "Imaginary Line" known as the International Line, and it keeps our opponents in the trade guessing how to meet us on account of the good quality of our manufactured stock, which has been so carefully planned that even the selection of our timber lands in years past has something to do with the present.

We find our competing salesmen's story to the customers has now got to be a "song pure and simple," which they have learned from necessity to sing loudly and lustily, and is as follows: **"JUST AS GOOD AS HASTINGS," "JUST AS GOOD AS HASTINGS."**

While we appreciate their holding our goods as models of perfection, which the high standard certainly merits, still looking at the matter from the customer's and the consumer's standpoint we cannot see any advantage to you in buying an imitation when the real article can be had through our representatives, viz:—

James Twitchell, Clinton, Ont., for Ontario, Canada
Samuel Ashfield, Winnipeg, Man., for Manitoba and the North-West Territories
Smith, Duplain & Crumb Co., Rockford, Ill., for Illinois, Indiana, Ohio and Wisconsin
D. D. Babbitt, Clinton, Iowa, for Minnesota and Iowa, North of the C. & N.W. Ry.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO AND MONTREAL, MARCH 2, 1904 No. 5

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL
22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman—A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED

By the Car load, White and Rim Ash Logs cut into lengths of 4 ft. 6 in. or multiples, 6 in. and up in diameter. To be sound clean timber free from knots. State price per cord.

HURDMAN & ELMITT,
Ottawa, Ont.

FOR SALE

FACTORY FLOORING

KILN DRIED BIRCH, ABOUT 60 M. Box 442 CANADA LUMBERMAN.

A CANADIAN GENTLEMAN HAVING considerable experience in British methods and centres, who intends sailing for Liverpool about 1st May, would be pleased to represent a few Canadian firms in lumbering, manufacturing or any mercantile or confidential capacity, in the chief cities of Great Britain; all correspondence strictly confidential. Address W. E. LOUNT, Markham, Ont.

THE S. G. READ AGENCY, BRANTFORD.

360,000 acres of Mexican Lands—heavily timbered; for sale in one block, only 50 cents per acre. S. G. Read & Son, Brantford.

500 square miles Timber Lands—in Province of Quebec: for sale, S. G. Read & Son.

Several hundred square miles in North Ontario. S. G. Read & Son.

Saw milling business for sale — first-class. S. G. Read & Son.

FOR SALE—SAW-MILL REFUSE BURNER 14x45 feet, also heavy slush chain, sprocket and gear. Address Box 285, Orillia.

BAND SAW FILER WISHES ENGAGEMENT; experienced in double cuts. Box No. 122, CANADA LUMBERMAN.

FOR SALE—TWELVE HUNDRED ACRES heavily timbered land, convenient to two railways, or will let contract to log and saw same to party with good mill. Box 123, CANADA LUMBERMAN.

WANTED—10 CAR LOADS OF COMMON and Better White Winter Cut Basswood, cut 1½" from the saw or good plump 1" when dry; will take it 3" wide and up, 3 ft. long and up; can ship in car lots from any part of Ontario or Quebec. Address Box 84, CANADA LUMBERMAN.

FOR SALE

200 M. FEET OR MORE OF AI HEMLOCK Lumber ready for shipment. Also 100 M. feet of Cedar Timber from 3x4 to 12x12. Address PICKARD BROS., Mar P.O., Ont.

FOR SALE

About 2 cars White Oak Plank 2", 3" and 4" thick, from 6" to 12" wide and 6' up to 16' and over long, mill run; also some Red Oak. BENJAMIN SHERK & SON, Sherkston, Ont.

CIRCULAR SAW HAMMERING

taught right in your mill by mail. No previous experience necessary. Sent prepaid on trial. Send for Canada references, who are cutting frozen timber with my gauge and instructions. J. H. MINER, Lumberton, Miss.

TIMBER LIMIT FOR SALE

BERTH NO. 3 SITUATED ON THE SOUTH-WEST corner of the township of Creelman, comprising lots number 7, 8, 9, 10, 11 and 12 in the first, second and third concessions; good location, Vermillion river running through centre. For terms and particulars apply to W. RYAN, North Bay.

BUSINESS CHANCES

FOR SALE—THE FACTORY PROPERTY and Plant of the Lake of Bays Wood Manufacturing Co., including a quantity of Hardwood and Hemlock Logs, Lumber and Flooring; Saw-Milling Plant complete and Machines for the manufacture of Broom Handles and all kinds of Turned Goods, Etc. All in complete running order Situated on Lake of Bays, Muskoka, adjacent to Huntsville. Apply to J. W. WHITE, Huntsville.

MACHINERY FOR SALE

One Improved Mortiser, 1 Mortiser and Borer, 1 Cowan Matcher, with Shimer Heads, 1 twenty-four-inch Surface Planer, 1 Band Saw, 1 Turning Lathe, 1 Shaper, 1 Jig Saw Machine, 1 Tenon Machine for Blinds, 1 Blind Staple Driver. 2 Splitting Saw Tables, one Sander for doors, etc., price $50.00. A. H. CUMMINGS & SON, Coaticook, Que.

TIMBER FOR SALE

Sealed tenders will be received by the undersigned up till 12 o'clock on SATURDAY, THE 12TH DAY OF MARCH, A. D., 1904, for the purchase of timber on lots 37 and 38 in the 4th Concession of the Township of Ancaster, consisting of about sixty acres. The said timber is situate on the farm occupied by the late Horace Shaver in his lifetime. The variety is mixed, but there is a quantity of elm, pine and maple. The highest or any offer not necessarily accepted. Terms cash.

For further particulars apply to

MRS. ALICE SHAVER SMITH,
68 George Street, Hamilton.

FOR SALE—PINE AND CEDAR SHINGLES 16 and 18 inch. T. J. HARWOOD, Mattawa, Ont.

WANTED—LUMBER, SHINGLES, WOOD; stocking retail yard. P. O. Box 213, Almonte, Ont.

WANTED—A FIRST-CLASS HARDWOOD Lumber Buyer and Inspector; one who has had experience in shipping from Ontario mills preferred. THE WILSON LUMBER CO., Toronto.

WANTED—POSITION AS BAND SAWYER, either single or double cut. Write stating wages and requirements, Box 121, CANADA LUMBERMAN.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

WANTED — FOREMAN, MODERN BAND saw mill in live town on Georgian Bay. State age, experience and salary. Address Box 118, care CANADA LUMERMAN.

WANTED—1" CULL SPRUCE; HARDWOOD lumber of all kinds and thicknesses; Staves, Hoops and Heading; Cedar Posts. R.E. KINSMAN, Hamilton, Ont.

WANTED—ABOUT ONE MILLION FEET of Hemlock logs, assorted lengths, on shore or in booms Georgian Bay. Quote price and particulars to Box 163, Midland, Ont.

WANTED—TO PURCHASE SECOND HAND, one 75 h.p. boiler, one 50 h.p. engine, one 4 sided sticker, one saw bench. Must be in good order. Apply giving full descriptions and prices to "Planing Mill," care CANADA LUMBERMAN.

FOR SALE

One Cowan Improved Door Sash and Blind Clamp
One second hand Power Mortising Machine
One second hand 8" 4-side Moulding Machine.

ALFRED RUBBRA,
Machinery Exchange, 22-24 Victoria Square, Montreal.

FOR SALE

A few pieces (about 200) of square and waney timber near Deux Rivieres, C.P.R. main line; well made and of a good quality, trimmed ready for shipment, can be loaded in spring. Also a large quantity of cedar for telegraph or telephone poles from 20 ft. up to 60 ft. in length, and about 2000 logs and dimension of red and white pine, spruce and balsam put on the Ottawa River.

CURRY & THRASHER,
Deux Rivieres, Ont.

FOR SALE

A LUMBERMAN'S BONANZA. JUST THE place for lumber, wood or coal business. Land 200 ft. x 150 ft.; building 85 ft x 16 ft., with office and 8-ton scale; 10 horse-power engine and boiler as good as new. Excellent railroad and wharfage facilities. Seven miles from Montreal in growing town of 10,000. No competition. A snap to quick purchaser. THE FACTORY WASTE CO., 185 St. James Street, Montreal.

For Sale

Fifty thousand Cedar Ties, 6" face and up
One million feet Square Cedar
One million feet Square Hemlock
Half million feet Square Pine
Twenty thousand Cedar Posts, 4½" and up, 8 ft. long.
Five million XXX Cedar Shingles
One million No. 2 " "
To be shipped during the season of 1904 by rail or water. Apply to

MAITLAND, RIXON & CO.,
Owen Sound, Ont.

FOR SALE—300,000 FT. OF HEMLOCK TO be cut the coming season; would cut to order. Address Box 120, CANADA LUMBERMAN.

ADVERTISERS HAVE SEVERAL MILLION feet of Pine, Maple and Birch, which can be cut to order if contracts are made at once. Box 124, CANADA LUMBERMAN.

5. Birch Island (Indian), 11 square miles.
6. Berth No. 3, Township of Mulock, 3¾ square miles.
7. Berth No. 4, Township of Mulock, 4 square miles.
8. Also new and well equipped SAW MILL at Spanish.

(All in the Province of Ontario, north shore of Lake Huron).

Terms of Sale.—Ten per cent. of the purchase price at the time of sale and ten per cent. every six months thereafter, with interest at 6 per cent. per annum, with usual cutting terms and conditions.

For further particulars apply to

PETER RYAN, Toronto.

Mr. Sydney de Courcy Thompson has retired from the lumber importing firm of Thompson, Blois & Kjellgren, 17 Gracechurch street, London, England. Mr. Thompson has recently returned from an extended tour in West Africa on business connected with his firm and has been engaged as manager of a company formed for the purpose of dealing in timber in West Africa. His withdrawal will not affect the firm name of Thompson, Blois & Kjellgren.

CURRENT TRADE CONDITIONS.

ONTARIO.

No effort is being made to handle lumber while storms and deep snow cover the entire province. The snow-fall on Monday last completely paralyzed traffic in Toronto and vicinity, and in the logging districts operations have been conducted with so much difficulty that many firms have taken their men out of the woods. Building operations, which have been quiet all winter, are yet at a standstill. This is plainly shown by the falling off in the number of permits issued in Toronto during the months of January and February. There is considerable building in sight, but little progress will be made until the weather becomes more favorable. Retail dealers will not place orders for lumber so long as consumers cannot build. The present demand, therefore, is confined largely to factory lumber, for which there is a moderate inquiry. Prices generally exhibit firmness owing to the fact that there is sure to be a shortage in the log supply. Hemlock is slightly higher, as offers have been made to purchase entire cuts at $11.50 at the mill. For the reasons above stated the movement of hardwoods is light, but it is expected that the increased activity consequent upon the opening up of spring will be accompanied by an appreciation in prices.

QUEBEC AND NEW BRUNSWICK.

The extraordinary inclemency of the weather has made it almost impossible to move lumber and has reduced building operations almost to the minimum. Prices of spruce lumber are not as firm as at last report. Offers received from Boston show a decline of about one dollar per thousand feet. British trade is also quiet and somewhat depressed. So far this season there has been very little done on contract with Great Britain. A few French cargoes have been sold but at prices not as satisfactory to the seller as those obtained last year. Notwithstanding these facts, producers of spruce are holding their output very firmly, and if the log production should be lighter than is now anticipated, there may be some improvement in prices later in the season.

A reliable authority estimates the output of logs in the Miramichi district of New Brunswick this year to be about the same as last season. It is claimed by some operators that it will be at least 10 per cent. short of last year's output, but as the stock of sawn and round timber wintering on the Miramichi is 50 per cent., or at least 15,000,000 superficial feet, greater than that of the previous winter, this increase is likely to counteract any shortage in the log production.

The late snow storms with the cold weather has made the hauling of logs more difficult than usual. The increase of wages this year will amount to 20 per cent., which must be added to a similar increase in the years 1902 and 1903. It is thus plainly evident that the stock of logs taken out this winter will cost considerably more than ever before.

UNITED STATES.

Veritable winter conditions have prevailed over much of the United States and the pine business has been seriously hampered thereby. The prevailing dullness has resulted in a slight weakening of prices, a few timid persons having offered stock at lower quotations and thus established a precedent for others to follow. The Southern Lumber Manufacturers' Association, at a meeting on February 23rd, adopted a new price list which more nearly corresponds to current selling values. Ordinary dimensions are reduced $1 a thousand, flat grain flooring $1.50 to $3, and fencing and ceiling 50 cents to $1, while prices of heavy joists and timbers remain unchanged. In white pine, low grade lumber is sought after to some extent and is firm in price, the higher grades ceing in less demand and slightly weaker. Box grades are almost out of the market, having been bought up by both dealers and box factories. The heavy call for the lower grades from manufacturers has taken all the scoots offered, they having been sold in North Tonawanda as high as $13 during the past week. Eastern dealers say that they are doing much less business than at the corresponding time last year, this being attributed solely to weather conditions. Two important purchases of white pine are reported from Duluth, White, Rider & Frost, of North Tonawanda, having last week bought 7,000,000 feet of log run, and Pendennis White about 12,000,000 feet of similar stock. Reports from the white pine logging districts state that the input from Ashland eastward is likly to be less than was expected, but in the Duluth and upper Mississippi river districts the intended amount will probably be secured, though that amount will be about 25 per cent. less than last winter.

Hardwoods have shown more strength than pine. No weakness is apparent anywhere, but on the other hand the outlook has improved. The lower grades are very scarce and will be almost unobtainable before the new cut is ready for the market. White ash, elm and oak continue to lead in point of activity, but all kinds are meeting with a very satisfactory inquiry considering the conditions. Maple is perhaps in greater supply than any other hardwood, and there is some demoralization in the maple flooring trade.

GREAT BRITAIN.

British buyers of lumber are still pursuing a very cautious policy in respect to new business. Usually a large proportion of the season's requirements has been contracted for by the end of February, but this year very little stock has been arranged for and there does not seem to be much disposition to place contracts even now. The trade of the country is moderately good, although as in Canada unfavorable weather has rendered building operations difficult and the comparative tightness of money and the caution of investors combine to make the arrangement of finance a task by no means easy for the speculative contractor. There has been a heavy decline in the deliveries of lumber from the London docks. Taking the first seven weeks of this year the falling off is 8,000,000 feet. The volume of business in the near future will depend upon whether either shippers or importers are willing to make any concessions. It is argued that the prices asked by shippers are too high to encourage buying, but on the other hand the cost of production has been so great that asking prices cannot be materially reduced without wiping out the margin of profit.

Some business in pine deals has been done, chiefly for the better qualities, the lower grades being difficult to place. Contracts have also been made for a few cargoes of New Brunswick spruce on the basis of £6 5s. to £6 7s. 6d. per standard. The most favorable report comes from Cardiff, where it is said spruce deals are going rapidly into consumption, the stock held at that port being exceedingly light. At the last auction sale at London spruce deals and battens were weaker, 3x9 second quality bringing £10 10s. and £10 per standard; third quality 3x9, £9 10s; 3x7 second quality battens, £7 15s, and third quality £7 5s.

STOCKS AND PRICES.

Ritchie Bros., of Aylmer, Que., are reported to have purchased 340 square miles of timber limits near Mattawa, Ont.

D. R. Fraser & Company are asking for tenders for the raftingof about 2,000,000 ft. of logs from the bank of the river up about 50 miles to the mills at Edmonton, N.W.T.

The Rathbun Company's four camps in Haliburton County closed down last week owing to the excessive depth of snow and cold weather, which greatly regarded the work of cutting and hauling the logs. Two of the camps were located in Gooderham vicinity and two north of Wilberforce. As a result of the suspension of operations nearly a month earlier than usual, the cut will be much smaller than last year.

We quote as follows from the market report of Messrs. Clairmonte, Man & Co., of Barbadoes: "There has been no arrival with lumber during the fortnight. Our market is well stocked with white pine and spruce, but prices have been fairly maintained. The last sale of white pine for a cargo on the spot was at $25 per thousand for merchantable and $20 for second quality; spruce, $21.17 for merchantable and $17.17 for second quality. Last sales of Gaspe Long Cedar shingles were at $6.01; Cedar Laying, $2.05 to $2.07½."

Concerning white cedar products at Buffalo the American Lumberman says: There is a good demand for all cuts of white cedar, unless it be for shingles, which are rather undersold by Pacific coast products. The supply is not large. Sales of shingles at low prices are noted, but a jobber gives the following figures: Extra *A*, $2.90; *A*, $2.65; cedar butts, $2.30; sound butts, $1.40; culls, $1.10. Ties, 55 cents for No. 1, 32 to 33 cents for No. 2; posts, 8-foot, 15 cents for 3 to 4½-inch tops; 18 cents for 4½ to 6-inch tops; 20 cents for 6-inch; 22 cents for 7-inch. Ten-foot lengths, 20 cents for 3-inch tops; 22 cents for 4-inch; 25 cents for 5-inch; 30 cents for 6-inch. Twelve-foot lengths, 35 cents for 5-inch tops; 38 cents for 6-inch. It now looks as though the stock of cedar will be pretty well sold out by the opening of the lakes.

CANADIAN FORESTRY ASSOCIATION CONVENTION.

The fifth annual meeting of the Canadian Forestry Association will be held in Toronto on the 10th and 11th of March next, commencing at 10 a.m. The following papers have been promised: "Systems of Administration of Timber Lands in Canada," by Aubrey White, Assistant Commissioner of Crown Lands, Toronto, Ont.; "Forest Management," by John Bertram, Toronto; "The Laurentides National Park," by W. C. J. Hall, Department of Lands, Forests and Fisheries, Quebec, P.Q.; "Forestry in Relation to Irrigation," by J. S. Dennis, Superintendent of Irrigation of the Canadian Pacific Railway Company, Calgary, Alberta; "Forest Reproduction in Germany," by Dr. A. Harold Unwin (graduate of the Royal Saxonian Forest Academy, Tharandt, Germany), of the Dominion Forestry Branch, Ottawa; "Our Native Forest Trees and Their Use in Ornamental Planting," by F. G. Todd, Landscape Architect, Montreal; "Farm Forestry," by Professor Hutt, of the Agricultural College, Guelph. There will also be an address on "Forestry Education" by President Loudon, of Toronto University. A banquet will be held at the King Edward Hotel on Thursday evening, at which speeches will be delivered by prominent public men.

The programme for the meeting is sufficiently attractive to warrant the attendance of all persons interested in the subject of forestry, and it is expected that there will be a full discussion of the many valuable papers to be presented. Any lumberman who can make it convenient to be present will no doubt find the proceedings very interesting and instructive.

The business sessions will be held in the Parliament Buildings, Queen's Park.

The assignment is announced of John Inksetter, lumber dealer and saw-mill operator, Dundas, Ont. His liabilities are said to be fairly large.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)

VANCOUVER, B.C., February 24th, 1904. —British Columbia conditions are little changed from last report. Logging is slightly more active, but in some localities is still conducted with difficulty owing to the heavy snow-falls. On the other hand, the snow has facilitated operations in East Kootenay and along the Kootenay River south of the lake, where many logs were left in the woods awaiting good sleighing. The Bonner's Ferry Lumber Company will have a total of 12,000,000 feet available for their mill at Bonner's Ferry. McArthur Bros., of Detroit, have located a camp at Curley Creek, East Kootenay, where they will take out 1,600,000 feet of square timber for shipment to Liverpool, England. It will be loaded at Katka or Bonner's Ferry. All the camps along the Crow's Nest line of railway are working full forces of men, and at many of the mills operations are kept up with double shifts. Places where a year ago there was nothing but unbroken forests are now busy centers of activity, with stores, hotels and dwellings. This is especially the case near Cranbrook, many large camps having been established in all directions from the town.

Two splendid saw-mills will soon be in operation at Arrowhead, the owners being the Arrowhead Lumber Company and the Big Bend Lumber Company. It is estimated that there are 10,240,000,000 feet of lumber tributary to the Big Bend, almost all of which will be floated down the Columbia river to Revelstoke and Arrow Lake. Of course, it must be remembered that some of the timber lands in British Columbia contain as much as 50,000 feet to the acre.

The Empire Lumber Company, Limited, has been formed to take over the business of the Harbor Lumber Company, which recently bought out the Fred Robinson Lumber Company at Revelstoke, B. C. The Company is capitalized at $3,000,000 and will operate some of the Adams Lake timber limits.

The Okanagan Lumber Company is putting in a plant capable of turning out 60,000 feet per day. It has an unlimited supply of logs on the Spallumcheen river, and in the Mabel lake country, and is becoming one of the large enterprises of the province. The mill is located at Enderby.

A. S. Farquharson and H. A. McGuire, who are engaged in the saw mill business at Frank, Alberta, have secured large timber limits on Boundary Creek, East Kootenay, where they will build a saw mill with a capacity of 35,000 feet per day.

W. H. Remington and J. G. Bullen, who have lumber interests on Prince of Wales Island up the coast, returned from Japan recently, whither they went to investigate the timber industry.

A correspondent of the West Coast and Puget Sound Lumberman makes the following interesting calculations: A comparison of the figures paid in Winnipeg for British Columbia timber and that imported from the mills in Washington State to Manitoba and the Northwest reveals a striking difference between the cost of the American and Canadian products. In all the leading items the lumber imported is laid down at a much less cost than that which comes from British Columbia, and a duty in some cases of over $5 per thousand feet was paid. In fir dimensions and boards which come in free of duty, the American mills ship in this product at $3 per thousand feet cheaper than that charged by the Canadian lumbermen. A difference really of $6.87 exists between the cost of American and Canadian No. 1 and 2 edge grain for flooring. While the foreign product is actually only $1.50 per thousand cheaper than that from British Columbia, the Americans have a duty of $5.37 to meet on every 1,000 feet of this particular kind of lumber. And so it is with the other leading items. In regard to freight rates the Washington mills and the British Columbia mills have practically the same rates to meet in placing lumber in Winnipeg. The average freight per thousand on lumber is $9.48, which to Winnipeg gives the C.P.R. 64-100 of a cent per thousand per mile in haulage. The average rate per ton per mile to Winnipeg is 54-100 of a cent. The Washington mills in shipping to Winnipeg have the same rate as the British Columbia mills over the Northern Pacific and Canadian Northern railways. When the American mills, however, ship to any point on the C.P.R. other than Winnipeg, they have to pay the local freight from the mills to the junction of the C.P.R. at Sumas.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares,&c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

NEW BRUMSWICK LETTER.

(Correspondance of the CANADA LUMBERMAN.)

At present writing the Lumber trade in this vicinity is very dull. Little shipping is being done to Great Britian and, owing to the inclemency of the weather during the last two months, shipping to American ports is practically at a standstill.

There seems to be a feeling of uncertainty in regard to the English market for deals during the coming season. Just now it is almost impossible to make any conjecture, with a probability of ultimately being borne out, as to what will develop in regard to demand and prices. Buyers do not seem anxious to make contracts at the high prices which characterized last year's purchases.

Compared with this particular season of other years the stocks of English deals at this port are small; from 8 to 10 millions at the outside constituting the whole.

Owing to the general hang up of logs in the upper St. John districts in the spring of 1903, the mills in this vicinity and in most of the up river sections will be compelled to wait until the spring freshet has brought out the logs now stranded in the river (mostly above Grand Falls, a few million below) before they can begin to saw, as the stocks of logs of the local manufacturers (with one exception) are too small to warrant starting the mills. It will therefore mean the 15th or 20th of May before the first of the logs reach here and not before mid-June will there be any large amount of deals of 1904 manufacture ready for shipment.

Reports from the Miramichi and Restigouche districts indicate larger cuts of logs, both cedar and spruce, than usual. The cut for the entire province, however, is estimated to be not above the average, for although an effort has been made on the part of some operators to bring out more than usual, yet there has been a scarcity of men, and in addition to this the continually increasing distance over which logs have to be hauled makes it more and more difficult to get the work done.

In spite of the unusually heavy fall of snow and intense cold of the winter in some parts of the province, there is really no more snow in the woods than there was at this time last year, and prospects for a good season's driving are not any better or worse than in other seasons. If spring comes rapidly, successful driving may be looked for, as the lumbermen are now almost ready for it and will be quite prepared when the time comes. The browing of logs is not yet completed, but another ten days will see this work finished in most places.

ST. JOHN, N.B., February 27, 1904.

CANADIAN LUMBER SHIPMENTS.

From Halifax, N. S.: Str. Pretorian, from Liverpool, 1,345,000 ft. spruce deals, value $16,092. Schr. Onora, for Demerara, 90,000 ft. pine boards, value $1,170; 54,00 ft. spruce boards, value $653.

From St. John, N.B.: Schr. Joseph Hay, for Providence, 132,447 ft. plank, 6,883 ft. scantling, 652 ft. deals, 451,000 laths. Str. Manchester Commerce, for Manchester, 4,640 bundles box shooks, 832,021 ft. deals, 76,238 ft. scantling, 14,807 ft. ends, 38,158 ft. boards. Str. Concordia, for Glasgow, 369,745 ft. deals, 8,493 ft. ends. Str. Montrose, for London, 36,675 ft. boards, 266 bundles mouldings, 3,273 doors, 1,478 maple blocks. Schr. Sebago, for Bridgeport, 8,505 ft. boards, 208,936 ft. scantling, 127,739 ft. plank. Str. Lake Champlain, for Liverpool, 373 pieces oak lumber, 668 pieces walnut, 15 maple logs, 125 elm logs, 43,560 ft. spruce boards, 386,495 ft. deals, 66,391 ft. scantling, 11,345 ft. ends.

COOPERAGE CONDITIONS.

Messrs. Sutherland, Innes & Company, of Chatham, Ont., report as follows :

"With regard to prices, the prices of timber are very high ; in fact, they are higher than they have ever been known to be before. It is a little doubtful yet if we will get enough for our product to pay for the time, money and hard work we are putting in. This depends greatly, how ever, on the demand. At present, prices are not in line for the future, with the cost of production. Consumers seem to have the idea that as soon as the new stock comes in the bottom is going to drop out of the market, but as the cut is going to be so much lighter than was expected, we believe prices are going to keep somewhere near where they are at present.

" There is another thing consumers will have to take into consideration, and that is, that there are no stocks on hand, and it will take a long time to satisfy the demand.

" At some of our mills we are getting in fairly good stocks, but at the bulk of them our stocks are light, very much lighter, indeed, than we had anticipated. It looks at present as if the supply would not be over 25 per cent. over that of last year, and we must take into consideration that at the beginning of last year there was a lot of stock carried over, while this year there is none.

" The outlook for business, we think, is much brighter than it was a year ago, and certainly much better than six months ago, as the output certainly will be 25 per cent. higher than that of last year, and the demand should certainly be equal to last year's, as there are no stocks at all in the consumers' hauds and practically no stocks of manufactured material at any of the mills, so that material of all kinds should bring good prices this year."

ELM BOXES WANTED.

The Department of Trade and Commerce, Ottawa, is in receipt of the following communication from a large firm in Swansea, England. The name and address of the firm may be obtained from the publishers of the CANADA LUMBERMAN :

We are engaged in the tin plate trade here and buy good quantities of elm boxes for packing tin plates and block plates for export.

It has occurred to us that elm boards in the standard sizes might be imported from Canada, ready cut (to be nailed together on this side), at a figure which would admit of a large business being done.

The total output of the Welsh tin plate works is about 12,000,000 boxes per annum, and of this quantity a fair proportion would consist of standard sizes.

May we ask if you would be good enough to help us by placing our inquiry before Canadian firms likely to be in a position to quote us.

We beg to submit on the other side a specification for elm boards cut to size (ready to be nailed together on this side) :—

Number of Boxes.		Inside Measurement.
Elm boards for	50,000..	20½" x 14½" x 1⅛" deep.
" "	10,000..	20½" x 10½" x 3⅛" "
" "	50,000..	19¾" x 14½" x 1⅛" "
" "	25,000..	28½" x 20⅜" x 1¼" "
" "	20,000..	21⅛" x 14¼" x 2⅛" "

Prices to be quoted per thousand boxes of each size, c.i.f. Swansea, naming best terms.

For the 20½ x 14½, 20½ x 10½, 19¾ x 14½ and 21½ x 14½, the sides and ends should be ¾-inch full and tops and bottoms ⅜-inch ; for the 28½ x 20½, the sides and ends should be one inch and tops and bottom ⅜ to ½-inch.

We own and operate several mills in Washington and British Columbia, being on both sides of the "Imaginary Line" known as the International Line, and it keeps our opponents in the trade guessing how to meet us on account of the good quality of our manufactured stock, which has been so carefully planned that even the selection of our timber lands in years past has something to do with the present.

We find our competing salesmen's story to the customers has now got to be a "song pure and simple," which they have learned from necessity to sing loudly and lustily, and is as follows : **"JUST AS GOOD AS HASTINGS," "JUST AS GOOD AS HASTINGS."**

While we appreciate their holding our goods as models of perfection, which the high standard certainly merits, still looking at the matter from the customer's and the consumer's standpoint we cannot see any advantage to you in buying an imitation when the real article can be had through our representatives, viz :—

James Twitchell, Clinton, Ont., for Ontario, Canada
Samuel Ashfield, Winnipeg, Man., for Manitoba and the North-West Territories

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages} $1.00 PER YEAR {The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO AND MONTREAL, MARCH 9, 1904 No. 6.

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue.

WANTED

16 in. and 18 in. Pine Shingles, in XXXX; C. B's and XX. State when cut, and quantities on hand.

HURDMAN & ELMITT,
Ottawa, Ont.

FOR SALE

FACTORY FLOORING

KILN DRIED BIRCH, ABOUT 60 M. Box 442 CANADA LUMBERMAN.

A CANADIAN GENTLEMAN HAVING considerable experience in British methods and centres, who intends sailing for Liverpool about 1st May, would be pleased to represent a few Canadian firms in lumbering, manufacturing or any mercantile or confidential capacity, in the chief cities of Great Britain; all correspondence strictly confidential. Address W. E. LOUNT, Markham, Ont.

360,000 acres of Mexican Lands—heavily timbered; for sale in one block, only 50 cents per acre. S. G. Read & Son, Brantford.

500 square miles Timber Lands—in Province of Quebec: for sale, S. G. Read & Son.

Several hundred square miles in North Ontario. S. G. Read & Son.

Saw milling business for sale — first-class. S. G. Read & Son.

FOR SALE—SAW-MILL REFUSE BURNER 14x45 feet, also heavy slush chain, sprocket and gear. Address Box 285, Orillia.

BAND SAW FILER WISHES ENGAGEMENT; experienced in double cuts. Box No. 122, CANADA LUMBERMAN.

WANTED—CAR LOAD 2" GOOD, SOUND, basswood lumber, mill run, culls out; State price F.O.B. R. WOON & Co., Oshawa, Ont.

FOR SALE—TWELVE HUNDRED ACRES heavily timbered land, convenient to two railways, or will let contract to log and saw same to party with good mill. Box 123, CANADA LUMBERMAN.

WANTED—10 CAR LOADS OF COMMON and Better White Winter Cut Basswood, cut 1¼" from the saw or good plump 1" when dry; will take it 3" wide and up, 3 ft. long and up; can ship in car lots from any part of Ontario or Quebec. Address Box 84, CANADA LUMBERMAN.

FOR SALE

About 2 cars White Oak Plank 2", 3" and 4" thick, from 6" to 12" wide and 6' up to 16' and over long, mill run; also some Red Oak. BENJAMIN SHERK & SON, Sherkston, Ont.

CIRCULAR SAW HAMMERING

taught right in your mill by mail. No previous experience necessary. Sent prepaid on trial. Send for Canada references, who are cutting frozen timber with my gauge and instructions. J. H. MINER, Lumberton, Miss.

Lumber Wanted

WANTED, FROM ONE TO TEN CARS OF firsts and seconds, 4/4, 5/5 and 6/4 Black Ash, for our wholesale trade and immediate shipment. GOLD MEDAL FURNITURE MFG. CO., Ltd., Van Horne street, Toronto.

TIMBER LIMIT FOR SALE

BERTH NO. 3 SITUATED ON THE SOUTH-WEST corner of the township of Creelman, comprising lots number 7, 8, 9, 10, 11 and 12 in the first, second and third concessions; good location, Vermillion river running through centre. For terms and particulars apply to W. RYAN, North Bay.

FOR SALE

NOVA SCOTIAN LIVE GANG, 26" STROKE, 33" between uprights. Apply to
A. M. WOOD,
Central Wharf,
Halifax, N S.

BUSINESS CHANCES

FOR SALE—THE FACTORY PROPERTY and Plant of the Lake of Bays Wood Manufacturing Co., including a quantity of Hardwood and Hemlock Logs, Lumber and Flooring; Saw-Milling Plant complete and Machines for the manufacture of Broom Handles and all kinds of Turned Goods Etc. All in complete running order Situated on Lake of Bays Muskoka, adjacent to Huntsville. Apply to J. W. WHITE, Huntsville.

MACHINERY FOR SALE

One Improved Mortiser, 1 Mortiser and Borer, 1 Cowan Matcher, with Shimer Heads, 1 twenty-four-inch Surface Planer, 1 Band Saw, 1 Turning Lathe 1 Shaper, 1 Jig Saw Machine, 1 Tenon Machine for Blinds, 1 Blind Staple Driver, 2 Splitting Saw Tables, one Sander for doors, etc., price $50.00. A. H. CUMMINGS & SON, Coaticook, Que.

FOR SALE—PINE AND CEDAR SHINGLES 16 and 18 inch. T. J. HARWOOD, Mattawa, Ont.

WANTED—A FIRST-CLASS HARDWOOD Lumber Buyer and Inspector; one who has had experience in shipping from Ontario mills preferred. THE WILSON LUMBER CO., Toronto.

WANTED—POSITION AS BAND SAWYER, either single or double cut. Write stating wages and requirements, Box 121, CANADA LUMBERMAN.

WANTED — TEN THOUSAND CORDS Hard and Soft Wood; also same quantity of Slabs. SIMCOE WOOD AND LUMBER CO., 52 Yonge Street Arcade, Toronto.

WANTED — FOREMAN MODERN BAND saw mill in live town on Georgian Bay. State age, experience and salary. Address Box 118, care CANADA LUMERMAN.

WANTED—1" CULL SPRUCE; HARDWOOD lumber of all kinds and thicknesses; Staves, Hoops and Heading; Cedar Posts. R.E. KINSMAN, Hamilton, Ont.

WANTED—ABOUT ONE MILLION FEET of Hemlock logs, assorted lengths, on shore or in booms Georgian Bay. Quote price and particulars to Box 163, Midland, Ont.

WANTED—100 M. FT. 4/4 COMMON AND better Birch, 50 M. ft. 5/4 common and better Birch for immediate shipment. R. E. BECKER CO., Poplar and McLean Avenue, Cincinnati, Ohio.

Edger For Sale

THREE SAW EDGER IN GOOD REPAIR, for sale cheap. Enquire The HURON LUMBER CO., Spanish River, Ont.

Smoke Stack For Sale

66 foot Smoke Stack in three lengths, 22 ft., 30 inch diameter, ⅛ inch thick. In perfect condition. A bargain. Apply, OTTAWA LUMBER COMPANY, Ottawa, Ont.

FOR SALE

A few pieces (about 200) of square and waney timber near Deux Rivieres, C.P.R. main line; well made and of a good quality, trimmed ready for shipment, can be loaded in spring. Also a large quantity of cedar for telegraph or telephone poles from 20 ft. up to 60 ft. in length, and about 2000 logs and dimension of red and white pine, spruce and balsam put on the Ottawa River

CURRY & THRASHER,
Deux Rivieres, Ont.

FOR SALE

A LUMBERMAN'S BONANZA. JUST THE place for lumber, wood or coal business. Land 200 ft. x 150 ft.; building 85 ft x 16 ft., with office and 8-ton scale; 10 horse-power engine and boiler as good as new. Excellent railroad and wharfage facilities. Seven miles from Montreal in growing town of 10,000. No competition. A snap to quick purchaser. THE FACTORY WASTE CO., 185 St. James Street, Montreal.

For Sale

Fifty thousand Cedar Ties, 6" face and up
One million feet Square Cedar
One million feet Square Hemlock
Half million feet Square Pine
Twenty thousand Cedar Posts, 4½" and up, 8 ft. long.
Five million XXX Cedar Shingles
One million No. 2 " "
To be shipped during the season of 1904 by rail or water. Apply to
MAITLAND, RIXON & CO.,
Owen Sound, Ont.

WANTED—ONE INCH CEDAR LUMBER for Boat building. PETERBOROUGH CANOE COMPANY, Limited, Peterborough, Ont.

FOR SALE—300,000 FT. OF HEMLOCK TO be cut the coming season; would cut to order. Address Box 120, CANADA LUMBERMAN.

ADVERTISERS HAVE SEVERAL MILLION feet of Pine, Maple and Birch, which can be cut to order if contracts are made at once. Box 124, CANADA LUMBERMAN.

ONE HALF INTEREST IN A PLANING Mill with Sash and Door Factory attached. Fine Buildings. Would like to add machinery for putting out veneered panels and table tops in car load lots. Private switch. We solicit correspondence. Address Box 125, CANADA LUMBERMAN Toronto, Ont.

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

THE CANADIAN LAND AND IMMIGRATION CO., OF HALIBURTON, (LIMITED).

This company has a large tract of well timbered land about 125 miles northeast of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads. The company are prepared to sell this timber in blocks ranging from 2,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

The month of March is not usually a busy time for the lumber trade, and the present month promises to be no exception. The difficulty in making shipments has caused consumers to refrain from placing orders, and there is little promise of any improvement in that respect during the present month, as much freight is now standing on railway sidings waiting to be moved at first opportunity. Nevertheless, there has been during the past week an increased number of inquiries for lumber for spring delivery and the outlook for business is regarded as favorable. As spring approaches buyers show a greater disposition to anticipate their requirements, while manufacturers are also acquiring more confidence. Later on it will likely be found comparatively easy to effect sales. There is some business doing in the cities, but country trade is still backward. A comparison of price lists recently issued with those of one month ago show very little change. For inch box and common, 10 to 12 inches wide, from $18 to $19 is asked at the mills. The average price of pine mill culls is about $11. The tone of the hardwood market is very firm, influenced by the expected shortage in the production of logs. Some manufacturers are asking $19 for mill run birch, which is probably the strongest of all hardwood stock at the present time. Elm and maple are also regarded as splendid property. Shingles and lath are experiencing a period of quietude and there is not sufficient demand to cause prices to fluctuate. XXXX cedar shingles have been sold recently at $2.60 at the mill.

QUEBEC AND NEW BRUNSWICK.

Eastern manufacturers report an increase in the number of inquiries for spruce lumber for shipment to New York and the New England States, but otherwise the situation is unchanged. The outlook at the present time is uncertain, and it is probable that the quantity of stock shipped to Great Britain will this year show a falling off. So far the buying has been very light. Manufacturers are making a strong effort to maintain prices and are watching the course of events in Europe with more than usual interest. Work in the woods is drawing to a close. Some operators were compelled to suspend operations earlier than usual owing to recent rains.

For the best brands of cedar shingles $3.40 is being paid for Boston delivery. There is not much snap to the demand, however, while offerings are fairly large.

MANITOBA AND BRITISH COLUMBIA.

During the months of January and February the Building Inspector of Winnipeg issued permits for buildings valued at $145,300, as against $42,150 for the corresponding two months of last year. There is every indication that building operations in Winnipeg this year will be in excess of 1903, when over $5,000,000 was spent. There promises to be considerable activity also in the smaller municipalities in Manitoba and the Territories, and a brisk demand for lumber is anticipated in the spring. Dealers have as yet bought very sparingly, as the negotiations looking to a reduction in the price of lumber has caused them to withhold all orders. The lumber trade of British Columbia is rather unsettled. The sawing capacity is now so great that if the outlook should appear at all promising there would likely be a very large production. This fact is being recognized by the older manufacturers, who are pursuing a conservative course and will likely curtail their production.

UNITED STATES.

The lumber business of the United States is rather spotty ; some sections report nothing doing, others that the demand has improved perceptibly. Throughout the Southwestern States spring conditions have prevailed and there has been a revival of the demand for lumber. In the northern pine territory the season has been backward and the movement of lumber so far this spring very light. Some improvement in the demand is reported, and it would only require a week or two of favorable weather to start building operations and induce a pronounced revival in the demand. Dealers at Buffalo and Tonawanda have a fair stock of lumber on hand, and it is only fair to say that there is not exhibited as much eagerness to make contracts as was noted a year ago. Eastern spruce is in an exceptionally strong position. Stocks are scarce and the demand is more than equal to the absorption of the ready supply. Frames are quoted in Boston at $19 to $21 a thousand.

During the past fortnight there has been an advance in hemlock in New York ; 2x4 in 18 and 20 foot has been advanced 50 cents, making the price on this item now $2 above the $17 base, as against $1.50 the year before. Hardwood stock for future delivery is in good inquiry. Plain and quartered oak is moving in the greatest volume and prices are very firm.

GREAT BRITAIN.

Reports from Great Britain regarding the condition of the lumber trade are a little more encouraging in character. The consumption is behind that of last year and agents of shippers have not been altogether successful in closing contracts, yet the feeling as to the future is more hopeful. The weather is now more favorable for building operations and this is expected to help the situation materially. Much has been made of the fact that the quantity of Canadian lumber contracted for has been smaller than one year ago, but upon close investigation it has been found that considerable business has been booked in the better qualities of pine and spruce and that prices in most instances have been slightly better than those obtained for the 1903 production. Third and fourth quality pine has been difficult to place, but the better grades are still regarded favorably even at the high prices which are now asked. In spruce some business has also been done, the highest price realized, so far as can be learned, being £9 per standard of 1980 feet c.i.f. for good thirds from Quebec.

In the "spot" market there has been a distinct improvement. At the last auction sale held by Messrs. Churchill & Sim in London 3x11 first quality pine, 14 to 16 feet, brought £32 10s per standard. First quality red pine brought £16 10s. For third quality spruce £9 5s. was realized. A report from London states that agents are gradually clearing out their second quality 3x9 in. spruce deals at £10 10s, thirds at £9 15s, and fourths at £8 15s, whilst the importers have been busy selling their stocks at prices slightly in advance of the foregoing figures.

STOCKS AND PRICES.

The City of London, Ont., is asking for tenders up to 17th inst. for supply of lumber.

The Red Deer Lumber Company, of Red Deer, N. W. T., expect to cut about 35,000,000 feet of lumber this season.

Tenders are invited up to March 15th for supply of cedar and plank required by the Board of Works of the city of Ottawa.

The Crow's Nest Pass Lumber Company, of Wardner, B. C., expect to cut about 25,000,000 feet of lumber this year.

W. D. Baillairge, Assistant City Engineer of Quebec, will receive tenders up to March 23rd for annual supply of deals, etc.

Dexter Conner, of Welsford, N. B., has taken out 3,000,000 feet of logs this winter, which will be sawn by rotary mills.

C. Jackson, of Paradise, N. S., is operating in the woods for Pickles & Mills, of Annapolis. He has four camps, which are getting out 80,000 feet of logs per day.

H. Elderkin & Co., of Port Greville, N. S., expect to cut and ship this season about 1,000,000 feet of spruce and hardwood and 20,000 pieces of spruce piling, spars and poles.

The Corporation of the City of Kingston desires tenders by noon of March 10th for supply of 150,000 feet of 3, 2, and 1½ inch pine plank and 30,000 lineal feet of 5x4 inch cedar sleepers.

W. Margach, Crown Timber Agent, Rat Portage, Ont., states that the production of logs in the Lake of the Woods district the past winter has been larger than the previous season. There will be about 100,000,000 feet for the Rat Portage and Keewatin mills and 90,000,000 feet for the Rainy River mills.

Despite the tremendous cut during past years, lumber operations around Williamsport, Pa., writes a correspondent of the CANADA LUMBERMAN, are still of considerable importance. In 1902 the total shipments from this district amounted to 162,990,000 feet of lumber in the rough, while in 1903 they were estimated at 149,094,000 feet, showing a decrease of 13,896,000 feet on the record of 1902.

The feature of the hardwood trade in general, says the American Lumberman, is the light supply of dry stocks and of common and culls of all woods. The consumption has been large, and as they have been used to a greater extent owing to the high prices for the better grades they have been used up closer than ever. This has never happened before and is a situation that makes the largest users stop and think as to what they will do for further supplies. The greatest scarcity is noticeable in plain oak of all kinds, and the firmness with which it is held. Buyers who have been after dry stock of all woods find it difficult to get in suitable lots. This applies to all woods and makes holders firm in their views of prices.

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar care to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

The assets of F. X. LaFramboise & Company, wood and lumber, South Indian, Ont., are to be sold on the 11th inst.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

As has been hinted from time to time in these columns, the present year is not likely to witness any decline in the price of manufactured white pine sent out of the Ottawa district mills. An authority on the subject said to-day that very little white pine of the 1904 mill cut still remained in first hands. Practically all of it is in second hands and at a ten per cent. advance at that. Nor is the advance in the market confined to pine. Spruce, another fair factor in Ottawa district lumber circles, has also advanced so far as the 1904 cut is concerned.

The first mill man to announce the ten per cent. advance was Mr. J. R. Booth, "the king of them all." What J. R. Booth says generally goes in lumber circles in Eastern Canada, and consequently other mill owners followed suit, so that practically all the 1904 cut was sold at the advance. The reasons given for the advance are the increased cost of labor and provisions for the present season.

"Yes, there's been an advance," said a buyer, "but I cannot see how the second man can realize on it. Certainly the demand for Canadian lumber just at present does not warrant such an advance."

It is generally agreed that when the advance was decided upon, the mill men had in mind the fact that there would be a shortage in the log cut and hence less manufactured lumber later on to supply the market.

Despite the shortage in the present season's log cut, it is thought that the saws will have about all they can do next summer. In the first place there was a good run of logs last year, and many are still in the booms, which will be available when the mills start in on the season's cutting. Then again, all the present season's cut will be driven if the snow and water does not move off too rapidly, and this will mean a good supply for the summer sawing proper.

The firms anticipating an early break-up paid attention to the movement of the logs and have, despite the handicap of deep snow, placed them nearly all on the stream sides. Where the depth of snow is no interference, some of the firms have resumed log cutting operations near the streams and this will mean an additional supply. Again, in Quebec province, many logs were "hung up" last year which will, from present indications, be gotten down to the mills this spring. All this will go to give the saws a good supply and to insure a normal cut of lumber.

It is recognized that in the matter of log shortage, the Ottawa district is better off than is the Georgian Bay country, where the deep snow and lack of labor were more general impediments.

The square timber men are pretty confident that they will get all their bulky sticks cut this spring, but even at that the showing will not be as good as was that of last year as far as the Ottawa operators are concerned. As a matter of fact, square timber is already moving by rail. The Canada Atlantic is hauling some of the finest square timber cut in the Ottawa country off Mr. J. R. Booth's Madawaska limits. The timber is being unloaded into the St. Lawrence at Clark's Island. There it will be made into a raft and floated down to Quebec city for export when navigation opens.

In the retail end of the business there is little doing, snow blockades continuing to give trouble in the handling of lumber in the yards and on the railways. As has already been intimated, good business is expected with the opening of spring. It is believed the resumption of building operations on an extensive scale in New York and district, will create a big demand for Canadian white pine. Moreover, the Baltimore fire will also indirectly benefit the Ottawa lumber business. There will be a big demand in the fire-swept city for southern woods, and this will mean a falling off in their shipments to the New York market. Shortage in Georgia pine and southern cypress in the New York and other northern markets will mean an increased demand for Canadian white pine.

An important deal in the 1904 cut of spruce has just been closed. Mr. W. H. McAuliffe, of Ottawa, has contracted for the summer's cut of spruce at McLachlan Bros.' mill, Arnprior, and the St. Anthony Lumber Company's mill at Whitney. The combined cut will reach between four and five million feet. Mr. McAuliffe secured the same stock last year.

OTTAWA, March 5th, 1904.

DEMAND FOR RAILWAY TIES.

Mr. A. Poindron, Commercial Agent for Canada at Paris, France, has submitted to the Department of Trade and Commerce a report on the demand for railway ties in France. The dimensions of the ties mostly in demand are similar to those used in this country. There are two sizes, the first 8 ft. 10 3-8 inches long by 8 5-8 inches wide by 5 1-2 inches deep for square ties, and second 8 ft. 10 3-8 inches long by 11 7-8 inches by 6 inches for half round or sided ties. The duty is about 29 cents per 220 pounds and the price on the cars at Havre's Station, duty paid, 67 cents each.

The largest steady demand is for oak and beech ties, which are purchased by the railway companies either plain or injected with creosote. When bought plain they are injected with creosote on the railways' own plants. Steady contract specifications have been supplied to Canadian inquirers applying to both cases. No substantial import contract is obtainable from a French railway company unless an important building of track is in course of construction or in view, as for the renewals of the track repairs and small extensions they get generally all the beech or oak ties they want in the local districts surrounding the system's lines, but as soon as important buildings of new tracks are resumed, the local supply becomes insufficient and accordingly they are open for very large contracts of foreign ties. Such has been the case in the past few years.

The railway men in France object to plain beech ties being imported, as they think that the sea voyage injures the wood. Accordingly, so far as beech ties are concerned, French railway engineers would be open only for beech ties shipped from Canada already injected with creosote.

Robert Paul, Newburgh, Ont., is offering his sash and door factory for sale.

The Porto Rico Lumber Company have sold their retail business at Nelson, B. C., to A. G. Lambert & Company.

SPECIALTIES

Red Cedar Bevel Siding, Plain and Fancy Butts in 16 in. and 18 in. Dimension Shingles, also the famous XXX and XXXX Brands, all Choice Stock.

We own and operate several mills in Washington and British Columbia, being on both sides of the "Imaginary Line" known as the International Line, and it keeps our opponents in the trade guessing how to meet us on account of the good quality of our manufactured stock, which has been so carefully planned that even the selection of our timber lands in years past has something to do with the present.

We find our competing salesmen's story to the customers has now got to be a "song pure and simple," which they have learned from necessity to sing loudly and lustily, and is as follows: **"JUST AS GOOD AS HASTINGS," "JUST AS GOOD AS HASTINGS."**

While we appreciate their holding our goods as models of perfection, which the high standard certainly merits, still looking at the matter from the customer's and the consumer's standpoint we cannot see any advantage to you in buying an imitation when the real article can be had through our representatives, viz :—

James Twitchell, Clinton, Ont., for Ontario, Canada
Samuel Ashfield, Winnipeg, Man., for Manitoba and the North-West Territories
Smith, Duplain & Crumb Co., Rockford, Ill., for Illinois, Indiana, Ohio and Wisconsin
D. D. Babbitt, Clinton, Iowa, for Minnesota and Iowa, North of the C. & N.W. Ry.
John A. Uhler, Burlington, Iowa, for Iowa, South of the C. & N.W. Ry.
C. S. Riley & Co., Philadelphia, Pa., for Pennsylvania
F. R. Stevens, 18 Broadway, New York City, for New York and New Jersey
United Lumber Co., Springfield, Mass., for Maine, New Hampshire, Vermont, Massachusetts, R.I. and Connecticut
Shepard, Farmer & Co., Boston, Mass., for Maine, New Hampshire, Vermont, Massachusetts and R.I.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO AND MONTREAL, MARCH 16, 1904 No. 7.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'n of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL

22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m on Tuesday to insure insertion in the current week's issue

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

THE CANADIAN LAND AND IMMIGRATION CO., OF HALIBURTON, (LIMITED).

This company has a large tract of well timbered land about 125 miles northeast of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads. The company are prepared to sell this timber in blocks ranging from 2,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

ONTARIO TIMBER BERTHS

The undersigned has received instructions to offer

For Sale By Public Auction

(In Separate Parcels) on

WEDNESDAY, APRIL 20, 1904

at the hour of 2 o'clock p.m., at the

HAVE YOU ANY STOCK WHICH YOU wish to sell? If so, make the fact known to probable buyers by placing an advertisement in the Wanted and For Sale Department. Address, CANADA LUMBERMAN, Toronto.

CURRENT TRADE CONDITION S

ONTARIO.

The movement of lumber is increasing as fast as the weather will permit. The difficulty of making shipments is still a great barrier to business and until spring is here in full force the conditions are not likely to be much improved. When spring trade commences there will no doubt be a great rush, and the rolling stock of the railroads will be severely taxed to move the lumber. Buyers who are in a position to place orders and secure delivery at the present time should not neglect the opportunity of doing so. There is not a great deal of pine lumber in the hands of manufacturers, but a large quantity is still in their yards waiting to be moved to the yards of buyers. Box lumber has been very closely bought up, the steady and urgent demand for boxes being one of the strongest indications of the prosperous condition of the manufacturing community. There has lately been an increased inquiry for Norway pine, and from some contracts recently closed it would appear that prices are improving. Manufacturers are exhibiting no anxiety over the sale of their product, but are constantly being approached by prospective buyers, and already a large percentage of the season's cut has been contracted for.

The weather of late has not improved logging conditions in the hardwood sections. Reports from the Owen Sound district and further north tell of a general shortage in the output, which is sure to have an effect upon lumber prices. No one can be found who is willing to sacrifice his hardwood lumber, and there is absolutely no pressure to sell; on the other hand, dealers are picking up suitable stocks wherever they can be found.

QUEBEC AND NEW BRUNSWICK.

The developments of the past week have not improved the spruce lumber situation. The announcement of the failure of a Liverpool firm who were dealers in Canadian spruce has caused buyers to exercise even a more conservative policy than in the past. Some manufacturers state that inquiries are more numerous and that the first symptoms of a seasonable revival are discernible. Strong efforts are being made to break the manufacturers' price, but all the larger manufacturers are taking a firm stand, feeling that the high cost of production demands that they shall receive the price they are asking. These remarks also apply to cedar shingles, concessions being granted by the small mills only.

Reports from the upper waters of the St. John river are to the effect that where in ordinary seasons there is usually from five to six feet of snow, there is only half this amount at the present time. This is not enough for suecessful driving, and the lumbermen will have to depend to a great extent on heavy spring rains, which may or may not come. Work is practically finished in the woods, the hauling is done and men are now getting ready for the drive.

MANITOBA AND BRITISH COLUMBIA.

Building throughout Manitoba and the West is opening up very satisfactorily. Almost daily the announcement is made of some important building to be erected in Winnipeg. There is, naturally, a disposition on the part of lumber dealers to replenish their stocks for the spring trade, but owing to the uncertainty regarding prices few orders have as yet been placed. A report from Vancouver states that the millmen and the Canadian Pacific Railway have reached an agreement by which the freight rate on rough cedar, hemlock, spruce and all woods except fir will be reduced from 50 cents to 40 cents per hundred pounds, the same rate as is now charged on fir, making a uniform rate on all rough lumber. The mill men, in turn, have agreed to reduce the price of rough lumber $1 per thousand feet, the highest grades to remain unchanged.

UNITED STATES.

The Mississippi Valley Lumbermen's Association, at a meeting held at Minneapolis on March 8th, adopted a price list making the following advances: No. 4 boards, $1; No. 3 boards, 10-inch, 50 cents; No. 3 shiplap and D. & M., 50 cents; 6-inch No. 3 fencing, 6-foot lengths, $1.50; 8 and 10-foot lengths, $1; 12 and 14 foot lengths, 50 cents; 4-inch No. 3 fencing, all lengths, 50 cents; 4-inch No. 4 fencing, all lengths, $1. These descriptions of lumber have practically been cleaned out by the demand for box lumber, and it is expected that the production of box lumber this season will be insufficient to meet the demand. A report from Buffalo states that a scarcity of all low grade white pine is feared. The white pine market as a whole is strong, with prices showing an upward tendency. The cut at Duluth this season is estimated at 261,000,000 feet, which is a decided shortage as compared with late years. In the entire Lake Superior district the shortage is estimated at from 20 to 25 per cent. In the light of these facts there does not seem to be much ground on which to base the expectation of lower prices for white pine. The hardwood demand is confined largely to consuming factories, but as spring opens there will doubtless be heavy buying by dealers, as the stocks of both wholesalers and retailers are much depleted. Thick ash is in short supply and sells readily, while there is also a more active movement of basswood. The hemlock demand is more pronounced than any other kind of northern lumber, there having been a positive revival during the past fortnight. Dry stocks are very low and will be completely exhausted before the new cut is ready for the market. The shingle trade is dull and prices not altogether satisfactory, but some improvement is looked for at an early date.

GREAT BRITAIN.

The news from the British market is by no means encouraging. The prevailing depression has been augmented by the failure of Robert Parker & Co., timber importers, and John Edwards & Co., box and packing case manufacturers, of Liverpool. The liabilities of the first named firm are said to be about $250,000, and it is said that the assets show twenty cents on the dollar. The suspension is the result of recent heavy losses, and it is expected that an arrangement will be made for the continuance of the business. The second failure is unimportant, the total liabilities being about $20,000. It is understood that the financial situation in certain quarters is causing some anxiety and there is little hope of an early improvement in the timber trade. Prices at the last auction sale showed a declining tendency. Fourth quality pine, 3x11 inch, 14 to 16 feet, sold as low as £9 per standard. Spruce deals also sold lower, a considerable line of 3x9 inch unassorted, 12 to 13 feet, averaging only £8 7s 6d per standard.

Several agents of Quebec shippers are reported to have secured contracts for small quantities of pine deals at prices about equal to those which were paid one year ago; others are reported to have obtained a slight advance. Some parcels of spruce deals have been sold at about £8 10s c. i. f. Belfast, whilst some Miramichi spruce has been placed at £5 5s. A considerable quantity of square and waney pine is said to have been placed.

STOCKS AND PRICES.

Duffy & Barnhill have taken out 1,500,000 feet of logs in the vicinity of Musquash, N. B.

N.S. Fleischaeur will supply pine, cedar and rock elm for the city of Stratford, Ont., at $22, $17 and $26 respectively.

The S. Hadley Lumber Company have secured the contract for the supply of lumber for the city of Chatham, Ont.

E. D. Allan is sawing spool wood at Two Islands, N. S. He expects to cut about 300,000 superficial feet this season.

Large quantities of railway sleepers were taken out during the past winter along the line of the Intercolonial Railway in the southern part of New Brunswick.

Mershon, Schuette, Parker & Company, of Saginaw, Mich., have about 20,000,000 feet of lumber on the sticks in Ontario, which they will take to Saginaw upon the opening of navigation.

Sims Bros., of Little Current, Ont., have just closed arrangements with the W. & A. McArthur Company by which their logs will be manufactured this year at the "Red" mill of the latter company.

Collicut & Mann, of Bloomfield Station, N. B., have lately finished a cut of 1,100,000 feet of lumber for H. A. Myers and are now cutting 500,000 feet for J. Jamieson. W. S. Mason has cut 1,300,000 feet for Jones Bros.

The Pigeon River Lumber Co., of Port Arthur, Ont., are again this winter receiving logs from their Minnesota limits. The supply from that quarter this year will be between 6,000,000 and 7,000,000 feet. In addition to the Minnesota camp the company have several camps on their Canadian limits tributary to the Pigeon River, from which they will probably receive 10,000,000 feet.

A meeting of the St. John, N.B., lumbermen was held last week to prepare to meet a rush of ice and logs which is expected upon the breaking up of the St. John river. There are between 4,000,000 and 5,000,000 feet of logs between Fredericton and Grand Falls and from 30,000,000 to 35,000,000 feet between Grand Falls and Seven Islands at the headwaters. If the ice goes quietly by Fredericton and permits the booms to be swung, all will be well, but otherwise the lumbermen are fearful of the result. It is proposed to spend about $5,000 in preparations to save the drift drive.

The Barbadoes lumber market is thus reviewed by Messrs. S. P. Musson, Son & Company: "There being no arrivals since our last report, stocks are being greatly reduced by the usual crop requirements of this season. We think that in four or five weeks a cargo of white pine would meet with a fair price. Spruce is not heavily stocked, but as previously advised, hemlock, which is held in large quantities, is being used instead. Gaspe and Dimension shingles are in good demand. Stocks are reduced to a very low ebb and we think next arrivals will bring good prices. Cedar Laying are in fair supply, A quality at from $2.10 to $2.15."

LUMBER FREIGHTAGE RATES.

At a meeting of the river tug boat men and mill men held at St. John, N. B., last week the charge on spruce from the Fredericton booms and from Springhill was compromised at 65 cents per thousand feet for the current year. This is on condition that 100,000,000 feet of spruce will be handled.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares,&c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

THE LOG PRODUCTION.

The following letters regarding the production of logs this winter have been received, in addition to those published in the March number:

CHEW BROS., Midland, Ont.: "Last season we took out a little less than two million. While this year it will be a little over six million, we are not certain that we shall get them all out, as we still have quite a number to draw; we have had a long draw for about one-third of this quantity, from five to seven miles, and owing to the unusually stormy winter and great depth of snow, we have been delayed some. However, if weather holds good for another ten days or so we think they will all come out."

J. J. WHEELOCK, Connors, N.B.: "Our cut of lumber last season was less than the previous year; on account of the dry season and low water, a part of the logs were hung up. All the mills have been shut down in this vicinity this winter. There is a large cut of logs on the upper St. John river this season. The weather and conditions have been favorable in this section, and if there is a good year for driving there will be a large quantity of lumber to market. It looks as if the price of lumber will not be any higher."

TRACADIE LUMBER CO., Sheila, N.B.: "Our cut will slightly exceed that of last winter. We expect to have about eleven million feet available for this season's cutting, exceeding last year by about 10 per cent. The winter, while very cold, has been favorable for logging. Wages have been nearly 25 per cent. higher than previous years and cost of logs must be much higher than ever before."

N. & A. DYMENT, Thessalon, Ont.: "Our cut of logs this winter has been about the same as last year, if anything a little less. We have had a great deal of difficulty lumbering this winter on account of the excessive depth of snow. It came very early and prevented the freezing of the roads in the low places, and required a great many extra men and teams to keep the roads plowed out and the snow shoveled off the skid-ways, and latterly has caused some trouble on the lakes by the water rising over the ice on account of the heavy weight of snow. We think these conditions have been pretty general all along the North Shore."

THE GLASGOW MARKET.

Messrs. Edmiston & Mitchells, of Glasgow, Scotland, under date of 29th February, say that business so far this year may be described as having been rather disappointing, and the feeling of dullness which has characterized the market unfortunately shows very little evidence of undergoing a speedy alteration in this respect. The future is very much dependent upon shipbuilding and housebuilding, and the prospects for these industries, we regret to say, are by no means reassuring. No doubt there have been several orders placed recently with shipbuilders, but these have been mostly for tramp steamers requiring very little timber.

A few shipments of pine and spruce deals and birch planks have come to hand during the past two months via St. John and Portland, and were for the most part disposed of from the ship's side. There has not been so much business done this year as last in contracting for delivery during the coming season, the Quebec shippers finding buyers unusually unresponsive to their offers, which may be explained partly on account of the high asking prices and partly because merchants see no evidence of trade improving to justify purchasing — particularly at such high prices. It is understood a fair business has been done in sidings on a basis of prices similar to those ruling last year.

In American hardwoods a steady business is going on, and values of high grade poplar and oak lumber are well maintained, but there is more pressure to sell the lower grades, with a consequent weakening of values.

Deliveries from stock have been fairly well maintained for the two months this year, though there has not been the same activity as existed at same period last year.

WHITE PINE.—Since the beginng of the year there has been no movement in waney or square timber, with the exception of a small parcel of fresh waney arriving via St. John, which was sold "ex quay." Stocks are moderate and prices firm.

QUEBEC RED PINE.—The is nothing new to report. There has been no further import, and the present small stock is sufficient for the demand.

OAK.—Enquiries for this class of timber are few, and except for one or two small retail sales, there has been nothing doing. Stocks are heavy.

ELM.—There has been a fair business done during the month, and some good lines of rock elm have been disposed of at satisfactory prices. The stock of this class is small, with prices tending upwards. Second class is moving off slowly, and the stock is still heavy.

QUEBEC BIRCH.—There has been no import this year, so far, of either logs or planks, and for all the demand which exists it is perhaps as well, as some of last year's import of Quebec logs still remains unsold. Shippers are quoting higher prices for delivery during the coming season, but it is understood that little, if any, business has been done in this market, the furniture trade being too dull to encourage buying — particularly at an advance on last year's prices.

LOWER PORT BIRCH.—The import during January and February has been about 150 loads from St. John and Halifax, some of which has been sold "ex quay" and some stored. There is still a considerable quantity of old Pictou birch in the market, which is being offered at about a penny over the inch, but the demand is very slow. One or two lots of planks changed hands recently at about £7 5s. per standard.

ASH.—There is nothing of importance to advise, there being no stock of good logs in the market, and only an occasional enquiry for small quantities. There have been a few transactions in States logs and planks at prices ranging from 1s. 9d. to 2s. for the former, and from 2s. 3d. to 2s. 6d. for the latter. One exceptionally good lot of 3-inch planks brought 2s. 9d.

DEALS, &C.—Business during the month has been quiet. The import has been small, consisting almost entirely of spruce deals, part of which have been disposed of "ex quay," but the greater portion has gone into store. Pine deals and sidings are difficult to move. Prices, however, are firm. Current values are as under: Broad first pine deals, £32 to £34; 11-inch, £29 to £31; ends and non-dimensions, £22 to £24. Second pine deals, 11-inch and up, £19 to £21; ends and non-dimensions, £13 to £14 10s. Third pine deals, 11-inch and up, £12 to £14 10s.; ends and non-dimensions, £9 10s. to £11. Red pine deals, 9 and 11-inch, £11 to £12 10s.; narrows, £8 10s. to £9 10s. First pine sidings and strips, 9 to 10-inch, £24 to £24 10s.; 11 to 12-inch, £25 to £26; 13 to 14-inch, £27 to £28. Spruce deals, 9-inch and up, £8 10s. to £9 5s.; 7 and 8-inch, £7 5s. to £8 5s.

NEW ORLEANS, LA.

TIMBER LIMIT TRANSACTIONS.

The saw-mill at Kamloops, B. C., and the timber limits on the Shuswap and Mabel Lakes and on the Spallumcheen river in British Columbia, owned by Peter Ryan, of Toronto, are reported to have been purchased by the Okanagan Lumber Company.

R. W. Wood and A. B. Trites have purchased the timber and saw-mill property of the Hayes Lumber Company at Elkmouth, B. C., for a consideration of $26,000. The business will be conducted under the name of the Elkmouth Lumber Company.

CANADIAN LUMBER SHIPMENTS.

From Halifax, N. S.: Steamer Sicilian, for Liverpool, 100,460 feet spruce deals, value $1,211. Steamer Gulf of Ancud, for London, 236,706 feet hemlock deals, value $1,518, 73,204 ft. birch deals, value $772. Steamer Manchester Trader, for Manchester, 216,850 feet spruce deals, value $1,758.

From St. John, N.B.: Steamer Almora, for Glasgow, 330,321 feet deals, 84,710 feet scantling, 9,058 feet ends, 133,326 feet battens, 74 pieces pine lumber, 4 maple logs, 25 cherry logs, 570 pieces pine deals, 64 elm logs, 643 bundles maple flooring. Steamer Bavarian, for Liverpool, 533,216 feet deals, 76,208 feet scantling, 33,103 feet ends, 2,392 box shooks, 1919 boxes staves. Schooner W. H. Waters, for City Island, 163,639 feet plank. Schooner F. & E. Givan, for Boston, 5,111 feet spruce boards, 13,475 feet scantling, 100,965 feet plank. Schooner Winnie Lawry, for New York, 10,450 bundles laths. Schooner D. C. Baker, for Lubec, 47,000 box shooks. Schooner Ida May, for Tiverton, 59,007 feet plank, 79,429 feet hemlock boards, 300,000 cedar shingles, 75,000 laths.

THE LOG CROP IN NEW BRUNSWICK.

The past winter has been favorable for logging operations on the St. John river in New Brunswick. The cut is estimated between 135,000,000 and 140,000,000 feet, which is about the same as last year.

Added to this will be at least 35,000,000 hung up from last season, which will bring the total up to 70,000,000, the largest which has been for many years. From the northern part of the province and some parts of Quebec it is reported that lumber operators have been greatly impeded by snow and that the cut will be much smaller than usual, as men and teams had to leave the woods long before the usual time to quit.

Lumbermen who had been in the woods for Michael Welch report that he has finished his yarding and that his cut will total about 7,000,000 feet.

Robt. Aiken, who has been operating on the Aroostook, has cut about 4,250,000 feet, and this, with the last two seasons' cut hung up for want of water, will give him a good many logs to handle.

William J. Scott has returned to Fredericton from the Quebec woods, where he has been superintending operations. He got out about 5,000,000 feet on the Black River and tributaries.

John Kilburn will have obout 10,000,000 feet of logs to come out.

Mr. W. K. Graffiey advises us that the Montreal Lumber Company, of which he is managing-director, have again secured the contract for the supply of lumber for the city of Montreal. The contract, which is chiefly for 3 in. pine sidewalk plank, represents a consideration of approximately $30,000.

SPECIALTIES

Red Cedar Bevel Siding, Plain and Fancy Butts in 16 in. and 18 in. Dimension Shingles, also the famous XXX and XXXX Brands, all Choice Stock.

We own and operate several mills in Washington and British Columbia, being on both sides of the "Imaginary Line" known as the International Line, and it keeps our opponents in the trade guessing how to meet us on account of the good quality of our manufactured stock, which has been so carefully planned that even the selection of our timber lands in years past has something to do with the present.

We find our competing salesmen's story to the customers has now got to be a "song pure and simple," which they have learned from necessity to sing loudly and lustily, and is as follows: **"JUST AS GOOD AS HASTINGS," "JUST AS GOOD AS HASTINGS."**

While we appreciate their holding our goods as models of perfection, which the high standard certainly merits, still looking at the matter from the customer's and the consumer's standpoint we cannot see any advantage to you in buying an imitation when the real article can be had through our representatives, viz:—

James Twitchell, Clinton, Ont., for Ontario, Canada
Samuel Ashfield, Winnipeg, Man., for Manitoba and the North-West Territories
Smith, Duplain & Crumb Co., Rockford, Ill., for Illinois, Indiana, Ohio and Wisconsin
D. D. Babbitt, Clinton, Iowa, for Minnesota and Iowa, North of the C. & N.W. Ry.
John A. Uhler, Burlington, Iowa, for Iowa, South of the C. & N.W. Ry.
C. S. Riley & Co., Philadelphia, Pa., for Pennsylvania
F. R. Stevens, 18 Broadway, New York City, for New York and New Jersey
United Lumber Co., Springfield, Mass., for Maine, New Hampshire, Vermont, Massachusetts, R.I. and Connecticut
Shepard, Farmer & Co., Boston, Mass., for Maine, New Hampshire, Vermont, Massachusetts and R.I.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS

VOL. XI. TORONTO AND MONTREAL, MARCH 23, 1904 No. 8.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO

Branch Offices:

IMPERIAL BUILDING MONTREAL

22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman — A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

JUDICIAL SALE.

Pursuant to an Order made on the 9th March, 1904, in an action in the High Court of Justice for Ontario, in which the Cook and Brothers Lumber Company of Ontario, Limited, are Plaintiffs, and W. H. Sawyer Lumber Company are Defendants, sealed tenders will be received addressed to the "Master in Ordinary Osgoode Hall, Toronto, Ontario", and marked "Tenders in Cook vs Sawyer," up to eleven o'clock a.m. on FRIDAY, THE 15TH DAY OF APRIL, 1904, for the purchase of four parcels of merchantable White Pine Lumber, 12, 14, and 16 feet in length, hereinafter described, which lumber is now at the Village of Sprague in the District of Algoma, upon the docks of the plaintiffs who are the Vendors:—

PARCEL I.

This Parcel consists of lumber manufactured at the plaintiff's Mills at Sprague during the season of 1903 from logs cut on the Sable River during the winter season of 1902-1903, which lumber has been in cross-piles sixty days before the close of navigation for the season of 1903, which lumber is estimated at 1,811,515 feet Board Measure and is more particularly described in posters.

PARCEL II.

This Parcel consists of lumber similar in other respects to that described in Parcel I., except that it had not been cross-piled for sixty days as aforesaid, which lumber is estimated at 1,655,515 feet Board Measure, and is more particularly described in posters

PARCEL III.

This Parcel consists of lumber manufactured at plaintiff's said Mills during the season of 1903 from logs cut in the Serpent River during the winter seasons of 1901-1902 and 1902-1903, and comprising the product (estimated at about 875,000 feet) of the last 8,965 of the said logs manufactured into lumber at the said Mills during the season of 1903.

PARCEL IV.

This Parcel consists of lumber similar in other respects to that described in Parcel III, except that it was manufactured from logs cut during the winter season of 1902-1903, and is estimated at 2,508,702 feet Board Measure, and is more particularly described in posters.

Tenders are to be at a price per 1,000 feet Board Measure delivered on the plaintiffs' dock at Sprague, and are to be made on each of the above four parcels separately, together with an offer for any mill culls which may be found in the merchantable lumber when shipping same.

Lumber on shipment to be measured and inspected at Sprague by Messrs. Martin and Boggs, of Cheboygan, Michigan; and such inspection and measurement shall be final and conclusive as between the Vendors and the purchasers, who are to bear equally the costs of said inspection and measurement (at Twenty-five cents per 1,000 feet, Board Measure).

Shipment to be made by water commencing on opening of navigation in spring of 1904, and all lumber to be removed from docks at Sprague one-half of each parcel before 1st June, 1904, and the balance before 15th June, 1904.

TERMS:—Ten per cent. when tender is accept

FOR SALE

A TRACT OF

EIGHTEEN MILLION OF WHITE PINE TIMBER

Nice to Log, good ground, all sound red knotted timber, especially good for export trade. Convenient to the Spanish and Vermillion Rivers. Good trade offered. Address

D. F. RANSON, Dealer in Timber Lands,
Sault Ste Marie, Michigan.

ed; the remainder within ten days from the day of shipment of each cargo.

All payments to be made in funds current at par at a Bank in Toronto.

Time is to be of the essence of the contract of the purchase, and in case of any purchaser making default in removing the lumber, pursuant to contract, he shall pay to the Vendors as liquidated damages an additional sum of 5 cents per 1,000 feet Board Measure for the lumber in respect of which such default shall occur, and shall make such payment for every day during which such default shall continue.

The purchasers are to pay to the vendors a proportionate part of the insurance premium paid in respect of said lumber to be computed from the date of acceptance of tender by the Master in Ordinary.

The vendors are not to be held responsible for delivery of lumber for which tenders are now invited, if the same is prevented by fire, strikes or other events beyond their control.

The property in the lumber is to remain in the Vendors until full payment is made in cash.

The highest or any tender will not necessarily be accepted.

Every tender shall be deemed to have incorporated therein the provisions of this advertisement.

Specifications of lumber and further particulars may be obtained at the office of

THE COOK AND BROTHERS LUMBER COMPANY OF ONTARIO, Limited,
Room 1, Manning Arcade,
24 King Street West, Toronto.

or of MESSRS. CAMERON & MARSH,
25 Toronto Street, Toronto.

Dated at Toronto this 16th day of March, 1904.

NEIL McLEAN,
Chief Clerk, M.O.

FOR SALE

For Sale—Circular Sawmill

WITH DOUBLE EDGER, SLAB SAW AND lath machine. Mill in first class running order; nearly new. Also 1000 acres of timbered land. Mill and timber can be bought together or separately. $2,500 will buy mill and timber. Plenty of timber contributory to the mill to supply it for ten years or more. This is a genuine bargain. The mill and timber is on the Georgian Bay. The lumber can be freighted by scow to Midland, Penetang, Collingwood or Owen Sound for $1.00 per M. ft. Apply to Box 128 CANADA LUMBERMAN, Toronto, Ont.

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

THE CANADIAN LAND AND IMMIGRATION CO., OF HALIBURTON, (LIMITED).

This company has a large tract of well timbered land about 125 miles northeast of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads. The company are prepared to sell this timber in blocks ranging from 2,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto.

LOGS FOR SALE

THERE WILL BE SOLD BY PUBLIC AUCTION at the Clifton House, Burk's Falls, Parry Sound District, on the 21ST DAY OF APRIL, 1904, at 1 o'clock p. m., one million eight hundred thousand feet of Hemlock, Pine and Birch Logs in the Townships of Chapman and Ryerson.

The logs are in two different lakes and will be sold in separate lots.

Mills are convenient to cut logs at once.

Also 1,200 acres of standing timber near Burk's Falls, Parry Sound District.

For further particulars apply to

THE BRODHAGEN LUMBER Co., Limited,
Burk's Falls, Ont.

7. Berth No. 4, Township of Mulock, 4 square miles.
8. Also new and well equipped SAW MILL at Spanish.

(All in the Province of Ontario, north shore of Lake Huron).

Terms of Sale.—Ten per cent. of the purchase price at the time of sale and ten per cent. every six months thereafter, with interest at 6 per cent. per annum, with usual cutting terms and conditions.

For further particulars apply to

PETER RYAN, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

The weather has not moderated sufficiently to stimulate the demand for lumber to any extent, particularly as many customers are waiting the delivery of stock ordered weeks ago. Until this lumber reaches them they will refrain from placing further orders except for urgent requirements and when delivery can be guaranteed. The tone of the market continues unchanged, the disposition being to hold for prices equal to or higher than those obtained one year ago. In this issue will be found the statement of stocks of white pine lumber at the mills on the Georgian Bay as compiled by the Secretary of the Ontario Lumbermen's Association. It will be seen that the stock on hand is 20,000,000 feet less than one year ago, 31,000,000 feet less than two years ago, and 66,000,000 feet less than three years ago. The actual situation, however, is even more favorable than the figures show, for the reason that a larger percentage than usual of the quantity on hand has been sold but could not be moved owing to the severe winter and blockade of the railroads. The statement shows that there is only 50,000,000 feet of all grades of white pine that has not passed out of the hands of manufacturers.

A serious problem confronts the lumber manufacturers this spring in the movement of their lumber, as the present shortage of cars is certain to become more acute as the spring advances. It is estimated that between Orillia and Midland there is nearly 20,000,000 feet of lumber that has been sold and is waiting shipment by rail. Unless the accumulated supply can be moved with some rapidity, lack of piling ground is likely to cause much inconvenience.

QUEBEC AND NEW BRUNSWICK.

There is a slightly better local demand for spruce lumber and a sharp revival in business is anticipated within the next two or three weeks. British operators, however, are still in the dark as to the course to pursue, the reports from across the water being rather discouraging. It is probable that some manufacturers will give more than usual attention to the South American and United States markets. The shingle trade does not show much life and consequently prices are unchanged.

UNITED STATES.

During the month of February building permits were taken out in 23 leading cities of the United States involving a cost of upwards of $14,000,000, a decrease of approximately 10 per cent. as compared with the corresponding month of 1903. This is not a bad showing when the severe weather is taken into consideration, and it augurs well for considerable activity when the weather becomes such that outdoor operations can be carried on to advantage. There has been a steady drain upon the lumber supply, with the result that stocks in the hands of retail dealers are abnormally low. The builders' strike in New York is the most unfavorable influence at the present time. White pine prices are being well maintained. The common and lower grades are in demand at a slight advance, which is an offset to the concessions which are sometimes made on selects and the better grades. No. 4 and No. 5 boards are a negligible quantity in the market, so great has been the call for box lumber. The reports from the logging districts tell of a general shortage in the crop of white pine logs, and the mills are likely to have a much lighter supply than last year. This, together with the light stock of lumber carried over, is reckoned upon to prevent any material decline in lumber prices.

The supply of dry hardwood lumber is well nigh exhausted. This fact is appreciated by dealers, many of whom have closed contracts for new stock at an advance averaging about $2 per thousand feet over those paid one year ago. Michigan manufacturers are asking considerably higher prices for maple. The same may be said of birch, which has become quite scarce. Basswood, elm and ash are standard lumbers for which there is also a ready sale and a probability of enhanced values.

GREAT BRITAIN.

The timber trade of Great Britain shows no improvement; in fact, the hope of a change for the better is in some quarters almost abandoned. The advent of spring cannot but result in increased activity, but whether it will restore confidence or increase the uncertainty which now prevails is a question which cannot at the moment be answered. The consumption of lumber during the year will probably be less than last season, but there is nothing which would indicate that the decrease will be material, as most of the industries are enjoying moderate prosperity and building operations promise to be about normal. The great hindrance to more activity in the lumber business seems to be the indisposition of buyers to pay the prices asked by shippers. A report from London states that very little progress has been made in effecting c.i.f. sales of spruce. The opening quotations for second and third quality deals at £10 and £9 7s 6d per standard c.i.f. London led to little business, and the lower figures that succeeded brought no better response from buyers. It is stated that some contracts have been closed at £9 10s. and £9 c.i.f. for 3x9 second and third quality spruce. The prices ruling auction sales have predjudiced the "to arrive" market and caused buyers to be unreasonably cautious.

BROOM HANDLES

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar care to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

WHITE PINE STATISTICS.

The following statistical report was submitted at the annual meeting of the Lumbermen's Association of Ontario on March 17th, by the Secretary, Mr. W.B. Tindall:

PRODUCTION OF WHITE PINE LUMBER.—The total production of mills in North-Western Ontario, which embraces all mills on the Georgian Bay, Northern Division of the Grand Trunk Railway to Callender, and Canadian Pacific Railway, North Bay to Rat Portage, in 1903 was 485 million feet. The comparison with former years is as follows: 1899, 351,000,000 feet; 1900, 476,000,000 feet; 1901, 466,000,000 feet; 1902, 510,000,000 feet; 1903, 485,000,000 feet, a decrease between 1903 and 1902 of 25,000,000 feet.

STOCKS ON HAND.—There is in pile at the mills about 150,000,000 feet, of which 100,000,000 is sold waiting spring delivery, and the balance is unsold. From all I can learn there seems to be a great scarcity of the low grade lumber, absolutely none in first hands, and what is available being held by dealers for distribution. The comparison with previous years follows: 1899, 120,000,000 feet; 1900, 216,349,000 feet; 1901, 181,000,000 feet; 1902, 170,000,000 feet; 1903, 150,000,000 feet.

PROBABLE PRODUCTION OF 1904 LOGS.—I estimate this at 420,000,000 feet.

The answers to the enquiry as to whether last year's prices would be maintained or not, are unanimous that they would, and a good many are looking for a 10 per cent. increase, and one has to consider that the increased cost of log production this winter in the greater portion of the district will require fully a 10 per cent. increase to be in the same position as last year.

It is of interest to look for a short time at the statistics given for the competing points of the United States. The figures given for the states of Michigan, Minnesota and Wisconsin are as follows:

PRODUCTION.—1899, 6,056,508,000 feet; 1900, 5,485,261,000 feet, decrease 571,247,000 feet; 1901, 5,336,448,000 feet, decrease 48,813,000 feet from 1900; 1902, 5,294,395,000 feet, decrease 42,053,000 feet from 1901; 1903, 4,791,852,000 feet, decrease 502,543,000 feet from 1902.

STOCKS ON HAND (Same Period.)—1899, 2,728,271,000 feet; 1900, 2,839,706,000 feet, increase 111,435,000 feet; 1901, 2,388,256,000 feet, decrease 451,450,000 feet; 1902, 2,112,719,000 feet, decrease 275,537,000 feet; 1903, 1,964,532,000 feet, decrease 148,187,000 feet. Total decrease since 1900, 875,274,000 feet.

In reference to these districts I would like to call your attention to the fact that it is the first time since 1879 that their output had dropped to the 4,000 million figure. In 1899 it stood at 4,806,943,000. The highest point was reached in 1890, being 8,597,623,000, and the falling off in 13 years to 1904 has been 3,805,771,000 feet or 44.26 per cent., the decrease being steady since 1898.

The cut of hemlock for the same period in the same district is as follows:

Total Cut — 1889, 868,410,000 feet; 1900, 1,166,288,000 feet; 1901, 1,264,943,000 feet; 1902, 1,277,814,000 feet; 1903, 1,334,404,000 feet. Increase from 1899 to 1903, 465,994,000 feet in total cut.

Stocks—1899, 287,820,000 feet; 1900, 622,312,000 feet; 1901, 574,406,000 feet; 1902, 441,634,000 feet; 1903, 515,935,000 feet.

STOCKS AND PRICES.

D. E. Sprague, of Winnipeg, Man., expects to cut 12,000,000 feet of lumber this season.

The Davidson Lumber Company, of Bridgewater, N.S., have taken out about 15,000,000 feet of logs this winter.

Edward Zwicker & Company, of Bridgewater, N.S., have a contract to supply John G. Hall & Company, of Boston, with 650,000 feet of lumber for shipment to South America. They will have 400,000 feet of spruce and pine ready for the New York market next month.

The Department of Interior at Ottawa will receive tenders up to April 6th for a license to cut timber on Berth No. 378, comprising the east half of Section 11, west half of Section 12, Fractional Section 13, and Fractional east half of Section 14, Township 6, Province of British Columbia, containing an area of 960 acres.

The W. C. Edwards Company will supply birch lumber for the Fire & Light Committee of Ottawa, at $40 per thousand feet board measure for kiln-dried and $35 for green. D. O'Connor, jr., tendered at $70 for surface measurement and J. A. Desrivieres at $78.

The log production in the vicinity of Dauphin, Man., during the past season was unusually large, totalling 65,000,000 feet. The following are the operators:

	Feet B.M.
Red Deer Lumber Co., Erwood	30,000,000
Northern Lumber Co, Pine River	8,000,000
T A. Burrows, Duck Mountain	7,000,000
Hanbury M'f'g Co., Duck Mountain	5,000,000
McArthur & Co., Winnipegosis	3,000,000
Shaw Bros., Dauphin	2,500,000
Armstrong & Roland, Erwood	1,500,000
Mutchbacher Bros., Minitonas	1,500,000
Ritchie Bros. Ochre River	1,500,000
Knox Bros., Laurier	1,000,000
Swan River Lumber Co., Minitonas	1,000,000
Portable mills	3,000,000
Total cut	65,000,000

The W. & A. McArthur Company, of Little Current, Ont., write as follows: "Owing to the labor conditions and scarcity of men last fall, the consequent late start and the early and excessive snowfall, the product of our winter's work in the woods will not be over two-thirds of last year's cut, and at largely increased cost. This, in our opinion, will apply to all the lumber operations on the Georgian Bay."

NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN).

ST. JOHN, N. B., March 14th, 1904.—Shipping is somewhat brisker than at last writing. Schooners are coming out of winter quarters in large numbers and many are already taking cargoes for American ports. Charters are being made at $2.25 on long lumber to Boston and at $2.75 to New York.

American laths are selling at from $2.35 to $2.45 per M. f.o.b. schr. St. John, for immediate delivery. Stocks are very low, not more than two million at the outside being available at the present moment, and the demand is brisk.

Provincial laths are worth from $2.15 to $2.20 per M. Stocks in this line are also small. An advance of from 10 cents to 20 cents per M. on laths is confidently expected in the near future.

The outlook for shingles is not so encouraging. The feeling seems to be that during the next few months at least, the shingle market will not recover the falling off in prices (10 cents per M. on the high grades and 5 cents on the low) which took place last fall, but rather that the better grades may go lower yet. American cedar shingles, f. o. b. St. John, are worth: Extras, $2.95; Clears, $2.45; 2nd Clears, $1.95; Extra No. 1, $1.15; No. 1, $1.00.

The purchaseable stocks of American shingles in and about St. John is very low, possibly three million at the the outside. From now until the middle of April the weekly output will be in the vicinity of 700 M. When that time comes all the manufacturers will be able to obtain their cedar logs (which are at present, as is usual at this season, ice-bound in the coves and booms) and after that the weekly output will be in the vicinity of two and a half millions, Provincial and American combined.

Local sales of shingles are few, but with the opening of navigation in the rivers trade will in all probability be very briskly resumed at the following prices: 2nd Clears, $2.00; Extra No. 1 $1.30; No. 1 $1.00. Few of the higher grades are sold in the provinces for local consumption. Local stocks of lower grades are much smaller than usual.

W. W. Reed, of Reedsville, Que., has over 1,000,000 feet of logs on the shores of Lake Massawippi for rafting to his mill this spring.

The Pembroke Lumber Company, per S. Anglin & Company, have secured the contract to supply the Board of Works of Kingston, Ont., with lumber, the price being $2,511.60.

We own and operate several mills in Washington and British Columbia, being on both sides of the "Imaginary Line" known as the International Line, and it keeps our opponents in the trade guessing how to meet us on account of the good quality of our manufactured stock, which has been so carefully planned that even the selection of our timber lands in years past has something to do with the present.

We find our competing salesmen's story to the customers has now got to be a "song pure and simple," which they have learned from necessity to sing loudly and lustily, and is as follows: **"JUST AS GOOD AS HASTINGS," "JUST AS GOOD AS HASTINGS."**

While we appreciate their holding our goods as models of perfection, which the high standard certainly merits, still looking at the matter from the customer's and the consumer's standpoint we cannot see any advantage to you in buying an imitation when the real article can be had through our representatives, viz :—

James Twitchell, Clinton, Ont., for Ontario, Canada
Samuel Ashfield, Winnipeg, Man., for Manitoba and the North-West Territories

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages} $1.00 PER YEAR {The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO AND MONTREAL, MARCH 30, 1904 No. 9.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

JUDICIAL SALE.

Pursuant to an Order made on the 9th March, 1904, in an action in the High Court of Justice for Ontario, in which the Cook and Brothers Lumber Company of Ontario, Limited, are Plaintiffs, and W. H. Sawyer Lumber Company are Defendants, sealed tenders will be received addressed to the "Master in Ordinary, Osgoode Hall, Toronto, Ontario", and marked "Tenders in Cook vs Sawyer," up to eleven o'clock a.m. on FRIDAY, THE 15TH DAY OF APRIL, 1904, for the purchase of four parcels of merchantable White Pine Lumber, 12, 14, and 16 feet in length, hereinafter described, which lumber is now at the Village of Spragge in the District of Algoma, upon the docks of the plaintiffs who are the Vendors:—

PARCEL I.

This Parcel consists of lumber manufactured at the plaintiff's Mills at Spragge during the season of 1903 from logs cut on the Sable River during the winter season of 1902-1903, which lumber had been in cross-piles sixty days before the close of navigation for the season of 1903, which lumber is estimated at 1,811,515 feet Board Measure and is more particularly described in posters.

PARCEL II.

This Parcel consists of lumber similar in other respects to that described in Parcel I., except that it had not been cross-piled for sixty days as aforesaid, which lumber is estimated at 1,655,515 feet Board Measure, and is more particularly described in posters.

PARCEL III.

This Parcel consists of lumber manufactured at plaintiff's said Mills during the season of 1903 from logs cut in the Serpent River during the winter seasons of 1901-1902 and 1902-1903, and comprising the product (estimated at about 875,000 feet) of the last 8,965 of the said logs manufactured into lumber at the said Mills during the season of 1903.

PARCEL IV.

This Parcel consists of lumber similar in other respects to that described in Parcel III, except that it was manufactured from logs cut during the winter season of 1902-1903, and is estimated at 2,508 702 feet Board Measure, and is more particularly described in posters.

Tenders are to be at a price per 1,000 feet Board Measure delivered on the plaintiffs' dock at Spragge, and are to be made on each of the above four parcels separately, together with an offer for any mill culls which may be found in the merchantable lumber when shipping same.

Lumber on shipment to be measured and inspected at Spragge by Messrs. Martin and Boggs, of Cheboygan, Michigan; and such inspection and measurement shall be final and conclusive as between the Vendors and the purchasers, who are to bear equally the costs of said inspection and measurement (at Twenty-five cents per 1,000 feet, Board Measure).

Shipment to be made by water commencing on opening of navigation in spring of 1904, and all lumber to be removed from docks at Spragge, one-half of each parcel before 1st June, 1904, and the balance before 15th June, 1904.

TERMS:—Ten per cent. when tender is accepted; the remainder within ten days from the day of shipment of each cargo.

All payments to be made in funds current at par at a Bank in Toronto.

Time is to be of the essence of the contract of

FOR SALE

A TRACT OF

EIGHTEEN MILLION OF WHITE PINE TIMBER

Nice to Log, good ground, all sound red knotted timber, especially good for export trade. Convenient to the Spanish and Vermillion Rivers. Good trade offered. Address

D. F. RANSON, Dealer in Timber Lands,
Sault Ste Marie, Michigan.

purchase, and in case of any purchaser making default in removing the lumber, pursuant to contract, he shall pay to the Vendors as liquidated damages an additional sum of 5 cents per 1,000 feet Board Measure for the lumber in respect of which such default shall occur, and all make such payment for every day during hich such default shall continue.

The purchasers are to pay to the vendors a proportionate part of the insurance premium paid in respect of said lumber to be computed from the date of acceptance of tender by the Master in Ordinary.

The vendors are not to be held responsible for delivery of lumber for which tenders are now invited, if the same is prevented by fire, strikes or other events beyond their control.

The property in the lumber is to remain in the Vendors until full payment is made in cash.

The highest or any tender will not necessarily be accepted.

Every tender shall be deemed to have incorporated therein the provisions of this advertisement.

Specifications of lumber and further particulars may be obtained at the office of

THE COOK AND BROTHERS LUMBER COMPANY OF ONTARIO, Limited,
Room 1, Manning Arcade,
24 King Street West, Toronto

or of MESSRS. MARSH & CAMERON,
25 Toronto Street, Toronto.

Dated at Toronto this 16th day of March, 1904.

NEIL McLEAN,
Chief Clerk, M.O.

FOR SALE

Large Tract of Timber

In Central Ontario

THE PROPERTY OF

THE CANADIAN LAND AND IMMIGRATION CO., OF HALIBURTON, (LIMITED).

This company has a large tract of wel timbered land about 125 miles northeast of Toronto. There are large quantities of Cedar, Hemlock, Spruce, Balsam, Basswood, Cherry, Birch, Maple, also considerable Pine, Elm and Ash on this tract. It is well served by two railroads. The company are prepared to sell this timber in blocks ranging from 2,000 to 10,000 acres, or more if desired.

There are several good mill sites on the property. This would be a good opportunity for parties who are at present cut out and looking for a new location.

Maps and plans and further particulars can be had by applying to

W. H. LOCKHART GORDON,
Managing Director,
157 Bay Street, Toronto

ONTARIO Timber Berths

BY AUCTION

Township of Laird, District of Algoma, 15 Square Miles under License from the Crown. Also No. 3 Chesley Additional, 4 square miles.

The above will be sold as one Parcel or in Separate Berths at the ROTUNDA of the BOARD OF TRADE, TORONTO, on

Wednesday, April 20th, at 2 p.m.

Terms:—One-fourth cash, balance on time with interest at 5 per cent. per annum

The Township of Laird is under License from the Dominion Government. Crown dues on Pine $1.00 per 1000 ft. B.M. This township is heavily timbered with Pine, Spruce, Cedar, Hemlock and Birch, and is easily supplied and operated. Estimators can reach the Berth from Isbestor Station on the "Soo" Branch of the C.P.R., which is on the Township.

No. 3 Chesley Additional has considerable large White Pine and other woods.

For further particulars apply to

BURTON & BRO., Barrie,
or PETER RYAN, Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

The milder weather has created more activity in the lumber business. The demand is increasing in greater ratio than the volume of shipments, because of the inability of the railroads to handle the business offered them. One of the largest dealers states that although his orders so far this year have been greater than during the corresponding period of 1903, his shipments show a considerable falling off. This statement no doubt reflects the general situation. Stocks in the hands of retailers must be very light, and will not last long when the spring demand is on in full force. The activity which the advent of spring will bring is almost certain to prevent a decline in lumber prices, while the shortage in the supply of the lower and higher grades is not unlikely to cause a slight advance. There is a very strong demand for the lower grades, and in a lesser degree for the higher grades. The intermediate grades of pine are moving rather slowly, but it is expected that even these grades will be largely disposed of by the opening of navigation.

There has been liberal buying of hardwood lumber. Prices are in a strong position, and a large part of the season's cut has been placed under contract. Dealers and factory consumers have been heavy buyers. Notwithstanding the high prices which ruled last year, the feeling of the trade seems to be that still higher prices will be paid for hardwoods this season, as the supply promises to be unequal to the demand. Birch and elm show advancing tendencies.

QUEBEC AND NEW RBUNSWICK.

In reviewing the spruce market, it is necessary to make two distinct divisions, the local and United States trade on the one side, and the British trade on the other. Local business is quite satisfactory and the outlook somewhat promising. There is a good demand for all kinds of lumber for home consumption and for export to the United States. Many mills catering to these markets have sold a large percentage of their 1904 cut at an advance over the prices received last year. The outlook for shipments to Great Britain is in striking contrast to these conditions. Owing to the general depression there is a feeling of nervousness in lumber circles, and it is feared that there will be little profit in shipments made to that country this year. The amount of lumber placed under contract for export across the water is much smaller than at the corresponding time one year ago.

Reports from New Brunswick indicate that the cut of logs during the past winter was equal to or slightly above the average. As against this, however, the prospects are poor for successful stream driving. On the upper waters of the rivers there is but little snow, and some of the streams are quite dry. It is impossible, therefore, to estimate with any degree of accuracy the quantity of logs which will reach the mills for sawing this year.

UNITED STATES.

The developments of the past week have been favorable to the producer of lumber of whatever kind. There has been a marked increase in enquiry and demand and conditions indicate that there will be a brisk revival of trade before many days. From now forward the lumber required for building purposes will be an important factor in the demand. The consumer is short of lumber and is anxious to replenish his supply. Until recently there was a conviction in the minds of consumers that prices would decline. This has now given way to a belief that buyers of lumber at current prices will have no cause for regret later in the season. The white pine manufacturers are greatly encouraged by the published statement that the production of lumber in the Duluth and Ashland districts this year will show a decrease of 50 per cent. as compared with last season. This is the result of a restricted input of logs. There is now on hand at Duluth, of last year's production, only 5,000,000 feet of unsold lumber, where in former years there has been from 75,000,000 to 125,000,000 feet at this time. All low grade lumber has been absorbed and a large part of the coming season's production is sold for delivery. No. 3 boards are held at $15 and No. 4 at $12 to $12.50 on dock at Diluth.

Hardwood prices are higher. At a meeting of the manufacturers held in Wisconsin last week, soft elm was advanced $5, birch, maple and brown ash $2, and other woods in proportion. There is a comparatively large stock of Michigan hardwood logs to be manufactured this season, but the supply is not likely to be sufficient to cause any weakness in prices. Laths and shingles are moving slowly, but prices are being well sustained.

GREAT BRITAIN.

The British market is in much the same position as at last report. No signs of recovery are visible, but, on the other hand, there is a disposition to limit obligations as much as possible and to place contracts only after an order for the stock has been received. It is probable that Russian shippers will offer lumber at a further reduction as a result of pressure brought upon them by the banks, which in turn are influenced by the Russian Government. There have been several small failures in the lumber trade recently, incidents which are not characterized to inspire confidence. Until the financial atmosphere becomes clearer, an improved state of trade is not to be expected. Canadian pine and spruce deals are not moving as actively as one year ago. Spot prices until recently held very firm, but

holders of the lower qualities are now beginning to show anxiety to get rid of their stocks, even if lower prices must be accepted. The late auction sales have shown a tendency in this direction. For instance, 3x9 inch third quality Quebec spruce, 12 to 13 feet in length, sold as low as £8 15s. per standard, which is not above the c.i.f. prices now asked. Red pine has sold more favorably, first quality 4x11 inch bringing £17.

STOCKS AND PRICES.

Smith & Henderson, of Little Current, will have their logs sawn this season by the McArthur Bros. Company at that place.

Edward Zwicker, & Company, of Halifax, N. S., have a contract to supply 650,000 feet of lumber to John G. Hall & Company, of Boston, for shipment to South America.

The Imperial Packing Company, Woodstock, N. B., are paying $12.50 per thousand for red-hearted, yellow-birch logs, 8, 9, and 10 inches at the top end, delivered at their factory.

The St. John River Log Driving Company are asking for tenders for a contract for three years for driving the logs put into the Tobique River. If tenders are not concluded before April 6th, the privilege of driving will be sold at public auction at the Court House, Fredericton, on that date.

The Ottawa Lumber Company have secured the contract for the supply of lumber for the Board of Works of the City of Ottawa, at the figure of $6,470. The other tenderers were: George R. Dewar, $7,445; C. E. Turner, $7,072.50; W. C. Edwards Company, $7,490; William H. McAuliffe, $6,972.50; P. Burns, $7,355.

Lumbering operations in the vicinity of Canaan, N. S., are quite active. Alfred West has taken out about 4,000,000 feet; C. B. Parker, 1,000,000 feet; A. B. Hethcrington, 2,000,000 feet in addition to 1,500,000 feet of poplar for the American market. White's cut on Thorne's Brook will probably be 1,000,000 feet and the cut of small operators will aggregate 1,500,000 feet.

The Edward Hines Lumber Company, of Chicago, in 1903 produced 280,000,000 feet of lumber at their various saw mills, while, according to the American Lumberman, they will this year cut only 115,000,000 feet. Alger, Smith & Company cut last year 120,000,000 feet and this year their cut will be 75,000,000 feet. The Ashland Lumber Company, of Ashland, Wis., last year cut 39,000,000 feet, and will this year reduce the quantity considerably.

Messrs. S. P. Musson, Son & Company furnish the following report of the Barbados lumber market, under date of March 12th: "Since our last we have to report the arrival of the Strathcona from Savannah, with a cargo of pitch pine, principally second quality, which we placed locally at $24.57 for merchantable and $17.27 for second quality. White pine and spruce are still in full supply, and stocks are not being reduced as quickly as is usual at this time of the year However, we think that a small cargo of white pine would bring a fair price a few weeks hence. The schooner "Josie", which was on her way here with a small lot of spruce and white pine, has been abandoned at sea, and we do not known of any other cargo coming. Dimension and Gaspe shingles are very scarce and next arrivals will realize good prices. Cedar Laying are held in fairly large quantities, and we do not value these at over $2.15."

TO HOLDER OF BIRCH LIMITS.

Can you cut birch into Squares,&c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance, "c/o CANADA LUMBERMAN.

HARDWOOD LUMBRR PRICES.

The Wisconsin Hardwood Lumbermen's Association, at a meeting held at Marshfield last week, adopted a new price list for hardwood lumber, by which nearly all kinds and grades were advanced. Canadian hardwood manufacturers will be interested in knowing the prices adopted, which are given in part below:

ASH.—1 in. log run, No. 3 Common out, $22; 1st and 2nd, 1 in., $34; 1¼ and 1½ in., $36; 2 in., $37; 2½ in. and thicker, $42. No. 1 Common, 1 in., $24; 1¼ and 1½ in., $25; 2 in., $26; 2½ in. and thicker, $28. No. 2 Common, 1 in., $13; 1¼ in. and thicker, $14. No. 3 Common, $10.

BIRCH.—1 in. log run, No. 3 Common out (mixed color), $20. 1st and 2nd (red out), 1 in., $30; 1¼ and 1½ in., $30; 2 in., $34; 1 in. red, $40; 1½ to 2 in. red, $42; 2½ in. and thicker, $44. No. 1 Common, 1 in. (red out), $20; 1¼ and 1½ in., $22; 2 in., $24; 1 in. red, $30; 1¼ to 2 in. $32; 2½ in. and thicker, $34. No. 2 Common, 1 to 1½ in. (red out), $12; 2 in., $14; 1 to 3 in. red, $16. No. 3 Common, $8.

BASSWOOD.—1st and 2nd, 1 in., 5 to 11 in., 18 to 16 ft., $32; 12 in., $35; 13in. and wider, $38; 1¼ to 1½ in., $35: 2 in., $37. No. 1 Common, 1 in., 5 to 11 in., $23; 1¼ and 1½ in., $24; 2 in., $27. No. 2 Common, 1 in., $14.50; 1¼ to 2 in., $16. No. 3 Common, 1 in., $12; 1¼ and 1½ in., $13; 2 in., $12.

SOFT ELM.—1 in. log run, No. 3 Common out, $21. 1st and 2nd, 1 in., $31; 1¼ to 2 in., $33; 2½ in. and thicker, $35. No. 1 Common, 1 in., $20; 1¼ to 2 in., $22; 2½ in. and thicker, $24. No. 2 Common, $13. No. 3 Common, $10.

ROCH ELM.—1 in. log run, No. 3, Common out, $18; 1¼ to 2 in. log run, No. 3 Common out, $20. 1st and 2nd, 1 in. $30; 1¼ to 2 in. $32; 2½ in. and thicker, $36. No. 1 Common, 1 in., $18; 1¼ to 2 in., $20; 2½ in. and thicker, $26. No. 2 Common, 1 in., $12; 1¼ to 2 in., $14; 2½ in. and thicker, $14. No. 3 Common, $8.

SOFT MAPLE.—1 to 2 in. long run, No. 3 Common out, $16.

HARD MAPLE.—1 to 2 in. long run, No. 3 Common out, $15. 1st and 2nd, 1 in., $25; 1¼ and 1½ in., $27; 2 in., $27; 1½ in. and thicker, $35. No. 1 Common, 1 in., $15; 1¼ to 2 in., $17; 2½ in. and thicker, $23. No. 2 Common, 1 to 2 in., $10; 2½ in. and thicker, $17. No. 3 Common, 1 to 2 in., $7; 2½ in. and thicker, $10.

TIMBER LIMIT TRANSACTIONS.

W. H. Higgins, of Vancouver, B. C., has purchased the right to cut 150,000,000 feet of standing timber on Humphrey Channel, 90 miles north of Vancouver, and is making preparations for opening up a number of camps on the claim.

R. P. Rithet's extensive timber limits on Valdez island and vicinity in British Columbia, Crown granted property, have been acquired by Thomas Merrill, of Saginaw, Michigan. It is understood that the latter will operate the properties on an extensive scale and that the logs can be exported.

CANADIAN NORTHERN RAILWAY

The New Canadian Highway from Port Arthur, the head of Lake Superior, to :—

FORT FRANCES MORRIS GLADSTONE
WINNIPEG EMERSON DEEPAWA

SPECIALTIES

Red Cedar Bevel Siding, Plain and Fancy Butts in 16 in. and 18 in. Dimension Shingles, also the famous XXX and XXXX Brands, all Choice Stock.

We own and operate several mills in Washington and British Columbia, being on both sides of the "Imaginary Line" known as the International Line, and it keeps our opponents in the trade guessing how to meet us on account of the good quality of our manufactured stock, which has been so carefully planned that even the selection of our timber lands in years past has something to do with the present.

We find our competing salesmen's story to the customers has now got to be a "song pure and simple," which they have learned from necessity to sing loudly and lustily, and is as follows : **"JUST AS GOOD AS HASTINGS," "JUST AS GOOD AS HASTINGS."**

While we appreciate their holding our goods as models of perfection, which the high standard certainly merits, still looking at the matter from the customer's and the consumer's standpoint we cannot see any advantage to you in buying an imitation when the real article can be had through our representatives, viz :—

James Twitchell, Clinton, Ont., for Ontario, Canada
Samuel Ashfield, Winnipeg, Man., for Manitoba and the North-West Territories

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO AND MONTREAL, APRIL 6, 1904 No. 10.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

700 feet 2½" Warring Line.

Apply to THE SNIDER LUMBER CO., Gravenhurst, Ont.

JUDICIAL SALE.

Pursuant to an Order made on the 9th March, 1904, in an action in the High Court of Justice for Ontario, in which the Cook and Brothers Lumber Company of Ontario, Limited, are Plaintiffs, and W. H. Sawyer Lumber Company are Defendants, sealed tenders will be received addressed to the "Master in Ordinary, Osgoode Hall, Toronto, Ontario", and marked "Tenders in Cook vs. Sawyer," up to eleven o'clock a.m. on FRIDAY, THE 15TH DAY OF APRIL, 1904, for the purchase of four parcels of merchantable White Pine Lumber, 12, 14, and 16 feet in length, hereinafter described, which lumber is now at the Village of Spragge in the District of Algoma, upon the docks of the plaintiffs who are the Vendors:—

PARCEL I.

This Parcel consists of lumber manufactured at the plaintiff's Mills at Spragge during the season of 1903 from logs cut on the Sable River during the winter season of 1902-1903, which lumber had been in cross-piles sixty days before the close of navigation for the season of 1903, which lumber is estimated at 1,811,515 feet Board Measure and is more particularly described in posters.

PARCEL II.

This Parcel consists of lumber similar in other respects to that described in Parcel I., except that it had not been cross-piled for sixty days as aforesaid, which lumber is estimated at 1,655,575 feet Board Measure, and is more particularly described in posters.

PARCEL III.

This Parcel consists of lumber manufactured at plaintiff's said Mills during the season of 1903 from logs cut in the Serpent River during the winter seasons of 1901-1902 and 1902-1903, and comprising the product (estimated at about 875,000 feet) of the last 8,965 of the said "logs" manufactured into lumber at the said Mills during the season of 1903.

PARCEL IV.

This Parcel consists of lumber similar in other respects to that described in Parcel III, except that it was manufactured from logs cut during the winter season of 1902-1903, and is estimated at 2,508,702 feet Board Measure, and is more particularly described in posters.

Tenders are to be at a price per 1,000 feet Board Measure delivered on the plaintiffs' dock at Spragge, and are to be made on each of the above four parcels separately, together with an offer for any mill culls which may be found in the merchantable lumber when shipping same.

Lumber on shipment to be measured and inspected at Spragge by Messrs. Martin and Boggs, of Cheboygan, Michigan; and such inspection and measurement shall be final and conclusive as between the Vendors and the purchasers, who are to bear equally the costs of said inspection and measurement (at Twenty-five cents per 1,000 feet, Board Measure).

Shipment to be made by water commencing on opening of navigation in spring of 1904, and all lumber to be removed from docks at Spragge one-half of each parcel before 1st June, 1904, and the balance before 15th June, 1904.

TERMS:—Ten per cent. when tender is accepted; the remainder within ten days from the day of shipment of each cargo.

All payments to be made in funds current at par at a Bank in Toronto.

Time is to be of the essence of the contract of

purchase and in case of any purchaser making default in removing the lumber, pursuant to contract, he shall pay to the Vendors as liquidated damages an additional sum of 5 cents per 1,000 feet Board Measure for the lumber in respect of which such default shall occur, and all make such payment for every day during hich such default shall continue.

The purchasers are to pay to the vendors a proportionate part of the insurance premium paid in respect of said lumber to be computed from the date of acceptance of tender by the Master in Ordinary.

The vendors are not to be held responsible for [illegible] of lumber for which tenders are now asked if the same is prevented by fire, strikes or other events beyond their control.

The property in the lumber is to remain in the Vendors until full payment is made in cash.

The highest or any tender will not necessarily be accepted.

Every tender shall be deemed to have incorporated therein the provisions of this advertisement.

Specifications of lumber and further particulars may be obtained at the office of

THE COOK AND BROTHERS LUMBER COMPANY OF ONTARIO, Limited,
Room 1, Manning Arcade,
24 King Street West, Toronto
or of MESSRS. MARSH & CAMERON,
25 Toronto Street, Toronto.

Dated at Toronto this 16th day of March, 1904.

NEIL McLEAN,
Chief Clerk, M.O.

FOR SALE

ABOUT 1,000 CORDS SPRUCE PULPWOOD and about 2,000 Spruce Piles, 30′ to 60′. May and June delivery on cars, boat or in rafts at Papineauville, Que. Address P.O. Box 13, Papineauville, Que.

CURRENT TRADE CONDITIONS.

ONTARIO.

The feeling of hopefulness displayed by the lumber trade is more pronounced than at any previous time this year. As the result of better weather, everything has a brighter look and there are evidences of much greater activity in the near future. The railways are making some progress with the movement of congested freight, but there is still a large quantity of lumber waiting shipment. Buying of white pine has been quite general during the past week, several lots in the Georgian Bay district having changed hands at good figures. Log run is selling as high in price as last year, and lately a disposition has been shown to hold for an advance. For the small quantity of unsold dry lumber on hand high prices are being asked. Ten and twelve inch common pine has been marked up by some manufacturers about $1 per thousand feet, $23 being asked for lengths from 18 to 24 feet. Dry hemlock and spruce are also showing a hardening tendency, 2 x 6 in. hemlock, 12 to 14 feet in length, being held at the mills at $12.50. There is a strong demand for all hardwoods, with considerable inquiry for suitable export stock. Prices are hardening as the result of liberal buying and in sympathy with the strong market in the United States. Lath are inclined to be a little weaker, but as building operations progress the demand will improve and prices strengthen accordingly.

MANITOBA AND BRITISH COLUMBIA.

The outlook for the lumber business in Western Canada is brightening. For the first three months of this year the building permits taken out in the city of Winnipeg repesented in value upwards of $700,000, which is an increase of $200,000 as compared with the corresponding period of 1903. Similar activity prevails at Vancouver, Victoria and other western points, and there promises to be a brisk demand for the class of lumber required for building purposes. The market is still somewhat unsettled, although a report from British Columbia states that it has been decided to maintain present prices notwithstanding the abandonment of the proposal to form a selling pool.

UNITED STATES.

More activity is exibited by the lumber trade of the United States, and this notwithstanding that shipments have for the past two months been of considerable volume. White pine shipments from the Mississippi and Wisconsin valley mills amounted to 115,000,000 feet during February, a decrease of only 6 per cent. as compared with the same month last year. The wholesale centres report an increased number of enquiries for shipment to New York, Philadelphia, Boston and other eastern points, and a pronounced revival in trade this month is confidently looked for. The most urgent demand is for box lumber, although prices of No. 3 and better have become firmer since the shortage of the new cut became generally known. There is very little dry lumber of the lower grades at the mills.

The position of hardwoods is very favorable, with a tendency towards higher prices. Wisconsin birch is bringing fully $2 a thousand more than last fall and the inspection is less severe. Dry hardwoods in Michigan are very scarce and the leaders have advanced in value from $2 to $3 a thousand. Birch No. 2 common and better is bringing in $23 to $25; soft elm, $25; and rock elm $24 to $25. Maple prices are about the same as at the close of last year. It is estimated that 40 per cent. of the new cut of hardwoods has been contracted for. Long lengths of hemlock lumber are in splendid request and mill stocks are very light. No decline in prices is looked for.

GREAT BRITAIN.

It is not possible to report much improvement in the timber trade of Great Britain. Few contracts are being closed and there is still a disposition to adopt a waiting attitude. It is freely predicted that deals will be sold at lower prices, but as regards the smaller sizes the situation seems to be stronger and the stock offered is being taken somewhat freely. The Board of Trade returns show that the trade of the country is sound, but it is expected that any improvement will be of slow growth. The volume of business with South Africa has been disappointing to British merchants, and the financial difficulties have created a feeling that caution will have to be observed this year to prevent further disaster to those who have been carrying heavy stocks bought at high prices. Auction sale prices have been lower. Two lots of 2-inch first quality broad pine deals sold at £31 5s. per standard, and some third quality pine, 10 and 11 feet, at £10 to £11. A large line of Quebec deals, 3x9 in. unassorted, brought only £8 5s., and 2x9 in. only £7 10s. A few lots of 3x9 in. second quality Quebec spruce sold at £9 15s., a decline of 5s. as compared with the previous price. First quality 3x9 in. brought £11 per standard. Notwithstanding the tendency towards weakness reflected in the above prices, we are told that importers who have refrained from making their purchases of pine deals are now realizing that they will have to pay the increased prices asked by shippers if they wish to secure the stock.

STOCKS AND PRICES.

John Baker, of Baker's Settlement, N. S., expects to saw 500,000 feet of lumber this season with his rotary mill.

Alfred Dickie, of Lower Stewiacke, N. S., has 65,000,000 feet of logs available for this season's sawing operations.

Tenders are invited up to Tuesday, April 12th, for the supply of lumber required by the city of Winnipeg during the current year.

The Okanagan Lumber Company have placed contracts with several settlers for taking out logs. Derby Bros. & Butters, at Lumby, B.C., have delivered about 900,000 feet on Besette Creek, and W. F. Wood, of the same place, has taken out a considerable quantity. The company pay $4 a thousand and stumpage.

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood orPoplar care to put in several machines to work broom handles we cantake his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

From all that can be learned, the Ottawa district lumbermen are looking forward to a big summer's business. The predictions made from time to time in these columns bid fair to come true, at least in as far as the American market is concerned. Said a leading lumberman to-day: "The American market looks bright, very bright. Higher prices are being paid for low grade lumber, and the high grade lines are holding to their high prices. There's no question but what the American market is going to take a lot of Canadian lumber this year. As a matter of fact, we have sold more up to date than in any previous year."

The same informant, however, was not as optimistic regarding the English market. He stated that the war situation has caused a feeling of uneasiness in the Old Country, and dealers are not purchasing any heavier in Canadian lumber than they can help. They are just securing sufficient to supply immediate demands.

The Spring so far has been a favorable one for the lumbermen. Hauling operations have been carried on several weeks later than usual, and all the logs and square timber have been placed at the stream side. Every provision has been made for a prompt movement of the logs this Spring, and it is not expected that many will be tied up, as was the case last season on some of the Quebec streams.

The lumber industry has undergone a great boom along the lower Ottawa in the past few years. At L'Orignal, below Hawkesbury, no less than four mills have been erected. The firms interested are Williamson & Morrison, Church & Sons, Arthur Bell and Frank Stearns. Although these mills do not enjoy railway facilities, their sites as far as the river is concerned are superior to anything on the Quebec shore which is paralleled by the north shore line of the C. P. R. Across from L'Orignal at Calumet Mr. George H. Perley's mill, remodelled and enlarged, has cut lots of lumber in recent years.

Nearly all the small mills along the Canada Atlantic and Canadian Pacific Railways out of Ottawa, kept running this winter, although the deep snow made log hauling somewhat difficult. Along the Hawkesbury and Rockland branches of the Canada Atlantic, in districts where one would seem to think all the timber had been removed years ago, good quantities of log and square timber were taken out this year.

During the past four months the Canada Atlantic Railway Company handled 180,000 saw logs and 4,000 pieces of square timber from Mr. J. R. Booth's limits along the Madawaska. This traffic is now at an end. All the logs were delivered at the Booth mill here, while the square timber was unloaded into the St. Lawrence at Clark's Island. When the ice leaves it will be rafted down to Quebec city for export to England.

The recent thaws removed the anchor and other ice from the channels at the Chaudiere, and there is now a full supply of water for the wheels. The Booth saw mill and other concerns are running full time on water power again.

Ex. Ald. Charles Desmarais, of Hull, had a busy season in the bush in the Pontiac district. He has now on hand, at a convenient point for shipment, a large stock of telegraph and telephone poles. Mr. Desmarias has a contract on hand to take out in the same district 10,000 cords of poplar pulpwood during April, May and June.

CANADIAN LUMBER SHIPMENTS.

From Halifax, N.S.: Steamer Parisian, for Liverpool, 864,498 ft. spruce deals, value $111,258, 106,308 ft. birch deals, value $1,286, 59,353 ft. hemlock deals, value $593.

From St. John, N.B: Steamer Lakonia, for Glasgow, 5,000 box shooks, 510,138 ft. deals, 82,489 ft. scantling, 16,315 ft. ends, 5 standards oak timber, 14 maple logs, 846 bundles maple flooring, 375 pieces pine deals, 60 tons pine timber. Schooner A. P. Emerson, for City Island, 254,118 ft. plank, 16,219 ft. scantling. Schooner Romso, for Providence, 42,227 ft. plank, 99,337 ft. scantling, 2, 758 ft. boards. Steamer Oruro, for West Indies, 10,000 laths, 44,340 onion crate shooks.

THE BEST LUMBER SALESMAN.

Mr. W. J. Harwood, of Mattawa, Ont., writes under date of March 28th to the publishers of the CANADA LUMBERMAN as follows: "Will you kindly stop my ad. 'Shingles for Sale,' in the CANADA LUMBERMAN. Shingles are all sold, and 'ad.' keeps me busy writing to buyers that such is the case."

Moral: If you wish to sell or buy anything in the lumber line, advertise in THE LUMBERMAN.

Mr. Morris S. M. Long, of Hamilton, who for the past eight years has been indentified with the lumber trade, has embarked in the wholesale lumber business for himself, with offices in the Spectator Building, Hamilton. For the past four years Mr. Long has been secretary of the Nipissing Lumber Company, which position he still holds. Owing to his wide connection Mr. Long will no doubt succeed in building up a large and profitable business.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)

VANCOUVER, March 28th, 1904.—Conditions in all lines of the lumber industry in this province are at present firm, and there are ample indications that they will remain so. Last year was a disastrous one to loggers, several operators becoming bankrupt, and a large number of camps closing down. This, with the deep snow this winter, has caused a scarcity, and good merchantable logs sell from $6 to $7 per thousand. Even yet there are five feet of snow in the woods, and though one or two camps have resumed operations, it will be another month before the stringency is relieved.

Those writing insurance on logs have been heavy losers this winter. It is estimated by Mr. W. H. Higgins, President of the Loggers' Association, that over ten million logs have been lost in the storms which have been so prevalent in the Gulf of Georgia and off the British Columbia coast during past four months.

There have been some busy sessions of the British Columbia Lumber and Shingle Manufacturers' Association during the past week, and for a short time it looked as if there was going to be a cut in prices. A selling pool was talked of for the Association, a step further than the combine in prices which has before obtained, but this has been abandoned because the large firm of E. H. Heaps & Company refused to enter. The members of the Association met morning, noon and night for a week, and Mr. Heaps was interviewed at his house by some mill men prominent in the organization, and at last the announcement was officially made that no pool would be formed, and that everything would proceed as formerly.

Prices for rough lumber range in the neighborhood of $13, while that for the finished article varies. This figure has been maintained for some time, and will likely remain so. The demand locally is exceptionally brisk, the building in Vancouver being twice as great as last year, which was considered the best since the city started. The supply for the Northwest will be larger than ever and the manufacturers anticipate a busy season with good prices.

Ontario lumbermen are becoming largely interested in this Province. Mr. W. Irwin, of Peterboro, and Mr. G. McCormick, M.P. for Muskoka and Parry Sound, are large shareholders in the Pacific Coast Lumber Company, of Vancouver, which has the best and most modern plant on the coast, or perhaps in the world, and lately another large deal was put through. This latter was the purchase of the Kamloops saw mill and timber limits. Mr. Peter Ryan, of Toronto, who was interested in the sale of the limits, was out, as were also the others. Mr. G. W. Fowler, M.P. for King's county, N.B., is to act as manager of the company for a short while.

Conditions in the interior of the Province, where the manufacturers are joined into the Mountain Lumbermen's Association, are as good if not better than at the coast. They have the ever increasing market of the Territories at their very doors, and the most is being made of it. A large number of mills are going up, although this winter a few went to the wall, the cause of starting with too small capital. These were some of the lesser concerns, and were soon absorbed.

THE HASTINGS SHINGLE MANUFACTURING CO., LIMITED

Head Office, Vancouver, B.C.

SPECIALTIES

Red Cedar Bevel Siding, Plain and Fancy Butts in 16 in. and 18 in. Dimension Shingles, also the famous XXX and XXXX Brands, all Choice Stock.

We own and operate several mills in Washington and British Columbia, being on both sides of the "Imaginary Line" known as the International Line, and it keeps our opponents in the trade guessing how to meet us on account of the good quality of our manufactured stock, which has been so carefully planned that even the selection of our timber lands in years past has something to do with the present.

We find our competing salesmen's story to the customers has now got to be a "song pure and simple," which they have learned from necessity to sing loudly and lustily, and is as follows: **"JUST AS GOOD AS HASTINGS," "JUST AS GOOD AS HASTINGS."**

While we appreciate their holding our goods as models of perfection, which the high standard certainly merits, still looking at the matter from the customer's and the consumer's standpoint we cannot see any advantage to you in buying an imitation when the real article can be had through our representatives, viz :—

James Twitchell, Clinton, Ont., for Ontario, Canada
Samuel Ashfield, Winnipeg, Man., for Manitoba and the North-West Territories
Smith, Duplain & Crumb Co., Rockford, Ill., for Illinois, Indiana, Ohio and Wisconsin
D. D. Babbitt, Clinton, Iowa, for Minnesota and Iowa, North of the C. & N.W. Ry.
John A. Uhler, Burlington, Iowa, for Iowa, South of the C. & N.W. Ry.
C. S. Riley & Co., Philadelphia, Pa., for Pennsylvania
F. R. Stevens, 18 Broadway, New York City, for New York and New Jersey
United Lumber Co., Springfield, Mass., for Maine, New Hampshire, Vermont, Massachusetts, R.I. and Connecticut
Shepard, Farmer & Co., Boston, Mass., for Maine, New Hampshire, Vermont, Massachusetts and R.I.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages} $1.00 PER YEAR {The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO AND MONTREAL, APRIL 13, 1904 No. 11.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

230 feet No. 77 Chain.
430 feet ⅝" Refuse Carrier Chain.
700 feet 2½" Warping Line.

Apply to THE SNIDER LUMBER CO., Gravenhurst, Ont.

CURRENT TRADE CONDITIONS.

ONTARIO.

Prices of lumber at the mills throughout Ontario have hardened somewhat, though no decided advance has taken place. With the exception of the backward spring, which it is feared may affect the yield of wheat, general conditions are favorable, and it would probably not be found difficult to make an all-round advance in lumber prices. This, however, is not likely to occur, as most of the manufacturers are of the opinion that the wiser policy is to encourage the consumption of lumber by keeping prices at a normal level. There will doubtless be some advances on certain grades, such as box lumber, owing to the unusually light supply. Ten and 12 inch pine dressing is stronger at the present time, and norway is showing a little more activity and strength. High prices are also being paid for mill culls. Warmer weather has increased the hardwood trade. There is a splendid enquiry for elm and birch, while thick stock in nearly all classes is in steady request. Lath prices are firm at the recent decline. No. 1 white pine is held at the mills at $2.75 and No. 2 at $2.25. For No. 1 and 2 Norway $2.50 and $2 respectively are asked.

QUEBEC AND NEW BUNSWICK.

A fair movement of lumber for local account is now in progress, and there is a

considerable demand for clapboards for shipment to the Eastern States. It is not expected that prices will improve very much, as owning to the depressed condition of British trade, there is likely to be a surplus of lumber available to supply the home and United States markets. Of course the question of a shortage in the log supply may have to be reckoned with. At the present time the outlook for stream driving is promising, but conditions may change within twenty-four hours any time during the next month. The statement presented at the annual meeting of the St. John River Log Driving Company last week showed that the cut on the St. John river last winter was about 140,000,000 feet, which, with 40,000,000 feet hung up last season, gives a total of 180,000,000 feet to be driven year. If the total quantity should reach the mills a full supply would be available to keep them in operation throughout the season. It is estimated that 38,000,000 feet will be driven down the Tobique river this season.

UNITED STATES.

Prospects for the maintenance of present prices of white pine lumber continue to improve. Recent developments show that there will be a pronounced shortage in the output of both white and norway pine this year. A meeting of the manufacturers in the Lake Superior district was held last week, at which statistics were submitted showing that the mills along the lakes which last year produced &39,000,000 feet will this year manufacture only 421,000,000 feet, a shortage of 418,000,000 feet. The quantity of lumber on hand was shown to be 20 per cent. less than at the corresponding date last year. There is no box lumber at the mills and practically all of that grade to be manufactured this year has been contracted for, recent sales having been made on the basis of $12.50 for No. 4 and $8 for No. 5. While there will be a decided shortage in white pine, the production of southern pine, hemlock, and other soft lumber is likely to be as great as last year, and it is doubtful whether the conditions warrant any material advance in prices from the quotations now ruling. This fact appears to be appreciated by the manufacturers. The scarcity of certain grades, however, has of itself brought about higher prices. At North Tonawanda, for instance, mill culls are selling as high as $16. Hardwood lumber shows no weakness whatever. Business is increasing, stocks are not large, and consumers are willing to buy at current prices. There is a considerable movement in hemlock lath, but white pine are rather slow.

GREAT BRITAIN.

Canadian shippers are still waiting in the hope that British importers will, as their stocks become exhausted, come into the market at present prices. Transactions in both pine and spruce have been limited, yet it is stated that a Quebec firm is buying very large quantities of first quality spruce for Admiralty contracts. Spot prices are the barrier to trade improvement. Until these are on a better footing importers will be loath to buy from shippers at the high prices now asked. All this would be quickly remedied by an increased demand from consumers, but at the present time there are few indications that this condition will arise. While the outlook for shipbuilding has improved, housebuilding is by no means active and the cabinet trade is still quiet. Broad pine deals in first quality are quoted by Calder, Henderson & Livingstone, Glasgow, at £35 to £39 per standard, and 11 inch at £28 17s. to £31 12s. While quotations for pine sidings, 1 to 2 inch, are from £25 to £29, it is stated that some holders have been forcing their stocks, and that large lines have lately been sold at about £24. There has been a drop in the price of 3rd and 4th quality pine deals and in practically all grades of spruce. Waney pine and elm timber are in good demand and have risen in price. Quotations for waney are 4s. 4d. per cubic foot for prime ship-building wood of long average and 18 to to 19 inch string. Rock elm 45 feet average, is worth from 3s. 6d. to 3s. 9d. per cubic foot.

STOCKS AND PRICES.

Haley & Son, of St. Stephen, N.B., have received an order from Manchester, England, for 144,000 boxes.

Cedar shingle prices are somewhat uncertain. At Boston the range is from $3.35 to $3.50 for extras.

The Okanagan Lumber Company, of Enderby, B.C., expect to have 8,000,000 feet logs in their boom for the season's sawing.

Jones Bros., of Apohaqui, N. B., have two mills in operation and expect to cut 6,000,000 feet of lumber this year.

A. R. Mann is getting out 300,000 ties at Kashabowie, on the Canadian Northern Railway, for Mackenzie & Mann.

In New York City inch ash brings $45 and common $35. Log run basswood is meeting with ready sale at $40 for inch, $30 for common, and $20 for culls.

The Director of Public Works, St. John, N. B., will call for tenders for 130,000 feet of hemlock plank for wharf purposes.

The Ontario & Slocan Lumber Co., of Slocan City, B. C., have secured a contract to supply 500,000 feet of lumber for the new flume and concentrator of the Monitor mine to be built at Three Forks, B. C.

Johnson & Carswell, who own limits on Long Lake, two miles from Vernon, B.C., have 400,000 feet of logs in their boom and intend getting out logs the balance of the summer. They will operate a portable mill.

The Newville Lumber Company, of Newville, N. S., have about 7,000,000 feet of logs ready for driving to their mill. They have had 1,000,000 feet sawed by portable mills. Their operations this season will total about 10,000,000 feet.

Alvin Peter, of Parry Sound, Ont., took out about 15,000,000 feet of logs during the past winter. The Morgan Lumber Company, of Toronto, have secured about 20,000,000 feet of logs, and Eddy Bros. & Company, of Blind River, 25,000,000 feet.

All grades of cooperage stock continue scarce. The American Lumberman says that jobbers sometimes have to refuse the stock owing to it being shipped too green. Basswood heading is a little more plentiful, but is not in much supply. First-class elm flour barrel staves are worth $13.50 at Buffalo; basswood heading, 10 cents; coiled hoops, $10.50.

Under date of March 26th, Messrs. S. P. Musson, Son & Company write of the Barbadoes lumber market as follows: "We have to report the arrival this week of the Schooner Edyth, from Mahone Bay, N. S., with 82,000 feet of spruce, which sold at $21.29 to some dealers who were bare of this lumber and paid this price to secure it; but in our opinion this is a very full figure and can be no criterion for future guidance, as our market is fully stocked with hemlock, which, being cheaper, is being used instead of spruce. White pine is in fair supply, but as stocks are being gradually worked off, we think that a small cargo would bring a fair price. Dimension and Long Cedar shingles are very scarce and the next arrivals will bring good prices. Cedar Laying are held in fair quantity, and we do not value these at over $2.15."

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares,&c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance, "c/o CANADA LUMBERMAN.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

Everything seems to point to a brisk season's cutting in the Ottawa district mills. The owner of a mill situated in the Parry Sound district, at which custom sawing is done, said to-day that he had received orders for sawing that would keep four small mills busy. He also reported an active demand for sawn lumber. With practically all the low grade stuff in second hands, and the high grade stock well spoken for, it is pretty certain that prices will suffer no decline through an overstocking of the market this year.

The Ottawa district lumbermen have heard with pleasure that the threatened labor troubles in New York and district will likely be referred to arbitration. This makes the hopes of an early settlement bright. The lumbermen were fearing a repetition of last year's tie-up in the building trade which dealt a black eye to the lumber business.

So far there have been no changes in lumber prices in the Ottawa district. Lack of business has kept the market stationary, but early changes may be looked for. The lath market, however, is shifty. It has been sagging since the fall, but may recover with the extra demand following the opening of the building season. Ruling prices are: No. 1 white pine, $2.40 to $2.60; No. 2 white pine, $2.00 to $2.25.

The hardwood market in the Ottawa district is very active these days. Since November there has been an advance, according to the different lines, of from ten to fifteen per cent. In the past week there has been an advance of five per cent., which is included in the greater advance referred to. There is a good demand for hardwoods for furniture and interior fittings.

The high price of low grade pine has led to the increased use of poplar in the Ottawa district for box manufacturing purposes. Heretofore the poplar has been used only for pulp manufacturing.

A visitor in the city this week was Peter Dorrley, the veteran timber explorer in the employ of the Rideau Lumber Company. He has travelled the upper country through which the Grand Trunk Pacific is projected. The building of that road, he says, will develop a large timber area in which many mills will be established. Mr. Dorrley is not, however, at all enthusiastic over the supply of white pine in the district. As might be expected for geographical reasons, it does not compare in extent of territory or size of trees with that farther south. However, there is an abundance of spruce suitable for pulp wood. The country is also well stocked with hardwood, birch being found up to a size of twenty inches. Tamarac and balm of Gilead are also in great evidence.

An important sale of limits in the district has just been noted. Mr. Andrew McCormack, the veteran lumberman of Ottawa, has purchased from the Quebec government 130 square miles of limits situated on the Height of Land through which the Grand Trunk Pacific will pass. The limits will likely be held for future sale.

Mr. J. R. Booth, the lumber king, last week celebrated his 77th birthday. Mr. Booth is still in harness, active and aggressive. His latest project is to build a paper mill in connection with his new pulp mill.

CANADIAN LUMBER SHIPMENTS.

From Halifax, N.S.: Steamer Tunisian, for Liverpool, 176,546 ft. spruce deals, value $2,126. Steamer Agnar, for Brow Head, 303,040 ft. birch deals, value $3,110, 787,468 ft. spruce deals, value $7,060, 192,432 ft. scantling, value $1,500.

THOS. B. TAIT, MANAGER

NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN.)

ST. JOHN, N. B., April 5th, 1904.—At present writing the outlook for English deals is ruled by the same uncertainty that has characterized the market for some months past. Although there seems to be an indifference on the part of the larger buyers, the demand is increasing as rapidly as could reasonably be expected considering the lateness of the spring. The manufacturers and dealers in these parts are sanguine of a firmer price and a still greater demand an are betraying no anxiety as to the future. They seem willing to await developments rather than make any further concessions in price. The tardiness of the warm weather will make the sawing season of this year at least a month shorter than usual along the North Shore and the Miramichi River. Along the St. John River, owing to the above condition and also to the inability of the manufacturers to obtain their logs before mid-June, the season will be at least two months shorter than was the case last year.

While it is impossible to make any forecast in regard to price with any certainty of being correct, it is safe to say that an ordinary specification should be worth from $12.50 to $13.00 per M. f.o.b. steamer; two-thirds price for fourths and ends.

Stocks are very low and the lots now going forward will practically clean up everything in sight. These lots are chiefly the remains of last season's output. It is estimated that the total manufacture of deals in New Brunswick will be from 10 to 15 per cent. less than last year. This is figured on the supposition that the steam drivers meet with no difficulty in bringing out their logs, but if, owing to an unfavorable freshet, such an emergency should arise and the logs be hung up to any great extent, thus causing a scarcity, the season's cut will be still further curtailed. As it is at present, it is impossible to say what the prospects are for a good driving season. The rivers are still frozen solid, the snow in the woods is not melting at all, and it will be some weeks before the indications will begin to show themselves.

The Brunette Sawmill Co., of New Westminster, B. C., will supply dimension timbers for repair of locks in the Rideau canal.

The British Columbia Goverment has placed an order with the Brunette Sawmill Company, of New Westminster, B. C., for 150,000 feet of timber for wharf construction.

CANADIAN NORTHERN RAILWAY

The New Canadian Highway from Port Arthur, the head of Lake Superior, to :—

FORT FRANCES MORRIS GLADSTONE
WINNIPEG EMERSON NEEPAWA
PORTAGE LA PRAIRIE CARMAN DAUPHIN
BRANDON HARTNEY SWAN RIVER

Line surveyed and now under construction to : PRINCE ALBERT BATTLEFORD EDMONTON

FREIGHT :—Shipments are handled from points in Eastern Canada either Grand Trunk or Canadian Pacific Railways via North Bay to Port Arthur, thence Canadian Northern Railway, or via Chicago.

PASSENGER :—Passengers destined to points on the Canadian Northern Railway north, south and west of Winnipeg, can purchase through tickets via Chicago and St. Paul, where connection is made with the Canadian Northern Flyer for Winnipeg via Great Northern Railway, also with Northern Pacific Railway.

We own and operate several mills in Washington and British Columbia, being on both sides of the "Imaginary Line" known as the International Line, and it keeps our opponents in the trade guessing how to meet us on account of the good quality of our manufactured stock, which has been so carefully planned that even the selection of our timber lands in years past has something to do with the present.

We find our competing salesmen's story to the customers has now got to be a "song pure and simple," which they have learned from necessity to sing loudly and lustily, and is as follows : **"JUST AS GOOD AS HASTINGS," "JUST AS GOOD AS HASTINGS."**

While we appreciate their holding our goods as models of perfection, which the high standard certainly merits, still looking at the matter from the customer's and the consumer's standpoint we cannot see any advantage to you in buying an imitation when the real article can be had through our representatives, viz :—

James Twitchell, Clinton, Ont., for Ontario, Canada

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO AND MONTREAL, APRIL 20, 1904 No. 12.

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL.

22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

CURRENT TRADE CONDITIONS.

ONTARIO.

The unsettled weather of the past week has tended to hold back orders for lumber, and the volume of business passing between retail dealers and consumers is not large. Buying by wholesalers has been in evidence, however, there being a noticeable disposition to pick up stock at each favorable opportunity. Prices have reached the point where there is very little speculative buying, as it is generally recognized that manufacturers will not endeavor to force prices much higher lest it should have the effect of restricting the consumption. Such buying, therefore, as has taken place has been of a healthy character and by persons who will hold the stock against any temporary depression. A recent transaction was the purchase by White, Gratwick & Mitchell, of Buffalo, and White, Rider & Frost, of Tonawanda, of ten million feet of white pine lumber to be cut at Spanish River this season. Prices are reported to have been very satisfactory to the seller, while the buyers are no doubt satisfied with their bargain.

The sawing season has not yet fully opened up, but a number of mills are in operation. The new cut will not be ready at the earliest before the middle of June, during which time the present light supply of dry stock is certain to be cleaned up. The situation, in our opinion, in respect to both pine and hardwooods, is fairly strong, with little or no probability of a decline in prices in the near future.

QUEBEC AND NEW BRUNSWICK.

Manufacturers who have depended upon the European markets can find little encouragement in the outlook for business. Shippers who have returned from England report that the conditions prevailing on that side of the Atlantic are quite unfavorable. Many who are usually ready buyers of spruce deals are not disposed towards placing contracts at prevailing prices, as they are of the opinion that they will be able to buy to better advantage at a later date. In the meantime the present stock of dry lumber on this side is being worked off, and as the log drives will be later than usual, prices are not likely to decline much below present quotations. There is a good demand for lumber for shipment to New York and the Eastern States, where the supply is lighter than usual. Shingle prices are steady on the basis of $3.35 to $3.40 for extras, Boston delivery. Laths are showing a little more activity. Present prices on Boston rate of freight are $3.30 to $3.35 for 1⅝ inch, and $3.15 to $3.20 for 1½ inch, but it is probable that there will be an advance on these prices in the near future.

UNITED STATES.

The white pine trade of the United is showing increased activity, while the hardwood business is in a flourishing condition. Recent large purchasers of white pine in the Lake Superior district stand as evidence that the large dealers do not anticipate a decline in prices. The Edward Hines Lumber Company, of Chicago, last week closed a contract for the 1904 production of the two mills of the N. Ludington Company at Marinette, Wis., amounting to 45,000,000 feet, which with 5,000,000 previously secured makes the total purchase nearly 50,000,000 feet. The consideration is said to have been almost $1,000,000. Box lumber continues to receive more attention than any other grade. The factories are still in need of stock, notwithstanding that they have been buying heavily all winter. In Buffalo 1x12 box brings $21. Mill culls are so scarce that some dealers have withdrawn their quotations altogether. No. 5 box lumber sells readily at $10, which is an exceptionally high price.

Hardwood sales continue to show an increase and there is a pronounced scarcity of some items. Birch is in very strong demand for furniture making and interior finish. The Wisconsin mills are asking $18 to $19 for mill run, and find no difficulty disposing of their stock, as jobbers are active in picking up dry lumber. While maple lumber is strong, the same cannot be said of flooring. The manufacturers

of this material still complain of low prices, as much as $5 below the list price being quoted in some instances.

GREAT BRITAIN.

The shippers of Norway, Sweden and Russia are closing contracts for lumber for delivery to Great Britain at sharp recessions, and long as there is pressure from this source, no improvement in prices may be expected. This week we are told that a large line of fourth quality 2½ and 3x7-inch redwood battens has been sold to a London importer at £7 10s. f.o.b., which is equivalant to a reduction of tenshillings as compared with recent sales. So little business has been done, and importers show so little disposition to increase their obligations, that it has been absolutely necessary for shippers to reduce their prices in order to effect sales. Importers are still fighting off the high prices asked by Canadian shippers of spruce deals and the lower qualities of pine deals, but so far the sellers have shown no evidence that they will modify their demands. The situation is interesting if not encouraging, and it remains to be seen which side will weaken. The margin of profit to the shipper at the prices asked is not large, and as importers must be carrying light stocks, it would seem that they must of necessity replenish their supply in the near future. A rather encouraging report comes from West Hartlepool, where white pine deals are finding a ready sale and stocks are in a very limited compass.

The London dock stocks on March 31st last showed the following increases as compared with one year ago: White pine deals, 117,917 pieces; pine battens, 92,-143 pieces; pine ends, 45,332 pieces; spruce deals, 44,533 pieces; spruce ends, 63,707 pieces; white pine boards, 57,971 pieces; red pine boards, 67,358 pieces. Red pine shows a decrease of 11,866 pieces of deals, 10,355 pieces of battens, and 1,661 pieces of ends, and spruce boards is in lighter supply by 17,105 pieces.

STOCKS AND PRICES.

At a meeting of the Southwest Miramichi Log Driving Company held last week, it was reported that about 25,000,-000 feet of logs will come out of that river this season.

Mershon, Schuette, Parker & Company, of Saginaw, Mich., last week bought 1,000,000 feet of box lumber in the Lake Superior district, and 1,000,000 feet in Green bay.

Cornelius Hagerman, who conducted lumbering operations last winter at Lepreaux for Gregory and Dunn, of St. John, N. B., has commenced stream driving. He has about 3,000,000 feet to bring out.

A Buffalo dealer quotes the following prices on inch white pine: Uppers, $82; selects, $67 to $72; fine common, $38; No. 1 cuts, $40; No. 2 cuts $25; No. 1 mouldings, $52; 1x12 shelving, $45; 1x12 No. 1 dressing, $38; 1x12 selected shaky dressing, $32; 1x12 No. 1 barn, $32; No. 2 and No. 3 barn, $23.

Gilman Bros. & Burden, of Fredericton, N. B., who carried on lumbering operations on the Oromocto river last winter, commenced stream driving a few days ago. They have 1,000,000 feet of pine logs, which they expect to have in safe waters very soon. They are considering the advisability of manufacturing the lumber at the mouth of the river by a portable mill.

NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN.)

ST. JOHN, N. B., April 16th, 1904.—Cedar shingles: The opening up of trade in this line has been later this spring than for many years. Comparatively few are being shipped, although inquiries are becoming more frequent and the outlook grows more hopeful day by day. The manfacturers are regaining confidence and look forward to a prosperous season. The output for this year promises to be smaller than last year's on account of the protracted cold weather, which will cause a very material shortness of the manufacturing season. The greater part of the output will be Provincial, American logs being scarcer and higher in price. The Provincial cedars are smaller and produce a lower percentage of high grades. There has been practically no change in price and those mentioned last month will still apply.

The quantity of spruce shingles manu factured in these parts is infinitesimal and at present writing none are available.

Spruce clapboards: These are very scarce and will remain so for the next two months. They are worth at present f.o.b. St. John, extras, $41; clears, $39; 2nd clears, $37; No. 1, $30; No. 2, $20. With each succeeding year clapboards are becoming scarcer, owing to the scarcity of logs "sufficiently large to serve for their manufacture. In logs cut in the lower provinces there are practically none that will answer the purpose, while suitable Aroostook and Quebec logs are comparatively few. Stocks of clapboards are extremely low and are practically controlled by one firm, who would probably not sell at any price that would give the buyer an attractive margin.

Laths are decidedly firm and promise to be scarce and high in price during the coming year. It is rumoured that as high a price as $2.55 f.o.b. St. John for American laths has been offered. This cannot be verified, but sales of large quantities have been made during the past month for $2.45. Provincial laths are worth from $2.20 to $2.25. The output this year will be largely provincial. At this season it is usual for many manufacturers to sell their year's output of laths, but this year is remarkable for a tendency to hold on the prospect of a rise in price.

The quantity of laths on the wharves in this vicinity does not exceed 800,000 and it will be mid-June before any large shipment will be ready to go forward. The sales which have been made are principally for summer and early fall delivery.

COAST SHINGLE MILLS CLOSED.

At a meeting of the shingle manufacturers of the state of Washington held at Seattle on April 14th, at which 110 mills were represented, it was decided to close down for two weeks from April 23. The meeting was composed of manufacturers both outside and in the Interstate Red Cedar Shingle Company, about equally divided between the two interests. A committee was appointed to confer with the mills and secure signatures to the agreement to close for the time specified.

BUSINESS NOTES.

Messrs. C. S. Powell & Company, exporters of joinery, Canadian and American hardwoods, etc., have opened an office at 604 Temple Building, Toronto, where they will be pleased to receive a call from any person interested in the export lumber trade.

The Laidlaw Lumber Company, Limited, has been incorporated, with a capital of $300,000 and head office in Toronto, to acquire the lumber business now carried on under the name of R. Laidlaw Lumber Company at Toronto and Sarnia, and that conducted under the name of George H. Belton at London, Ont. The incorporators are: Robert Laidlaw, W. C. Laidlaw and C. G. MacBeth, of Toronto; G. H. Belton, of London; and John McLeod, of Buffalo.

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood orPoplar care to put in several machines to work broom handles we cantake his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

THE GLASGOW MARKET.

Messrs. Edmiston & Mitchells, of Glasgow, report as follows concerning the lumber market :

The usual quarterly statement of the stock of logs and lumber at this date as compared with previous years is attached herewith. In the case of Canadian timber, waney pine is 50 per cent. more than at same date last year, but square pine shows a reduction, as also does elm and ash, while oak is about the same. In lumber, 1st pine deals and sidings show an increase, as also 3rd and 4th pine, but, as will be observed, there is a considerable decrease in spruce. The most striking difference is perhaps shown in the stock of teak, which, though of quite moderate dimensions, considerably exceeds that of last year, the explanation being that then the stock was abnormally low. In the case of the other items enumerated, there is nothing particularly calling for attention, stocks generally being of moderate dimensions. The consumption of logs and lumber has heen of fairly satisfactory dimensions, though under that of the first three months of last year.

Contracting business has so far been disappointing, Quebec shippers having experienced unusual difficulty in inducing buyers to respond to the enhanced prices this year, though this is perhaps not very surprising in view of the fact that the trade outlook by no means warrants too optimistic a view of the future.

Business during the past month has been rather dull on the whole, buying having been pretty much of a retail nature, while the tendency in prices has been easier.

In American hardwoods there has been a fair demand for poplar logs and lumber, but in low-grade stock the import has exceeded the demand, and shippers would act wisely in curtailing shipments of such. Oak boards have been in more active demand, and high grades are scarce.

The shipbuilding returns for March show that 27 vessels of 44,813 tons have been launched, as compared with 12 vessels, aggregating 35,000 tons, in same month last year. It is gratifying to note that new work has been a little more plentiful during the month, although there still remains lots of room for improvement in this direction.

WHITE PINE—Business during the month has been quiet. The import consists of about 130 loads via the United States. Stocks are moving off slowly, one or two small sales being reported, but nothing doing in square timber.

RED PINE—There has been the usual small business and the stock is almost exhausted, there being only about 70 loads in first hands.

OAK—There have been rather more enquiries during the month, but these have been met chiefly from the Southern States wood on account of the cheaper price. Quebec timber is difficult to move, and stocks being heavy, prices are easier.

ELM—There has been a fair demand, especially for large-sized rock elm, and the stock of this class being small, prices have firmed up considerably, 3s. 9d. to 3s. 10d. per cubic foot being asked for 45 feet average cube. Stocks of second-class and soft wood are still heavy and moving off slowly.

QUEBEC BIRCH—There has been no import this month, and the stock on hand (which consists chiefly of Lower Port logs) amounts to about 400 loads. The demand is very limited, and quotations are merely nominal round about 1s. 8d. for 16-inch average up to 2s. for 17½-inch average.

LOWER PORT BIRCH—There is still a quantity of Pictou wood in stock, and it is moving off slowly. Value of 15-inch is about 17d. to 18d. Of planks there are about 600 loads on hand, chiefly poor quality.

ASH—The stock on hand only amounts to about 100 loads, and consists chiefly of inferior logs. It is only at an odd time that there is an enquiry for this wood nowadays, and only then for good quality. Ash lumber has come more into favor of late, and the new shipments which come to hand are mostly disposed of from the ship's side.

The following lumber charters are reported : Barqe Pasia Madre, Musquash, N. B., to Buenos Ayres, lumber, $8 ; Steamer Kronberg, St. John, N. B., to United Kingdom, deals, 34s, if two ports of discharge 36s ; barque Golden Rod, Hantsport, N. S., to Buenos Ayres, lumber, $8.50, if Rosario $9.50 ; barque Sunny South, Annapolis, N. S., to Cuba, lumber, $5 ; steamer Soborg, St. John, N. B., to w. c. England, deals, 40s., May loading.

We own and operate several mills in Washington and British Columbia, being on both sides of the "Imaginary Line" known as the International Line, and it keeps our opponents in the trade guessing how to meet us on account of the good quality of our manufactured stock, which has been so carefully planned that even the selection of our timber lands in years past has something to do with the present.

We find our competing salesmen's story to the customers has now got to be a "song pure and simple," which they have learned from necessity to sing loudly and lustily, and is as follows : **"JUST AS GOOD AS HASTINGS," "JUST AS GOOD AS HASTINGS."**

While we appreciate their holding our goods as models of perfection, which the high standard certainly merits, still looking at the matter from the customer's and the consumer's standpoint we cannot see any advantage to you in buying an imitation when the real article can be had through our representatives, viz :—

James Twitchell, Clinton, Ont., for Ontario, Canada
Samuel Ashfield, Winnipeg, Man., for Manitoba and the North-West Territories

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO AND MONTREAL, APRIL 27, 1904 No. 13.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL.

22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

WANTED

Green Baswood Logs 10 to 30 in. in diameter, with bark on. To be delivered on cars.

HURDMAN & ELMITT,
Ottawa, Ont.

For Sale—Circular Sawmill

WITH DOUBLE EDGER, SLAB SAW AND lath machine. Mill in first class running order; nearly new. Also 1000 acres of timbered land. Mill and timber can be bought together or separately. $2,500 will buy mill and timber. Plenty of timber contributory to the mill to supply it for ten years or more. This is a genuine bargain. The mill and timber is on the Georgian Bay. The lumber can be freighted by scow to Midland, Penetang, Collingwood or Owen Sound for $1.00 per M. ft. Apply to BOX 128 CANADA LUMBERMAN, Toronto, Ont.

1 car 1s and 2s Rock Elm, 1¼, 1½, chiefly 2½, 3".
Reply Box 137, CANADA LUMBERMAN.

TIMBER LIMIT FOR SALE

BERTH NO. 3 SITUATED ON THE SOUTHWEST corner of the township of Creelman, comprising lots number 7, 8, 9, 10, 11 and 12 in the first, second and third concessions; good location, Vermillion river running through centre. For terms and particulars apply to W. RYAN, North Bay.

TIMBER LIMITS WITHDRAWN.

The timber limits offered for sale at the Board of Trade Building, Toronto, on the 20th inst., by Mr. Peter Ryan, were not sold, there being few bids and all of them below the reserved figures.

It will pay saw mill owners and operators who are anxious to utilize to advantage hardwood slabs and edgings, to communicate with Taylor, Scott & Company, Toronto, whose advertisement appears on back page of this paper. They are desirous of purchasing small stock in birch, beech, maple and elm.

CURRENT TRADE CONDITIONS.

ONTARIO.

The volume of lumber transactions is about what might be expected at this season of the year. The quantity of stock in first hands is now so small as to cause the refusal of orders in many instances. Dealers who usually carry large stocks are sold out of box lumber and certain grades of pine for which the demand was exceptionally large even during the winter months. At least two months must elapse before the new stock will be in shipping condition and in the meantime some inconvenience is likely to result to dealers and users of pine lumber owing to short supply. Doubtless substitution will be resorted to when it is expedient to do so. Present indications point to a late starting of the mills in the northern pine districts, as the ice is not yet out of the streams. The drives will also be delayed from this cause.

Hardwoods are holding up in price, the good demand and scarcity of dry stock being the sustaining influences. While the general demand is not heavy, the furniture and implement factories are buying liberally of elm, ash and birch. Urgent demand for immediate shipment indicates that many retail dealers and consumers have light stocks on hand.

The disastrous fire in Toronto on the 21st inst., by which property to the value of $12,000,000 was destroyed, will stimulate building operations in that city. The new buildings will likely be constructed of fire-proof material as far as possible, thus limiting the quantity of lumber which will be required.

QUEBEC AND NEW BRUNSWICK.

Shippers of spruce lumber are not pressing sales but are patiently waiting the course of events in Great Britian in the hope that the lumber market will improve. Those who are in a position to do so will no doubt hold their lumber until late in the season or until next spring, as present prices show little or no profit on shipments. The quantity of last year's production still in first hands is insignificant, and by the time the new stock is ready for the market conditions may be more favorable. At Boston, New York, and all eastern points spruce is in excellent demand. The prospects for log driving are fairly good. There is still plenty of snow in Eastern Quebec and New Brunswick, and the weather continues cold. It is confidently expected that the 40,000,000 feet of logs in the ice above Grand Falls, on the St. John river, will be saved.

The outlook for higher prices for cedar shingles is favorable. The production of the best brands promises to be smaller than last year, which will probably result

in higher prices, when this fact becomes more generally known.

UNITED STATES.

Building operations in the United States are making some headway, work having been resumed in New York. While the demand for lumber for this purpose is not brisk, it shows some improvement over the business of the previous weeks. As the production of white pine lumber is likely to show a pronounced reduction as compared with that of last year, manufacturers are inclined to hold out for very firm prices and consequently no slaughter prices are heard of, as is sometimes the case at this season of the year. Eastern dealers are not carrying heavy stocks and are therefore in a position to take advantage of any slight inducements that are offered by sellers. The statistical position of white pine is so strong that there is not likely to be any pressure of stock, while on the other hand, if the spring and summer trade should consume more lumber than is anticipated, the result will no doubt be an advance in some grades at least. The requirements of the box trade have not yet been satisfied, that grade of lumber being sought for almost as eagerly as at any time this year. The middle grades are perhaps called for to a smaller extent than mill culls, box lumber and uppers.

The percentage of dry hardwood lumber that remains in piles is exceptionally small and the demand is improving. The standard hardwoods, such as maple, ash, elm, and birch, are very firm at the advanced prices recently quoted. Basswood, quartered oak and poplar, while displaying no particular weakness, are not as firm as two weeks ago. Maple flooring continues a weak feature in the market.

GREAT BRITAIN.

It cannot be expected that the British timber trade will throw off its lethargy and become active within a week. The recovery must of necessity be of slow growth. As soon as signs of an improvement are visible, however, there is certain to be considerable contracting for stock for future delivery, as buyers will then appreciate to a greater extent the low prices which are now ruling. Many small dealers have allowed their stocks to become too low and are now showing a disposition to purchase at favorable opportunities. Whether this will prove to be the forerunner of a more liberal demand is a question of much doubt. While prices of Canadian pine continue comparatively firm, it has been impossible to maintain spruce prices. Third quality Quebec spruce, 3x9 inch and 13 feet long, recently sold at a public sale at £8 15s. per standard, whereas for similar goods to arrive £9 2s. 6d. c.i.f. is asked. These figures reflect the difficulty of closing contracts on the basis of shippers' ideas, their quotations being so much lower than the prices asked for lumber in stock. As far as can be ascertained, the more important firms are still abstaining from placing contracts for stock, but it seems extremely doubtful that they will be able to adhere to this position much longer.

Swedish battens have recently declined in price fully 10s. per standard, and it is reported that stock offered at £6 12s. 6d. met with no response from buyers. For square timber there is a fair demand, good stocks of rock elm, for instance, being wanted at 3s. 6d. per cubic foot.

STOCKS AND PRICES.

J. P. Mosher expects to ship 700,000 feet of lumber from St. Martins, N. B., this season.

Of the 500,000,000 feet of logs taken out in the State of Maine during the past winter, it is estimated that half the quantity is destined for the pulp mills.

G. C. Gladman, of Parry Sound, has his drive of logs, consisting of 258,000 pieces, in the Georgian Bay, ready to be towed to his mill as soon as the ice is out.

The Edward Hines Lumber Company last week sold about 16,000,000 feet of lumber to go east after the opening of navigation. This will make about 60,000,000 feet sold by this firm for movement by boat.

The R. Laidlaw Lumber Company expect to handle a large quantity of pine lumber at their Buffalo yard this season. They have taken the adjoining yard lakeward on the Ohio Basin, which will add considerably to their facilities.

A settlement has been reached in the suit affecting the bankrupt sale of logs belonging to J. R. McConnell, which took place at Quebec recently. The workmen get 65 per cent. of their wages, and Laforest, counsel for the lumbermen, gets 10 per cent. on wages collected.

Saginaw River dealers will take in by boat about 125,000,000 feet of lumber this season, mostly from Ontario. Foss & Co. have bought the steamer Ogemaw, of 500,000 feet capacity, and will place her in the lumber trade, the firm handling a large quantity of lumber from Georgian Bay.

Holland, Graves, Mambert & George, of Buffalo, have just purchased from the Edward Hines Lumber Company, of Chicago, the entire season's product to October 1 of what is known as the Bigelow mill at Washburn, Wis. This is the first purchase of pine lumber the Buffalo concern has made on Lake Superior.

The Inglewood Pulp Company, of Musquash, N.B., will have about 10,000,000 feet of logs for sawing this season, the necessity of cutting all logs damaged by fire being responsible for increased operations. There is at Musquash a cargo of deals owned by J. & L. B. Knight, which will be shipped to England early in May. In addition to this cargo a couple of vessels are under charter to load here, one for the United Kingdom, and the other for Buenos Ayres.

Messrs. S. P. Musson, Son & Company submit the following report of the Barbadoes market: "A cargo of 166,000 feet of white pine, from Liverpool, N. S., was placed at $25 for shippers and $20 for second quality, and we think that a similar cargo would bring about same prices from dealers who did not secure this lot. Spruce and hemlock are still in full supply and stocks are not being reduced as quickly as is usual at this season. The "Orinoco" brought down 96,000 Long Gaspe shingles, which were placed at $6.07. This class of shingles along with Dimension are badly wanted and will bring good prices. Cedar Laying, although not scarce, would be saleable at about $2.15, as a lot of 350,000 were imported for a dealer's account at $2.25, being of slightly better quality than usual."

Less than 60,000,000 feet of pine lumber of the present season's cut remains unsold in the Duluth district, as against 400,000,000 feet which was available at the head of the lakes one year ago. The cut of the mills at the western end of Lake Superior in 1903 was 840,000,000 feet as against 420,000,000 feet this year. Two hundred million feet of this latter amount has already been sold and of the remain-

der the Edward Hines Lumber Company will send 40,000,000 feet to its yards in Chicago. It is estimated that fully 120,000,000 feet will be sawed too late in the season to be available as dry lumber, so that the surplus stock at the beginning of this season is the lowest on record.

Messrs. Churchill & Sim, London, Eng., say: "There has been more selling of pine deals in London than for some time past. The specifications have been miscellaneous and the prices on the whole as good as could be expected. The drop is, of course, considerable from the nominal quotations for good regular deals, but compared with other things the level of price continues high, affected doubtless by the manifest impossibility of buying any cheaper ahead. The consumption has, however, not been on a satisfactory scale. Spruce deals and battens have also been freely sold at reductions. The consumption of these has brightened up a little, and the mardet is safeguarded by being very unattractive for further supplies. Oak has been a little more enquired for in a retail way and also white pine timber, but birch, elm and ash have been quite out of favour."

LUMBER PRICES AT LONDON.

The following prices were realized for Canadian deals, etc., at an auction sale held by Churchill & Sim, London, England, on April 13th:

PINE.— Ex. Prome, from Quebec—14-16 ft. 3 x 11 in. 4th quality, £8 5s per standard. Ex. Avona, from Quebec,—9-14 ft. 3 x 11 in. 5th quality, £4 10s.

SPRUCE.—Ex. Atbera, from Saguenay, —9-16 ft. 3 x 11 in. unassorted, £9 7s; 13 ft. 3 x 7, £7 10s. Ex. Drot, from Montreal —9-16 ft. 3 x 11 in. 2nd quality, £8 10s; 10-16 ft. 3 x 7-11, £8 10s; 10-16 ft. 3 x 7-11 in. 3rd quality, £8. Ex. King David, from Montreal —6-12 ft. 3 x 11 in. 2nd quality, £8; 12-13 ft. 3 x 10-13, £8 10s; 6-12 ft. 3 x 11 in. 3rd quality, £8; 12-16 ft. 3 x 8, £7 15s; 12-13 ft. 3 x 7, £7 5s; 12-13 ft. 3 x 10-14, £8 5s; 12-13 ft. 3 x 7-8, £7 10s. Ex. Milwaukee, for Quebec— 14-16 ft. 3 x 9 in. 2nd quality, £8 15s. Ex. Lake Michigan, from Quebec —13 ft. 3 x 9 in. 3rd quality, £8 15s and £9. Ex. Durham, from Montreal—11 ft. 3 x 9 in. 2nd quality, £8 5s. Ex. Nyanga, from Quebec —12-17 ft. 3 x 8 in. 4th quality, £8. Ex. Hedwig, from Miramichi —17-21 ft. 3 x 7 in. unassorted, £7. 10s.

CANADIAN LUMBER SHIPMENTS.

From Halifax, N.S.: Steamer Florence, for London, 655 pieces hemlock sleepers, value $220, 10,815 ft. hemlock deals, value $91. Barque Nora Wiggins, for Buenos Ayres, 484,803 ft. spruce lumber, value $5,486.

From St. John, N.B.: Schooner Eric, for City Island, 171,607 ft. deals. Schooner E. H. Foster, for Boston, 105,901 ft. boards, 14,060 ft. deals. Steamer Bavarian, for Liverpool, 1,044,535 ft. deals, 139,518 ft. scantling, 47,463 ft. ends, 48,895 ft. boards, 129 tons timber, 8,910 ft. birch squares, 312 pieces maple lumber, 2,750 bundles maple flooring. Schooner Fanny, for Hingman, 15,052 ft. plank, 49,593 ft. scantling, 513,000 cedar shingles. Steamer Wyandotte, for Cape Town, South Africa, 100 crates shingles.

HOO-HOO CONCATENATION AT CHATHAM

Mr. Walter C. Laidlaw, Vicegerent Snark for Eastern Canada, has made arrangements to hold a Hoo-Hoo Concatenation at Chatham, Ont., on the evening of Friday, April 29th. Mr. Charles Hedley is chairman of the local committee. A large contingent from Toronto will go west to participate in the proceedings, and as the hospitality of the "Maple City" is well-known, an enjoyable time may be expected.

THE WHITE PINE TRADE.

A good share of the pine trade being received by wholesalers indicates that dealers are only sending in for stock to fill orders secured from their customers. For the last two years the retail lumbermen have been letting their stocks run down and to-day there is less lumber piled in their yards than at any time during the last ten years. The fact is generally admitted that if all the retail lumbermen in the northwest would put in a stock equal to the amount they carried two years ago, says the Mississippi Valley Lumberman, there would not be sufficient left in the wholesale market to take care of the local retail trade. While all the wholesale companies are desirous of increasing their business none of them seem disposed to make any undue concessions in order to stimulate trade. An air of confident security seems to pervade this branch of the lumber industry. Even those with comparatively large stocks apparently feel no uneasiness as to their ability to market it all at present values. They insist that stocks are light and no more than sufficient to take care of trade certain to develop in the next few months. The amount to be manufactured this coming year is going to be very much less than any former season, which still further convinces them of the advisability of holding on to what stock they have on hand. The majority of manufacturers are in easy circumstances financially and others have no difficulty in getting what accommodation they need.

So far the low price made on yellow pine has not materially affected either the sale or value of dimension, although it may do so later. The demand is principally for No. 1, 2 and 3 boards and their products. Few wholesalers have any considerable amount of No. 4 and 5 boards on hand and No. 3 is not plentiful. Some buyers are negotiating with the mills with a view to contracting for a supply of low grade boards to be sawn and delivered later. The high price demanded by the mill men has resulted in few sales being made. There is considerable demand for odd sizes in timber for immediate delivery. There is comparatively little long timber on the market and as the mills have not generally resumed sawing, this class of stock is difficult to secure. The urgent demand for immediate shipment specified in some of the orders being received is quite encouraging. Occasionally some dealer will send in orders of this character without first getting quotations and asking to be given a fair chance price, but to be sure to hurry the lumber along. When such orders include one hundred pieces of No. 2, 6 and 8 inch drop siding, it illustrates very fully the depleted condition of the retail stocks. Usually dealers order straight cars of this class of material.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares, &c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)

VANCOUVER, April 13th, 1904.—Lumbermen are joyous this week, as the most glorious of summer weather has burst upon the coast, and operations in the woods will soon be begun. Winter has hung on long, in fact so much so in the interior that it is believed there will be a shortage in the supply of lumber required for use in the Territories and Manitoba. In Fernie and other of the towns on the eastern boundary the frost is still delaying things, and a number of the mills have not yet started. At present there is only about 10,000,000 feet of lumber cut in the whole of the interior, but when spring operations begin, things should be active. The Fernie Lumber Company and the Crow's Nest Pass lumber Company each has 6,000,000 feet of logs ready, and there are 29 or 30 miles in the Kootenays, some of them of large capacity.

Conditions are firm this week, prices remaining the same as two weeks ago, with all kinds of building materials in good demand.

Although an announcement was made by the C. P. R. that a reduction in the freight rate on lumber to the Territories was to be put into effect, it was somewhat misleading. Hitherto the shipments from the coast were subject to a tariff of 40 cents per hundred pounds upon fir lumber, and upon cedar and other lumber 50 cents per 100 pounds. The tariff has now been changed upon cedar and other lumber to 40 cents per 100 pounds upon dimension and the lower grades up to that of ship-lap, being the same rate as that of fir, but upon grades of cedar and other lumber better than the ship-lap grade the former rate of 50 cents per 100 pounds continues in force. The coast manufacturers and those in the Kootenay are coming into competition, for the reduction in prices announced by the mill men on the coast is on ship-lap and the common grades of lumber, which will compete with the white pine and spruce lumber sawn in the interior. The Mountain manufacturers were offered a reduction of two cents per 100 pounds between Swift Current and Broadview, if they would reduce the price of lumber $1 per thousand feet to all customers east of McLeod. The proposal was declined by the lumbermen, who agreed to reduce the price as requested if the C. P. R. would reduce its rates two cents over the whole of the territory east of McLeod. There the matter stands at present.

It is reported that Loveland & Stone, of Cutler, Ont., have sold the entire output of their mill for the coming season, which is estimated at 30,000,000 feet.

THE HASTINGS SHINGLE MANUFACTURING CO., LIMITED

Head Office, Vancouver, B.C.

SPECIALTIES

Red Cedar Bevel Siding, Plain and Fancy Butts in 16 in. and 18 in. Dimension Shingles, also the famous XXX and XXXX Brands, all Choice Stock.

We own and operate several mills in Washington and British Columbia, being on both sides of the "Imaginary Line" known as the International Line, and it keeps our opponents in the trade guessing how to meet us on account of the good quality of our manufactured stock, which has been so carefully planned that even the selection of our timber lands in years past has something to do with the present.

We find our competing salesmen's story to the customers has now got to be a "song pure and simple," which they have learned from necessity to sing loudly and lustily, and is as follows: **"JUST AS GOOD AS HASTINGS." "JUST AS GOOD AS HASTINGS."**

While we appreciate their holding our goods as models of perfection, which the high standard certainly merits, still looking at the matter from the customer's and the consumer's standpoint we cannot see any advantage to you in buying an imitation when the real article can be had through our representatives, viz :—

James Twitchell, Clinton, Ont., for Ontario, Canada
Samuel Ashfield, Winnipeg, Man., for Manitoba and the North-West Territories
Smith, Duplain & Crumb Co., Rockford, Ill., for Illinois, Indiana, Ohio and Wisconsin
D. D. Babbitt, Clinton, Iowa, for Minnesota and Iowa, North of the C. & N.W. Ry.
John A. Uhler, Burlington, Iowa, for Iowa, South of the C. & N.W. Ry.
C. S. Riley & Co., Philadelphia, Pa., for Pennsylvania
F. R. Stevens, 18 Broadway, New York City, for New York and New Jersey
United Lumber Co., Springfield, Mass., for Maine, New Hampshire, Vermont, Massachusetts, R.I. and Connecticut
Shepard, Farmer & Co., Boston, Mass., for Maine, New Hampshire, Vermont, Massachusetts and R.I.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO AND MONTREAL, MAY 4, 1904 No. 14

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL.

22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

CURRENT TRADE CONDITIONS.

ONTARIO.

The better weather over the entire province has been of material benefit in all lines of business and in lumber in particular. The opening of navigation has facilitated the movement of stock; there has been resumption of work at the mills, and altogether greater activity is displayed. The rebuilding of the burned district in Toronto is under way, and this, with the increasing demand for houses and store property, promises to result in heavy building operations and a large consumption of lumber. The railways have been unable to move but a small portion of the sold lumber at the mills, and last week were compelled to refuse to accept lumber shipments owing to the great danger to the culverts and embankments caused by the spring freshets. While there is nothing approaching a lumber famine in Toronto, the supply is comparatively light and prices are held very firmly. The principal demand appears to be for cheap building lumber, as these grades in shipping condition have passed almost entirely out of first hands. Speaking provincially, the market is no more than holding its own. Buyers are waiting in the hope that manufacturers' prices may decline. In some quarters reports of a break in values are quite common, but investigation would indicate that such reports have emanated from sources where the wish has been father of the thought. The lists of the large mill men show absolutely no decline, nor are they willing to give

concessions of consequence to effect sales. It is our opinion that there will be no significant drop in white pine prices this summer.

Hardwoods are experiencing a good factory demand, in which birch is the leader. Soft elm also sells readily. There has been liberal buying of hemlock lumber on the basis of $12 to $12.50 at the mills.

QUEBEC AND NEW BRUNSWICK.

The spruce situation is not entirely void of hope. Manufacturers are receiving an increasing number of enquiries for stock for shipment to the Eastern States, where the supply of dry spruce lumber is scarcely equal to the demand. While there is no improvement in British business, the loss in this trade will be offset in part by larger shipments to the Eastern States, if events bear out the present outlook. The leading market feature this week is the decline in lath prices in New York, to which point large consignments have recently been made. The decline ranges from twenty-five to fifty cents and has caused a very irregular market. American laths are quoted at St. John at $2.05 to $2.10, and provincial laths at $1.80 to $1.85. A recovery from these prices will no doubt occur in the near future, as the lath market in general is firm. Cedar shingles are showing a little more strength but prices are not quotably higher. For Boston delivery best grade New Brunswick cedars bring from $3.30 to $3.40.

The outlook for stream driving operations in New Brunswick has materially improved. The ice is now out of the St. John river and the work of driving is to be commenced this week. The river has risen quickly during the past few days, and with the large quantity of snow which still lies in the upper woods there is likely to be a sufficient depth of water for driving for some time to come. From present appearances the 40,000,000 feet of last year's logs will reach the mills safely and conditions are favorable for getting out the new cut also.

MANITOBA AND BRITISH COLUMBIA.

From the standpoint of demand and consumption, the lumber market of the North-West is in a healthy condition. Building permits to the value of over $2,000,000 have already been taken out in Winnipeg this year, and in the leading British Columbia cities and towns active building operations are in progress. It is estimated that between one hundred and two hundred residences will be built in Vancouver before the rainy season sets in next fall. The lumber dealers in Manitoba and the Territories are making preparations for a large trade, the mills having received an unusual number of orders within the past fortnight. Great difficulty is being experienced, however, in filling orders owing to the shortage of freight cars. This is no doubt due in part to the recent tie-up of traffic by the slides in the mountains. Many of the orders, also, are going to the mills across the border, and the importation from that field promises to be very heavy this year, to the detriment of the business of the Canadian manufacturers. The British Columbia mills are now unable to ship lumber into Washington, the collectors of customs having added to the import duty on lumber the amount of the alleged export tax imposed by the British Columbia Government on timber, making the duty on some grades of lumber as high as $7.50 per thousand feet. The British Columbia lumbermen have again requested the Dominion Government to take steps to remedy the unfair conditions which now exist, as a result of which many mills are considering the question of closing down. That such conditions should exist in the face of an active lumber demand calls for immediate action on the part of the Dominion Government.

UNITED STATES.

There has not been the increased activity in lumber which was expected upon the advent of spring weather. The demand is rather spasmodic and some dealers are quite apathetic. The result is that a few holders of stock are exhibiting some anxiety to realize, causing indications of weakness in certain districts. Concessions granted have been confined to narrow limits, and in white pine to the higher grades. Coarse lumber is about one dollar higher than last year, this being the result of the abnormal demand for box-making purposes. The building requirement has not yet presented itself in full measure, but there will no doubt be a heavy demand from this source during the next few weeks, as the outlook for building is considered good. The feeling at Buffalo and Tonawanda is moderately hopeful. The opening of navigation is welcome, as nearly all the box and low grade pine is in the hands of the box-makers. Our list this week shows a slight advance in the price of pine box.

The hardwoods are holding their own. Birch is a leader in point of demand and the supply is comparatively light, while basswood and maple, which are inquired for quite liberally, are in more plentiful supply, and an occasional report is heard that prices are a little less firm. Thick stock is difficult to find in any quantity.

Shingles are still dull and prices show no tendency to improvement. The same may be said of laths, although white pine laths are considered good property.

GREAT BRITAIN.

The tone of the British lumber market is slightly improved, the recent failures having lost their effect to some extent. Better weather has stimulated building operations and there seems to be less apprehension of a further decline in prices. Contracts for c. i. f. delivery cannot yet be closed on basis of shippers' ideas, but the seller and buyer appear to be getting a little closer together. Spot prices are holding up well, as merchants are beginning to realize that the difference between the price of lumber on hand and that asked for delivery this year does not warrant them in sacrificing their stock. The course of prices, however, largely depends upon the question of demand, and should a steady improvement take place during the next few weeks, the pessimistic feeling which has been so prevalent would soon pass away.

At a recent public sale in London 3 x 11 inch spruce deals brought £8 15s. to £9 for second quality and £8 for thirds. First quality Quebec pine deals also sold somewhat low, but the lumber was scarcely up to grade.

BROOM HANDLES

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar care to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

STOCKS AND PRICES.

The Rathbun Company's drive on Nogey's Creek, consisting of 150,000 pieces, has started from Swamp Lake, Galway.

McKee Bros., of Paisley, Ont., have over 600,000 feet of logs at their mill for sawing this season, consisting of hardwood, cedar, hemlock and pine.

The Spanish River Lumber Company took out about 16,000,000 feet of logs last winter, which will be manufactured at Spanish River by the Huron Lumber Company.

It is estimated that about 10,000,000 feet of bank logs will arrive at Springhill, N. B., this season. The price of round logs is $11 to $11.50, compared with $13 one year ago.

The City Council of St. John, N.B., last week awarded contracts for supply of spruce and hemlock deals and planks and spruce paving blocks. Spruce deals and hemlock plank will be supplied by J. M. Driscoll, at $11.95 and $9.90 per thousand feet respectively. Hilyard Bros. will supply the hemlock deals at $10.50. Paving blocks will be obtained from C. T. White at 45 cents per yard, and T. E. Sayre at 50 cents per yard.

Messrs. A. F. & D. Mackay, of Liverpool, England, recently sold at auction 230 logs of fresh birch timber, which realized an average of 1s. 6d. per cubic foot; 18 inch and upwards brought 1s. 9½d; 17½ in., 1s. 7d; 17 in., 1s. 6¾d; 16½ in., 1s. 6½d; 16 in., 1s. 6¼d; 15½ in., 1s. 5½d; 15 in., 1s. 5d; 14½ in., 1s. 4½d; 14 in. and under, 1s. 3½d. A second parcel, consisting of 120 logs of bright floated birch timber from St. John, brought the following prices: 19½ in. and upwards, 1s. 11½d; 18 and 18½ in., 1s. 8½d; 17½ in., 1s. 7d; 17 in. 1s. 7d; 16½ n., 1s. 6½d; 16 in., 1s. 6¼d; 15½ in., 1s. 5½d; 15 in., 1s. 5¼d; 14 in., 1s. 4½d. A small quantity of maple, ash, and elm timber sold at 1s. 2d.

NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN.)

ST. JOHN, N. B., April 28th, 1904.—During the last few days the New York market for laths has taken a decided slump. This was very unexpected and was caused by heavy arrivals of Maine laths during the last ten days, probably from twelve to fifteen millions having been received. American laths are worth today, f.o.b. St. John, from $2.05 to $2.10, and Provincial from $1.80 to $1.85 per M.

The dealers in this vicinity seem to feel that the depression in laths will be only temporary and that the situation will improve rapidly as soon as some of the surplus has been worked off, but at any rate the market is very unsettled and it is impossible to make a forecast with any certainly of being correct.

The Fredericton Boom Company, of Fredericton, N. B., succeeded in placing the last of their booms in position on Monday last. About 2,500,000 feet of spruce and cedar logs had run past before this operation was completed. Several tugs, together with strings of booms and large crews of men, have been waiting at Gagetown in charge of Mr. Fred Myles in anticipation of this emergency, and they have already succeeded in securing all the logs that came. The manufacturers expected at least five millions and possibly ten, and are accordingly greatly elated because of the favourable way in which the thing has turned out.

Messrs. Donald Fraser & Sons, lumber manufacturers, are moving their head office from Fredericton to St. John, where they will occupy a handsome suite in the Canada Life Building, Prince William St.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)

VANCOUVER, B.C., April 27, 1904.—Commercial conditions in connection with the lumber industry in British Columbia are not very encouraging at the present time. Prices are fluctuating, tending to a lowering if anything, and the demoralization of the market in the Northwest Territorities and Manitoba is working great injury to the mills. Mr. C. M. Beecher, vice-president of the Hasting mill, known as the B.C. Mills, Timber & Trading Company, has announced that that large establishment will close down. Export trade has fallen off to some extent, and this has been one of the chief factors in the business of this mill since its beginning. This combined with the ruination of the Northwest market has completed matters, and unless conditions materially change other mills are operating for a shut-down. Logs are plentiful, and as soon as the Pacific Coast Lumber Company cuts its supply, it too will close for an indefinite period. Mr. J. G. Scott, the manager, fixes the date about September 1st.

The mills in Washington state have tremendously overcut, and some of the shingle mills there have already been closed down. The lumber manufacturers have issued circulars to those engaged in the trade here, asking them to close down until the present supply is got rid of, or say one day per week to curtail production. It is on account of the great quantity on hand in Washington that British Columbia lumbermen are suffering. The banks in that state force the mills to pay up, and as a result they have to sacrifice their cut. To save their own market they ship at cut prices to the Canadian Northwest, and the market there is flooded with rough lumber to the great detriment of the trade of this province. The Government so far has refused the duty asked for, thinking it in the interests of the settlers that this should continue, but it only means a convenience to the American producer who is amply protected in his own country, and a forcing of inactivity upon the British Columbia mills, which may perhaps result in failure to a large number unless relief comes soon.

CANADIAN LUMBER SHIPMENTS.

From Halifax, N.S.: Steamer Pretorian, for Liverpool, 153,724 ft. hemlock deals, value $1,740; 64,058 ft. birch deals, value $657; 1,712,309 ft. spruce deals, value $19,674. Steamer Manchester Trader, for Manchester, 142,276 ft. hemlock deals, value $1,269; 317,819 ft. spruce deals, value $3,884.

TIMBER LIMIT TRANSACTIONS.

R. McGregor, of New Glasgow, N. S., has purchased the timber limits and mill property of the late C. W. Lantz at Milford, N.S. The purchase price was $29,500.

James A. Moore, of the Moore Investment Company, Seattle, Wash., is negotiating for the purchase of 100,000 acres of timber lands on Vancouver Island, B. C., belonging to the Esquimalt and Nanaimo Railway Company.

The Seattle Cedar Lumbering Company, said to be the wealthiest lumber company in the world, has purchased what are known as Stinson's limits, in the Ucluelet district of British Columbia, and also acquired a large block of timber licenses in Clayuquot district, in all about 60,000 acres. The company now has surveyors in the field blocking out its limits, a work which will take four or five months to complete, and it is reported to be the intention to build mills at suitable points and begin the manufacture of lumber for export. Lumbermen look upon this transaction as of the greatest interest and importance from the fact that it secures to one firm a very considerable portion of the merchantable cedar on Vancouver Island.

We own and operate several mills in Washington and British Columbia, being on both sides of the "Imaginary Line" known as the International Line, and it keeps our opponents in the trade guessing how to meet us on account of the good quality of our manufactured stock, which has been so carefully planned that even the selection of our timber lands in years past has something to do with the present.

We find our competing salesmen's story to the customers has now got to be a "song pure and simple," which they have learned from necessity to sing loudly and lustily, and is as follows: **"JUST AS GOOD AS HASTINGS," "JUST AS GOOD AS HASTINGS."**

While we appreciate their holding our goods as models of perfection, which the high standard certainly merits, still looking at the matter from the customer's and the consumer's standpoint we cannot see any advantage to you in buying an imitation when the real article can be had through our representatives, viz:—

James Tw tchell, Clinton, Ont., for Ontario, Canada
Samuel Ashfield, Winnipeg, Man., for Manitoba and the North-West Territories

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO AND MONTREAL, MAY 11, 1904 No. 15.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING, MONTREAL.

22 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman — A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

THE UNDERSIGNED HAS FOR SALE four thousand Telephone Poles, in all lengths, from 25 to 60 feet. Prices quoted by mail or wire for any number. Apply CHARLES DESMARAIS, Box 284, Hull, Quebec. Telephone 2177.

CURRENT TRADE CONDITIONS.

ONTARIO.

The improvement in the lumber trade has been quite marked during the past week, for which the fine weather is largely responsible. The local demand for material for building purposes has quickened, but the railroads are bringing in the lumber very slowly. There is very little dry stock at the mills, while the lower grades are particularly scarce and command high prices. Several transactions have taken place in mill culls at $11.50 f.o.b. cars at the mill, which is about $1 higher than a year ago. What is known as scoots are selling at $7.50. The higher grades, however, do not show corresponding strength, as has been the

rule for some time past. The log drives are as yet in an uncertain position, and should any number of them be tied up sharp advance in white pine lumber would be the result. There has been liberal buying by United States firms, it being estimated that over 100,000,000 feet of this season's cut has been taken for shipment to Saginaw and Bay City. There is considerable activity in hardwoods. Dealers are open for stocks and manufacturers are anxious to clean up their yards, if possible, before getting into the new cut. This accounts for some irregularity in quotations. The shingle market is uncertain. Manufacturers of white pine shingles have not lowered their prices but competition from the British Columbia product is being felt quite keenly. Present prices of B. C. shingles for Ontario delivery are: XXX, $2.95; XXXX, $3.15; XXXXX, $3.50.

QUEBEC AND NEW BRUNSWICK.

The prospects for a fair demand for lumber for local consumption are quite favorable. Buying is proceeding with some activity and prices are ruling firm. Common lumber leads both in demand and price, quotations being slightly in advance of those ruling last fall. This is not the case with the higher grades of lumber, which have been affected by the falling off in the export business. In Montreal some anxiety is displayed on account of the attitude taken by some of the trade unions in demanding an unreasonable scale of wages for the coming season. A few minor strikes have already taken place, but it is hoped that a satisfactory settlement in all instances may be reached at an early date so that building operations may not be seriously interfered with. Local trade in New Brunswick and Nova Scotia has improved during the past week, but the lumber market as a whole is unsettled. Merchantable spruce logs have sold at Fredericton within the last few days at $9.25 per thousand feet. This is a decline of $1.50 as compared with one year ago, and reflects the depression which prevails in the British trade. The shingle market is firm, with New Brunswick extra cedars offered at $3.45 for Boston delivery.

UNITED STATES.

Fine weather has had its effect and imparted a more buoyant tone to the lumber market. Retail dealers are placing orders quite liberally and are accepting quotations much more promptly than earlier in the season. An inclination is shown to put stocks in shape to handle the spring and summer trade, which is expected to be of normal proportions. The quantity of unsold stock at the mills is now very light and dealers are finding some difficulty in locating certain grades. There will be a plentiful supply as soon as the new cut is in shipping condition, but the fact that much of the early output of the mills has been contracted for gives a very firm tone to such grades as are in light supply. In the coarse grades of pine the box requirement has absorbed everything available, while Norway piece stuff has been benefitted by the resumption of building operations on a large scale. There will be a heavy movement of lumber from the Lake Superior district to the wholesale distributing centres in the east, but as retail dealers are practically bare of stock no abnormal accumulation is likely to result. Among the hardwoods, basswood is showing a little weakness, but not sufficient to cause any anxiety, as the present condition of supply and demand will prevent more than temporary depression. Birch still sells readily, and the demand for lath is picking up.

GREAT BRITIAN.

The slight improvement in the British lumber trade continues. The most favorable development of the past week has been an increased consumption. The deliveries from the docks have been quite large and the demand decidedly better than it has been for some time past. There has not been much improvement in prices, however, although the results of recent sales indicate a hardening tendency for some lines. The recent drop in prices made by Swedish shippers has encouraged buyers to place contracts, although a few are still holding off in the hope of buying at rock bottom. Nevertheless, a large quantity of stock has been placed during the past fortnight, and there is no doubt that the feeling in regard to the future is more hopeful. As for Canadian lumber the better qualities of pine deals are meeting with some demand and pine stock boards and sidings are enquired for frequently. There is also some enquiry for Quebec spruce deals, but buyers are still fighting the prices asked by shippers, which are about £9 per standard for thirds.

Canadian lumber has figured prominently in recent public sales. Messrs. H. & G. Curven, of Preston and Fleetwood, sold a quantity of Quebec pine sidings, said to contain 80 per cent. of first quality, at from £20 10s to £24 10s per standard, and a lot of strictly first quality at £27 to £28. These prices are low as compared with what is asked for this season's deliveries. At Messrs. Farnworth and Jardine's sale at Liverpool, second quality pine deals, 3 x 11 inch, brought £16 and third quality £12 5s. Red pine deals sold at £10 10s. Pine scantlings, 3 x 5 and 6 inch, third quality, brought from £9 to £9 12s. 6d.

STOCKS AND PRICES.

The steamer Ovidia is loading a cargo of 1,600 standards of deals at West Bay, N.S., for West Hartlepool.

Knight Bros., of Burks Falls, Ont., purchased at auction the Brodhagen Lumber Company's logs on Horn Lake for $4,100. John Bennewis, of Mitchell, bought the timber on the Reasin Lake property.

Two camps operating on Brule Lake for A. Barnet, of Renfrew, Ont., took out 5,000,000 feet of white pine and hardwood logs during the past winter. It is estimated that there is 20,000,000 feet of birch on Mr. Barnet's limit.

The following comparison of lumber prices at Buffalo is interesting:

	1900.	1904.
1-inch Uppers	$53	$80
1¼, 1½ and 2-inch Uppers	60	80
2½ and 3-inch Uppers	78	81
1-inch Selects	44	72
1¼, 1½, 2-inch Selects	55	72
2½ and 3-inch Selects	62	75
1-inch F. Com	40	60
1¼, 1½ and 2-inch Com	44	62
1-inch No. 1 Cuts	34	55
1¼, 1½ and 2-inch Cuts	42	55

Under date of April 23rd Messrs. S. P. Musson, Son & Company say of the Barbadoes market: "Our market still remains well supplied with all descriptions of lumber, as stocks have not been worked off as rapidly as usual at this time of the year. We think that a small cargo of white pine would bring $25 for shippers and $20 for second quality, while we cannot value spruce at over $20. Hemlock is probably worth about $17. Dimension and Gaspe shingles are very scarce and next arrivals will bring about last prices. Cedar Laying, which a short time ago were in full supply, are being gradually worked off, and we value next arrival, if not excessive, at $2.15."

RESULTS ARE SURE.

Mr. W B. Bartram, lumber dealer, of Ottawa, writes: "I am pleased with the prompt way you forward the many replies to my advertisements. I invariably get satisfactory results."

LUMBER FREIGHT RATES.

The following is a new schedule of lumber freights to govern during the present season in the transportation of lumber from northern points via canal and Hudson River to New York. This new schedule shows a considerable increase in freights over those in vogue in past years.

The old rate was $2.50 "alongside" on pine and spruce from the Ottawa district to New York, irrespective of dimensions, with twenty-five cents additional for discharging at New York, while the new schedule, it will be noted, is arranged on a sliding scale governing the various sizes and kinds of stock shipped.

Another important feature is that of demurrage. Under the old arrangements consignees had the benefit of four lay days and the reporting day, with demurrage at one per cent of the gross freight for each day thereafter, which in a majority of cases usually did not exceed $3 per day per boat.

The combination rail and water rate from Ottawa to New York via Williams Line from Albany is $3 for general lumber, with twenty-five cents extra for shorts and forty cents per thousand for stock less than one inch.

INLAND SEAMEN'S UNION FREIGHT RATES.

LUMBER FREIGHTS.—Ottawa River to New York.

On stocks and sidings 12 x 16 feet 8 inches and up and 1 inch and up, $2.50 alongside New York.

On strips 12 x 16 feet 4 and 7 inches wide and 1 inch and up, $2.60 alongside New York.

On short stocks and sidings 6 x 11 feet 6 inches and up and 1 inch and up, $2.00 alongside New York.

On short strips 6 x 11 feet and 4 x 7 inches and 1 inch and up, $2.75 alongside New York.

5 feet and under all widths 1 inch and up thick, $3 alongside New York.

Under 1 inch thick, all widths, 6 feet and up, $3 alongs de New York.

SPRUCE.

All sizes 6 x 16 feet long, 4 inches and up wide by 1 inch and up, $2.75 dry.

Sizes 6x16 feet long, 4 inches and up wide by 1 inch and up, $3 green.

ASH.

All sizes 6 x 16 feet x 4 inches and up x 1 inch and up, $3.50.

Montreal to New York, lumber, $2 per 1,000 feet alongside.

Montreal to New York, tankage, $2 net ton alongside.

Montreal to New York, bonechar, $1.75 net ton alonside and top wharfage.

Charlemagne to New York and other immediate points, lumber, $2.25 per 1,000 feet and extra towing.

Charlemagne to Lake Champlain ports, $1.50 per 1,000 feet and extra towing.

St. Johns to New York, lumber, stocks and joist, $1.50 alongside.

St. Johns to New York, 2 x 2, $1.75.

Rates to prevail at immediate points between Quebec and Three Rivers, Port Neff, and Moose River, except captain to be at liberty to make his own rates for the two above-named ports.

Quebec to New York, lumber, $2.50 per 1,000 feet alongside.

Quebec to Burlington, $1.50 per 1,000 feet alongside.

Quebec to Whitehall, $1.50 per 1,000 feet alongside.

Quebec to other Lake Champlain ports, $1.50 per 1,000 feet alongside.

Quebec to Albany, $2.25 per 1,000 feet alongside.

TIES.

Quebec to Albany, $1.25 per load clear.

Quebec to Lake Champlain ports, including Whitehall, $1.00 per load clear.

Lumber Freights between Three Rivers and intermediate points to Sorel same rates as Three Rivers.

Three Rivers to New York, spruce lumber, $2.25 per 1,000 feet alongside.

Three Rivers to New York, spruce lath, 45c. per 1,000 feet alongside.

Louisville to New York, spruce lumber, $2.25 per 1,000 feet alongside.

Louisville to New York, spruce lath, 45c. per 1,000 feet alongside.

Nicolet to New York, spruce lath 45c. per 1,000 feet alongside.

Nicolet to New York, lumber $2.25 per 1,000 feet alongside.

Nicolet to Albany, spruce lumber, $2.00 per 1,000 feet alongside.

INTERMEDIATE POINTS PRO RATA.

Burlington to New York, lumber, pine, $1.50 per 1,000 feet alongside.

Burlington to Albany, lumber, pine, $1.25 per 1,000 feet alongside.

DEMURRAGE.

Demurrage after three days and reporting $5 per day, consignee to settle with captain, if on refusal, demurrage to be collected by the union. All cargoes alongside, except those specified to be free on and off. Union labor to be employed on union boats, loading at the port of Quebec, P. Q. Directors reserve the right to revise the rates after November 1, 1904.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN.)

OTTAWA, May 2, 1904.—After many days waiting, word was received in the city to-day that the ice had left the lakes on the upper Ottawa and the creeks tributary thereto, and that log driving had commenced. This applies alike to the Dumoine, Kippewa, Petewawa and other lumber districts. The log drivers in many instances have been on the scene for a fortnight waiting to dig in. While there was some fear that the water would run off before the ice left, and thus make the creeks low for driving, such, fortunately, has turned out not to be the case. High water is reported and the prospects are good for satisfactory movement of logs. This is all the more desirable from the fact that the start of the work is a late one.

All the mills in the Ottawa district are cutting. The Hawkesbury Lumber Combany was the first to start, followed by J. R. Booth, Sheppard & Morse, and W. C. Edwards Company, Ottawa, Gilmour & Hughson, Hull, Fraser & Company, Deschenes, and Ritchie Bros., Aylmer. There is a good supply of logs to keep the saws busy until the spring drives arrive.

From present indications there promises to be an exceptionally good demand for Ottawa district lumber this season, and the saws will have their troubles keeping up with the requirements. True the English market is dull, but then the spruce that would be cut for that destination will go to the States. As a matter of fact the movement of spruce across the border promises to be a brisk one. A local firm that contracted heavily for spruce along the lower St. Lawrence for the English market, has on account of the dullness therein placed its stock with American buyers.

As far as pine is concerned, the manufacturers continue to hold the trump card and dealers are obliged to pay stiff prices. If they hesitate the other fellow gets it. A Georgian Bay operator noted for conservative views said in Ottawa a few days ago that the log cut last winter was fully 25 per cent. short and the cost of production 30 per cent. higher on account of the deep snow and scarcity of labor. He did not think the district could fill all the demands made on it by the States and Western Canada, and greater attention would be paid the Ottawa district.

A Buffalo dealer was here looking for low grade lumber last week and enquiries have been made for stuff for western railway building. However, it's hard to see where the Ottawa district mills can meet all the demands. The consumption of lumber in and about Montreal alone promises to be much bigger than usual.

Hardwoods are reported firm and advancing. Since November there has been an advance in some lines of fifteen per cent. The high price and scarcity of pine has turned attention in the Ottawa district to cheaper substitutes. Poplar is now being used extensively for box making.

All the representatives of the English lumber firms have arrived to oversee the loading and movement of deals, etc. They speak pessimistically of the outlook, which has been depressed since before Easter. Intending purchasers of telephone poles should communicate with Mr. Charles Desmarais, Hull, Quebec. He has 4,000 in stock 25 to 60 feet.

Gillette & Sparks have established themselves in the wholesale lumber business at 1 Madison Avenue, New York City. They will act as selling agents east of Buffalo for the well-known firms of Charles M. Betts & Company and Hurd Bros., Buffalo, and will handle about 14,000,000 feet of spruce manufactured by the Batiscan River Lumber Company, of Batiscan, Que.

NOTES FROM WASHINGTON.

(By our Travelling Representative.)

SEATTLE, April 30th, 1904.—Of the 500 shingle mills in this state over ninety per cent. have been closed during the past week because of a lack of market for their product, and also the prevalence of market conditions that mean a loss to the lumbermen who continue to operate their plants, unless their output has already been contracted for. The estimated output of these mills is 42,000,000 shingles per day, and as they do not purpose recommencing work before Wednesday, the 4th May, there will thus be a curtailment of 420,000,000 shingles during the period of idleness

These conditions are not merely confined to the shingle trade, but extend generally in the lumber industry along the entire Pacific slope. Already some 260 mill owners in this state and Oregon have signified their willingness to close their mills one day per week for an indefinite period, while to the north the British Columbia Lumber and Shingle Manufacturers' Association are unanimously agreed to follow suit.

To remedy the adverse conditions now prevailing a committee of the Pacific Coast Lumber Manufacturers' Association is about to confer with President J. J. Hill, of the Great Northern Railway, Howard Elliott, of the Northern Pacific, and E. H. Harriman, of the Union Pacific system. While market conditions are to be the primary cause of the conference, the committee is instructed to negotiate for a 40-cent rate into the Missouri river territory, which will enable them to sell in that region and result in the immediate restoration of market conditions here. The principal obstacle the millmen expect to have to overcome is the reported opposition of Mr. Harriman. He is said to be strongly opposed to the concession and to have threatened the Great Northern and Northern Pacific with retaliation if they granted the rate. The millmen are demanding that he attend the conference and the decision of the railroad presidents be made unanimous.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO AND MONTREAL, MAY 18, 1904 No. 10.

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

The saw mills of Price Bros. and the saw and flour mills of H. Petit, M.P.P., at Bryon Bay, 15 miles from Chicoutimi, Que., were destroyed by fire on the 16th inst.

CURRENT TRADE CONDITIONS.

ONTARIO.

The developments of the past week in lumber circles have been negligible in character, neither favoring the buyer nor the seller. The outlook for the crops furnishes some uncertainty, as the season has been so backward that the growth has been slow. Building operations, on the other hand, are starting out well, which has been reflected in an improved country demand for lumber. It is improbable that there will be any important changes in either demand or prices in the near future; rather a moderate volume of business around current values is looked for. There is a very satisfactory demand for lumber in Toronto, and hemlock and the lower grades of pine are particularly firm.

Moore hardwoods are being offered than for some time past, holders apparently being anxious to close out their stocks before the cut of the summer mills comes on the market. While offerings have been heavier no weakness in prices has resulted. Maple has been quite active but the supply has been sufficient to prevent an advance. Birch is also selling freely.

Dissatisfaction is expressed with the shingle demand. Prices are at a point which should encourage dealers to acquire a supply in anticipation of the summer and fall demand, but so far little disposition in this direction has been shown. This may be the result of the uncertainty regarding future prices of red cedar shingles.

QUEBEC AND NEW BRUNSWICK.

Information concerning the log drives has been opposed to a recovery in lumber prices. The drives in both Quebec and New Brunswick are making very satisfactory progress, the different streams being well supplied with water. If the entire production of logs should come out safety, there would be an an ample supply to keep the mills in operation all season and a heavy production of lumber would result unless the manufacturers should decide to restrict the output. However, the critical time has not yet passed and some of the drives may eventually be hung up. Spruce logs are selling at Fredericton at $9.50 per thousand feet, and hemlock at from $4.50 to $5. There is a steady demand for clapboards and the supply has become nearly exhausted, but the production is likely to be somewhat larger than last year.

New Brunswick cedar shingles still hold around $3.40 for extras for Boston delivery. The summer mills are resuming operations, which are likely to be lighter than last year in some localities on account of a small input of cedar logs.

MANITOBA AND BRITISH COLUMBIA.

Permits for buildings to the value of $2,300,000 have already been taken out in Winnipeg this year. There is consequently a very active demand for lumber for building purposes. Railway work is also calling for considerable dimension timber, Mr. J. D. McArthur, of Winnipeg, having recently received a contract to build 500 miles of the Canadian Northern line to Edmonton. Building is active at Vancouver, Victoria and New Westminster, as well as at interior points in British Columbia. Crop prospects throughout Manitoba and the Territories are favorable, and altogether the outlook is for a larger consumption of lumber by the west than in any previous year. A new scale of prices has been issued by the British Columbia manufacturers, in which moderate reductions are the rule. This will encourage the consumption of lumber and, it is hoped, prevent serious over-production. The latter condition, however, is almost certain to be experienced unless some tax is placed upon imports from the United States.

UNITED STATES.

Compared with one year ago the lumber trade of the United States does not make a very satisfactory showing. The country demand has been slow, but this is believed to be largely due to the backward season. The demand for building lumber has not, until the past two weeks, shown much activity, but a pronounced revival has now set in and the outlook is much improved. In the New York district the feeling is quite hopeful owing to the fact that there are no labor difficulties of any moment. None of the eastern distributing markets are carrying heavy stocks of anything excepting the higher grades of pine, and these will no doubt find a market dnring the season. The stock of box lumber is practically exhausted and prices are very firm. The barn grades have dissapeared also to a large extent, and there is a disposition to mark up prices. From Cleveland, Ohio, comes the report of a large trade in No. 4 boards and No. 1 and 2 common pine. The supply of dry spruce is scarcely equal to the demand, prices at Boston being as follows: 9 in. and under, $19; 10 and 12 inch, $21; randoms, $17.50 to $20.50, the latter figure being asked for 2 x 10 and 12 inch.

The whole shingle market has been unsettled by the weakness of red cedars. The movement inaugurated to close down the shingle mills in Washington did not terminate very satisfactorily, some of the manufacturers opening their mills before the specified date, which resulted in the Interstate Red Cedar Shingle Company rescinding the shut-down injunction. At a meeting of the North-Western Cedar Manufacturers' Association at Escanaba, Mich., on May 6th, it was stated that the production of white cedar shingles would be less than had been expected, as the low price of shingles had discouraged many small operators from putting in logs and wherever possible the timber will be converted into other cedar products. There has been an average decline of about 10 cents in the price of white pine shingles, and the situation at the present time is not satisfactory.

GREAT BRITAIN.

The outlook for lumber in the British market is no doubt improving. The building trade is more active as the result of better weather and the impression that prices will go lower seems to be less general. Some stocks of spruce are said to have been sold at a very low price, but as the exact figure nas been concealed, the trade has accepted the statement with some doubt. Best quality pine deals are moving quite freely, but the inferior qualities are slow of sale. The present stock at the London docks is considerably heavier than one year ago, and until this is reduced there will be enough pressure to sell to prevent an advance in prices. White pine deals on the London docks show an increase of 125,419 pieces; battens, 95,343 pieces; ends, 44,675 pieces; spruce deals, 23,389 pieces; spruce battens, 83,657 pieces; white pine boards, 46,859 pieces; red pine boards, 68,227 pieces. The stock of red pine deals and battens is less than one year ago. Waney and square pine are going into consumption slowly and the stock is heavy. The supply at Liverpool and adjacent ports is 98,000 cubic feet of square pine and 40,000 cubic feet of waney pine, as compared with 29,000 feet and 48,000 feet one year ago. Birch shows a reduction of 88,000 feet from 1903 and 137,000 feet from 1902, and enquiries are more numerous.

BROOM HANDLES

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar care to put in several machines to work broom handles we cantake his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

STOCKS AND PRICES.

C. P. Easton & Company are about to commence sawing operations at their new mill near Quebec. They expect to cut about 12,000,000 feet this season.

A statement of the winter port business for the past season shows that the various steamers sailing from St. John, N. B., to the British ports, carried 48,000,000 feet of deals and other long lumber.

John E. Moore, of St. John, N. B., is reported to have sold his winter cut of logs to the St. George Pulp & Paper Company, of St. George. This would indicate that he will not do any sawing at Bonny River this season. Mr. Moore expects that his 3,000,000 feet of logs hung up on the Oromocto river will come out safely.

There has been a slight decline in the price of slack staves and heading, but there is no surplus stock. Jobbers at Buffalo quote dry elm flour barrel staves at $11.50 to $12 for first class; basswood heading, 8 to 8½ cents for first class, 6 cents for second class; coiled hoops, $8.50 to $9 for 5½-foot; $9 to $9.50 for 6-foot.

Large quantities of ties are being taken out in the vicinity of Cranbrook, B. C. Last year the East Kootenay Lumber Company furnished 750,000 ties and this year will repeat the order. In addition 500,000 will be furnished by other companies in the vicinity of Cranbrook, making a total of 1,250,000 ties. Estimated at 20 cents per tie, their total value would be $250,000.

The first vessel to come down the lakes with lumber this year was the steamer James Fisk, loaded with 750,000 feet of white pine at Cutler, Ont., for the Imperial Lumber Company's yards at North Tonawanda. The Imperial Lumber Company have purchased about 10,000,000 feet of white pine in the Georgian Bay district for shipment to Tonawanda by vessel this season.

CANADIAN LUMBER SHIPMENTS.

From Parrsboro, N.S.: Steamer Pandosia, for Manchester, cargo deals, value $57,000.

From West Dublin, N.S.: Schooner F. B. Wade, for Porto Rico, 52,000 ft. spruce lumber, 26,000 shingles.

From St. John, N.B.: Schooner Bessie Parker, for City Island, 201,609 ft. deals. Schooner G. H. Perry, for Boston, 120,345 ft. planks, 27,579 ft. scantling. Schooner Effie, for Scituate, 703,000 shingles.

From Halifax, N.S.: Steamer Tunisian, for Liverpool, 26,090 ft. birch deals, value $266; 274,521 ft. spruce deals, value $3,228. Steamer Ulunda, for Liverpool, 121,706 ft. birch deals, value $1,271; 7,877 cubic feet birch timber, value $2,000; 10,172 ft. birch squares, value $160; 53,586 ft. spruce deals, value $694; 56,526 ft. hemlock deals, value $500.

THE SOUTH AFRICAN MARKET.

The lumber trade with South Africa which a few years ago was expected to have played no small part in Canadian business, especially in the line of red and white pine, appears to have fallen exceedingly flat, and there is little, if anything, in prospect for the coming season. This in a large measure is attributed to the conditions prevailing in the United States, the trade there throwing themselves open to supply that market with ready dressed stuff of all descriptions (including doors, sashes and tongued and grooved boards) at prices at which dealers here found it difficult to compete. The American enterprise was particularly marked immediately following the close of the South African war, when cargoes were quickly rushed in, and so complete has been the success that not only has it made itself felt in checking Canadian export, but also in menacing the European markets too.

It might be interesting here to note that within comparatively recent date seven cargoes of lumber consigned to South Africa from the Baltic were reconsigned to the London market, after reaching the South African port, it having been impossible to place it on that market on a paying basis. A condition such as this is the "proverbial straw' which shows the way of the commercial wind and which accounts in a measure for the increased endeavour of the Continental merchants to hold the British trade even at the expense of price.

CANADIAN NORTHERN RAILWAY

The New Canadian Highway from Port Arthur, the head of Lake Superior, to :—

FORT FRANCES MORRIS GLADSTONE
WINNIPEG EMERSON NEEPAWA
PORTAGE LA PRAIRIE CARMAN DAUPHIN
BRANDON HARTNEY SWAN RIVER

Line surveyed and now under construction to : PRINCE ALBERT BATTLEFORD EDMONTON

FREIGHT :—Shipments are handled from points in Eastern Canada either Grand Trunk or Canadian Pacific Railways via North Bay to Port Arthur, thence Canadian Northern Railway, or via Chicago.

PASSENGER :—Passengers destined to points on the Canadian Northern Railway north, south and west of Winnipeg, can purchase through tickets via Chicago and St. Paul, where connection is made with the Canadian Northern Flyer for Winnipeg via Great Northern Railway, also with Northern Pacific Railway.

Freight rates, Folders and other information furnished on application to :—

THE NEW BRUNSWICK DRIVES.

The New Brunswick log drives are making satisfactory progress. The St. John river was falling steadily on May 8 and 9, but a heavy rain the following day caused a perceptible rise.

R. A. Estey's drive on the Tobique river came out on the 6th inst. Driving operations lasted exactly twelve days, which is considered a record breaker. A large lot of bank logs were received at Springbank last week and purchased by Dunn Bros.

Reports from Fredericton May 10 stated that the Gibson Company's drives on the Nashwaak river and tributaries were moving rapidly. The Arnold Brook and Cross Creek drives were in safe waters and it is believed that the whole drive will be out in the course of a few days.

Very encouraging reports were received on May 12, the water having risen over four feet at Andover and two feet at Edmundston in one day. About 55,000,000 feet of logs were then in the booms of the Fredericton Boom Company, 20,000,000 feet being in the Mitchell boom, and 35,000,000 feet in the booms at Sugar Island and Douglas. A great many new logs were caught at the booms during the past few days, quite a number bearing the private mark of Cunliffe, who has a driv of 17,000,000 feet on the Allegash river for W. H. Murray.

The drives for John A. Murchie on the Big Black river and the Scott Lumber Company on the Wyld Cat river, will probably be out this week. Gilman Bros. & Burden's drive of 4,000,000 feet on the Pokiok stream has reached the mill.

THE GLASGOW MARKET.

Messrs. Edmiston & Mitchells, Glasgow, Scotland, say that business during the month of April was on the whole of a restricted nature, the general feeling of buyers that easier prices are likely to prevail later on evidencing itself in the extreme caution of their operations. The tendency towards easier prices in pine and spruce observable for the past few months has become still further accentuated recently, and the attitude of the market as regards the future is unquestionably pessimistic in tone. In a general way the determining factor as regards the future of prices will be the extent of the import during the summer. Granted moderate shipments, there should be no serious break in prices, but a heavy import would without doubt cause a fall in values, consequent on pressure to force sales. A healthy feature from the consigning point of view is that contracting has this year been of exceedingly limited extent, though as a set-off to this there is a feeling that the general trade of the country is on the wane, and consequently the market will not be able to absorb its normal quantity of wood goods. As to this, much will depend upon the shipbuilding and house-building industries, which are meantime inclined to be inactive. In hardwoods there has been a falling away in the demand recently, and this is particularly observable in the case of low-grade Poplar lumber, which has been arriving greatly in excess of the market's requirements, with a consequent easing of prices.

WHITE PINE.—The import during the month consists of about 200 loads waney pine, part of which was disposed of "ex quay" and the remainder was put into store. The demand has been quiet. One or two sales of second-class waney are reported at prices ranging from 2s. 6d. to 3s., according to size. There has been no movement in square timber.

RED PINE.—There is nothing new to report; the present small stock is being gradually reduced.

OAK.—There has been no import during the month, but stocks are more than sufficient for the present inactive demand. The consumption is small with no immediate prospect of improvement.

ELM.—There has been the usual steady demand for rock elm, and as the stock of first-class is now limited, second-class parcels are moving away more freely. Prices are firm. Stocks of soft wood are still heavy and moving off slowly.

BIRCH (Quebec) There has been no import so far this year, and as the stock on hand is nearly exhausted there is consequently nothing of importance to report. It cannot be said that there is much enquiry, though a few early imports would no doubt find a ready enough market.

NOVA SCOTIA BIRCH.—Apart from Pictou wood imported last summer there is none in stock unsold. Values are round about 18d. for 16-inch average. In birch planks there have been a few transactions at £7 to £7 10s. per standard.

ASH (Quebec)—With no import and no stock of any importance, there is nothing specially to report this month. A few shipments of U. S. logs have come to hand, the best of which have been sold at from 1s. 9d. to 2s. per cubic foot, but a considerable quantity has gone into store.

DEALS, ETC. — Business during the month has been quiet, and the movement from yarded stocks shows a large falling off. The import has been heavy, especially in spruce, the bulk of which has gone into store. Prices are fairly steady. Current values are as under:—Broad First Pine Deals, £32 to £34; 11-inch, £29 to £31; Ends and Non-Dimensions, £22 to 24. Second Pine Deals.—11-inch and up, £18 to £20; Ends and Non-Dimensions, £13 to £14 10s. Third Pine Deals.—11 inch and up, £11 15s. to £14; Ends and Non-Dimensions, £9 10s. to £11. Red Pine Deals.—9 and 11 inch, £11 to £11 10s.; Narrows, £8 10s. to £9. First Pine Sidings and Strips.—9 to 10 inch, £24 to £24 10s.; 11 to 12 inch, £25 to £26; 13 to 14 inch, £27 to £28. Spruce Deals.—9-inch and up, £8 10s. to £9 5s.; 7 and 8 inch, £7 5s. to £8 5s.

RAINY RIVER TIMBER PRODUCTION.

W. W. Sloan, timber inspector for the Canadian Northern Railway Company, gives the following statement of timber cut the past winter along the Rainy River:

Ties—W. Sleeman, Rapid River, 100,000; Holmes & Langstaff, Devlin, 50,000; Preston-Bell Co., Fort Frances, 200,000; Lockhart & Co., Fort Frances, 100,000; L. Christie, Fort Frances, 100,000; Geo. Strevel, Banning, 300,000; A. R. Mann, Kashebowie, 300,000; Pease Bros., 50,000; Sheard & Bishop, 135,000. Ties cut on American side, 25,000. Total 1,400,000.

Piling—W. Sleeman, 3,000; Holmes & Langstaff, 1,000; Preston-Bell Co., 2,000; Connors & Roberts, 4,000; L. Christie, 500.

Posts—W. Sleeman, 75,000; Holmes & Langstaff, 75,000; Graham & Horne, 40,000.

Poles—W. Sleeman, 4,000; Holmes & Langstaff, 4,000.

Culvert timber (cedar) — Graham & Horne, 1,500,000.

Saw logs—J. A. Tierney, for Rat Portage Lumber Co., 4,500,000 ft.; Jas. Harty, for Rat Portage Lumber Co., 7,502,000 ft.; Preston-Bell Co., Limited, 4,500,000 ft.; R. & T. Lockhart, 2,500,000 ft.; John Reid, 650,000 ft.

In addition to this there are about twenty local saw mills along the river which will have at least an average cut of 100,000 feet. Summed up this makes a cut of 36,652,000 feet of logs, 1,400,000 ties, 210,000 piles, 8,000 poles, 190,000 posts.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO AND MONTREAL, MAY 25, 1904 No. 17.

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

OUR WINNIPEG OFFICE.

The publishars of this Journal have recently opened a branch office at No. 310 McIntyre Block, Winnipeg. A resident representative has been appointed who will be exclusively employed in advancing the circulation of this Journal and in keeping our readers informed regarding the latest developments throughout the west. The kind co-operation of our friends in the west is solicited in behalf of the succes of this enterprise.

NOTICE TO SUBSCRIBERS.

The publishers of the CANADA LUMBERMAN would be pleased to learn the name of the subscriber who on May 17th remitted the sum of $3.00 for subscription from Cœhill Mines P.O., Ont. As no name accompanied the remittance we are unable to credit the amount.

CURRENT TRADE CONDITIONS.

ONTARIO.

Conditions in the lumber trade are about normal, the volume of demand being perhaps a little less than in the spring of 1903. Some dealers are buying very cautiously, only taking stocks when the price seems to offer an inducement, while others are more courageous and are buying quite liberally practically at the manufacturer's quotations. Mill run pine is, if anything, held a little higher than last year, this increase being intended to cover the additional cost of logging. There has been quite heavy buying of mill culls at last year's figures, but dead culls have not been taken so readily. In the better grades, especially 1½ inch, the demand is slower. Prices now asked are so high that sash and door manufacturers are looking for something cheaper to meet part of their requirements, but as pine is getting less plentiful each year manufacturers are showing little disposition to lower prices. The depleted condition of dry stocks is a sustaining feature of the white pine market.

The scarcity of low grade pine is resulting in benefit to hemlock, which is quite active. Manufacturers have more orders than they can fill and are far behind in shipments. Current prices at the mills on the Georgian Bay for two inch stuff are $12.50 for 12 foot lengths, $13 for 10 to 16 feet, $15 for 18 feet, and $16 for 20 feet. These prices are likely to rule for some time at least.

QUEBEC AND NEW BRUNSWICK.

An unexpected change in the log drive situation has taken place. While one week ago the indications were that all the new logs would reach the mills, there is now a strong probability that a large percentage of them will be hung up unless rain should check the fall of water in the streams. The St. John river was on the 20th inst. falling rapidly, and it was estimated that 50,000,000 feet of logs would become stranded, at least temporarily. This condition has improved the tone of the lumber market, although dealers are still moving very cautiously in their buying operations. Spruce logs recently sold at Fredericton brought only $9 per thousand feet, while hemlock sold as low as $4.

New Brunswick cedar shingles are selling from $3.25 to $3.40 for extras on Boston rate of freight, the smaller manufacturers seeming a little nervous and accepting the former price. It is doubtful whether there will be much improvement in the shingle market during the summer months.

UNITED STATES.

The lumber demand in the United States is, as a whole, somewhat disappointing. Country trade is slow, for which the backward crop season is largely responsible, and the activity in the cities is not sufficient to counteract the falling off in country orders. From Buffalo eastward, white pine is held very firmly, as stocks have been reduced below an average, and the freight tie-up on the upper lakes has stopped the movement of lumber to the eastern markets. Sales of white pine are not large nor has the demand assumed as large proportions as was anticipated earlier in the season. At a few points, however, increased buying is reported. In Chicago the lower grades and Norway dimension are selling well, the door factories taking large quantities of common boards. In yellow pine prices are inclined to favor the buyer rather than the producer, the latter being inclined to offer concessions in order to effect sales.

Hardwood stocks are accumulating at some points, and for the first time this year the tendency of prices appears to be easier. There has been a decline in the price of white quartered oak owing to production being stimulated unduly by the high prices, but at the decline there has been liberal buying. Red and white oak have held up well. Basswood is quoted at $22 to $24 at the mills, while ash is in limited supply at $20 to $21, and elm at $20 to $22. There is a growing demand for birch.

The call for white cedar products is hardly up to the mark. Prices are not satisfactory, although a slight improvement is reported in some items. The demand for poles is about the best feature of the market. Cedar ties are meeting with increased enquiry, but cedar shingles are very dull.

GREAT BRITAIN.

For the first four months of this year the imports of sawn lumber into the United Kingdom were 651,509 loads, as against 732,726 loads for the corresponding period of 1903. During the month of April only 181,756 loads were imported, compared with 320,373 loads in the same month last year. The lighter imports have been very beneficial to the market, and while the reduction in stocks is proceeding very slowly, the situation is healthier than at any previous time this year. The decline in prices of Swedish deals and battens has been quite marked, but it is now believed to have culminated and a moderate recovery would seem to be the order, particularly as the consumption of lumber is steadly improving. Business for c.i.f. delivery is also more active, and the basis of prices is better understood. The competition of Baltic lumber affected Canadian spruce and Norway pine disastrously, but the prices of white pine are holding up remarkably well, and the indications are that buyers will advance their figures in order to obtain a supply of the higher grades of pine which are so essential for some purposes. More disposition is being shown to operate in Quebec spruce with a view to supplying the wants of the box trade and other customers, and the feeling in regard to this lumber is less pessimistic. A few importers have purchased considerable quantities of New Brunswick spruce, there being a good demand for the smaller sizes.

A GOOD SALESMAN.

If you have lumber for sale an advertisement in Wanted and For Sale Department of this paper is the best salesman you can employ.

STOCKS AND PRICES.

The Steamer Sarmatian is loading a cargo of deals at Halifax, N. S., for the United Kingdom.

The Crow's Nest Pass Lumber Company, of Wardner, B.C., have secured the Baker timber lease above St. Mary's Lake.

The following vessels are loading lumber for South America: Golden Rod and Swansea, at Hantsport, N. S.; Louvima, at Annapolis, N.S.

E. A. LeBel, of Sarnia, has secured the contract of supplying the ties and poles for the extension of the electric street railway to Weesback.

British Columbia red cedar shingles are worth from $3.20 to $3.25 for Extras, and $4 to $4.10 for Perfections, Boston delivery. An early advande is not anticipated.

The second lumber vessel to reach North Tonawanda, N.Y., this season was the steamer Mohegan, carrying 1,200,000 feet of white pine, valued at $27,000, for White, Rider & Frost.

Robert Gass, of Shubenacadie, cut 4,500,000 feet of lumber during last season. He has taken up a large tract of timber land in Labrador, where he will commence operations this summer.

The Commissioner of Lands and Works, Victoria, B.C., is asking for tenders up to June 8 for a license to cut timber on a limit situated on Vancouver Island, known as Lot 623 and 624, Clayoquot district, containing 11,434 acres.

The unmarked logs from the drift drive were sold at St. John, N. B., last week. The merchantable spruce, about 47,000 feet, was purchased by Randolph & Baker at $7.20 per thousand, the cedar and pine by Murray & Gregory at $3, and the hemlock by John E. Moore at the same figure.

Under date of May 7th Messrs. S. P. Musson, Son & Company, of Barbadoes, say that considerable inroads have been made in stocks lately, and while dealers cannot be said to be bare, they think moderate arrivals of both white pine and spruce would bring fair prices. They value first arrivals of former at $25 to $26 for shippers, $20 to $21 for second quality; spruce at from $19 to $20. A lot of 158,000 Gaspe shingles, ex "Dahome", were sold at $6.10 for 100,000, the balance bringing $7.29. This latter price cannot be regarded as a criterion of value, but as shingles are still scarce, the former price could be obtained for further shipments. There have not been any arrivals of Dimension, and these would bring remunerative prices if quantities were not large. Cedar Laying are not in as great demand as former descriptions, and are valued in the vicinity of $2.15 for fair quality.

ver, near its confluence with Lake Temiskiming, about 150,000 logs were swept into the lake, the firms interested being the E. B. Eddy Company, J. R. Booth, Rideau Lumber Company, and R.B. Klock. The logs included a considerable quantity of pulp wood. Two steamers owned by the Ottawa Improvement Company were on the lake and were of considerable assistance in collecting the logs. A similar mishap to a boom on the St. Maurice river, near the town of Three Rivers, Que., caused the liberation of 40,000 logs, most of them owned by the Laurentide Pulp Company. These will not be a total loss as the majority of them will be recovered.

NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN.)

ST. JOHN, N.B., May 19th, 1904. In regard to English deals, the impression seems to have got abroad that the market is off and likely to be less firm. Reports to this effect have been in circulation in lumber selling circles for some months past. This causes a lack of confidence and an eagerness to sell on the part of many dealers that may have a tendency to force prices down. But those who are in a position to judge say that the anxiety is not well founded. While it is true that Canadian spruce will not bring the prices of last year, the falling off in price does not warrant a too pessimistic view of the future. Most of the manufacturers in this section are looking forward, not to extraordinary margins, but to a moderately brisk demand and fairly good prices.

This view of the situation is apparently justified by a marked increase in the number of enquiries and some large sales which were made for early fall delivery.

There is no long lumber of any kind available at this port and there will probably be none until July 1st as the balance of last year's outputs were entirely cleaned up over a month ago and only a few of the mills have received logs to saw. Logs will be coming along freely by the end of May, but not before the date mentioned above will there be any quantity of lumber ready to ship.

In regard to price: There is no doubt that a specification containing say 40 per cent. 7s and 8s, 40 per cent. 9s, and 20 per cent. wides, of a fair average length, would be worth in the vicinity of $12.75 per M., f.o.b. St. John, ⅔ price for fourths and ends.

Pine and hemlock are both scarce and high in price, the former particularly so. The probabilities are that very little of either will be manufactured on the St. John River this year, and even what is procurable will be chiefly American and therefore very high in price. The greater part of the pine manufactured here this year will be used locally. A quantity, not sufficiently large to be important, of hemlock boards will be available some time next month or in July. These will probably bring in the vicinity of $11 per M.

COOPERAGE STOCK.

The Sutherland Innes Company of Chatham, Ont., under date of May 18, furnish the following review of the cooperage stock market:

The season for the production of cooperage stock for placing on the market has been a very backward one this year, and very little of this year's manufacture has, so far, been placed on the market, especially in staves. The weather has been unfavorable up till recently, but now that the weather is getting better it is expected that the coopers will be able to get sufficient stock to keep them running instead of having to lie idle a great part of the time, as they have had to do for the last six months. The stocks at the mills this year vary greatly. At some points good stocks have been put in, while in the northern districts the stocks put in are very light on account of the snow being too deep to do the lumbering satisfactorily.

The supply at the present time is away below the demand, but it is expected, with favorable weather, that this will be rectified in a short time. It is doubtful however if there will be enough stock to go around this year especially if there is a good apple crop, and at the present time reports are that the trees have come through the winter in first-class shape with the exception of Ontario apples, which have been killed to some extent—and a large apple crop is looked for.

The manufacturers of cooperage stock are determined this year that if there is anything like favorable weather during the summer for trucking, they will strain every nerve to get in a supply of logs, so as to be able to furnish all the apple barrel stock required. Prices will be very high on stock made from logs that have been tucked in, as this is a very expensive way of lumbering. The millers, farmers, etc., who contract early are we think, in good shape, and will have an adequate supply of material this year.

The following are the present prices for stock f.o.b. cars Toronto: No 1, 30 in. elm staves, $10.80 net m: No 1, 5 ½ ft. elm hoops $10.00; No. 1, 6 ft. elm hoops $10.50; No. 1, 17 ⅛ in. heading, 8.35 per 100 sett, 12 in. head liners 60 cents net M.

Apple barrel stock.—Millrun 30 in. elm staves, $9.80 net m.; No. 2, 30 in. elm staves, $8.30 net M.; M. R. 17 ⅛ in heading 7 cents per sett. Hoops and liners as above.

We do not anticipate any appreciable change in prices for some little time, the principal trouble being to supply the demand.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares,&c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

The planing mill of the Ladysmith Lumber Co., Ladysmith, B.C., was destroyed by fire last week.

The saw mills of Price Bros. and the saw and flour mills of H. Petit, M.P.P., at Bryon Bay, 15 miles from Chicoutimi, Que., were destroyed by fire on the 16th inst.

A. F. Bury Austin, wholesale lumber and timber merchant, Montreal, has moved from the Merchants' Bank Building to more commodious offices in the Bank of Ottawa Building, 224 St. James street.

Schooner William F. Green, for New York, 744 pieces piling. Schooner W. H. Waters, for New York, 140,462 ft. planks, 20,703 ft. scantling. Schooner Jennie Vieve, for Norwalk, 817,000 ft. laths. Schooner Myra B., for Boston, 35,645 ft. spruce boards, 65,309 ft. pine boards.

THE NEW BRUNSWICK DRIVES.

Reports from New Brunswick on May 19th stated that the water in the river was falling rapidly, and that between 40,000,000 and 50,000,000 feet of logs would be hung up unless rain should come very soon. Edgecomb's drive of 2,500,000 feet on Smoky river is making slow progress and it is thought that about half will be hung up. The Kilburn drive for W. H. Murray has not yet reached safe water. He has 6,000,000 feet on the north-west branch of the St. John river. It is reported that Robert Aiken's drive on the Aroostook river is very uncertain.

Thomas Crockett finished driving operations on Blue river several days ago, but he was obliged to abandon a portion of this drive. Morrison Bros. also found it necessary to abandon about 2,000,000 feet.

W. J. Scott, of the Scott Lumber Company, returned last week to Fredericton from a visit to the scene of operations in Quebec. He reported that the drive on little black river had reached safe water, and that the Wild Cat drive was out with the exception of 500,000 feet which were left on the landing.

Randolph and Baker's drive on the Chememsecook river is in difficulties. The contractors let the drive, and their own men, who were hired by a representative of the firm, left in the night a short time afterwards.

The Bartholomew river drive belonging to the Gibson Company is in safe water, and it is quite probable that the Miramichi drive will get into the booms safely. The Dungarvon and Renous River drives have been in safe waters for several days.

The corporation drive on the South-west Miramichi will amount to from 28,000,000 to 30,000,000. Michael Welch leaves about 1,000,000 on the south branch of the Miramichi on account of market being so low. He says that it is cheaper to keep it than to drive it now. Mr. Lynch will also leave about the same amount at the Little South West Lake for the same reason.

The 35,000,000 logs cut on St. Croix waters during the past winter are nearly all in the water and the drives are well under way. The cut is an average one. The first drive is expected to arrive at the Milltown booms this week, when sawing operations will be on in full blast. Murchie & Sons and F. H. Todd & Sons have ample supplies to keep their mills going until the drives come in, their logs having been brought to the mills by rail, but Eaton & Sons have only a sufficient supply to keep two of their mills running part time and will not start the third mill until the new logs arrive.

FIRES

Fire last week destroyed the hub factory of John Finlay & Son at Norwood, Ont.

The saw-mill of Papineau Bros., at St. George, Man., was burned on May 16th. The loss is $10,000, there being no insurance.

The saw and shingle mill of W. H. Kennedy at Omemee, Ont., together with the stock of lumber and shingles, was destroyed by fire on the 5th inst. The loss is about $4,500.

The large saw-mill of Andrew Haslam, at Nanaimo, B. C., was totally destroyed by fire last week. The mill was equipped with expensive machinery and the loss will be upwards of $100,000.

TIMBER LIMIT TRANSACTIONS.

The Department of the Interior, Ottawa, is asking for tenders up to June 8th next, for a license to cut timber on Berth No. 1,166, comprising 60 square miles to be selected in not more than 16 blocks around Sturgeon Bay of Lake Winnipeg, on Dauphin river; also up to June 15th for a license to cut timber on Berth No. 1,167, situate in the district of Saskatchewan, in the vicinity of Fox Plain, and comprising 20 square miles to be selected within a prescribed area.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO AND MONTREAL, JUNE 1, 1904 No. 18.

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

31 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

PETER RYAN,
Toronto.

A RARE OPPORTUNITY

The undersigned is prepared to receive sealed tenders up to THE 30TH DAY OF JUNE, 1904, for the buildings, machinery, stock, etc., of the Alexandria Wood Export Company, Limited. The buildings are practically new and the machinery of the most modern type. The property can be easily changed from its original purpose to a furniture or waggon factory. It is situated in one of the most central and thriving towns in Ontario. As an evidence of the business done in the town, one of its factories has an output of about five thousand carriages annually.

The highest or any tender not necessarily accepted.

ANGUS McDONALD, Assignee.
Alexandria, May 14, 1904.

Province of Quebec.

Department of Lands, Mines and Fisheries.

Woods and Forests.

Quebec, 21st May, 1904.

Notice is hereby given that, conformably to sections 1334, 1335 and 1336 of the consolidated statutes of the Province of Quebec, the timber limits hereinafter mentioned, at their estimated area, more or less, and in their present state, will be offered for sale at public auction, in the Department of Lands, Mines and Fisheries, in this city, on WEDNESDAY, 22ND DAY OF JUNE next, at TEN o'clock A.M.

CONDITIONS OF SALE.

No limit will be adjudged at less than the minimum price fixed by the department.

The limits will be adjudged to the highest bidder on payment of the purchase price, in cash or by cheque accepted by a duly incorporated bank. Failing payment, they will be immediately re-offered for sale.

The annual ground rent of three dollars per mile, with fire tax, is also payable immediately.

Those timber limits, when adjudged, will be subject to the provisions of all timber regulations now in force or which may be enacted hereafter.

Plans of limits offered for sale are opened for inspection in the Department of Lands, Mines and Fisheries, in this city, and at the office of the Crown lands and timber agents in the different agencies in which said limits are situated, up to the day of sale.

N. B.—No account for publication of this notice will be recognized, if such publication has not been expressly authorized by the department.

S. N. PARENT,
Minister of Lands,
Mines and Fisheries.

OUR WINNIPEG OFFICE.

The publishers of this Journal have recently opened a branch office at No. 310 McIntyre Block, Winnipeg. A resident representative has been appointed who will be exclusively employed in advancing the circulation of this Journal and in keeping our readers informed regarding the latest developments throughout the west. The kind co-operation of our friends in the west is solicited in behalf of the success of this enterprise.

CURRENT TRADE CONDITIONS.

ONTARIO.

Under the influence of a moderate demand, the lumber market maintains a steady tone. Prospects for the future have been improved by the better outlook for the crops. The bulletin issued by the Ontario Department of Agriculture calls attention to the damage to fall wheat by winter killing, but since the beginning of May the weather has been favorable for the recuperation of the crop and the latest reports indicate that many of the fields are making an encouraging recovery. A large yield of grain will likely bring about a heavy demand for lumber in the fall. Present shipments to the United States are not all that might be desired, but dealers report a very satisfactory local trade, with no signs of an early falling off. There may be a readjustment of prices after midsummer on account of the usual inactivity preceding the Presidential election across the border, but the general average is not likely to be reduced materially. Hardwoods are meeting with a ready sale. The old stock is practically cleaned out and dealers have experienced some difficulty in filling orders for certain sizes. Soft elm and birch lead in point of activity. An increased inquiry for beech is reported. One year ago this lumber was selling at $14 for log run, while sales have recently been made at $18. It has been found to be a very satisfactory substitute for certain higher-priced woods.

QUEBEC AND NEW BRUNSWICK.

The spruce lumber market is still in an unsettled condition. Some shipments are being made to the United States, but there is very little buying for the British market. The price of merchantable spruce logs is now about $9 per thousand, and that of lumber $11 per thousand. This is a decline of over $2 as compared with the prices ruling one year ago. There is practically no demand for logs at the present time, and mill men who contracted for their supply some time ago at higher prices will sustain heavy losses unless conditions improve. The financial embarrassment of a large Fredericton lumberman, referred to elsewhere, has emphasized the necessity of taking every precaution against possible loss. There are two factors, however, that are favorable to the lumber market. The first is that the stock of dry lumber carried over from last year was very small, and the second is the probability that a large percentage of the logs taken out the past winter will not reach the mills this year.

J. S. FINDLAY, OWEN SOUND ONTARIO.
HARDWOOD LUMBER AND MAPLE FLOORING.
MAPLE FLOORING well made is half laid. My Factory is equipped with the very atest and best machines for turning out Flooring, and we give its manufacture our exclusive attention, believing it best to DO ONE THING AND DO IT WELL. End-matched, Bored, Polished, Hollow-backed etc. Will quote prices delivered any point.

The St. John river has fallen fully five feet from the highest level reached this spring. Estimates of the quantity of logs which may be hung up range from 30,000,000 feet to 60,000,000 feet. While there is so much uncertainty as to the log drives, there is little possibility of lumber prices going any lower, while in the natural course of events they should improve somewhat.

UNITED STATES.

The developments in the United States lumber market during the past week call for no lengthy comment. The country demand continues very slow. In some districts there is a disposition to crowd stock on buyers, with the result that prices have an easier appearance. Dealers are not buying in large lots, believing that this is the safest course to pursue until general business conditions improve. Under the influence of warm weather the crops are looking better. Corn planting has been completed and the growth is beginning to make headway. The demand for low grade pine lumber is quite up to the mark, but other grades are dull. Hardwoods are moving in moderate volume, maple, basswood and elm furnishing the most activity. The latter is scarce in the Tonawanda, Buffalo, and other eastern markets, and prices on this lumber are likely to remain very firm throughout the summer. Thick maple sells well.

The demand for shingles is only moderate. Red cedars have declined fifteen cents within the past three weeks. White pine shingles are scarce on account of the lake tie-up, which has kept prices firm. Lath is picking up as the amount of building increases.

GREAT BRITIAN.

Contracting for the future is still being conducted by British lumber merchants upon most limited lines. While there has been some improvement in the demand, there still exists a feeling that existing conditions will prevent more than a very moderate rise in prices from the present basis. Without wishing to inspire false hopes, however, it may be said that prices are not likely to go much lower. The consumption is making considerable inroads upon yard stocks, and as the quantity contracted for is exceptionally small, it is quite possible that when the dealers enter the market to replenish their stocks it will bring about an advance in prices. Representatives of Canadian spruce shippers have experienced a little more success of late in closing contracts, the prices being about £9 10s and £8 15s c.i.f. London for 3x9 inch second and third qualities. Red pine is, if anything, lower in price, sellers having in some instances offered to meet Baltic quotations.

CANADIAN LUMBER SHIPMENTS.

From St. John: Schooner James L. Maloy, for Providence, 35,187 ft. plank, 25,011 ft. scantling, 570,000 laths. Schooner Lena Maud, for Quincy, 1,446,000 cedar shingles. BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood orPoplar care to put in several machines to work broom handles we cantake his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)

VANCOUVER, May 23rd, 1904.—Until there is some relief in the way of duty, prices will not amount to much in connection with the trade with the Territories. So much lumber is being dumped into that market that it is completely demoralized, and as the Americans are selling for what it will bring in most cases, prices cannot be maintained by the British Columbia lumbermen. The American wants cash, and he considers it a snap to be able to dispose of the large surplus of rough lumber in some market other than his own. What he loses on that he makes up on the finer grades, for which there a ready demand and good prices in his own country. Then, too, the difference is made up in the middle western states, where a sufficient increase is put on rough lumber to offset the loss of disposing at a sacrifice in the Canadian Territories. What trade comes to this province is only in competition with the ruinous prices inaugurated by the manufacturers in Washington state. This is one of the reasons that the Hastings mill, the largest establishment of the B. C. Mills, Timber & Trading Company, has shut down, and more will follow very soon.

All the Boards of Trade on the Coast,assisted by many in the interior, have taken the matter up, and memorials which have been addressed to the government at Ottawa since 1896 have been supplemented, and a representative deputation will wait on the Government this week to ask for an equalization of the tariffs. Free trade they prefer, but at least an equalization. This deputation is composed of Mr. John, Hendry, president of the B. C. Mills, Timber & Trading Company, of Vancouver; Mr. A. C. Flumerfelt, of Victoria, and Mr. Harry Watson, a prominent member of the Vancouver Board of Trade. They will be presented and assisted by the British Columbia members, all of whom favor the lumbermen's requests.

Mr. George McCormick, of Orillia, Ontario, one of the stockholders of the Pacific Coast Lumber Company of this city, and one of the principals in the Kamloops Lumber Company, which has recently been re-organized, was in the city last week. The reputed cause of his flying visit to the coast was to tender the payment of dues on timber on land which was to be auctioned by the Government. He had held it for a number of years, knowing that the Vancouver, Westminster & Yukon railway was to go through, and would afford him transportation facilities to get the timber out, and now when the time has arrived, and the railway under course of construction, his dues are refused, and the land with the timber on it will go.

New freight schedules on lumber and shingles have been issued by the C.P.R. to the manufacturers in the Kootenay, who are organized into the Mountain Lumber Manufacturers' Association. A reduction of 2 cents per 100 pounds has been granted. As green lumber weighs about 3,000 pounds to the 1,000 feet, the reduction amounts to 60 cents per 1,000 feet on green lumber, and less on kiln dried lumber. In return for the concession, the lumbermen have agreed to sell their product for $1 per thousand less to the settlers. The reduction is 40 cents to the lumbermen per thousand.

VERY SATISFACTORY RESULTS.

Mr. R. E. Kinsman, lumber merchant, Hamilton, Ont., writes: "My contract for advertisement (in the weekly CANADA LUMBERMAN) has expired, but I wish to continue it for another year, having had very satisfactory results." If you wish to sell or buy lumber or anything connected with the manufacture of lumber it will pay you to advertise in THE CANADA LUMBERMAN.

TIMBER LIMITS.

Many persons have sold valuable timber limits by means of a small advertisement in the Wanted and For Sale Department of this paper. Expense small—results sure.

BUSINESS NOTES.

The lumber trade learned with regret of the financial embarrassment of Robert A. Estey, who conducted large operations on the Tobique and Rockaway rivers, with mills at Fredericton, N.B. The failure is attributed to Mr. Estey's impaired health and to the depression in the lumber trade.

At a meeting of creditors held at St. John on May 27th, a statement of his affairs showed liabilities of $135,000 and assets of $105,000. The largest creditors are said to be John E Moore, George McKean, The Peoples Bank of New Brunswick, and the Provincial Government, the latter having a claim of $12,000 for stumpage dues. Mr Estey took out last winter over 10,000,000 feet of logs, of which 4,000,000 were sold at $11 per thousand feet.

SHIPPING MATTERS.

The following charters are reported: Barque Ophelia, Campbellton, N.B., to Adelaide, Australia, deals, 60s, August loading; barque Sorronto, St. John, N.B., to Valencia, deals, 48s 9d; steamers Artic Stream and Belfast, St. John, N.B., to Melbourne, Australia, 57s 6d and 52s 6d respectively: barque India, Halifax, N.S., to Southampton, deals, 40s.

The steamer Powhatten has been chartered to carry deals from St. John, N.B., to west coast of England, at private terms.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO AND MONTREAL, JUNE 8, 1904 No. 19

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

General Store and Saw Mill. Capacity 25 M (in running order). Terms liberal. Apply

PETER RYAN,
Toronto.

A RARE OPPORTUNITY

The undersigned is prepared to receive sealed tenders up to THE 30TH DAY OF JUNE, 1904, for the buildings, machinery, stock, etc., of the Alexandria Wood Export Company, Limited. The buildings are practically new and the machinery of the most modern type. The property can be easily changed from its original purpose to a furniture or waggon factory. It is situated in one of the most central and thriving towns in Ontario. As an evidence of the business done in the town, one of its factories has an output of about five thousand carriages annually.

The highest or any tender not necessarily accepted.

ANGUS McDONALD, Assignee.
Alexandria, May 14, 1904.

CURRENT TRADE CONDITIONS.

ONTARIO.

The past week's movement of lumber has been rather disappointing. There has been little evidence of an expansion in the demand, and while the conditions do not justify a pessimistic view of the future, it is believed that the volume of the year's business will compare unfavorably with that of last year. The percentage of the mill production placed under contract is considerably smaller than at the corresponding time one year ago. The lower grades of pine continue quite firm, but on the higher grades the manu-

facturers are said to be occasionally offering slight concessions to buyers. This is probably in sympathy with the trend of the Tnited States market, as eastern dealers contend that they can purchase to better advantage in the Lake Superior district than at the Ontario mills. The local consumption, however, is now and promises to be an important factor in the demand. Hemlock lumber and timber meets with ready sale; and on this class of stock there has been no shading of prices. For 2-inch hemlock, 4 to 10 inches wide and 10 to 16 feet in length,the average price at the mill is $12.50. Lath, with the exception of No. 1 4-foot pine, are slightly weaker, although prices are not quotably changed. Shingles are about holding their own, but with some difficulty.

QUEBEC AND NEW BRUNSWICK.

Spruce lumber has been affected somewhat by the rainy weather during the past week, but still the demand locally and for export to the Eastern States has been fair. There is no material change in quotations. The outlook for clapboards is bright and price changes during the summer months are likely to be in the direction of an advance. Lath prices are still weak, but as the production promises to be light a recovery sooner or later seems assured. Extras and clears in cedar shingles are in good demand, while the lower grades are quiet.

Reports from the drives are more encouraging than last week. Of a total cut of between sixty and seventy millions on the Miramichi river, about eight millions are likely to be hung up. The quantity of stranded logs on the St. John river is now estimated at forty millions. Kilburn's drive of twelve millions for Murray & Gregory, McAllister's drive of ten millions for Cushing & Company, and Cunliffe's drive of fifteen millions for W. H. Murray, are all reported in "safe" waters. It is estimated that there is in the vicinity of ninety million feet of logs in the booms at Douglas and Lincoln.

UNITED STATES.

There has not been a great deal of activity in lumber circles during the past week, but sufficient buying has been done to hold prices firm. The stocks carried by dealers are considerably lighter than one year ago, as the fear of a quiet summer, partly on account of the forthcoming presidential election, has caused buyers to pursue a conservative policy. Retail dealers in the Eastern States are simply buying for requirements. There does not seem to be any pressure to sell, however. The common grades are held very firmly. It is estimated that eighty-five per cent. of the box lumber to be manufactured in the vicinity of Ashland, Wis., this season, has already been sold. No. 4 boards are held at $12 and No. 5 at $6.50 to $7.50. Norway pine, which has been weak for some time, is slowly recovering and the price is now within fifty cents of that which ruled last fall. The hardwood demand has not improved as was expected. Sales are only moderate, while the quantity of stock offered by the mills is increasing, and at some points prices are said to be a little easier. Plain sawed oak is now in more urgent request than quartered sawed stock. Birch is in steady request for interior finish. There is a better tone to lath and shingles. The former are now selling readily at Duluth at $2.60 for No.1, and $2.10 for No. 2. At Boston lath are selling at $3.10 for 1½ inch, and $3.25 for 1⅝ inch.

GREAT BRITAIN.

Any change in the British lumber market seems to havebeen in the direction of an improvement. The opinion is gaining ground that the bottom has been touched in the matter of price, and dealers are showing more disposition to purchase stock for contracts entered into some time ago. They recognize that a costly mistake may be made by neglecting to purchase the necessary supplies at the present low figures. The comsumption of lumber also is more active, building operations in the London district and suburbs being on quite a liberal scale. The Timber News reports the purchase of a quantity of first quality broad pine deals at between £34 and £35 per standard c. i. f. London, and some 11 inch at $31, all wintered deals, also a quantity of this seasons's production at practically the same figures. The second and third qualitiee are moving very slowly. Pine shorts and ends are in light stock, and there is but a small supply of 3 x 7-10 inch in the first and second qualities. There has been some contracting of late for spruce deals, but a number of the largest dealers have not yet arranged for their requirements. Prices are about £8 15s per standard for best quality Quebec spruce.

STOCKS AND PRICES.

The contract for the supply of lumber for the city of Winnipeg has been awarded to D. E. Sprague.

Up to the close of last week 74,700 saw logs had this season been delivered at the mouth of the Gatineau river.

The city of Victoria, B. C., recently received tenders for supply of paving blocks, the quotations being $19.75 and $16.66 per thousand for two sizes.

Morris S. M. Long, wholesale lumber dealer, Hamilton, Ont., is supplying the hemlock lumber for a large foundry being erected in Port Colborne.

The first cargo of cedar shingles cut by Alexander Gibson, Marysville, N. B., this season reached St. John last week. The cut of this mill is handled exclusively by J. Willard Smith, of St. John.

The Moulthrop Lumber Company, John's Island, Ont., will cut about 20,000,000 feet of lumber this season, in addition to 5,000,000 feet which will be cut at Thessalon. A portion of this has been sold.

The Temiskaming & Northern Ontario Railway Commission are asking for tenders up to June 17th for the delivery of 75,000 ties at points on the Temiskaming & Northern Ontario railway approved of by the chief engineer. Tenders are to be addressed to P. E. Ryan, secretary-treasurer, Toronto.

Under date of May 21st, Messrs. S. P. Musson, Son & Company refer to the Barbadoes market as follows: "Arrivals during the fortnight have been the Coronia from Shelburne, N. S., with 64,000 feet white pine, 17,000 feet hemlock, and 4,000 feet spruce, and the Catherine from Meteghan with 230,000 feet spruce The cargo of the latter has been sold locally at $20.60 for merchantable and $17 for second quality. Stocks of white pine have been greatly reduced, and we value next arrival at $26 for shippers and $21 for second quality. The Ocamo, on 12th inst., brought 74,000 Gaspe shingles, and the market for these being extremely bare, they were sold at $7.31 per thousand. Should no large arrivals take place, these prices would probably be maintained, but as soon as any appreciable quantity is available, we are sure that values will decline to about $6. Dimension are also much wanted and would realize excellent prices. Cedar Laying are not in any great demand, and we only value these from $2.15 to $2.20 according to quality."

CANADIAN LUMBER SHIPMENTS.

From Halifax, N. S.: Steamer Florence, for London, 225,072 ft. hemlock deals, value $1,896; 291 pieces hardwood sleepers, value $63.

From St. John, N.B.: Steamer Kronborg, for Brow Head, 2,603,920 ft. deals, 187,254 ft. scantling, 152,055 ft. ends, 214,497 ft. boards. Schooner Seabird, for Loubet, 170,000 shingles, 383,663 ft. deals and scantling, 20,131 ft. pine boards. Schooner Georgia E., for Boston, 12,222 ft. plank, 9,738 ft. scantling. Schooner Walter Miller, for City Island, 164,414 ft. deals. Steamer Dora, for Glasgow and Ayr, 1,756,606 ft. deals, 29, 906 ft. scantling, 34,945 ft. ends. Schooner Frank

L. Tucker for W. M. Mackay. Steamer Ovidia, for Manchester, 2,736,994 ft. deals and boards, value $32,843; 176,373 ft. scantling, value $1,763; 50,008 ft. ends, value $400, by N. C. Nordly for George McKean.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares, &c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

THE OTTAWA VALLEY.

(Correspondence of the CANADA LUMBERMAN)

OTTAWA, June 2, 1904.—The future of the lumber trade as far as the Ottawa district is concerned is problematic. True, prices are firm with no likelihood of receding, but just at present business is slow. Some of the firms admit this, and the railways corroborate their statements. Discussing the situation, a railway official said to-day, "The Canadians seem to be losing their grip on the New England market. We are shipping very little into that quarter. The southern woods seem to have driven the Canadian pine out. Our spruce alone seems to be holding its own in the New England market."

Prices in Ottawa show no change from the figures of the past few weeks. All is activity about the mills, at which there seems to be a plentitude of logs. The river is literally floored with last season's stock, of which there will be sufficient to keep the saws going until the new drives come down. The high water in the river interfered with shipping at the Hull docks, delayed the commencement of operations at the Edwards mill at Rockland, and also caused a suspension of operations at the Perley mill at Calumet.

According to some official reports the cut of square timber in the Georgian Bay, Ottawa, and Nipissing districts last winter was considerably in excess of that of previous years. In all about 2,500,000 feet of square timber was cut, as against 2,000,000 feet the season previous. While several firms, including Shepard & Morse, Rideau Lumber Company and the late Robert Hurdman, dropped out of this branch of the business last winter, other firms took it up, cutting principally in the Georgian Bay and Nipissing districts, and partly on the territory that was sold by the Ontario Government last December.

NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN.)

ST. JOHN, N. B., June 2nd, 1904.---The market for short lumber is just at present somewhat depressed. The late slump in the price of laths has not been recovered, and it is altogether probable that there will be no change until the large arrivals of the past month have been worked off the Boston and New York markets.

Laths of all kinds, and especially American, are scarce in this vicinity, the wharves being practically bare. A few manufacturers had sold out their season's cut before the drop came.

Taking it altogether, there will not be as many laths manufactured in these parts by 25 per cent. as was the case last year, as the mills are six weeks late in starting and most of the logs are smaller than usual, which latter will cause a scarcity of lath wood. At present there is not more than one million laths available in this county, and these are divided among several mills. These could probably be bought at from $1.90 to $2.00 per M., f.o.b. St. John, for American, and from $1.65 to $1.75 for Provincial.

Shingles: No spruce shingles are at present available. There may be a few later in the season, but the amount will not be important. The demand for the higher grades of cedar shingles is moderately brisk in the U.S. market. Clears are especially in demand, and the manufacturers here are having some difficulty in filling orders for this quality. Extras, too, are easily disposed of, but as there are more of these manufactured than there are of Clears, the stocks increase more rapidly. The call for lower grades is not at all brisk, but this is to be expected, as it has been the case for several years past. Most of these lower grades are disposed of locally at a good figure.

American shingles will be scarcer here than for many years, as in the vicinity of 75 per cent. of the cedar about to be sawn was cut in Quebec and New Brunswick.

There is practically no change in prices, and those mentioned last month will still apply. In regard to the future the manufacturers are not looking for any change of importance. The feeling seems to be that shingles will not be any lower, but, this being a presidential election year, no great stimulation of trade can be looked for.

Clapboards: There are no clapboards to be bought in this vicinity at present. The outlook is that they will be very scarce, and the price will, if there be a change, be higher.

A market that is attracting considerable attention from the manufacturers here just now is that for refuse lumber in the Eastern States, particularly in Boston and vicinity. The demand has steadily increased during the last few seasons, and has been briskly resumed this year. Formerly the lumbermen were glad to get rid of their refuse at any price, but, owing to the demand spoken off, it has steadily increased in value, and it is to-day so scarce that it is difficult to buy even a small lot. American refuse deals can be easily disposed of at $5.00 per M. f.o.b. St. John, and scantling and boards at $6.00 per M.

Send for Price List

Large quantity of thick Birch and Maple at close prices

THE SEAMAN KENT CO., Limited

160 Bay St., Toronto Factory, Meaford, Ont.

....FOR SALE....

We are in a position to make attractive prices on the following stock, which will be ready for shipment.

Hard Maple Common and Better,	400,000 ft.,	after 1st July
Birch Log Run, 1", ...	850,000 ft.,	" 1st October
" 1¼", 1½", 3" & 2" Com. & Bet.	1,200,000 ft.,	" "
Basswood Log Run, 1" and 2"....	400,000 ft.,	" 1st August
Plain Red Oak, 1", ...	200,000 ft.,	immediately
2 x 10" and up 1 face clear, ...	30,000 ft.,	
3 x 10" and up plain White Oak,..	30,000 ft.,	immediately
Or White Oak 1" to 1½", ...	80,000 ft.,	"
Or Red Oak 1" to 1½"	60,000 ft.,	"
Hemlock.....	8,000,000 ft.,	after 1st Aug. or sooner
Spruce	400,000 ft.,	" " "

Also Yellow Pine Finish and Timber.

ROBERT STEWART LIMITED, GUELPH,

Sole Canadian Representative for The Southern Cypress Lumber Selling Co.,

New Orleans, La.

This fact accounts for the increase in the cut. The amount credited to the different firms is as follows:

J. R. Booth	400,000	feet
Klock Company	125,000	"
Edward Moore	200.000	"
Fraser Company	125,000	"
Millar & McCool	400,000	"
Ferguson & McFadden	400,000	"
McArthur Bros	75,000	"
Mason & Gordon	75,000	"
Graham & Ferguson	80,000	"
George Gordon Company	175,000	"
Booth & Shannon	40,000	"

There are several smaller concerns not in the above list that go to make up the balance. While the above figures may not be absolutely correct, they are generally accepted as being fairly accurate.

Mr. H. K. Egan, of the Hawkesbury Lumber Company, has just returned from a trip over the limits in the Temiskaming country which his firm purchased from the Ontario government at the December sale. Mr. Egan states that he is thoroughly well pleased with the quantity and quality of pine on his firm's new property. It is drained by the Jocko river.

Mr. Wm. Mackie, M.P., also returned from a similar trip. While he declined to speak at length Mr. Mackie admitted that he was satisfied with "the goods."

The Ontario Lumber Company has purchased and is running the Malloch saw mill at Sandy Hook on the Ottawa.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA, AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS.

VOL. XI. TORONTO AND MONTREAL, JUNE 15, 1904 No. 20

CANADA LUMBERMAN

PUBLISHED BY

The C. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p. m. on Tuesday to insure insertion in the current week's issue

TERMS.—Twenty-five p. c. on acceptance of tender, balance in cash as material is removed from the premises.

The highest or any tender not necessarily accepted.

GILMOUR & HUGHSON, Limited,
HULL, QUE

CURRENT TRADE CONDITIONS.

ONTARIO.

We must confess to some disappointment with the volume of the lumber demand. Up to the present time the activity which was predicted a month or six weeks ago has not materialized, and midsummer is not usually the time when there is an expansion in business. While the consumption of lumber is moderately active, there is a pronounced disposition on the part of buyers to pursue a conservative policy. Two gentlemen with whom the writer conversed expressed similar views, namely, that they porposed reducing their stocks and would purchase only for requirements. With this attitude so well defined, it is unreasonable to expect much

improvement in trade. If commercial conditions in the United States should show signs of improving, however, it would no doubt give an impetus to the lumber market.

Dry stocks of white pine are nearly exhausted, but the buying of the new cut has not been nearly so vigorous as one year ago, when dealers showed eagerness to acquire stocks. Holders are not receiving many offers for their stocks, and it is not uncommon to meet a person who is of the opinion that the tendency of white pine prices for the next three months will be downward. With this view we are not fully in accord, although we anticipate that there may be some pressure on certain grades. The demand for box material is not as urgent as in the early spring. Some weakness has been displayed by red pine, and it is feared that manufacturers who are compelled to realize this spring will sustain a loss, as the cost of production was heavy.

The hardwood market is about steady. Birch is moderately active at firm prices and thick maple is wanted. Lath are showing more life as the result of building operations.

QUEBEC AND NEW BRUNSWICK.

There has been no material improvement in the spruce lumber market since last writing. Shipments to the United States are more active than last month and considerable exports from Montreal to Great Britain have been made since the opening of navigation. Prices, however, are very low when compared with the cost of production, and under present conditions it is very difficult to effect sales which will show a profit. The South American demand is in a very healthy condition and several Nova Scotian manufacturers have sold a large quantity of lumber for that market. Many of the mills in the province of Quebec have not yet resumed operations, owing to the non-arrival of logs. The water in the St. Maurice river is so high, and the strength of the current so great, that it was considered advisable to hold the logs in the tributaries until there is less danger of the booms being broken away. The sawing season, therefore, will be short, which will have a strengthening effect upon lumber prices.

UNITED STATES.

The white pine trade are awaiting with considerable interest the result of the meeting of the price list committee of the Mississippi Valley Lumbermens' Association to be held this week, as statistics will probably be given out showing the quantity of dry lumber on hand and a forecast made of the probable production. The opinion seems to be gaining ground that the lumber market is weaker. There is no doubt that the manufacturers of southern pine are putting forth greater efforts to secure orders and that there is some accumulation of stock at mills. This statement will apply in a lesser degree to white pine. There is an entire absence of speculative demand, orders being confined exclusively to actual requirements. In the Saginaw Valley Nos. 3 and 4 common lumber are scarce and firm, but other grades are slow. There is still a heavy call for box lumber. The arrivals at Tonawanda in the first five days of this month amounted to 16,685,000 feet, or 5,000,000 feet more than was received in the corresponding days last year. This supply was very acceptable, for pine dealers have found difficulty in filling order owing to the depleted condition of their yards.

Norway pine is meeting with keen competition from yellow pine and hemlock, and in the matter of price the advantage is with the buyer.

The demand for hardwoods is by no means urgent; in fact, it is rather disappointing. Furniture factories are curtailing their output, which is in turn reducing the amount of lumber required for that purpose. Birch is probably the best seller among the northern hardwoods. Thick maple is wanted at Buffalo, and there is a fair demand for elm, which is in light demand.

GREAT BRITIAN.

Buyers of lumber in Great Britian are willing to admit that conditions do not warrant much lower prices. The market has been declining for about a year and prices now asked for lumber look cheap as compared with those ruling in the summer of 1903. It is claimed that last year's prices were in some instances artificial and did not represent the actual value of the lumber, and that for this reason the high prices are not likely to be duplicated in the near future. This, it is quite evident, is the view held by many consumers who expect to be able to purchase their requirements around the prevailing prices. There has been considerable buying at the recent public sales, as dealers have learned that it is possible to obtain bargains. The buying, however, is often at the expense of private business. The better grades of pine deals are held in strong hands, and although sales are difficult, prices are not likely to weaken very much. This cannot be said of spruce, which is offered freely at lower prices. The arrivals at Liverpool during the month of May were 4,840 standards from New Brunswick and Nova Scotia, against 2,840 standards in the corresponding month of 1903. Second Quebec deals are said to be quoted at £9 5s., and thirds at £8 15s. per standard c.i.f. London, which represents a decline of about 10s. as compared with one month ago. At a recent public sale third quality deals brought only £9, so that no profit is shown in buying at the figures now asked. Waney pine and elm have hardened slightly in price, but Canadian oak is inclined to heaviness, as, owing to the limited quantity obtainable, the market for it is very narrow.

STOCKS AND PRICES.

The boom at Des Joachims, above Pembroke, burst on June 8th, letting loose about 1,000,000 logs.

A statement of the exports from St. John, N.B., during the past winter port season shows that there were exported to the United Kingdom 24,681,677 feet of deals, boards, etc.

The steamer Marselisburg sailed from St. John, N.B., last week, for Brow Head for orders, with 1,430 standards of deals. The Henric Horn sailed from Musquash, N.B., for Garston, with lumber.

E. B. Lloyd, Crown Timber Agent, New Liskeard, Ont., writes that lumbering operations are being carried on successfully in that district. The drives are all out, no logs being hung up. He estimates that the timber taken out by the settlers the past winter will be worth $200,000. It is chiefly spruce, pine, cedar and tamarac.

BROOM HANDLES.

If an enterprising man with supplies of cheap Spruce, Basswood or Poplar care to put in several machines to work broom handles we can take his output. Write in first instance to Empire, care of CANADA LUMBERMAN.

BRITISH COLUMBIA LETTER.

(Correspondence of the CANADA LUMBERMAN.)

VANCOUVER, B.C., June 6, 1904.—Every mill man is anxiously awaiting the announcement of the government in regard to the matter of duty placed before it last Saturday by the deputation at Ottawa. Those who appeared before Sir Wilfred Laurier and the members of his cabinet present were: Their Worships Mayor McGuigan, of Vancouver, and Mayor Keary, of New Westminster; J. G. Scott, manager of the Pacific Coast Lumber Company, Vancouver; John Hendry, president of the B.C. Mills, Timber and Trading Company, Vancouver and New Westminster; and W. C. Wells, formerly Chief Commissioner of Lands and Works, and who owns large mills at Palliser.

With the Hastings mill closed down, the Chemainus mill contemplating, and others with the step in view, the depression is beginning to be felt. Prices have not been as firm as the manufacturer would wish, owing to the attempt to secure what business there has been in the Territories, which has been cut up by reduced imported lumber.

Loggers, too, are contemplating a close-down of their camps. A meeting has been called of all those operating along the coast for the 16th of the present month to consider this step. Camps have shut down in Washington state, though local loggers are shipping some logs across the line. Besides, nearly all the big mills in Vancouver operate their own camps, which makes a difference to those engaged in supplying. The millmen have warned the loggers that unless a material

ROBERT STEWART LIMITED, GUELPH,

Sole Canadian Representative for The Southern Cypress Lumber Selling Co.,

New Orleans, La.

betterment of conditions takes place it would be better for them to discontinue operations for a while.

Ontario men are coming to the front in lumbering enterprises in British Columbia, and investing heavily. Last week William Irwin and Alex. Hamilton were in town from Peterboro. Mr. Irwin is a large stockholder in the Pacific Coast Lumber Company, of this city, which is, in fact, composed mostly of Ontario capital, and also in the Kamloops Sawmill Company. This latter company is composed of about the same people as the Okanagan Lumber Company, and the two concerns practically control the trade in the near interior. These are the companies in which George McCormick, M.P., is interested, and it is stated he is about to move his family westward. W. R. Beatty, who formerly represented Parry Sound, is manager of the new mill of the Arrowhead Lumber Company at Arrowhead, and is also one of the directors of the Okanagan Lumber Company. Peter Ryan, of Toronto, is another one with investments in this province.

Other eastern men coming west are those from Minnesota and Wisconsin. Mr. Merrill, of the latter state, has large holdings of choice timber, and Otis Staples, of Stillwater, is now building a mill at Cranbrook, the centre of a very prosperous district. J. P. McGoldrick and associates, of Minneapolis, have in contemplation a large mill at Nelson.

CANADA LUMBERMAN

WEEKLY EDITION

The Lumberman Monthly Edition, 36 pages } $1.00 PER YEAR { The Lumberman Weekly Edition, every Wednesday

THIS PAPER REACHES REGULARLY THE PRINCIPAL LUMBER MANUFACTURERS AND DEALERS THROUGHOUT CANADA AND WHOLESALE BUYERS IN GREAT BRITAIN, THE UNITED STATES, AND OTHER FOREIGN MARKETS

VOL. XI. TORONTO, MONTREAL AND WINNIPEG, JUNE 22, 1904 No. 21

CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'y of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Offices:

IMPERIAL BUILDING MONTREAL.

310 McINTYRE BLOCK, WINNIPEG.

21 GREAT ST. HELEN'S, LONDON, E. C.

The Weekly Lumberman — Published every Wednesday, contains reliable and up-to-date reports of market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

The Monthly Lumberman— A 32-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, character sketches and portraits of leading lumbermen, etc. Its special articles on technical and mechanical subjects are especially valuable.

TIMBER BERTHS

General Store and Saw Mill. Capacity 25 M (in running order). Terms liberal. Apply

PETER RYAN,
Toronto.

CURRENT TRADE CONDITIONS.

ONTARIO.

The shipment of lumber by both rail and vessel is quite active, but orders for future delivery are not being placed with as much freedom as earlier in the season. It cannot be that retail dealers have replenished their stocks to any extent, as the consumption during the past two months at least must have absorbed as much lumber as was purchased. It is probable that, in anticipation of a quiet summer, dealers are postponing the buying of stock until the early fall, feeling reasonably certain that there will be no important advance in prices. There is a rather easy tone to the common and upper grades of white pine, while box and other low grade stock continue firm. In Toronto a considerable quantity of finishing and flooring lumber is being sold, as many of the buildings commenced in the early spring are reaching a finished condition. Some hardwood manufacturers are showing a little anxiety to move stocks, while others, and the majority, are exhibiting a feeling of confidence and refusing to make concessions to buyers. Mill run soft elm is held at the mill at $23 to $24, with bass-

wood about $1 higher. Birch, which is a good seller, is worth from $21 to $22.

QUEBEC AND NEW BRUNSWICK.

Square timber is said to be showing some weakness, although we have been unable to learn of any sales at prices much below those we are quoting. Owing to the high cost of production, buyers who are unable to obtain a fair price will hold their timber until next year. There is a fairly active demand for waney timber. The spruce lumber market shows no signs of recovery. Some of the manufacturers are considering the advisability of storing their logs until the price improves, as the present selling figures will not cover the cost of production. Spruce clapboards have held up remarkably well; 4-foot boards are bringing $42 to $43 for Boston delivery, while the 6-foot boards are quoted at $56, the latter being a decline of about $4 as compared with the closing figures of last season. Shingle prices are a trifle easier, Extras for Boston delivery selling at $3.30 to $3.35; Clears, $2.80 to $2.85; and Second Clears, 2.25 to $2.35. Stocks at the mills, however, are light, and it will only require a moderate increase in demand to get back to the $3.50 basis for extras.

MANITOBA AND BRITISH COLUMBIA.

Lumber manufacturers have no complaint to make in respect to the volume of consumption throughout the North-West. Building operations are absorbing a very large quantity of lumber. The permits issued this year in the city of Winnipeg represent a valuation of nearly $4,000,000,and in Vancouver there have been over 450 houses erected since the first of the year. So much American lumber is being dumped on the Canadian market, however, that the benefit of this activity is lost to the Canadian manufacturer. The outlook in British Columbia is quite gloomy, the president of the British Columbia Loggers' Association having announced that all logging camps in the province would soon be shut down indefinitely, which means that several thousand men will be thrown out of employment.

UNITED STATES.

The lumber market of the United States is about stationary and seems, in a measure, to be waiting on the outcome of the crops, which at the present time give promise of an abundant yield. All box grades of pine are in good demand and dry stocks are running low. Some of the eastern markets report an increased demand, while from other districts a falling off in sales is announced. The lower grades are showing more strength and activity than the higher grades. The action of the price list committee of the Mississippi Valley Lumbermen's Association has created a stronger feeling of confidence in the situation. After thoroughly considering conditions, it was considered unwise to make material changes in the price list, but several advances were decided upon, including the following: 12-inch No. 1 boards and products, 13 in. and wider, $2; 12-inch No. 1 boards, 10, 14 and 16 feet, 50 cents; 12 feet, $1.50; 18 and 20 feet, $1; 10-inch No. 1 boards, 10 feet, 50 cents; 12 to 20 feet, $1.50; 8-inch No. 1 boards, 12 and 14 feet, 50 cents; 6-inch No. 1 facing, 6 feet, $1; 12 to 20 feet, 50 cents. Norway siding and flooring were reduced by from 50 cents to $2, and 8, 10 and 12 inch D select, $2.

There is not a heavy movement of hardwoods, and the demand is largely for firsts and seconds and culls, leaving common somewhat neglected. Plain sawed oak is firm and in good demand. Dry birch stocks are about cleared out, giving a firmness to that lumber.

GREAT BRITIAN.

The imports of sawn lumber into the United Kingdom during the first five months of this year were 1,031,137 loads, as against 1,177,266 loads for the corresponding period of 1903. As the stocks held at the leading ports are lighter than at the close of last year, it would seem that the consumption has been greater than the import. This is not likely to continue throughout the summer months, as receipts will be more liberal. There has been little change for the better in the lumber situation. Many buyers would like to contract for their supplies, but they fear that after they have placed their orders shippers might make a further cut in prices in order to precipitate sales. This is hardly expected, but there is sufficient doubt regarding the matter to induce a continuance of the non-committal policy. The price of white pine deals is still so high as to restrict the consumption, while spruce deals have so many competitors that the buyer can always obtain his requirements from one source if not from another. The demand for square pine is slow, while waney is a little more active.

STOCKS AND PRICES.

The barque Katie F. Troop is loading lumber at Musquash, N. B., for Beunos Ayres.

Pine lumber for the town of Toronto Junction, Ont., will be supplied by A. H. Clemmer, and cedar by W. P. Hartney.

The Dominion Government is asking for tenders up to July 8th for the construction of deep water wharves at Dalhousie and Campbellton, N. B.

Spruce lath by car are quoted at Boston at $3.15 to $3.25 for 1½ in., and $3.25 to $3.35 for 1⅝ in., with the cargo price on standard 1½ inch running from $3 to $3.05.

The first raft descending the Ottawa river from above Bryson, Que., passed over the Calumet slides on June 14th. It belonged to Fraser & Company and was taken out on the Deep River.

It is rumoured that Thomas Mackie, M. P., of Pembroke, Ont., has sold the timber limits in the upper Ottawa district which he purchased at the Ontario Government sale in December last, making a considerable profit.

The unmarked logs in the Restigouche boom were sold at auction at Campbellton, N. B., last week, the merchantable spruce and pine bringing $8.02, battens $6.25, and cedar $6.00. The Wm. Richards Company were the purchasers.

TO HOLDERS OF BIRCH LIMITS.

Can you cut birch into Squares, &c. We can also take birch cut on the sweep with a jigger or small band saw. Large quantities required. Write in first instance to "Finance," c/o CANADA LUMBERMAN.

NEW BRUNSWICK LETTER.

(Correspondence of the CANADA LUMBERMAN.)

St. John, N. B., June 15th, 1904.—The outlook for Canadian lumber in the United Kingdom is not as encouraging as was the case at this time last month. Dealers are not showing any anxiety to buy or make contracts and there is an increasing eagerness to sell on the part of the manufacturers here and in all parts of the province. Those who have contracts to fill that were left over from last year are filling them now, and such lots as these comprise the greater part of the shipments of the last two months.

But in spite of these facts the manufacturers in this section are not at all discouraged. The opening of the season found their wharves entirely bare and they are practically only beginning to saw. They feel confident that the present depression is merely a reaction from the stimulus of trade last year and that, when some of the surplus has been worked off the markets in the U. K., a sharp recovery will take place. If, however, this view of the situation is not borne out, and the market should become still weaker, it is almost certain that they will close down iheir plants and cease operations entirely, as it will unquestionably be better policy for them to hold their logs until next year than to manufacture at a loss. If this should happen it will mean that there will be practically no logging done in this section of the country next winter.

The impression seems to have got abroad that the stocks of logs in the St. John river were obtained at a low figure. This is not the case. The contracts under which most of these logs were got out

J. D. SHIER LUMBER CO., LIMITED,
BRACEBRIDGE, ONT.

were made in the early fall of 1903, when prospects were very bright and trade very brisk. Consequently these logs cost a substantial figure, in many cases higher than those contracted for in 1902 and sawn in 1903. It is because of these facts I have said that, if the price of lumber recedes any further, the manufacturers on the St. John will be compelled to shut down the mills or to manufacture at a loss. As, however, any further decline is improbable, it is unreasonable to suppose that any such contingency will arise.

It is hard to make any statement in regard to prices; the market is too unsettled. A specification of spruce deals with the ordinary percentage of 7's, 8's, 9's and 11's, should bring in the vicinity of $12 per M. f.o.b. St. John.

The stream-drivers on the St. John river report satistactory progress. The rains of the past fortnight have caused a rise of water at the head of the river and the drives are being rushed into safe water with the greatest despatch possible. The large drives are practically all out of the brooks and branches into the main St. John. This does not mean that they are sure to come out, for in the event of an extremely dry spell they are apt to hang up in the main river. Several millions were caught in this way last year.

Three millions belonging to Charles Miller are now caught on the St. Francis and five or six millions belonging to Randolph & Baker will also have to be left until next year. This is not considered a large hang-up considering the amount that will in all probability come out, and the gentlemen who own them will not be seriously inconvenienced.

As far as is known at present writing no quantity of any importance beyond the two lots mentioned was left.

The lumber shipments from St. John to trans-Atlantic ports thus far this year have been considerably smaller than for the like period last year. Up to the 31st of May they were about 9,000,000 superficial feet less, and the difference has been increased rather than otherwise during June. Dull markets are of course the explanation of the reduced export.

The following are the total lumber shipments from St. John to trans-Atlantic ports from Jan. 1st to May 31st of this year, with comparison for the like period in 1903 (from Jan. 1st to May 31st):

1904.

	Spruce.	Birch.	Birch Timber
W. M. Mackay	23,910,760	1,585,725	2,317
Geo. McKean.	11,517,710	198,142	....
Other shippers.	9,674,012	199,660	....
	45,112,482	1,983,527	2,317

1903.

	Spruce.	Birch.	Birch Timber
W. M. Mackay	34,618,787	2,523,734	2,806
Alex. Gibson Co., Limited	4,518,450	....	315
Geo. McKean.	11,068,743	82,076	17
Other shippers	3,824,397	189,956	126
	54,030,377	2,795,766	3,264

Only two tons of pine timber went forward this year, and only three in the like period last year.

Of the total shipments all went to ports in Great Britain except 1,657,775 feet of spruce to the Continent in the 1903 period, and 3,464,981 feet to Australia in the period to May 31st of this year.
